

In February, we discussed the recovery of the "Ice House" cover. This item was stolen almost forty years ago and turned up at a Chicago area stamp store last month.

The cover is now under the FBI's 'protective custody' in Indianapolis (where it was stolen from the Baker collection) until a new owner can be determined.

The cover is special, in that all transfer points are noted/stamped from its origin in Boston MA to Calcutta India in 1873. When stolen, it was insured for \$1000.00. We'll have to see how the insurance lawyers make out as the custody battle moves over the next few years.

It was during the open discussion that Bill Shultz pointed out the need for safeguarding ones collection. This can be by protecting in say a bank safety deposit box or some other 'safe' spot. The need for insurance was also highlighted. The cost of which is not to prohibitive.

The open discussion had both members and guest describing thefts that happened to them and others.

This month we will be reviewing the Postal Service's offerings of 2005 and voting on what we liked (and what could easily be forgotten). See the last two pages for B/W illustrations of the USPS 2005 Stamp Program. This year should be even more exciting with the rate change generating a whole slew of definitives ... and as usual, bring anything for show/tell and swap.

April might find us in Egypt and Israel

DC Comics Superheroes -- July 2006

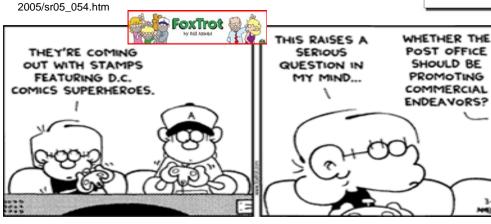

This is the first stamp pane (20 stamps) honoring comic book super heroes to be issued by the Postal Service.

Half of the stamps on the DC Comics Super Heroes pane show portraits of characters; the others show covers of individual comic books devoted to their exploits. Beginning with the classic covers, a separate paragraph below briefly comments on each stamp.

Ever since Superman was introduced to readers in 1938, super heroes have been nearly synonymous with the comic book medium. Their fantastic adventures provide an escape from the everyday while simultaneously encouraging readers to feel that individuals can make a difference.

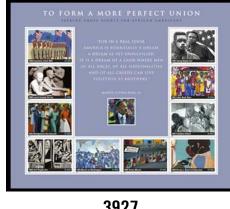

Comic books aren't simply "kid stuff" - adults have always been among their readers, and the form has attracted its share of serious artists and writers. And super heroes have responded to social and political issues from the start, fighting corporate greed and political corruption during the Depression, for example, and then becoming patriotic defenders of national interests during World War II. -- From: http://www.usps.com/communications/news/stamps/
