Last month we discussed and voted to roll the checking account into the savings account to avoid the service charges instituted by North Shore Bank. A motion to fund cookies for meetings was voted down.

The APS slide shown on **"Errors, Varieties and Oddities on US Stamps"** was interesting and indicates what can be discovered if one has a lot of time on their hands. This month, we'll view another slide show (65C) **"The Division of the Union"**, about the Civil War and the changes to the postal system(s).

Treasures' Report: Checking - \$1,654.67; Savings - \$ 1,543.79; Total - \$ 3,198.46

United Nations Stamps: United Nations stamps are issued simultaneously at UN offices in New York, Geneva and Vienna. Each issue carries a related design theme (World Heritage/Nordic Countries of six - two shown) with different denominations for each office. The stamps are available from UNPA offices in person or by mail, and from stamp dealers. They are valid for postage when used on mail from the UN offices in New York, Geneva and Vienna.

Under its guidelines, the United Nations Postal Administration is confined to selling mint stamps and postal stationery. Usually six new commemorative issues are released each year and remain on sale for 12 months only. After that date, any remaining stocks are destroyed. Commemorative stamps are so named because they commemorate a certain theme. Definitive stamps (one shown - bottom stamp) have an indefinite sale period and carry denominations necessary for general postal needs.

UN stamps are sold locally at the two large stamp shows (COMPEX - June and CHICAGOPEX - November).
