New Postal Rates and Fees Effective January 1, 1995

DOMESTIC RATES AND FEES

The Governors of the Postal Service have acted on recommendations from the Postal Rate Commission to change domestic rates and fees for various classes and services. The Board of Governors has directed that these changes be implemented at 12:01 a.m. on Sunday, January 1, 1995.

This special *Postal Bulletin* contains these new domestic postal rates and fees, along with copies of the revised mailing statements. Changes in this *Bulletin* revising the *Domestic Mail Manual* (DMM) will be incorporated into DMM Issue 48, effective January 1, 1995.

DISTRIBUTIONS

This *Bulletin* will receive standard distribution with additional bulk shipments to area and district offices for distribution to post offices and customers, based on quantities previously requested from Mailing Standards. An automatic distribution will be made of the revised mailing statements reproduced in this *Bulletin* (see "Distribution and Requisition" on page 3). A future *Bulletin* will announce when Notice 123, *Ratefold* (see page 5), will be available at the material distribution centers (MDCs).

INTERNATIONAL RATES AND FEES

Certain international special services fees and other charges published in this *Bulletin* are being increased at 12:01 a.m. on Sunday, January 1, 1995. All other international rates and fees remain unchanged.

Format

There are several format changes to the mailing statement forms, including: (1) the permit imprint forms (N and R suffix) now include a space for the Centralized Trust Account System (CTAS) identification number, changing the header information on the Forms 3541; (2) the postage-affixed forms (PC suffix) now require mailers to show correct (full) postage in the entries on the reverse of the form and to enter the actual postage amount applied to pieces and any net due on the front.

Distribution and Requisition

There will be a limited automatic distribution of the mailing statements to CAG A through G offices and to the managers of business mail entry. Stocks of mailing statements are expected to be available at the MDCs by mid-January. While supply channels are being stocked, order only quantities necessary to meet post office needs, using Form 7380, *MDC Supply Requisition*. If the automatic distribution does not arrive by the date of rate implementation, copy the appropriate mailing statement in this *Bulletin*. Current versions of the mailing statements may be used for 30 days or until new forms are available *if* the current versions are modified to reflect the new rates.

2 PRECANCELED STAMPS AND ENVELOPES FOR BULK MAILINGS

Precanceled stamp permit holders may have on hand precanceled 5-, 10-, and 23-cent stamps and 11.1- and 19.8-cent precanceled envelopes when the new bulk and presort rates are implemented. Accept these stamps and envelopes indefinitely, provided that the mailer (1) pays the difference in postage between the amount affixed and the new rates before the mailing is accepted and (2) uses the stamps and envelopes for the comparable new rate category (see DMM P023.1).

3 MAILPIECES BEARING OLD RATES; STAMP DISPOSITION

Nonprecanceled Envelopes and Cards

Envelopes or postal cards prepaid at the old rates maybe revalued by affixing enough postage to satisfy the new rates.

Sheet Postal Cards

If a mailer has purchased large quantities of sheet postal cards for printing in advance of mailing, the mailer may be authorized to print this endorsement on the cards: "Additional 1-cent postage paid — (City, State, ZIP Code)." Cards bearing this endorsement must be presented to the bulk mail acceptance unit of the post office of mailing so that they can be weighed to confirm the number of cards subject to the additional postage payment of 1 cent per piece. All mailings must be accompanied by Form 3600-PC, in duplicate. The weigher must write or handstamp "From Trust" on the front of the duplicate Form 3600-PC in the "Additional Postage Payment" block. The verification procedures described in Handbook F-1, *Post Office Accounting Procedures*, 524, must be followed. Use AIC 114 (Postage Due Invoices) to account for the revenue collected. This procedure may be used as needed until the correctly rated postal cards are available.

Exchange of Stamps and Stamped Paper

Available quantities of new denomination postage stamps and postal cards are limited. Therefore, postmasters should urge customers to affix additional postage rather than to exchange stamped paper for items at the new denominations. Generally, follow the provisions of DMM P014. Stamps may not be exchanged for cash. All exchanged stock should be destroyed (see below).

Disposition of Stamps

Postmasters must not destroy postage stamps that exceed needs because of the rate increase until so notified in a future *Postal Bulletin*.

4 METER STAMPS AT OLD RATES

Acceptance Period

Meter permit holders may have pieces on hand that bear postage at the old rates. Accept these pieces for mailing for 30 calendar days following the effective date of new rates, provided that the mailer pays the difference in postage between the meter stamps affixed and the applicable new rates and fees (as described below) before the mailing is entered into the mainstream.

Postage Difference — Individual Pieces

The difference in postage maybe paid on individual pieces (single-piece rate, presort rate, or bulk rate) by affixing a meter impression or meter strip in the correct amount.

Postage Difference — Bulk Pieces

The difference in postage for all pieces in a single mailing claimed at a presort or bulk rate may be paid by affixing postage stamps or a meter strip to the accompanying mailing statement in the amount of the total postage difference for all pieces in the mailing, rounded to the full cent. Acceptance personnel must verify the computations on the mailing statement to ensure that the proper additional postage is affixed. If the mailer uses postage stamps on the mailing statement, be sure to cancel the stamps. As an alternative to applying postage, the total difference in postage maybe paid through an advance deposit account and reported on an additional mailing statement as described in Handbook F-1, 524, for 30 calendar days following the effective date of new rates,

Actions by Postmasters Not at Origin Office

Postmasters at offices other than the office of origin who find metered pieces in the mainstream either bearing the old bulk or presort rates or bearing precanceled postage are to assume that the difference in postage was paid at the time of mailing.

5 COLLECTION OF NEW RATES AND FEES

General

The new rates and fees are to be paid when a service is provided or a fee is paid on or after the effective date of the new rates and fees. If payment was made before the effective date, there is no retroactive adjustment for a post office box fee, caller service fee, or any annual bulk or presort mailing fee.

P.O. Box/Caller Service Fees

Notice 32, *Box Rent or Caller Service Fee Due*, placed in customers' boxes before the effective date of the new box fees (see DMM D910.4 and D920.4), must be marked to show the rates payable before that date, as well as the new rates payable on or after the effective date of the new box fees.

Other Postage and Fees

Postage and fees are to be based on the rates and fees in effect when the charges are calculated (i.e., when the pieces are rated at destination) for merchandise return service and business reply mail. Acceptance unit employees are reminded to check Presorted First-Class and carrier route First-Class mailings to determine whether the pieces are of standard size. If the pieces are of a nonstandard size, collect the lower surcharge of 5 cents per piece before accepting the mailing. Charges for ZIP Coding of mailing lists are to be based on the fees in effect when the U.S. Postal Service received the materials for processing.
