Domestic Mail

Overseas Military Mail

Mail addressed to, from, or between military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The table below outlines these conditions by APO/FPO ZIP Codes through the use of footnoted mailing restriction codes, which appear on the page following the table.

Acceptance clerks should use this table with the

integrated retail terminal (IRT) to determine whether an APO/FPO ZIP Code is active and which conditions of mailing apply. For Express Mail Military Service (EMMS) availability, refer to the local hardcopy EMMS directory.

The complete table appears in the last *Postal Bulletin* of each month.

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service employees responsible for accepting and cashing Postal money orders. All interim notices should be destroyed when the numbers listed appear in the *Postal Bulletin*. The actual serial numbers consist of the first 10 digits on the money orders. Check for altered dollar amounts by holding money orders to the light.

The *Postal Bulletin* is available on the World Wide Web on the U.S. Postal Service home page at <http://www.usps.com>. To access a *Postal Bulletin*, go to "Business," then to "Business Publications," and then to "The Postal Bulletin."

The *Postal Bulletin* is also available on the Postal Service IntraNet. Click on "Corporate Information," then "Policies and Procedures," then "Postal Bulletin."

Back issues through *Postal Bulletin* 21883A (1-1-95) are available for downloading, as are the 1995, 1996, and 1997 annual indexes and 1998 quarterly index. Once downloaded, the *Postal Bulletin*, including all forms and posters, may be read and printed.

IMM REVISION

New Global Priority Mail Tyvek™ Envelope

Effective September 28, 1998, Part 226 of the *International Mail Manual* (IMM) is revised to reflect the availability of a flat-size, Tyvek envelope (see page 41) that is intended for use by postal customers who enter Global Priority Mail (GPM) under either the Variable Weight Option Postage — Single Piece Rates (see 226.42) or the Variable Weight Option — Volume Rates (see 226.43). The Tyvek envelope is an alternative to using the DEC-10 sticker, which is supposed to be affixed to the address side of a variable weight GPM mailpiece that is enclosed in the customer's own wrapper or packaging.

Supplies of the new Tyvek envelope (i.e., Item No. EP-15GP), as well as other GPM packaging materials, can be ordered by mail, telephone, fax, or via Shipping Supplies Online, which is accessible through the USPS Internet website. The relevant ordering information is as follows:

Mailing Address:	EXPRESS AND PRIORITY MAIL SUPPLY CENTER UNITED STATES POSTAL SERVICE PO BOX 95001 INDIANAPOLIS IN 46209-9141 (Submit request on PS Form DDD — 8/98 Version)
Fax No:	1-800-270-6233
Internet Website:	http://www.uspsglobal.com
Telephone No:	1-800-222-1811

A future issue of the IMM will incorporate these revisions.

Global Priority Mail variable weight rates are calculated in half pound (or fraction thereof) increments based on the weight of each piece and the destination geographic weight zone up to four pounds. Each GPM mailpiece that is paid for

on that basis must have a variable weight sticker affixed to the address side or be placed in a GPM flat-size, Tyvek envelope. (See Exhibit 226.42.)

Pictorial Cancellations Announcement 98-19

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage (32 cents per envelope or 20 cents per postcard). Items submitted for cancellation may not include postage issued

after the date of the requested cancellation. Such items will be returned unserved.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

After applying the pictorial cancellation, the Postal Service returns the envelope or postcard through the mail. Customers who want their serviced item returned under protected cover should include a larger, stamped, self addressed envelope.

The following pictorial cancellations have been extended for an additional 30 days.

CORRECTION

New Selective Service System Registration Changes Revision

Postal Bulletin 21980 (9-10-98) contained a *Postal Operations Manual* (POM) revision on page 52.

This revision incorrectly stated that certain Selective Service System materials can be ordered from either material distribution center. These materials can only be ordered through the Topeka Material Distribution Center. Issue 9 of the POM will correct this.

The following materials can be ordered at no cost by either using Touch Tone Order Entry (TTOE) at 1-800-332-0317, option 1 then option 2, or mailing or faxing a PS Form 7380, *Supply Requisition*, to:

YEAR TYPE UPDATE

1999 Year Type for Hand Stamp and Canceling Machines

The 1999 year type for hand stamp and canceling machines will be automatically distributed to all postal facilities that received 1998 year types for hand stamps and canceling machines. The material distribution centers (MDCs) mailed a postcard notification on September 24, 1998, to each postal facility that received 1998 year types. If your facility needs a different quantity or a different 1999 year type, make changes on the preaddressed postcard and drop it in the mail. If no changes are needed, do not mail the postcard. Complete instructions are on the postcard.

If your facility needs 1999 year type for hand stamp or canceling machines but has not received a postcard notification by October 15, 1998, contact Materials Customer Service at 1-800-332-0317, option H, no later than October 23, 1998. Please be ready to give the customer service representative the PSIN number for the item needed, the quantity, and the FEDSTRIP number for the ordering facility.

The MDCs will ship the year type no later than December 13, 1998. Allow 10 to 14 days for delivery.

To determine the proper year type for canceling machines, check the model number on the machine nameplate. Use Exhibit 15 in Publication 247, *Supply and Equipment Catalog*, as a guide for ordering the correct type.

SAFETY ALERT

National Fire Prevention Week — October 4–10, 1998

Each October, the nation observes National Fire Prevention Week and this year's observance will be conducted October 4 through 10. Please join in supporting this effort by giving special attention to identifying and correcting conditions that may cause fires. In 1996, almost 5,000 people in the United States died as the result of fires. Over 80 percent of these deaths occurred in the home. Fire-related property damage totaled \$9.46 billion during this same period. These tragedies are grim and unnecessary. Everyone would agree that fire safety is important throughout the year. However, Fire Prevention Week provides us with the added opportunity to identify and correct conditions at work as well as at home that may cause fires and tragic losses.

Every employee can help prevent fires by:

- Knowing where fire extinguishers are located and how to use them.
- Practicing good housekeeping (maintaining a neat and clean work area).
- Obeying smoking regulations.
- Keeping fire doors, exits, stairs, and emergency equipment clear of obstructions.
- Keeping all flammable and combustible materials away from sources of ignition.
- Ensuring that electrical systems are not overloaded.
- Reporting fire hazards.

In addition, employees can protect their families and homes by:

- Never overloading electrical systems.
- Checking fire extinguishers.
- Installing smoke detectors, checking them monthly, and changing batteries at least annually.
- Establishing and practicing a home fire evacuation plan with all family members.
- Posting emergency phone numbers near phone locations.
- Properly disposing of unused flammable or combustible materials.

None of us wants to experience the pain, suffering, and hardship caused by fire. By following a few sensible precautions, we can keep our workplaces and homes safe from the threat of fire.

For more information on fire prevention, contact your safety and health office.

*Through 1990 the F Fund was invested in the Wells Fargo Bond Index Fund.

The C Fund is invested in the Barclays Equity Index Fund, which tracks the S&P 500 stock index. The F Fund is invested in the Barclays U.S. Debt Index Fund, which tracks the Lehman Brothers Aggregate Bond index. Because of expenses and changing balances in the C and F Funds, their returns vary from Barclays' returns. The G Fund is invested in special issues of U.S. Treasury securities.

Future performance of the three funds will vary and may differ significantly from the returns shown above. See the "Summary of the Thrift Savings Plan" for detailed information about the funds and their investment risks.

The monthly C, F, and G Fund returns represent net earnings after deduction of accrued administrative expenses. The C and F Fund returns also reflect the deduction of trading costs and accrued investment management fees.

The C, F, and G Fund monthly returns are dollar-weighted: they reflect net earnings on the changing balances invested during the month. The C, F, and G Fund returns for the last 12 months assume, except for the crediting of earnings, unchanging balances (time-weighting) from month to month and that earnings are compounded on a monthly basis.

School's Open! BE ALERT SO THAT CHILDREN DON'T GET HURT!

School bells have once again summoned millions of sleepy-eyed youngsters to their morning classes. For postal drivers, this means more possibilities of unwary young pedestrians wandering into roadways or darting from between cars or hidden places. This is a true test of anyone's defensive driving skills! A defensive driver recognizes the need for preventive action in advance and takes the necessary precautions to prevent the accident. Defensive drivers anticipate when it will be necessary to slow down, stop, or yield the right-of-way to avoid involvement in an accident. And while drivers should be on guard during the hours children normally travel to and from school, they should be just as cautious at other times as well. In spite of all the school training children receive and in spite of parental instruction and admonition, children will play and run into the street. More dangerous, perhaps, are those who merely play near the street, leaping out suddenly after a ball or chasing a dog.

We are all familiar with the necessity for care at or near schools or playgrounds, but there are several precautions we should include while driving delivery routes through residential areas and elsewhere. Here are some situations that you need to be aware of:

1. Whenever you see a ball rolling in the street, you are likely to see a child following it. Slow down and be prepared to stop quickly.
2. When the ice cream vendor enters a neighborhood, watch for children coming from all directions.
3. Pay attention to the lone child walking along the street. A single youngster is much more likely to be overlooked than several together.
4. Children and others on roller skates, skateboards, or roller blades can roll into the street and require a driver's extreme alertness.
5. Bicyclists, especially young or novice riders, should be watched carefully and provided plenty of room.
6. Never back up to re-deliver a mixed box. Get out of the vehicle and walk back if you can do so safely.
7. Never give mail to children from the vehicle. If children approach the vehicle, get out of the vehicle and ask them to move away. Double check around the entire vehicle before proceeding.

All drivers are being urged to be extra cautious now that school is open. Let's protect our most precious gift — our children!! Drive defensively at all times and remember to take the time to look for children and other pedestrians.

Information on Introduction of New \$20 Bills

On September 24, 1998, the U.S. Treasury Department introduced a redesigned \$20 bill. This currency will have new features that protect against technologies that could be used for counterfeiting. Among these features are a “security thread” that glows green under an ultraviolet light; “color shifting ink” that looks green when viewed straight on but black when viewed at an angle; and “fine-line printing patterns” that are difficult to replicate.

There will be no recall or devaluation of the older series \$20 bills, which will be removed from circulation as they wear out and are replaced by the new bills. This will help ease the transition to the new design.

The vending machines used by the Postal Service do not yet recognize the characteristics of the new \$20 bills, but they will continue to accept the older series \$20 bills and lower denominations, such as the \$10, \$5, and \$1 bills.

The vending machines must be upgraded to accept the new bills. This will be a challenge for all of us. The Postal Service is the largest “owner” of vending machines in the United States. In postal locations throughout the country, we have 12,000 vending machines that are affected by this development. For comparison, no individual transit authority in the country has more than 1,000 vending machines that accept \$20 bills.

We are in the process of purchasing the necessary conversion software and hardware to upgrade the types of machines we use. In the meantime, all Postal Service

employees should be prepared to deal with situations in which the new bills are not accepted by our vending machines.

To help during this transitional period, informational stickers will be supplied for placement on the machines. Information about these stickers and vending machine parts to retrofit the machines will be published in a future notice.

Retrofitting the machines will take some time, and we must let our customers know what to expect. The following points should be made to our customers:

- The Treasury Department has issued a redesigned \$20 bill to deter counterfeiting.
- The new \$20 bill has distinctive characteristics that cannot be recognized by our current vending machines.
- Our vending machines will be retrofitted to recognize these characteristics as soon as possible.
- Our vending machines will still recognize the old series \$20 bills as well as lower denominations, such as the \$10, \$5, and \$1 bills.
- We apologize for the inconvenience.

A copy of the redesigned \$20 bill is shown above.

*CLARIFICATION ON AIC 541***Correction on AIC 541 for Value Added Service Rebates**

Postal Bulletin 21979 (8-27-98) announced several new refund account identification codes (AICs) which went into effect September 12. The article also gave examples of when to use each of the new AICs. The example provided for AIC 541 (Value Added Service Rebates) incorrectly stated that presort bureaus may request refunds for mail originally metered at the single piece rate. The example should have read: "If a presort bureau submits mail at a discounted rate, and the mail had already been metered at a higher discounted rate, AIC 541 should be used to refund the difference to the presort bureau." There is no change in Postal Service policy on requirements for or acceptance of value added mailings.
