ENVIRONMENTAL/PURCHASING POLICY UPDATE

New Environmental/Purchasing Policy for Paper and Paper Products With Recycled Content

Executive Order 13101, "Greening the Government Through Waste Prevention, Recycling, and Federal Acquisition," requires federal agencies to establish preference in their purchasing programs for environmentally preferable products and services. Although this Executive Order does not apply to the Postal Service, we have, in accordance with our environmental protection policy and guiding principles, voluntarily adopted portions of this Executive Order as postal policy.

The Postal Service is committed to being a good environmental neighbor in each of the 40,000 communities served from coast-to-coast. Our goal is to meet or exceed all applicable environmental laws and regulations in a cost-effective manner. We are incorporating environmental considerations into our business planning processes. We ask every postal employee to take ownership and responsibility for our environmental initiatives.

Therefore, in line with the minimum content standard of Executive Order 13101, purchases of paper and paper products must meet or exceed the minimum of 30 percent post-consumer materials for high-speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, cardboard, white wove envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock. Exceptions to purchasing a minimum of 30 percent post-consumer materials are if:

1. They are not reasonably available.
2. They do not meet appropriate performance standards.
3. They are available only at unreasonable prices.

If paper and paper products containing 30 percent post-consumer materials are not available, then paper containing 20 percent or the next highest percentage of post-consumer materials should be used.

The General Services Administration (GSA), as well as a number of commercial sources, are capable of supplying paper and paper products that meet these specifications.

Requirements organizations should:

1. Review existing contracts, statements of work, specifications, drawings, data lists, etc., to eliminate virgin material requirements.
2. Specify the use of recovered materials.
3. Use life cycle costing methods where feasible.
4. Specify for the purchase of environmentally preferable materials and products.

The White House Council on Environment Quality (CEQ) indicates that compliance with Executive Order 13101 will not only save trees but also significantly reduce energy use and air pollution. The CEQ estimates that compliance will save as many as a half million trees annually and will also reduce greenhouse gas emissions by 10 percent, energy use by 12 percent, air pollution by 14 percent, solid waste by 14 percent, and wastewater discharges by 28 million gallons a year.

To achieve solid waste reduction savings that would more than offset any additional costs of purchasing recycled content paper and paper products, the following waste reduction techniques should be used to the maximum extent possible:

- Reduce the number of hard copies for all documents.
- Use two-sided (duplex) copying for all documents.
- Use e-mail for draft reviews and final document distributions.
- Use electronic documentation software to disseminate business communications, graphics, and information via e-mail, the Internet, and Corporate Intranet.
- Request that contract deliverables and reports be prepared on diskette.
- Strive to reduce paperwork and unnecessary copies.

Administrative Services

POW-MIA FLAGS

Postal Facilities to Fly POW-MIA Flags

The Defense Authorization Act of 1997 requires the Postal Service to display the POW-MIA flag at all postal facilities on 6 specific days each year. They are:

- Armed Forces Day, the third Saturday in May.
- Memorial Day, the last Monday in May.
- Flag Day, June 14.
- Independence Day, July 4.
- National POW-MIA Recognition Day, the third Friday in September.
- Veterans Day, November 11.

Note: If any of these days fall on a nonbusiness day, postal facilities are required to display the POW-MIA flag on the last business day before the designated day.

Additional information regarding the POW-MIA flag, including display regulations and ordering instructions, can be found in *Administrative Support Manual (ASM) 475*.

Domestic Mail

DMM REVISION

Hazardous Material Mailability Standards

Effective May 6, 1999, *Domestic Mail Manual* (DMM) C023 is revised to clarify the hazardous material standards concerning the use of shipping papers and the requirements for flammable materials, division 6.1 materials, and magnetized materials. These revisions are minor clarifications and do not change the existing Postal Service policy for the mailability of hazardous material.

As a reminder, most hazardous material is nonmailable. Generally, the types of hazardous material permitted to be mailed are those that qualify as an ORM-D material and can be renamed with the proper shipping name of "consumer commodity" within the provisions of Title 49, *Code of Federal Regulations* (49 CFR) 100-185. Any hazardous material bearing or required to bear a Department of Transportation (DOT) diamond-shaped hazard class warning label is prohibited from mailing. The only postal exceptions are for mailable division 6.2 material required to bear a DOT class 6 infectious substance label as cited in DMM C023.8.3, and parcels containing dry ice sent via air transportation required to bear a DOT class 9 miscellaneous label as cited in DMM C023.11.4.

The following revisions will appear in the online DMM available via Postal Explorer (<http://pe.usps.gov>) and in the printed version of DMM Issue 55.

Domestic Mail Manual (DMM)

	*	*	*	*	*
C	Characteristics and Content				
C000	General Information				
	*	*	*	*	*
C020	Restricted or Nonmailable Articles and Substances				
	*	*	*	*	*
C023	Hazardous Materials				
1.0	GENERAL				
	*	*	*	*	*
Exhibit 1.3	DOT Hazard Classes and Mailability Summary				

[Amend Exhibit 1.3 as follows: In the square on the chart marked "Explosives," change the text "Division 1.4 No Significant Hazard" to read "Division 1.4 Minor Blast

Hazard." In the square that is the intersection point for a class 9 material as International Mail, change the text "Prohibited" to read "Prohibited, except magnetized materials per IMM 136.]"

* * * * *

1.6 Warning Labels

[Revise C023.1.6 to read as follows:]

With few exceptions as noted in these standards, most hazardous materials acceptable for mailing fall within the Other Regulated Materials (ORM-D) regulations of CFR 49 173.144, which do not require DOT hazard class warning labels. Except for division 6.2 materials under 8.3 and dry ice under 11.4, any hazardous material bearing or required to bear a DOT hazard class warning label under the requirements in 49 CFR is prohibited from mailing. Mailable ORM-D material must be marked as required in 1.7. Mailable hazardous material must bear DOT handling labels (i.e., orientation arrows, magnetized materials) when applicable.

1.7 Package Markings

[Revise C023.1.7 to read as follows:]

Each mailpiece containing a mailable hazardous material must be plainly and durably marked on the address side with the required shipping name and UN identification number. The UN identification number is not required on a mailpiece that contains an ORM-D material. A mailable ORM-D material must be marked on the address side with "ORM-D" or "ORM-D AIR," as applicable, immediately following or below the proper shipping name. The proper shipping name for a mailable ORM-D material is consumer commodity. Mailable ORM-D material sent via surface transportation must be marked on the address side as "Surface Mail Only."

1.8 Shipping Papers

[Revise C023.1.8 to read as follows:]

For domestic surface transportation, a mailpiece containing a mailable hazardous material except for an ORM-D material or a specimen mailed under 8.4 must be accompanied by a shipping paper prepared under 49 CFR 172.200 through 172.205. For domestic air transportation, a mailpiece containing a mailable hazardous material except for a specimen mailed under 8.4 must be accompanied by a shipper's declaration for dangerous goods (i.e., shipping paper) completed and signed in triplicate by the mailer. The shipping paper must be affixed to the outside of the mailpiece.

1.9 Air Transportation Prohibitions

* * * * *

[Revise C023.1.9c to read as follows:]

c. Flammable materials (gases, liquids, and solids).

* * * * *

2.0 EXPLOSIVES (HAZARD CLASS 1)

2.1 Definition

* * * * *

2.2 Mailability

[Revise C023.2.2 to read as follows:]

Explosives are prohibited in international mail. Explosives are prohibited in the domestic mail via air transportation. For domestic surface transportation, explosives are prohibited except for certain division 1.4 toy propellant devices and safety fuses specifically approved by the manager, Business Mail Acceptance, USPS Headquarters, before mailing. A mailable explosive must meet the packaging and marking requirements provided with the manager's approval. A shipping paper is required.

* * * * *

4.0 FLAMMABLE AND COMBUSTIBLE LIQUIDS (HAZARD CLASS 3)

* * * * *

4.4 Cigarette Lighters

[Amend C023.4.4 by deleting the first sentence and inserting the following text:]

A cigarette lighter equipped with an ignition element and containing fuel is a class 3 flammable liquid. A cigarette lighter that contains a flammable gas is classed as a division 2.1 flammable gas. A cigarette lighter containing either flammable liquid or flammable gas is permitted only in domestic mail via surface transportation when all of the following conditions are met: ***

* * * * *

5.0 FLAMMABLE SOLIDS (HAZARD CLASS 4)

5.1 Definitions

* * * * *

5.3 Matches

* * * * *

[Revise C023.5.3c to read as follows:]

c. They are tightly packed in a securely sealed inner packaging to prevent any shifting or movement that could cause accidental ignition by rubbing against adjoining items. The inner packaging(s) is placed securely within an outer container made of fiberboard,

wood, or other equivalent material. Multiple inner packagings may be placed in a single outer packaging. The address side of the mailpiece is marked "Surface Mail Only" and "Book Matches," "Strike-on-Card Matches," or "Card Matches," as appropriate. A shipping paper is required.

* * * * *

6.0 OXIDIZING SUBSTANCES, ORGANIC PEROXIDES (HAZARD CLASS 5)

6.1 Definition

* * * * *

6.2 Mailability

[Revise C023.6.2 to read as follows:]

Oxidizing substances and organic peroxides are prohibited in international mail. For domestic mail, a material that can qualify as an ORM-D material is permitted via air or surface transportation. Liquid materials must be enclosed within a primary receptacle having a capacity of 1 pint or less; the primary receptacle(s) must be surrounded by absorbent cushioning material and held within a secondary leak-resistant container that is packed within a strong outer packaging. Solid materials must be contained within a primary receptacle having a weight capacity of 1 pound or less; the primary receptacle(s) must be surrounded with cushioning material and packed within a strong outer packaging. Each mailpiece may not exceed a total weight of 25 pounds. The address side of each mailpiece must be plainly and durably marked with "ORM-D AIR" or "ORM-D," as applicable, immediately following or below the proper shipping name. A mailable class 5 material sent via surface transportation must be marked "Surface Mail Only" on the address side. A mailable material sent via air transportation must bear a shipper's declaration for dangerous goods.

7.0 TOXIC SUBSTANCES (HAZARD CLASS 6, DIVISION 6.1)

7.1 Definitions

* * * * *

[Revise C023.7.2 and 7.3, and add new 7.4 and 7.5 to read as follows:]

7.2 Mailability

Toxic substances or poisons are prohibited in international mail. For domestic mail, a division 6.1 toxic substance or poison that can qualify as an ORM-D material is permitted when packaged under the applicable requirements in 7.4. Certain other poisonous materials are permitted to be mailed only between the authorized parties and under the conditions in 7.3.

7.3 Authorized Parties

A division 6.1 toxic substance having an LD50 for oral toxicity of greater than 5 mg/kg but less than or equal to 50 mg/kg is mailable only if packaged under the applicable requirements in 7.4 and when sent between authorized parties and under specified conditions, as follows:

- a. Toxic substances for scientific use (not outwardly or of their own force dangerous or injurious to life, health, or property) may be sent only between manufacturers, dealers, bona fide research or experimental scientific laboratories, and employees of federal, state, or local governments who have official use for such poisons and are designated by the agency head to receive or send such poisons. For air transportation, a shipper's declaration for dangerous goods is required.
- b. Poisonous drugs and medicines may be sent only from the manufacturer or dealer of the drugs and medicines to licensed physicians, surgeons, dentists, pharmacists, druggists, cosmetologists, barbers, and veterinarians (18 USC 1716).

7.4 Packaging and Marking

The following requirements must be met, as applicable:

- a. A toxic substance that can qualify as an ORM-D material and does not exceed a total capacity of 8 ounces per mailpiece is permitted if: the material is held in an inner receptacle(s); enough cushioning material surrounds the primary receptacle to absorb all potential leakage; the cushioning and primary receptacle(s) is packed in another securely sealed secondary packaging that is placed within a strong outer packaging. Each mailpiece must be plainly and durably marked on the address side with "ORM-D" or "ORM-D AIR," as applicable, immediately following or below the proper shipping name. Mailable material sent via surface transportation must be marked on the address side as "Surface Mail Only."
- b. Other toxic substances and poisons are permitted to be sent between the authorized parties and under the conditions in 7.3 when they do not exceed 8 ounces per mailpiece and if: the material is held in a leak-resistant primary receptacle(s); sufficient absorbent and cushioning material completely surrounds each primary receptacle; the primary receptacle(s) and the absorbent and cushioning materials are firmly held within a secondary leakproof (for liquids) or siftproof (for solids) packaging; the secondary packaging is firmly and securely held within a strong outer packaging of 200-pound grade corrugated fiberboard or equivalent strength. The address side of each mailpiece must be marked with the proper shipping name and UN (or NA) identification number of the material

(unless exempted by C024.11.2). Mailable materials sent via surface transportation must be marked on the address side as "Surface Mail Only." Each mailpiece must bear a shipping paper.

7.5 Irritating Material

Irritants are prohibited in international mail and domestic mail.

* * * * *

8.0 INFECTIOUS SUBSTANCES (HAZARD CLASS 6, DIVISION 6.2)

* * * * *

8.3 Packaging Infectious Substances (Etiologic Agents)

* * * * *

[Revise C023.8.3f to read as follows:]

- f. The address side of the mailpiece must bear the "Etiologic Agents/Biohazard Material" label required by 42 CFR 72.3(d) and must be sent by Express Mail, Priority Mail, or First-Class Mail. Those specific etiologic agents listed in 42 CFR 72.3(f) must be sent registered mail. Each mailpiece must be marked on the address side with the proper shipping name and UN number of the material (i.e., "Infectious Substances Affecting Humans, UN2814," or "Infectious Substances Affecting Animals, UN2900"). Each mailpiece must bear a DOT class 6 label for infectious substances (etiologic agents), proper UN package specification markings, and orientation markings.

* * * * *

8.7 Marking and Labeling of Division 6.2 Material

[Revise C023.8.7 to read as follows:]

All mailable division 6.2 materials, except those prepared under 8.4, must be sent via air transportation. The following markings and labels are required, as applicable:

- a. *Infectious Substances (Etiologic Agents)*. Materials mailable under 8.3 must be marked and labeled as specified in 8.3f. A shipper's declaration for dangerous goods is required.
- b. *Clinical Specimens and Biological Products*. Materials mailable under 8.4 must be marked on the address side with "Clinical Specimen — Blood Sample," "Clinical Specimen — Urine Sample," "Clinical Specimen — Saliva Sample," "Biological Product," etc., as appropriate. The universal biohazard symbol shown in Exhibit 8.5c(2) may appear on the address side. A shipping paper is not required for material sent under 8.4.

- c. *Sharps Wastes.* Parcels containing sharps waste mailable under 8.5 must be marked on the address side with the proper shipping name and correct UN number (i.e., “Regulated Medical Waste — Sharps, UN 3291”). The universal biohazard symbol shown in Exhibit 8.5c(2) must appear on the outside of the mailpiece. The manifest required in 8.5c serves as the shipping paper.
- d. *Other Used Medical Devices.* Parcels containing other used medical devices mailable under 8.6 must be marked on the address side with the proper shipping name and correct UN number (i.e., “Regulated Medical Waste, UN 3291”). The universal biohazard symbol shown in Exhibit 8.5c(2) must appear on the outside of the mailpiece. A shipping paper is required.

* * * * *

11.0 MISCELLANEOUS HAZARDOUS MATERIALS (HAZARD CLASS 9)

* * * * *

11.5 Magnetized Materials

* * * * *

[Revise C023.11.5a and b to read as follows:]

- a. *Definition.* A magnetized material is an article that has a magnetic field strength capable of causing the deviation of aircraft instruments. Magnetized materials include magnets and magnetized devices such as magnetrons and light meters of sufficient strength to possibly cause erroneous aircraft compass readings.
- b. *Mailability.* Magnetized material is prohibited in international mail except as permitted in IMM 136. A material with a measurable magnetic field strength greater than 0.00525 gauss at 15 feet is prohibited in the domestic mail. For domestic mail via air transportation, a magnetized material capable of causing a compass deviation at a distance of 7 feet or more is prohibited. Mailable materials must be packaged and marked as specified in Publication 52. Mailable material permitted via air transportation must bear a shipper’s declaration for dangerous goods.

* * * * *

— *Business Mail Acceptance, Marketing Systems, 5-6-99*

POSTAGE STATEMENTS UPDATE

Clarification to Periodicals Postage Statements

This notice announces minor editorial corrections to the three PS Forms 3541 published in *Postal Bulletin* 21996 (4-22-99) and clarifies the calculation for the new “per-pound” entry discount for foreign copies of Periodicals mailings entered at the New Jersey International and Bulk Mail Center (NJI & BMC), effective May 30, 1999.

Since these corrections are editorial only, the PS Forms 3541 appearing on pages 20–25 of *Postal Bulletin* 21996 can still be used. The May 1999 editions appearing on the Business page of the Postal Service website at <http://www.usps.com> and in Postal Explorer CD-ROM Version 8.0 reflect these editorial corrections:

- The parentheses in the postage columns on lines 29, 39, and 57 are removed.
- The reference on Line 43, “Total In-County Pound Rate Postage (Add lines 42 and 43),” is corrected to reflect lines 41 and 42.

- The reference on Line 56, “Subtotal (Add lines 46 through 57),” is corrected to reflect lines 44 through 55.

The \$0.25 “per-pound” discount for foreign copies entered at the NJI & BMC is based on the per-copy weight from lines 33, 34, and 35 (as applicable) of PS Form 3541 (expressed in pounds rounded off to four decimal places). Multiply the per-copy weight by the number of copies entered at the NJI & BMC (which may be different from the number of copies entered on lines 36, 37, and 38). The weight (number of pounds, not copies) is reported on line 39 of PS Form 3541 and rounded off to the nearest whole pound. If the result is under 0.5 pounds, then round to 1 pound.

— *Mail Preparation and Standards, Marketing Systems, 5-6-99*

DMM REVISION

Hazardous Material — Dry Ice Via Surface Transportation

Effective May 6, 1999, *Domestic Mail Manual* (DMM) C023.11.4 is amended to change the standards that apply to the mailing of dry ice in the domestic mail via surface transportation.

The following revision will appear in the online version of the DMM available via Postal Explorer (<http://pe.usps.gov>) and in the printed version of DMM Issue 55.

Domestic Mail Manual (DMM)

	*	*	*	*	*
C	Characteristics and Content				
	*	*	*	*	*
C020	Restricted or Nonmailable Articles and Substances				
	*	*	*	*	*
C023	Hazardous Material				
	*	*	*	*	*
11.0	MISCELLANEOUS HAZARDOUS MATERIALS (HAZARD CLASS 9)				
	*	*	*	*	*
11.4	Dry Ice				

[Revise C023.11.4 to read as follows:]

Dry ice (carbon dioxide solid) is prohibited in international mail. Dry ice is permitted in the domestic mail via air or surface transportation when used as a refrigerant to cool the

contents of a mailpiece. A mailpiece containing dry ice must be packed in a container that is designed to permit the release of carbon dioxide gas and prevent a build-up of pressure that could rupture the parcel. Containers must conform to 49 CFR 173.217 and 175.10(a)(13). Additionally, the following applies:

- a. *Air Transportation.* Each mailpiece may not contain more than 5 pounds of dry ice. The address side of each mailpiece must be clearly marked “Carbon Dioxide Solid, UN1845” or “Dry Ice, UN1845” along with the net weight of the dry ice and the identity of the contents being cooled. A shipper’s declaration prepared in triplicate and a DOT Class 9 warning label for miscellaneous hazardous materials must be affixed to the outside of the mailpiece.
- b. *Surface Transportation.* The amount of dry ice per mailpiece may exceed 5 pounds. The address side of each mailpiece must be clearly marked “Carbon Dioxide Solid” or “Dry Ice” and “Surface Mail Only” along with the net weight of the dry ice and the identity of the contents being cooled. A shipper’s declaration and a DOT Class 9 warning label is not required for the dry ice.

POSTAGE STATEMENT UPDATE

Change to Reporting of Library Mail Postage

PS Form 3608-R, *Postage Statement — Special Standard Mail or Library Mail Permit Imprint*, is revised to reflect a change to the account identifier code (AIC) for Library Mail postage. Effective May 30, 1999, report postage for Library Mail (in addition to Special Standard Mail) in AIC 124. The permit system will automatically report Library Mail postage in AIC 124. Post offices not supported by the permit system must be careful to report postage in the correct AIC.

Mailers of Special Standard Mail and Library Mail who pay postage with permit imprint can continue to use the January 1999 edition of PS Form 3608-R. The January 1999 (Revised) edition will appear on the Business page of the

Postal Service website at <http://www.usps.com> and in Postal Explorer CD-ROM Version 8.0 as print-only (PDF Format) forms and fill-in (JAVA Format) forms.

There will be no distribution of PS Form 3608-R January 1999 (Revised). Wherever possible, postmasters should encourage their customers and staff to use the Postal Service website to obtain forms.

DMM REVISION

Labeling List Changes

Effective May 6, 1999, *Domestic Mail Manual* (DMM) L004 and L803 are amended to reflect changes in mail processing operations. Although mailers are encouraged to label according to these revised lists immediately, they must comply with these changes no later than July 29, 1999. These changes will be incorporated into the electronic DMM available via Postal Explorer (<http://pe.usps.gov>) on May 6, 1999, and will be printed in DMM Issue 55.

In addition to the distribution and labeling changes, a new labeling list, L001, will be effective July 29, 1999. There have been three corrections to this list since it was published in the April 7, 1999, *Federal Register*. These changes are separately noted below, and are also included in the complete text of the list contained on pages 15–35 of this *Postal Bulletin*.

RESTRICTIONS UPDATE

Conditions Applied to Mail Addressed to Military Post Offices Overseas

The following changes and additions are made to the APO/FPO restriction page in the *Postal Bulletin* (see page 12). This restriction page is normally printed in the *Postal Bulletin* in the last edition of each month within the "Overseas Military Mail" article. Mail addressed to or from military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The conditions applied to mail addressed to military post offices overseas are defined by the use of alpha characters associated with each respective APO/FPO ZIP Code.

Restriction B is modified to eliminate some extraneous wording and to add restriction B2. This new restriction B2 will be used to identify APO/FPO destinations that require the use of customs documentation for government agency mail weighing 16 ounces or more.

Restriction J is a new restriction to identify those APO/FPO destinations to which parcels may not exceed 108 inches length and girth combined.

Revised Restriction: B

- B.** Form 2976-A is required for all mail weighing 16 ounces or more, with exceptions noted below. In addition, mailers must properly complete required customs documentation when mailing any potentially dutiable mail addressed to an APO or FPO regardless of weight.

The following are exceptions to the requirement for customs documentation on non-dutiable mail that weighs 16 ounces or more:

- Known mailers are exempt from providing customs documentation on non-dutiable letters and printed matter weighing 16 ounces or more. (A known mailer is anyone who legally applies a permit imprint to a mailpiece. Mail with meter postage is not considered to be from a known mailer.)

- All federal, state, and local government agencies are exempt from providing customs documentation on mail addressed to or from an APO or FPO, except for those APOs/FPOs to which restriction B2 applies.
- Prepaid mail from military contractors is exempt, providing the mailpiece is endorsed "Contents for Official Use — Exempt from Customs Requirements."

New Restriction: B2

- B2.** All federal, state, and local government agencies must complete customs documentation when sending mail addressed to or from this APO or FPO weighing 16 ounces or more.

New Restriction: J

- J.** Parcels may not exceed 108 inches in length and girth combined.

Network Operations Management, 5-6-99*

RESTRICTIONS

LEGEND

Form 2976, *Customs* — CN22

Form 2976-A, *Customs Declaration and Dispatch Note*

AAFES	= Army and Air Force Exchange Service
APO	= Army/Air Force Post Office
Box R	= Retired military personnel
FPO	= Fleet Post Office
DMM	= <i>Domestic Mail Manual</i>
MOM	= Military Ordinary Mail
MPO	= Military Post Office
PAL	= Parcel Airlift
PSC	= Postal Service Center
SAM	= Space Available Mail
USDA	= United States Department of Agriculture

Note: Mail order catalogs are prohibited as SAM or PAL mail.

A. Securities, currency, or precious metals in their raw, unmanufactured state are prohibited. Official shipments are exempt from this restriction.

B. Form 2976-A is required for all mail weighing 16 ounces or more, with exceptions noted below. In addition, mailers must properly complete required customs documentation when mailing any potentially dutiable mail addressed to an APO or FPO regardless of weight. The following are exceptions to the requirement for customs documentation on non-dutiable mail that weighs 16 ounces or more:

- Known mailers are exempt from providing customs documentation on non-dutiable letters, and printed matter weighing 16 ounces or more. (A known mailer is anyone who legally applies a permit imprint to a mailpiece. Mail with meter postage is not considered to be from a known mailer.)
- All federal, state, and local government agencies are exempt from providing customs documentation on mail addressed to an APO or FPO, except for those APOs/FPOs to which restriction B2 applies.
- Prepaid mail from military contractors is exempt, providing the mailpiece is endorsed "Contents for Official Use — Exempt from Customs Requirements."

B1. Form 2976 or 2976-A is required. Articles are liable for customs duty and/or purchase tax unless they are bona fide gifts intended for use by military personnel or their dependents. When the contents of a parcel meet these requirements, the mailer must endorse the customs form, "Certified to be a bona fide gift, personal effects, or items for personal use of military personnel and dependents," under the heading, Description of Contents. **Exceptions:** All other exceptions listed in restriction B above are applicable to this restriction.

B2. All federal, state, and local government agencies must complete customs documentation when sending mail addressed to or from this APO or FPO weighing 16 ounces or more.

C. Cigarettes and other tobacco products are prohibited.

C1. Obscene articles, prints, paintings, cards, films, videotapes, etc., and horror comics and matrices are prohibited.

D. Coffee is prohibited.

E1. Medicines or vaccines not conforming to French laws are prohibited.

E2. Any matter containing religious materials contrary to Islamic faith or depicting nude or seminude persons, pornographic or sexual items, or nonauthorized political materials is prohibited.

E3. Radio transceivers, cordless telephones, global positioning systems, scanners, base stations, and hand-held transmitters are prohibited.

F. Firearms of any type are prohibited in all classes of mail. See definitions of firearms in DMM C022.1.1. This restriction does not apply to firearms mailed to or by official U.S. government agencies.

F1. Privately owned weapons addressed to an individual are prohibited in any class of mail.

F2. Importation of firearms is restricted to one shotgun and one single shot .22 caliber rifle per individual.

G. Only First-Class letters, Periodicals, and Standard Mail (A) are authorized.

H. Meats, including preserved meats, whether hermetically sealed or not, are prohibited.

H1. Pork or pork by-products are prohibited.

I. Mail of all classes must fit in a mail sack. Mail may not exceed the following dimensions:

Length	
42"	72" length and girth combined
over 42" to 44"	24" girth
over 44" to 46"	20" girth
over 46" to 48"	16" girth
Maximum length	48"

This restriction does not apply to registered mail and official government mail marked MOM.

I1. This restriction does not apply to registered mail.

I2. This restriction does not apply to official government mail marked MOM.

J. Parcels may not exceed 108 inches in length and girth combined.

K. Mail that includes in the address the words, "Dependent Mail Section," may consist only of letter mail, newspapers, magazines, and books. No parcel of any class containing any other matter may be mailed to the Dependent Mail section. This restriction does not apply if the address does not include the words "Dependent Mail Section."

L. All official mail is prohibited.

M. Fruits, animals, and living plants are prohibited.

N. Registered mail is prohibited.

O. Personal mail addressed to vessels using this number is limited to unregistered First-Class Mail and certified mail. Other classes of mail are prohibited.

P. APO is used for the receipt and dispatch of official mail only.

Q. Mail may not exceed 66 pounds, and size is limited to 42 inches maximum length and 72 inches maximum length and girth combined.

R. All alcoholic beverages, including those mailable under DMM C021, are prohibited.

R1. Materials used in the production of alcoholic beverages (i.e., distilling material, hops, malts, yeast, etc.) are prohibited.

T. Mailings of case lots of food and supplemental household shipments must be approved by the sender's parent agency prior to mailing.

U. Parcels must weigh less than 16 ounces when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped."

U1. Mail is limited to First-Class Mail weighing 13 ounces or less when addressed to Box R. This restriction does not apply to mail endorsed "Free Matter for the Blind or Handicapped." Videotapes are prohibited when addressed to Box R, regardless of weight.

U2. Mail is limited to First-Class letters only when addressed to Box R.

U3. Mail is limited to First-Class correspondence (including voice and video cassettes), newspapers, magazines, photographs, not exceeding 16 ounces, when addressed to Box R.

W. Meat products, such as dried beef, salami, and sausage, may be mailed, provided they remain in their original, hermetically sealed packages and bear USDA certification. Other meats, bones, skin, hair, feathers, horns or hoofs of hoofed animals, wool samples, tobacco leaves, including chewing and pipe tobacco, snuff, cigars, and cigarettes, or obscene material, including obscene drawings, photographs, films, and carvings, are prohibited. Exception: 200 grams of tobacco per parcel are permitted duty free.

X. Personal mail is limited to First-Class Mail (to include audio cassettes and voice tapes) weighing 13 ounces or less. This limitation does not apply to official mail.

Y. Mail is limited to First-Class and Priority Mail only. All Periodicals, Standard Mail (A), and Standard Mail (B) (including SAM and PAL) are not authorized. This restriction also applies to official mail.

Z. No outside pieces (OSPs).

Z1. The Anti-Pilferage Seal (Item No O818-A) is required on all pouches and sacks.

DELIVERY CONFIRMATION AND MERCHANDISE RETURN SERVICE

Operational Test for Merchandise Return Service Mail with Delivery Confirmation Service

Effective May 3, 1999, the Postal Service will conduct a limited test for the purpose of developing rules, regulations, and operational procedures to allow mailers to combine Delivery Confirmation service with merchandise return service.

The initial test customers will address their returns to:

POSTAGE DUE UNIT
 US POSTAL SERVICE
 PO BOX 9998
 FORT WORTH TX 76161-9998

The test will be expanded after 3 weeks to include returns addressed to Boynton Beach, FL. Additional mailers and destination sites will be added after the initial 6 weeks of the test. The permit holder will be required to pay the appropriate retail Delivery Confirmation service fee for all pieces returned bearing the merchandise return service label with a Delivery Confirmation service barcode. All other requirements must be followed as described in the *Domestic Mail Manual* (DMM) S923.

The permit holder's customers must mail parcels in accordance with DMM Section 923.1.7. During this test period, mailers will print the Delivery Confirmation barcode directly on their merchandise return service label. Retail clerks are not required to scan these barcodes and should handle the mailpieces as ordinary merchandise return service mail. All

fees associated with these mailpieces will be collected at the Postage Due Unit identified on the mailing label.

Sample Merchandise Return Label w/ Delivery Confirmation Service

If the test is successful, the availability of Delivery Confirmation service combined with merchandise return service will be expanded nationwide. At that time, a *Postal Bulletin* article revising DMM S923 will be published.

DMM REVISION

Two New Options Added to the Domestic Mail Manual: Labeling List L001 and Package Reallocation for Periodicals and Standard Mail (A) Flats Placed on Pallets

Effective July 29, 1999, *Domestic Mail Manual* (DMM) sections E230, E250, E620, E650, L001, M010, M030, M040, M200, M620, and P010 are amended to implement new labeling list L001, 5-Digit Scheme — Periodicals Flats and Irregular Parcels and Standard (A) Flats, and to offer mailers an option to use package reallocation to protect the sectional center facility (SCF) pallet level for Periodicals flats and irregular parcels and Standard Mail (A) flats.

The purpose of implementing these options is to improve the presort of palletized Periodicals flats and irregular parcels and Standard Mail (A) flats by:

1. Protecting the sectional center facility (SCF) pallet level through the reallocation of packages from finer-level pallets to higher-level pallets (e.g., by moving packages from a 5-digit/scheme or 3-digit pallet to an SCF pallet that would not otherwise be created).
2. Increasing the amount of mail that can be sorted to the 5-digit level through the creation of DMM labeling list L001.

Both L001 and package reallocation are being implemented as optional rather than required preparation methods to provide mailers with the flexibility to determine the most appropriate combination of these options for their specific mailing. Mailers will be able to selectively utilize none, one, or both options as they deem appropriate for their specific mailing.

L001 is a 5-digit scheme list that may be used for the preparation of Periodicals and Standard Mail (A) pallets and carrier routes sacks. This 5-digit/scheme sort will yield 5-digit scheme pallets and carrier routes sacks for those 5-digit ZIP Code zones listed in L001 and 5-digit pallets and carrier routes sacks for ZIP Codes not listed in L001. The 5-digit ZIP Code zones in each scheme will be treated as a single presort destination subject to a single pallet or sack minimum volume, with no further separation by 5-digit prefix required.

The standards for package reallocation and 5-digit/scheme sort will also apply to presorted Standard Mail (A) irregular parcels that are part of a mailing job prepared in part as FSM 1000 automation flats placed on pallets. The residual shape surcharge for non-letter, non-flat-size mail will apply to the Standard Mail (A) irregular parcels.

All carrier route rate Periodicals or Enhanced Carrier Route rate Standard Mail (A) on a 5-digit scheme pallet prepared using L001 will be eligible for the destination delivery unit (DDU) rate when the pallet is deposited at the facility designated by the Postal Service as the location where the carrier cases the mail based on the "Label To" Zip Code on the pallet label.

In developing the proposed standards for reallocation, consideration was given to what information would be needed during the postal verification process to allow acceptance personnel to identify whether reallocation had been performed and determine if it had been performed correctly. It was determined that proper reallocation could best be ensured by:

1. Keeping the rules as simple as possible by employing a one-to-one relationship in the reallocation process; that is, mail from only one pallet may be reallocated to create an SCF pallet.
2. Requiring any mailer who uses reallocation to use Presort Accuracy Validation and Evaluation (PAVE)-certified presort software that has also been certified to meet the reallocation standards.

Instances when mail is reallocated to protect an SCF pallet will be documented on the USPS Qualification Report by designating the protected SCF pallet with an identifier of "PSCF." This identifier will be used only on the USPS Qualification Report and will not be required to appear on pallet labels or on any other mailing documentation.

These amendments will appear in the online version of the DMM available via Postal Explorer (<http://pe.usps.gov>) and in the printed version of DMM Issue 55.

Domestic Mail Manual (DMM)

E	Eligibility	*	*	*	*	*
E200	Periodicals	*	*	*	*	*
E230	Nonautomation Rates	*	*	*	*	*
2.0	CARRIER ROUTE RATES	*	*	*	*	*
2.2	Eligibility	*	*	*	*	*

[Amend 2.2 by revising E230.2.2a to read as follows:]

- a. The basic carrier route rate applies to copies in carrier route packages of six or more letter-size pieces each that are sorted to carrier route, 5-digit carrier routes, or 3-digit carrier routes trays; and six or more flat-size pieces or irregular parcel-size pieces each that are sorted to carrier route, 5-digit, or 5-digit scheme carrier routes sacks. (Preparation of 5-digit scheme carrier

routes sacks is optional, but, if performed, must be done for all 5-digit scheme destinations.)

* * * * *

E250 Destination Entry

* * * * *

2.0 DDU RATE

2.1 Eligibility

[Amend the second sentence of E250.2.1 to read as follows:]

***Copies claimed at DDU rates must be part of a carrier route package placed in a carrier routes tray or sack, a 5-digit carrier routes tray or sack, or, for flats and irregular parcels, a 5-digit scheme carrier routes sack, under M200, or be palletized under M045, and otherwise eligible for and claimed at a carrier route rate. ***

* * * * *

E600 Standard Mail

* * * * *

E620 Nonautomation Standard Mail (A) Rates

* * * * *

2.0 ENHANCED CARRIER ROUTE RATES

* * * * *

2.8 Basic Rates

[Amend E620.2.8 by revising 2.8b to read as follows:]

Basic (nonautomation) carrier route rates apply to each piece that is sorted under M620 into the corresponding qualifying groups:

* * * * *

- b. Flat-size pieces in a carrier route package of 10 or more pieces palletized under M045 or placed in a carrier route sack containing at least 125 pieces or 15 pounds of pieces or in a 5-digit or 5-digit scheme carrier routes sack. (Preparation of 5-digit scheme carrier routes sacks is optional, but, if performed, must be done for all 5-digit scheme destinations.)

* * * * *

E650 Destination Entry

E651 Regular, Nonprofit, and Enhanced Carrier Route Standard Mail

* * * * *

7.0 DDU DISCOUNT

* * * * *

7.2 Eligibility

[Amend E651.7.2 by revising the first sentence to provide DDU rate eligibility for carrier route flats placed in 5-digit scheme carrier routes sacks, as follows:]

Pieces in a mailing that meet the standards in 1.0 through 4.0 and 7.0 are eligible for the DDU rate when deposited at a DDU, addressed for delivery within that facility's service area (carrier routes), and placed in properly prepared and labeled carrier route packages sorted to carrier routes trays (letters) or sacks (flats and irregular parcels), 5-digit carrier routes trays (letters) or sacks (flats and irregular parcels), or 5-digit scheme carrier routes sacks (flats) under M600, or palletized under M045, and otherwise eligible for and claimed at a carrier route rate. ***

* * * * *

L Labeling Lists

L000 General Use

[Add labeling list L001 as follows:]

L001 5-Digit Scheme — Periodicals Flats and Irregular Parcels and Standard Mail (A) Flats

When 5-digit scheme sort is used for Periodicals flats and irregular parcels packages and Standard Mail (A) flats packages, mail for the 5-digit ZIP Codes shown in Column A must be combined on pallets or in carrier routes sacks labeled to the corresponding destination shown in Column B.

M Mail Preparation And Sortation

M000 General Preparation Standards

M010 Mailpieces

M011 Basic Standards

1.0 TERMS AND CONDITIONS

1.1 Presort Process

[Amend M011.1.1 to incorporate a reference to package reallocation to read as follows:]

Presort is the process by which a mailer prepares mail so that it is sorted to at least the finest extent required by the standards for the rate claimed. Generally, presort is performed sequentially, from the lowest (finest) level to the highest level, to those destinations specified by standard and is completed at each level before the next level is prepared. Under standards for package reallocation for Periodicals flats and irregular parcels and Standard Mail (A) flats on pallets (see M041 and M045), mail will not necessarily be placed on the lowest (finest) level pallets (package reallocation is optional, but, if performed, must be done for the complete mailing job). Not all presort levels are applicable in all situations.

1.2 Presort Levels

[Amend M011.1.2 by revising 1.2d and adding new 1.2e and 1.2f to differentiate between 5-digit schemes for automation letters and 5-digit schemes for pallets and for carrier routes sacks of Periodicals flats and irregular parcels and Standard Mail (A) flats; redesignate current 1.2e through m as 1.2g through o, respectively, as follows:]

Terms used for presort levels are defined as follows:

* * * * *

- d. *5-digit scheme (trays) for automation letters:* the ZIP Code in the delivery address on all pieces is one of the 5-digit ZIP Code areas processed by the USPS as a single scheme, as shown in the USPS City State File.
- e. *5-digit scheme carrier routes (sacks) for Periodicals flats and irregular parcels and Standard Mail (A) flats:* the ZIP Code in the delivery address on all pieces in

carrier route packages begins with one of the 5-digit ZIP Code zones processed by the USPS as a single scheme, as shown in L001.

- f. *5-digit scheme (pallets) for Periodicals flats and irregular parcels and Standard Mail (A) flats:* The ZIP Code in the delivery address on all pieces begins with one of the 5-digit ZIP Code zones processed by the USPS as a single scheme, as shown in L001.

1.3 Preparation Instructions

* * * * *

[Amend 1.3 by revising the first sentence of 1.3g to insert the phrase "for automation letters"; inserting new 1.3h and i to define 5-digit/scheme sort for carrier routes sacks of Periodicals flats and irregular parcels and Standard Mail (A) flats and 5-digit/scheme sort for Periodicals flats and irregular parcels packages and Standard Mail (A) flats packages on pallets; redesignate current 1.3h through s as 1.3j through u, respectively, to read as follows:]

- g. A 5-digit scheme sort for automation letters yields***
- h. A 5-digit/scheme carrier routes sort for sacked carrier route rate Periodicals flats and irregular parcels and Enhanced Carrier Route rate Standard Mail (A) flats yields 5-digit scheme carrier routes sacks for those 5-digit ZIP Codes listed in L001 and 5-digit carrier routes sacks for other areas. The 5-digit ZIP Codes in each scheme are treated as a single presort destination subject to a single minimum sack volume, with no further separation by 5-digit ZIP Code required. Sacks prepared for a 5-digit scheme destination that contain carrier route packages for only one of the schemed 5-digit areas are still considered 5-digit carrier route scheme sorted and are labeled accordingly. The 5-digit/scheme sort is optional for carrier route rate flat-size and irregular parcel Periodicals and flat-size Enhanced Carrier Route rate Standard Mail (A) in sacks. If preparation of 5-digit scheme carrier routes sacks is performed, it must be done for all 5-digit scheme destinations. A 5-digit/scheme carrier route sort may not be used for mail at other rates in sacks.
- i. A 5-digit/scheme sort for Periodicals flats and irregular parcels and Standard Mail (A) flats prepared as packages on pallets yields 5-digit scheme pallets for those 5-digit ZIP Codes listed in L001 and 5-digit pallets for other areas. The 5-digit ZIP Codes in each scheme are treated as a single presort destination subject to a single minimum pallet volume, with no further separation by 5-digit ZIP Code required. Pallets prepared for a 5-digit scheme destination that contain packages for only one of the schemed 5-digit areas are still considered 5-digit scheme sorted and are labeled

accordingly. The 5-digit/scheme sort is optional for flat-size and irregular parcel-size Periodicals and flat-size Standard Mail (A) prepared as packages on pallets and may not be used for other mail prepared on pallets, except for packages of Standard Mail (A) irregular parcels that are part of a mailing job that is prepared in part as palletized flats at automation rates. If preparation of 5-digit scheme pallets is performed, it must be done for all 5-digit scheme destinations.

M041 General Standards

	*	*	*	*	*
--	---	---	---	---	---

5.0 PREPARATION

[Amend M041.5.1 to indicate that pallet sortation using package reallocation may not always require sorting a mailing to the finest level, as follows:]

5.1 Presort

Pallet preparation and pallet sortation are subject to the specific standards in M045. Pallet sortation is generally intended to presort the palletized portion of a mailing to at least the finest extent required for the corresponding class of mail and method of preparation. Pallet sortation is sequential from the lowest (finest) level to the highest and must be completed at each required level before the next optional or required level is prepared. Standard preparation terms and presort levels for pallets are defined in M011 and M045. For sacks, trays, or machinable parcels on pallets, the mailer must prepare all required pallet levels before any mixed ADC or mixed BMC pallets are prepared for a mailing or job. Packages and bundles prepared under M045 must not be placed on mixed ADC or mixed BMC pallets. Packages and bundles that cannot be placed on pallets must be prepared in sacks under the standards for the rate claimed. The standards for package reallocation (M045.5.0), an optional method of pallet preparation, are designed to retain as much mail as possible at the SCF level and may result in some packages of Periodicals flats and irregular parcels and Standard Mail (A) flats, and irregular parcels that are part of a mailing job that is prepared in part as palletized flats at automation rates, not being placed on the finest level of pallet possible. Mailers must use PAVE-certified presort software to prepare mailings using package reallocation (package reallocation is optional, but, if performed, must be done for the complete mailing job).

5.2 Required Preparation

[Amend M041.5.2 by revising 5.2a to refer to Periodicals and Standard Mail (A) 5-digit pallets prepared under the standards for package reallocation, as follows:]

These standards apply to:

- a. Periodicals, Standard Mail (A), and Parcel Post (other than BMC Presort, OBMC Presort, DSCF, and DDU rate mail). A pallet must be prepared to a required sortation level when there are 500 pounds of Periodicals or Standard Mail packages, sacks, or parcels or six layers of Periodicals or Standard Mail (A) letter trays. For packages of Periodicals flats and irregular parcels and packages of Standard Mail (A) flats on pallets prepared under the standards for package reallocation (M045.5.0), not all mail for a required 5-digit destination is required to be on a 5-digit pallet or optional 5-digit scheme pallet. Mixed pallets of sacks, trays, or machinable parcels must be labeled to the BMC or ADC (as appropriate) serving the post office where mailings are entered into the mailstream. The

processing and distribution manager of that facility may issue a written authorization to the mailer to label mixed BMC or mixed ADC pallets to the post office or processing and distribution center serving the post office where mailings are entered. These pallets contain all mail remaining after required and optional pallets are prepared to finer sortation levels under M045, as appropriate.

* * * * *

6.0 COPALLETIZED, COMBINED, OR MIXED-RATE LEVEL MAILINGS OF FLAT-SIZE PIECES

* * * * *

[Amend M041.6.3 and M041.6.4 to indicate that pallet sortation using package reallocation may not always require sorting a mailing to the finest level, as follows:]

6.3 Periodicals Publications

To combine more than one Periodicals publication on pallets, the mailer must merge and presort copies of all the publications into common packages to achieve the finest presort level for the combined mailing. To copalletize different Periodicals flat-size publications, the mailer must consolidate on pallets all independently sorted packages for each publication to achieve the finest presort level for the mailing. A combined or copalletized mailing prepared under M045.5.0, using package reallocation, may not always result in all packages being placed on the finest pallet level possible. Both combined and copalletized publications must be supported by the documentation required in M045. Preferred Periodicals may be combined with Regular Periodicals only as permitted by standard.

6.4 Standard Mail (A)

To copalletize different Standard Mail (A) flat-size mailings, the mailer must consolidate on pallets all independently sorted packages from each mailing to achieve the finest presort level for the mailing, except that a copalletized mailing prepared under M045.5.0, using package reallocation, may not always result in all packages being placed on the finest pallet level possible. At the time of mailing, the mailer must present computer-generated listings required in M045 that include a summary list consolidating the copalletized multiple mailings and a list of the contents of each pallet by ZIP Code and presort level.

* * * * *

M045 Palletized Mailings

* * * * *

4.0 PALLET PRESORT AND LABELING

[Amend the title of M045.4.1 to indicate that it also refers to trays on pallets, as follows:]

4.1 Packages, Bundles, Sacks, Trays, or Trays on Pallets

[Amend M045.4.1 by revising 4.1a and adding new 4.1b to provide an optional 5-digit/scheme sort for packages of Periodicals and Standard Mail (A) flats; redesignate current 4.1b through 4.1e as 4.1c through 4.1f, as follows:]

Preparation sequence and Line 1 labeling:

- a. 5-digit: required for sacks; required for packages and bundles except for packages and bundles prepared under b; optional for trays; for Line 1, use 5-digit ZIP Code destination of contents.
- b. 5-digit/scheme: optional for Periodicals and Standard Mail (A) packages and bundles; for Line 1 for 5-digit pallets, use 5-digit ZIP Code destination of contents; for Line 1 for 5-digit scheme pallets, use L001, column B.

* * * * *

4.4 Line 2

[Amend M045.4.4 to require "SCHEME" or "SCH" to appear on 5-digit scheme pallets of Periodicals or Standard Mail (A), as follows:]

Line 2, class of mail (shown below, as appropriate), processing category and mail type (e.g., "MACH," "LTRS BC"), "SCHEME" or "SCH" for 5-digit scheme pallets of Periodicals or Standard Mail (A), and any processing code required by the applicable labeling list under 4.1, 4.2, and 4.3:***

[Add new section M045.5.0 to specify preparation requirements for package reallocation; redesignate current sections M045.5.0 through M045.13.0, as M045.6.0 through M045.14.0, respectively, as follows:]

5.0 PACKAGE REALLOCATION FOR PERIODICALS FLATS AND IRREGULAR PARCELS AND STANDARD MAIL (A) FLATS ON PALLETS

5.1 Basic Standards

Package reallocation is an optional preparation method (if performed, package reallocation must be done for the complete mailing job); only PAVE-certified presort software may be used to create pallets under the standards in 5.2 through 5.4. The software will determine if mail for an SCF service area would fall beyond the SCF level if all required 5-digit or optional 5-digit/scheme pallets and optional 3-digit pallets are prepared. Reallocation is performed only when there is

mail for the SCF service area that would fall beyond the SCF pallet level (e.g., to an ADC or BMC pallet). The amount of mail required to bring the mail that would fall beyond the SCF level back to an SCF level pallet level is the minimum volume that will be reallocated, where possible.

5.2 General Reallocation Rules

Reallocation rules:

- a. Package preparation is not affected by the reallocation process. Reallocate only complete packages and only the minimum number of packages necessary to create an SCF pallet meeting the minimum pallet weight. Based on the weight of individual pieces within a package and packaging parameters, the weight of mail that is reallocated may be slightly more than the minimum volume required to create an SCF pallet.
- b. Reallocate packages from the highest available pallet level possible. If it is not possible to reallocate some mail from a 3-digit pallet first, then attempt to eliminate a 3-digit pallet and reallocate all mail from that pallet to create an SCF pallet; if mail cannot be reallocated from a 3-digit pallet, then attempt to reallocate some mail from a 5-digit or 5-digit scheme pallet.
- c. The reallocation process may result in the elimination of a 3-digit pallet to create an SCF pallet, but a 5-digit or 5-digit scheme pallet (when 5-digit scheme pallets are prepared) may not be eliminated in order to create an SCF pallet.
- d. When reallocating mail to create an SCF pallet, reallocate mail from only one more finely sorted pallet. This may be accomplished by reallocating a portion of a 3-digit pallet, reallocating all mail from a 3-digit pallet, or reallocating a portion of a 5-digit or 5-digit scheme pallet following the sequence in 5.2b.
- e. Mailers may use any minimum pallet weight(s) permitted by DMM standards and may use different minimum weights for different pallet levels in conjunction with package reallocation.

5.3 Reallocation of Packages if Optional 3-Digit Pallets are Prepared

Reallocation rules:

- a. Attempt to identify a 3-digit pallet of adequate weight that can support reallocation of one or more packages to bring the mail that has fallen through the SCF level back to the SCF level without eliminating the pallet. A sufficient volume of mail must remain on the 3-digit pallet after reallocation to meet the 3-digit pallet weight minimum established by the mailer in compliance with applicable DMM standards. If a 3-digit pallet of adequate weight is available, create an SCF pallet by combining the reallocated mail from the 3-digit pallet

with the mail that would fall beyond the SCF pallet level.

- b. If no single 3-digit pallet within the SCF service area contains an adequate volume of mail to allow reallocation of a portion of the mail on a pallet as described in the previous step, then eliminate one 3-digit pallet and reallocate all of the mail to create an SCF pallet by combining it with the mail that would fall beyond the SCF pallet level. As a result, the software will not prepare one 3-digit pallet for the SCF service area if it is detrimental to the SCF pallet.
- c. If there are no 3-digit pallets, attempt to identify a 5-digit or 5-digit scheme pallet of adequate weight to support reallocation of one or more packages to bring the mail that would fall beyond the SCF pallet level back to the SCF level. A sufficient volume of mail must remain on the 5-digit or 5-digit scheme pallet after reallocation to meet the pallet weight minimum established by the mailer in compliance with applicable DMM standards. If a 5-digit or 5-digit scheme pallet of adequate weight is available, create an SCF pallet by combining the reallocated packages with the mail that would fall beyond the SCF pallet level.
- d. If no single 5-digit or 5-digit scheme pallet within the SCF service area contains an adequate volume of mail to allow reallocation of a portion of the mail on a pallet as described in 5.3c, then no packages will be reallocated and an SCF pallet will not be prepared; the mail that falls beyond the SCF pallet level must be placed on the appropriate level pallet (ADC or BMC) or in the appropriate level sack.

5.4 Reallocation of Packages if Optional 3-Digit Pallets are Not Prepared

Reallocation rules:

- a. Attempt to identify a 5-digit or 5-digit scheme pallet of adequate weight to support reallocation of one or more packages to bring the mail that would fall beyond the SCF pallet level back to the SCF level. A sufficient volume of mail must remain on the 5-digit or 5-digit scheme pallet after reallocation to meet the pallet weight minimum established by the mailer in compliance with applicable DMM standards. If a 5-digit or 5-digit scheme pallet of adequate weight is available, create an SCF pallet by combining the reallocated packages with the mail that would fall beyond the SCF pallet level.
- b. If no single 5-digit or 5-digit scheme pallet within the SCF service area contains an adequate volume of mail to allow reallocation of a portion of the mail on a pallet as described in 5.4a, then no packages will be reallocated and an SCF pallet will not be prepared; the

mail that falls beyond the SCF pallet level must be placed on the appropriate level pallet (ADC or BMC) or in the appropriate level sack.

5.5 Documentation

Mailings must be supported by documentation produced by PAVE-certified software meeting the standards in P012.

6.0 PALLETS OF PACKAGES, BUNDLES, AND TRAYS OF LETTER-SIZE MAIL

[Amend redesignated 6.1 and 6.2 by revising the second sentence of each section to indicate that automation rate and nonautomation rate mail must be placed on separate 5-digit scheme pallets, as follows:]

6.1 Periodicals

Automation rate and nonautomation rate pieces must be placed on separate 5-digit and 5-digit scheme pallets.

6.2 Standard Mail (A)

Automation rate and nonautomation rate pieces must be placed on separate 5-digit and 5-digit scheme pallets, except that upgradable pieces prepared under M610 may be placed on 5-digit pallets with automation rate pieces.

HBK F-1 REVISION AND POSTAGE STAMP LIST UPDATE

Periodic Update of the Postage Stamp Master Item Number List and Revision to Handbook F-1, Post Office Accounting Procedures

The following lists of stamp, stationery, and stamp product items are now available for ordering through established or bulk ordering procedures. Special conditions of availability and sources of supply for certain items are identified by footnote references in parentheses next to those items.

This information replaces that which was previously published in *Postal Bulletin* 21951 (7-31-97) and is also used to revise Exhibit 423.4 of Handbook F-1, *Post Office Accounting Procedures*.

Master Item Number List

1000 Series — Definitive, Priority, and Express Mail sheet stamps.

2000 Series — Stationery items (aerogrammes, stamped cards, stamped envelopes, and souvenir cards).

3000 Series — Migratory bird stamps, international reply coupons, and money orders.

4000 Series — Commemorative stamps.

5000 Series — Special issues (Christmas, flag, love, air-mail, ATM sheetlets, and penalty mail sheet stamps).

6000 Series — Booklets.

7000 Series — Coils: regular and precanceled.

8000 and 9000 Series — Philatelic products.

1000 Series

Future definitive stamp issues will be announced in the *Postal Bulletin*.

Notes:

- (A) SDOs, SDNs, and authorized post offices may order this item in bulk quantities from the Bureau of Engraving and Printing (BEP). All other post offices must requisition this item from their designated SDO/SDN.
- (B) SDOs, SDNs, and authorized post offices may order this item in bulk quantities from the Government Printing Office (GPO). All other post offices must requisition this item from their designated SDO/SDN.
- (C) SDOs, SDNs, and authorized post offices may order this item in bulk quantities from Stamp Fulfillment Services (SFS). All other post offices must requisition this item from their designated SDO/SDN.

- (D) SDOs and SDNs may order in bulk from area supply centers (Special Item). All other post offices must requisition this item from their designated SDO/SDN.
- (E) Item is not available for bulk requisitioning. Item was either printed by a private contractor and distributed to the field in its entirety, or the item, previously available from a bulk supplier, is now depleted at that source. To order additional stock, SDOs must requisition this item from their designated APD; all other post offices must requisition this item from their designated SDO/SDN.
- (F) New item. A future *Postal Bulletin* article will announce the sale date and specific distribution policies.
- (G) Item will be discontinued when stock is exhausted. In some cases, quantities of this item are diminished and may not be available at all APDs/SDOs/SDNs. Consult your designated APD/SDO/SDN regarding availability.
- (H) APDs and SDNs may order this item in bulk quantities from the New York APD. SDOs may subsequently order this item from their designated APD. All other post offices must requisition this item from their designated SDO/SDN.
- (I) Item issued through Inspection Service.
- (J) Item distribution limited to specific geographic locations within the country where the stamp subject is of regional interest. Nationwide sales may be offered through authorized philatelic centers or Stamp Fulfillment Services (SFS).

Revision to Handbook F-1

This revision has been incorporated into the online version of Handbook F-1, available on the Corporate Intranet at <http://blue/usps.gov/cpim> (click on "Handbooks," then "By Document ID Number," and select "F-1, *Post Office Accounting Procedures*") and will be incorporated into the next printed edition.

Notes (The following pertain to the Less Than Bulk Ordering Procedures only):

1. All CAG A–L post offices must requisition postage stock in no less than the minimum quantities shown.
2. Authorized CAG A–G post offices needing more than the maximum quantities should refer to the preceding chart, “Stamps and Stationery — Bulk Ordering Quantities From Suppliers,” and order from the appropriate source.
3. Standard Field Accounting Procedures (SFAP) offices must adhere to the minimum ordering quantity listed above, but an SFAP office may order as needed with no maximum limits.
4. Stamp distribution network (SDN) post offices must adhere to the minimum ordering quantity listed above, but an office requisitioning from an SDN may order as needed with no maximum limits.

*POS ONE UPDATE***POS ONE Sites Automated PS Form 1538**

Effective immediately, IBM POS ONE sites using the PO Box module and NCR sites are authorized to use the system-generated PS Form 1538, *Receipts for Post Office Box/ Caller Service Fees*, in lieu of the manually prepared PS Form 1538.

Missing, Lost, or Stolen Canadian Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service employees responsible for accepting and cashing Postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first nine digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

800 Number Available to Verify Canadian Money Orders

The Canada Post Corporation is now providing an 800 number that cashing agents can call to verify the validity of Canadian Postal Money Orders. The number is 1-800-563-0444.

This 800 number is printed on the back of the Canadian Postal Money Orders.

— *Inspection Service, 5-6-99*

Invalid Express Mail Corporate Account Numbers

These numbers are to be posted and used by retail/acceptance clerks. This listing supersedes all previous notices, which must be destroyed. Retail/acceptance clerks must not accept Express Mail shipments bearing any of the invalid numbers (listed below) in the "customer number" or "agreement number" section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Service Agreement make up the Corporate Account Number.

International Mail

ICM UPDATE

International Customized Mail

On March 15, 1999, the Postal Service entered into an International Customized Mail (ICM) service agreement with a qualifying mailer. In accordance with *International Mail Manual* (IMM) 294, the Postal Service hereby makes public the following information concerning the agreement:

- a. Term:** March 29, 1999, through September 27, 1999.
- b. Type of mail:** *Documents and printed matter.*
- c. Destination countries:** Worldwide, except Canada.
- d. Service provided by the Postal Service:** The Postal Service has agreed to:
 1. Furnish the mailer with the letter trays and other supplies that the mailer is required to use for qualifying mail.
 2. Provide the mailer or mailing agent with the training necessary for them to prepare ICM mail in conformity with the requirements for qualifying mail.
 3. Arrange with air and surface carriers, as appropriate, for qualifying mail to be transported internationally for delivery by the foreign postal authority.
- e. Minimum volume commitments:** The mailer has agreed to a minimum annual revenue requirement of \$100,000 using Express Mail International Service.
- f. Worksharing:** The mailer has agreed to:
 1. Package mail in accordance with the applicable Postal Service requirements set forth in the IMM.
 2. Pay postage for qualifying mail in accordance with the IMM using a system approved by the appropriate Rates and Classification Service Center (RCSC).
 3. Maintain an established number of pieces over the course of the service agreement.
 4. Tender qualifying mail to the Postal Service at the designated Postal Service facility.
 5. Coordinate a schedule of mailings and provide notifications as specified in the service agreement.
 6. Provide the Postal Service with a performance review after the expiration of this agreement.

IMM REVISION

International Mail — Mailing to Cambodia

Effective June 1, 1999, the *International Mail Manual* (IMM) Country Conditions for Mailing to Cambodia are revised to reflect the availability of air and surface small packet service, registered mail service, and return receipt service. Return receipt service is only available in conjunction with registered mail.

These revisions will be incorporated into the printed version of IMM Issue 22 and the online IMM, which can be accessed via Postal Explorer (<http://pe.usps.gov>).

STAMP ANNOUNCEMENT 99-23

Prostate Cancer Awareness Commemorative Stamp

Copyright USPS 1998

The Postal Service will issue a 33-cent *Prostate Cancer Awareness* self-adhesive pane of 20 commemorative stamps (Item Number 448200) in Austin, TX, on May 28, 1999. The stamp, designed by Michael Cronan of San Francisco, CA, goes on sale nationwide on May 29.

This issuance is designed to heighten awareness about the importance of early detection of prostate cancer. Prostate cancer is the second leading cause of cancer deaths in men (after lung cancer), and it is the most common cancer in American men (excluding skin cancer). Approximately one out of every five American men will develop prostate cancer in their lifetime. Although the U.S. Postal Service is not endorsing any particular testing method, the National Cancer Institute recommends that men over 50 should discuss the need for regular tests with their health care provider.

Issue:	<i>Prostate Cancer Awareness</i>
Item Number:	448200

Sale Date:	May 28, 1999
Nationwide Sale Date:	May 29, 1999

How to Order the First Day of Issue Postmark

Customers have 30 days to obtain the first day of issue postmark by mail. They may purchase the new stamp at their local post office, affix the stamps to envelopes of their choice, address the envelopes (to themselves or others), and place them in a larger envelope addressed to:

PROSTATE CANCER AWARENESS STAMP
POSTMASTER
8225 CROSS PARK DR
AUSTIN TX 78710-9991

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked by June 27, 1999.

Stamp Fulfillment Services (SFS) also offers first day covers for new stamp issues and postal stationery items postmarked with the official first day of issue cancellation. Each item has an individual catalog number and is offered in the quarterly *USA Philatelic* catalog. Customers may request a free catalog by telephoning 1-800-STAMP24 or by writing to:

INFORMATION FULFILLMENT
DEPT 6270
US POSTAL SERVICE
PO BOX 419014
KANSAS CITY MO 64141-6014

First day covers remain on sale for at least 1 year after the stamp's issuance.

Distribution

Stamp distribution offices (SDOs) and stamp distribution networks (SDNs) will receive approximately one-third of their standard automatic distribution quantities for self-adhesive sheet stamps. Distributions are rounded up to the nearest master carton size (40,000 stamps).

Initial Supply to Post Offices

SDOs and SDNs will make a subsequent automatic distribution to post offices for one-quarter of their standard automatic distribution quantities using PS Form 3309, *Advice of Shipment/Stamp Invoice*, and PS Form 17, *Stamp Requisition*. SDOs and SDNs must not distribute stamps to post offices before May 19, 1999.

Philatelic Requirement

SDOs and SDNs with authorized philatelic centers will receive an automatic distribution of these stamps in ten positions for subsequent distribution to each philatelic window.

SDOs and SDNs That Serve This Many Philatelic Windows	Will Receive This Quantity of the <i>Prostate Cancer Awareness</i> Commemorative Stamp, Item Number 448200
1	20,000
2	40,000
3	60,000
4	80,000
5 to 6	120,000
7 to 9	180,000
10 to 12	240,000
13 to 16	320,000
17 to 20	400,000

Additional Supply

Post offices requiring additional stamps must requisition them from their designated SDO or SDN using a PS Form 17. SDOs requiring additional stamps must order them from the appropriate accountable paper depository (APD) using a PS Form 17.

For filling supplemental orders, San Francisco, CA; Chicago, IL; Memphis, TN; Washington, DC; and New York, NY, APDs will receive 1,920,000 stamps, and Denver, CO, APD will receive 560,000 stamps.

Sales Policy

All post offices must acquire and maintain a supply of each new commemorative stamp as long as customer demand exists or until the stamp is officially withdrawn from sale, generally 1 year from date of issue. If supplies run low, post offices must reorder additional quantities using their normal ordering procedures.

— *Stamp Services, Marketing, 5-6-99*

STAMP ANNOUNCEMENT 99-24

Lincoln Envelope

Copyright USPS 1998

The Postal Service will issue a 33-cent *Lincoln* envelope (Item Numbers 2136 and 2634 regular; Item Numbers 2137 and 2635 window) in Springfield, IL, on June 5, 1999. The envelope, designed by Richard Sheaff of Scottsdale, AZ, goes on sale nationwide on June 6.

A self-taught lawyer with only 1 year of frontier schooling, Abraham Lincoln rode into Springfield, Illinois, in 1837. Prior to being elected the sixteenth President of the United States in 1860, he enjoyed a great success as a lawyer and was considered one of the state's best courtroom attorneys. But only a few days after his greatest triumph — the end of the Civil War — President Lincoln died from an assassin's bullet on April 15, 1865. This stamped envelope design is based on a hexagonal souvenir title that was made by the Mosaic Tile Company of Zanesville, Ohio.

How to Order the First Day of Issue Postmark

Customers have 30 days to obtain the first day of issue postmark by mail. They may purchase the new envelope at their local post office, address the envelopes (to themselves or others), and place them in a larger envelope addressed to:

LINCOLN ENVELOPE
 POSTMASTER
 2105 E COOK ST
 SPRINGFIELD IL 62703-9991

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked by July 5, 1999.

Stamp Fulfillment Services (SFS) also offers first day covers for new stamp issues and postal stationery items postmarked with the official first day of issue cancellation. Each item has an individual catalog number and is offered in the quarterly *USA Philatelic* catalog. Customers may request a free catalog by telephoning 1-800-STAMP24 or by writing to:

INFORMATION FULFILLMENT
 DEPT 6270
 US POSTAL SERVICE
 PO BOX 419014
 KANSAS CITY MO 64141-6014

First day covers remain on sale for at least 1 year after the stamp's issuance.

Distribution

Stamp distribution offices (SDOs) and stamp distribution networks (SDNs) will receive an automatic distribution of *Lincoln* envelopes based on the automatic distribution schedule for commemorative envelopes. The shipments began April 19, and will be completed June 11.

Initial Supply for Post Offices

Post offices with authorized philatelic centers will receive an automatic distribution from their SDO or SDN based on their previously established quantities. All other post offices must requisition an initial quantity of envelopes from their SDO or SDN by submitting a separate PS Form 17, *Stamp Requisition*. SDOs and SDNs must not distribute envelopes to post offices before May 26. *Lincoln* envelopes are available in the styles and sizes listed below.

Item Number	Description	Size	Price of Each Plain Envelope	Price of Plain Envelope Per Box of 500
2136	Lincoln (Regular)	10	\$0.40	\$176.50
2634	Lincoln (Regular)	6 3/4	0.40	173.50
2137	Lincoln (Window)	10	0.40	176.50
2635	Lincoln (Window)	6 3/4	0.40	173.50

Additional Supply

SDOs, SDNs, and authorized CAG A–G post offices requiring additional bulk quantities of envelopes should submit a PS Form 3205, *Requisition for Plain Stamped Envelopes*, to:

STAMP FULFILLMENT SERVICES
 PO BOX 419178
 KANSAS CITY MO 64179-0988

PS Forms 3205 should be submitted according to the following schedule:

For Week	Requisitions Arriving	Envelopes Will Be Shipped Week Of
2	May 31	June 14
3	June 7	June 21
4	June 14	June 28
1	June 21	July 5

Philatelic Requirement

SDOs and SDNs with authorized philatelic centers must provide subsequent distribution of envelopes to each philatelic center from their initial distribution.

Personalized Stamped Envelopes

Lincoln envelopes also are available with a preprinted return address. Customers should indicate envelope styles, correct item numbers, quantities, and prices as noted below on a PS Form 3203, *Personalized Stamped Envelopes Order Form*. Mail the form with proper remittance in a preprinted reply envelope or plain envelope addressed to:

7231 STAMP FULFILLMENT SERVICES
 PO BOX 7247
 PHILADELPHIA PA 19170-7247

Customers must pay by check, money order, or credit card (Visa, MasterCard, Discover, or American Express). Envelopes will not be shipped before June 7. Orders will be mailed 3 to 4 weeks from date of receipt.

Item Number	Description	Size	Price of Personalized Envelope Per Box of 500
2136	Lincoln (Regular)	10	\$180.00
2634	Lincoln (Regular)	6 3/4	179.00
2137	Lincoln (Window)	10	180.00
2635	Lincoln (Window)	6 3/4	179.00

Item Number	Description	Size	Price of Personalized Envelope Per Box of 50
2135	Lincoln (Regular)	10	\$19.75
2621	Lincoln (Regular)	6 3/4	19.50
2132	Lincoln (Window)	10	19.75
2622	Lincoln (Window)	6 3/4	19.50

Shipping and handling charges must be included for each address printed. For orders greater than eight boxes of 50, a box of 500 is the better buy.

Amount of Personalized Envelope Order	Shipping and Handling Charges for Boxes of 50
\$0.00–\$20.00	\$3.20
\$20.01–\$50.00	\$4.20
\$50.01–\$80.00	\$5.20
\$80.01–\$110.00	\$6.20
\$110.01–\$140.00	\$7.20
\$140.01–\$170.00	\$8.20

Shipping and Handling Charges for Boxes of 500	
1 box	\$5.20
2 or more boxes	\$9.20
Maximum shipping charge of \$9.20 for each address printed.

Pictorial Cancellations Announcement

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage (33 cents per envelope or 20 cents per postcard). Items

submitted for cancellation may not include postage issued after the date of the requested cancellation. Such items will be returned unserviced.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

After applying the pictorial cancellation, the Postal Service returns the envelope or postcard through the mail. Customers who want their serviced item returned under protected cover should include a larger, stamped, self addressed envelope.

Post Offices

ALL OFFICES WITH CITY MOTORIZED, RURAL, OR HIGHWAY CONTRACT BOX DELIVERY ROUTES

Mailbox Improvement Week, May 17–22

Each year, the Postal Service designates the third full week of May to encourage customers on city motorized, rural, or highway contract box delivery routes to examine and, where necessary, improve the appearance of their mailboxes. Neat, attractive mailboxes make a significant contribution to the appearance of the countryside and to streets in suburban areas. Mailbox Improvement Week, May 17–22, calls attention to the need for providing mailboxes that are:

1. Designed to protect the mail from weather.
2. Safe to use.
3. Conveniently located.
4. Neat in appearance.

Mailboxes that meet these four important requirements help delivery and collection operations and improve service to the entire route. There are two approved styles of curbside mailboxes: (1) traditional design, in three standard sizes (see Exhibit A); and (2) contemporary design, also in three sizes (see Exhibit B).

Notice 209

Notice 209, *Mailbox Improvement Week* (July 1997) (NSN 7610-03-000-9145), can be requisitioned from the material distribution center (MDC) by submitting PS Form 7380, *MDC Supply Requisition*. Postmasters should send the notice to all rural and highway contract box delivery route customers the week before Mailbox Improvement Week to alert them of the event.

City Motorized, Rural, and Highway Contract Box Delivery Routes

Customers must use *only* approved traditional or contemporary curbside mailboxes for new installations or replacements. However, customers may use custom-built curbside mailboxes if the local postmaster gives prior approval and the mailbox conforms generally to the same requirements as approved manufactured curbside mailboxes, relative to the flag, size, strength, and quality of construction. Carriers on motorized city routes may continue to serve mailboxes that are designed primarily for use by customers receiving door delivery and that have been erected and served under previous regulations (see Exhibit C). However, carriers should advise customers they may use only approved curbside mailboxes when replacing these types of mailboxes. A list of approved manufacturers of traditional curbside mailboxes appears in this article.

Exhibit A

Exhibit B

Exhibit C

For motorized city routes, and where the use of street names and house numbers is authorized on rural and highway contract box delivery routes, the mailbox must display the number on the side of single mailboxes or on the door of grouped mailboxes. If the mailbox is on a street other than the one on which the customer resides, the street name and house number must be on the mailbox. When rural and highway contract box delivery route customers have assigned box numbers, the numbers must appear on the side of single mailboxes or on the doors of grouped mailboxes, visible to the approaching carrier. The street number, box number, and/or any other address information must be inscribed in contrasting color in neat letters and numerals not less than 1 inch in height. In all instances, placing the owner's name on the box is optional.

Motorized city, rural, and highway contract box delivery route customers should be encouraged to group mailboxes whenever practical, especially where many mailboxes are located at or near crossroads, service turnouts, or similar locations. Customers should also paint mailboxes and supports/posts and keep them rust-free. Advertising on mailboxes and supports/posts is prohibited.

In areas where snow removal is a problem, the Postal Service suggests using a semi-arch or extended arm-type support (see Exhibit D), which allows snowplows to sweep near or under mailboxes without damaging supports and provides easy access to the mailboxes by carriers and customers.

Exhibit D

Generally, customers should install mailboxes with the bottom of the mailbox at a vertical height of between 3 1/2 to 4 feet from the road surface. However, because of varying road and curb conditions and other factors, the Postal Service recommends that customers contact the postmaster or carrier before erecting or replacing mailboxes and supports.

Location

Customers must place mailboxes on motorized city, rural, and highway contract box delivery routes so a carrier can safely and conveniently serve them without leaving his or her vehicle. The mailboxes must be on the right-hand side of the road in the carrier's travel direction in all cases where traffic conditions make it dangerous for the carrier to drive to the left to reach the mailboxes, or where doing so would constitute a violation of traffic laws and regulations (*Postal Operations Manual* (POM) 632.6 exempts apartment houses or other multiple dwellings from this rule). On new rural and highway contract box delivery routes, all mailboxes must be on the right-hand side of the road in the direction of the route line of travel. Mailbox placement must conform with state laws and highway regulations. City motorized, rural, and highway contract box delivery route carriers are subject to the same traffic laws and regulations as other motorists. Customers must remove obstructions, including vehicles, trash cans, and snow, that impede efficient delivery. Except when a mailbox is temporarily blocked, carriers must have access to the mailbox without leaving the vehicle unless authorized to dismount.

Mailbox Supports

Posts and other supports for curbside mailboxes are owned and controlled by customers who are responsible for ensuring that posts are neat and adequate in strength and size. Customers should be discouraged from using massive mailbox supports that, when struck, could damage vehicles and cause injury. Heavy metal posts, concrete posts, and miscellaneous items of farm equipment, such as milk cans filled with concrete, are examples of potentially dangerous supports. The ideal support is an assembly that bends or falls away when struck by a vehicle. Post or support designs may not represent effigies or caricatures that disparage or ridicule any person. Customers may attach the box to a fixed or movable arm. POM 632.5 specifies postal regulations regarding construction and placement of mailboxes and supports on motorized city, rural, and highway contract box delivery routes.

The Federal Highway Administration (FHWA) has determined that mailbox supports no larger than 4" x 4", or a 2-inch diameter standard steel or aluminum pipe, buried no more than 24 inches, should safely break away if struck by a vehicle. The mailbox must also be securely attached to its post to prevent separation if struck. See Exhibits E (page 85) and F (page 85) for examples of mailbox mountings and supports suggested by the FHWA.

CBUs and All-Weather Parcel Lockers

During Mailbox Improvement Week, postmasters, managers, or their designees must review all cluster box units (CBUs), neighborhood delivery and collection box units (NDCBUs), and all-weather parcel lockers in their delivery areas to identify any hazards or irregularities, and they must record the results of the review. PS Form 8143, *Equipment Checklist and Followup Review*, is the suggested format to use in conducting and recording the reviews. PS Form 8143 is available only in this *Postal Bulletin* (see Exhibit G on page 93) and must be reproduced locally. Employees conducting the reviews must complete PS Form 1624, *Delivery/Collection Equipment Work Request* (NSN 7530-01-000-9392), for any equipment that poses a safety hazard to postal customers or employees. Use PS Form 7380 to requisition PS Form 1624 from the MDC.

Equipment Review Procedure

Employees must use the CBU and parcel locker equipment checklist and follow-up review procedure when examining the condition of CBUs, NDCBUs, and parcel lockers. They must:

1. List the unit location, type, and manufacturer in the left-hand column (list serial number where available).
2. Assign each checklist item one of the following ratings:
 - a. OK — Equipment does not need attention for this item.
 - b. X — Equipment needs attention for this item.
 - c. NA — Item does not apply to this particular piece of equipment.
3. When examining the equipment, use the instructions below to complete PS Form 8143:
 - a. Check equipment. It should be straight, vertical, and firmly mounted. Attempt to shake the unit; it should hardly move. If equipment is not firmly mounted, note whether it is the connection at ground level that is loose or the connection between the pedestal and customer compartments that needs attention.
 - b. Check visible welds. Make note of cracked, broken, or rusted welds. Tap the pedestal with a light-weight hammer, especially along the seams, to check for corrosion from the inside out or perforated corrosion.
 - c. Observe whether the carrier access door is locked and secure. Open it and observe whether it is bowed or warped and whether the door and locking bar operate smoothly. With the carrier access door open, check whether restraining devices prevent the door from blowing closed. These devices, which may have to be set manually, should be serviceable.
 - d. Ensure that the arrow lock operates smoothly and that the mounting screws are tight. The cover that protects the arrow lock from customer tampering must be serviceable and firmly attached.
 - e. Ensure that all customer access doors are present, closed, and locked with no visible damage or signs of forced entry. Check that customer door numbers are readable.
 - f. Ensure that the exterior surface of the unit is free from rust and graffiti.
 - g. Examine the unit. Check it for defects or damage and whether it reflects a proper Postal Service image.
 - h. Check whether the unit and/or any protecting structure appears watertight and in good repair. Check whether there are any noticeable watermarks inside the unit or any wet mail.
 - i. Note any other conditions that require attention. Also, look for signs of vandalism such as pry marks on doors and locks.
4. Record the results of the inspection on the checklist.
5. Submit the completed PS Form 1624 for each unit reviewed to the maintenance office responsible for CBU installation and/or repair in the area.

Carriers must note equipment deficiencies and report them to the postmaster, supervisor, or designee. The postmaster or designee must then submit PS Form 1624 reporting the equipment defects. In addition, carriers should complete PS Form 1767, *Report of Hazard, Unsafe Condition, or Practice* (NSN 7530-01-000-9422), for items that pose an immediate threat to safety, such as an improperly secured or leaning CBU. The postmaster or supervisor must immediately notify by telephone the office responsible for repair of reported hazards. The postmaster or supervisor must follow up to ensure that the work is satisfactorily completed and documented. The office responsible for repair should use its local buying authority to accomplish the repairs.

Effective April 1999, the following are approved manufacturers of centralized delivery equipment:

Note: Apartment style boxes are approved for installation; however, the Postal Service is prohibited from purchasing this equipment. You may order replacement parts for postal-owned equipment that was installed in the past.

State and Local Regulations

Some states have enacted laws that are more stringent and specific about the type of mailbox that may be used, the post or support that must be used to mount the mailbox, and the location of the delivery equipment. Regulations and recommendations published in this notice might not reflect appropriate requirements for your area. When providing guidance to the general public concerning mailbox placement and replacement, advise them not only of postal regulations but also of any mailbox regulations that you know have been enacted by state or local authorities.

Publicity

Postmasters should give these guidelines and suggestions maximum local publicity. Consult your area Corporate Relations Center for further guidance and assistance in publicizing Mailbox Improvement Week. The news release on page 95 is provided for postmasters to distribute to daily or weekly newspapers or broadcast stations in their delivery area to promote Mailbox Improvement Week. Postmasters should retype the release double-spaced on Postal Service letterhead. It may also be helpful to alert the media to locations of particularly interesting mailboxes in your delivery area.

Responsibility

Motorized city, rural, and highway contract box delivery route carriers must cooperate to ensure the success of this endeavor and later report the results to the postmaster. Also, postmasters should use the most up-to-date list of approved manufacturers and mailbox suppliers when providing motorized city, rural, or highway contract box delivery route customers with information about the type of box to install.

Local post office contact and number

Mailbox Improvement Week Arrives in Time for Spring Cleaning

The U.S. Postal Service is asking all [city name] homeowners to inspect and repair their mailboxes during Mailbox Improvement Week, May 17–22, says Postmaster [full name].

“Repairing suburban and rural mailboxes improves the appearance of our community and makes delivering and receiving mail safer for our carriers and customers,” [last name] says.

The Postal Service makes this annual request because of the wear and tear that occurs to mailboxes every year. [If applicable] “This is especially important after the effects of last winter,” [he/she adds].

Some of the typical activities that may need to be done include:

- Replacing loose hinges on a mailbox door.
- Repainting a mailbox that may have rusted or started peeling.
- Remounting a mailbox post if loosened.
- Replacing or adding house numbers.

“If a homeowner plans to install a new mailbox or replace a worn one, he or she must use only Postal Service-approved traditional or contemporary mailboxes,” said [last name]. “Customers should be careful when purchasing curbside mail receptacles because the use of unapproved boxes is prohibited. Customers may use a custom-built mailbox, but they must consult with my office to ensure it conforms to guidelines applying to flag, size, strength, and quality of construction.”

“For more information on the use of names or numbers on mailboxes, or answers to any other questions, call me at [phone number] or stop by the [city name] Post Office at [address].”

ALL OFFICES WITH CITY MOTORIZED, RURAL, OR HIGHWAY CONTRACT BOX DELIVERY ROUTES

Curbside Mailboxes

The Postal Service plans to review and revise USPS STD-7A, *Mailboxes, City and Rural Curbside*, to keep the standard current with contemporary mailing requirements while maintaining the highest possible level of service for our customers. This specification governs the design of all curbside mailboxes. As noted in *Postal Operations Manual (POM) 632.11b*, postal regulations require that all customers who are authorized curbside delivery must erect mailboxes that comply with USPS STD-7A. There are currently 36 approved manufacturers for curbside boxes listed in POM 632.518 (see page 86 in this *Postal Bulletin*).

As part of the revision process, the Postal Service has temporarily suspended action on all applications for approval of curbside mailbox designs until a new standard is issued. Copies of the existing specification will generally not be issued to the public.

To accomplish this revision, a “negotiated rulemaking” process will be used. Negotiated rulemaking is a consensus-based alternative to traditional processes for developing agency standards, rules, and policies. It seeks to bring together representatives of the Postal Service and other affected interests to negotiate the contents of a proposed new standard to ensure that our management associations, carrier unions, mailbox manufacturers, and all other interested parties are represented in a way that allows their concerns and suggestions to be fully reflected in a revised design standard. The Postal Service expects to have a revised specification issued by June 2000.

Postal Employees

UPDATE

Thrift Savings Plan Open Season and Implementation of *PostalEASE*

The next Thrift Savings Plan (TSP) open season is May 15, 1999, through July 31, 1999. TSPBK08, *Summary of the Thrift Savings Plan for Federal Employees* (NSN 7530-03-000-9364; Unit of Issue is EA; bulk pack quantity is 150; edition date March 1997), provides a good overview of TSP. The following information should assist personnel offices in conducting this open season.

PostalEASE Replaces TSP-1

Beginning with this open season, the new *PostalEASE* telephone enrollment system is the method employees must use to make TSP open season elections. Personnel and employing offices must not distribute the TSP-1, *Election Form*, to employees for making TSP open season elections. TSP-1 will no longer be stocked at the material distribution center (MDC) in Topeka, KS. Headquarters Compensation is communicating administrative details and an overview of the communications plan for *PostalEASE* to Human Resources in district and area offices.

Direct Mailings to Employees

PostalEASE direct mailings include the following:

- Career employees receive *PostalEASE* instructions from the national level at their mailing addresses of record by the beginning of TSP open season.
- Career employees listed in Postal Service records as deaf or hard of hearing receive a letter describing an alternate *PostalEASE* process from the national level at their mailing address of record by the beginning of TSP open season.

TSP direct mailings include the following:

- Career employees receive a direct mailing from the national level of leaflet TSP0599, *TSP Open Season* (NSN 7530-04-000-6449; unit of issue is EA; bulk pack quantity is 4,200), at their mailing address of record by the end of April.
- Career employees newly eligible to participate in TSP also receive by the end of May a direct mailing from the national level of an enrollment package that contains a cover letter and TSPBK08, *Summary of the Thrift Savings Plan for Federal Employees* (March 1997).

The return address for undeliverable *PostalEASE* mailings described above and TSP enrollment packages for newly eligible employees is the employing office of record.

The disposition of returned items is at the discretion of the Customer Service and Sales district office or other administering office. Forwarding a returned enrollment package to an employee offers that employee an opportunity to submit a correct PS Form 1216, *Employee's Current Mailing Address* (NSN 7530-02-000-7354; Quick Pick number is 118; unit of issue is SE; bulk pack quantity is 4,000).

Eligibility

Career employees hired before January 1, 1999, are eligible to participate in this open season. Also, career employees hired before July 1, 1999, and previously eligible to participate in a TSP open season during a prior appointment are eligible.

All employees who participated in TSP and stopped their TSP contributions after January 31, 1999, are not eligible to participate in this TSP open season. They must wait for the TSP open season beginning November 15, 1999.

Effective Dates

The windows of opportunity for employees to make TSP open season elections via *PostalEASE*, which automates the processing of TSP elections, and the resulting effective dates are as follows:

If employee enters TSP open season election via <i>PostalEASE</i> from . . .	Then effective date will be . . .
5-15-99 8:00 a.m. through 7-13-99 12:00 noon Central Time (CT)	7-3-99 (PP 15-99)
7-13-99 12:01 p.m. through 7-27-99 12:00 noon CT	7-17-99 (PP 16-99)
7-27-99 12:01 p.m. through 7-31-99 5:00 p.m. CT	7-31-99 (PP 17-99)

Because *PostalEASE* provides employees the ability to complete a TSP open season election without contacting the local personnel office and automates the processing of such elections, it should minimize usage of PS Form 6886, *Thrift Savings Plan Request for Retroactive Contributions*, for TSP open season elections. Personnel offices have the authority to determine whether an administrative error has occurred; if an administrative error has delayed a TSP open season election past the appropriate effective date, personnel and the employee must complete PS 6886 and submit it to the Minneapolis Accounting Service Center (ASC). The effective dates for elections delayed due to administrative error must be made retroactive to July 3, July 17, or July 31, 1999,

depending on the date the employee would have otherwise entered his or her open season election via *PostalEASE*. **(PS Form 6886, which was published in *Postal Bulletin* 21665 (3-31-88), must be reproduced locally as needed.)** Personnel offices also have the authority to determine whether a belated open season election opportunity exists. If so, personnel must submit the employee's election to the Minneapolis ASC for processing, in accordance with administrative instructions provided to Human Resources regarding *PostalEASE*. Belated open season elections are not retroactive in most circumstances.

Note: Processing deadlines and the closing date of this TSP open season require using a third pay period effective date for elections received from 12:01 p.m. CT on July 27 through 5:00 p.m. CT on July 31, 1999.

Open Season Materials

In addition to the direct mailing of TSP information to employees, the MDC will automatically distribute residual supplies of the open season leaflet (TSP0599) and summary (TSPBK08) to Human Resources at Customer Service and Sales district offices, area offices, processing and distribution centers, bulk mail centers, airport mail centers, remote encoding centers, the Employee Service Center for the DC Metro Area, Office of Inspector General, Inspection Service divisions, Headquarters, and selected Headquarters field units. (The August 1996 and July 1995 versions of TSPBK08 are still valid and may be used if the March 1997 version is

unavailable. All prior versions of this item are obsolete and must be discarded or recycled where appropriate.) The MDC expects to distribute the extra materials listed above by mid-June 1999. Offices that would like any other TSP materials for use during the open season must order a supply from the MDC, which will fulfill the order if the materials have been provided by TSP.

Participant Statements

Employees with a TSP account will receive a participant statement from the TSP Service Office in May 1999.

Publicity

Human Resources at Customer Service and Sales district offices, area offices, processing and distribution centers, bulk mail centers, airport mail centers, remote encoding centers, Office of Inspector General, Inspection Service divisions, Headquarters, and selected Headquarters field units will receive a supply of posters this open season from TSP. Installations that receive the posters must widely distribute them and post them on bulletin boards.

To assist in publicizing the TSP open season, all offices must post the open season notice on page 111 of this *Postal Bulletin* and the current TSP fact sheet on bulletin boards through July 31, 1999.

— *Compensation, Human Resources, 5-6-99*

OSHA UPDATE

Upkeep of OSHA Log 200 and Presence of OSHA Blue Book Required at Each Facility

All line supervisors, postmasters, and managers are responsible for the proper preparations and maintenance of the Occupational Safety and Health Administration (OSHA) Log 200, *Log and Summary of Occupational Injuries and Illnesses*. The Log 200 is not stocked at the material distribution center (MDC) but is available for downloading at <http://www.osha.gov/oshstats/recordkeep.html>.

To assist you in meeting this requirement, the OSHA "Blue Book," *Recordkeeping Guidelines for Occupational Injuries and Illnesses*, is now available from the MDC. At least one book must be at each location where one or more employees work. The book should be kept near the OSHA Log 200 for ready access.

Copies of the "Blue Book" may be ordered from the MDC using Touch Tone Order Entry by calling 1-800-332-0317 (option 1, then option 2), faxing a request to 785-861-2939, or mailing a PS Form 7380, *MDC Supply Requisition*, to:

CORRECTION

Federal Employees' Group Life Insurance Program — 1999 Open Enrollment Period

The article and notice about the Federal Employees' Group Life Insurance Program 1999 Open Enrollment Period, published in *Postal Bulletin* 21996 (4-22-99) on pages 107–111, contained incorrect information and is amended as follows.

1. The closing date of the open enrollment period is extended to Friday, July 30, 1999, for postal employees and should be shown as such throughout the article and notice.
2. The correct address for the Office of Personnel Management Internet website is www.opm.gov/insure/life/fegli99/postal.htm. It is also available on the Postal Service Intranet at blue.usps.gov/hrisp/comp.

3. Item 1b — FE 74A is the correct FEGLI '99 Open Enrollment Period Pamphlet for Postal Service Inspectors and Office of Inspector General employees, and FE 74B is the correct pamphlet for other career employees.

All offices must post the revised FEGLI Open Enrollment Period notice (see page 109) on bulletin boards through Friday, July 30, 1999. Discard the previously issued notice.

— *Compensation, Human Resources, 5-6-99*

Federal Employees' Group Life Insurance (FEGLI)

1999 Open Enrollment Period

April 24 through July 30, 1999

WHAT: The Office of Personnel Management (OPM) has scheduled a Federal Employees' Group Life Insurance (FEGLI) Program open enrollment period. Employees may elect new coverage as provided under the Federal Employees' Life Insurance Improvement Act (Public Law 105-311), enacted on October 30, 1998.

WHEN: Employees who wish to make an election must submit the special FEGLI '99 Open Enrollment Period Election Form to the local personnel office no later than close of business on Saturday, July 30, 1999. **Note:** OPM is publicizing the open enrollment period as April 24 through June 30, 1999. However, the Postal Service is authorizing an extension through July 30 under belated election procedures due to a delay in receiving enrollment materials from OPM.

ELIGIBILITY: All career employees.

MAILINGS TO EMPLOYEES: Career employees will receive two mailings at their addresses of record, containing the following items:

- By April 30, a letter and FEGLI '99 Open Enrollment Period Pamphlet with an overview of available coverage options.
- By May 24, an information package with the April 1999 FEGLI Booklet and the special FEGLI '99 Open Enrollment Period Election Form.

CHOOSING COVERAGE: Employees satisfied with current coverage should do nothing. Only employees who wish to change existing coverage must complete and submit the special FEGLI '99 Open Enrollment Period Election Form to the local personnel office by close of business on Friday, July 30, 1999. **Note:** Career postal employees are covered for Basic Life automatically (unless coverage is waived).

Eligible employees may elect to purchase:

- Option A — Standard (\$10,000).
- Option B — Additional (up to five multiples of basic salary).
- Option C — Family (up to five multiples of \$5,000 for spouse and \$2,500 for each child).
- Any combination of the three options.

EFFECTIVE DATE: Subject to meeting pay and duty status requirements, the effective date for coverage elected during the 1999 Open Enrollment Period is April 23, 2000.

MORE INFORMATION: Read the booklet mailed to you. If needed, contact your local personnel office. You may refer to OPM's Internet website at www.opm.gov/insure/life/fegli99/postal.htm or the Postal Service's Intranet website at blue.usps.gov/hrisp/comp.

Please Post On All Bulletin Boards Through July 30, 1999

Thrift Savings Plan Open Season and *PostalEASE*

What's New

Career employees must use the new *PostalEASE* telephone enrollment system during the Thrift Savings Plan (TSP) open season if they wish to begin contributing to TSP, change the current TSP contribution amount or percentage, change the investment of future TSP contributions, or cancel TSP contributions.

Career employees who have trouble using *PostalEASE*, or who are unable to use a telephone because they are deaf or hard of hearing or because of a medical reason, may contact the local personnel office.

When

May 15, 1999, through July 31, 1999.

Eligibility

All career employees hired before January 1, 1999.

Also, career employees hired before July 1, 1999, previously eligible for TSP during a prior appointment.

PostalEASE and TSP Open Season Information

PostalEASE instructions, including personal identification number (PIN) and toll-free telephone number, are mailed to career employees in an envelope marked "PostalEASE Information Enclosed."

A letter describing an alternate *PostalEASE* process is mailed to employees listed in Postal Service records as deaf or hard of hearing.

A TSP leaflet is mailed to all career employees.

A TSP enrollment package is mailed to *newly eligible* career employees.

If any of these mailings are not received by June 4, 1999, contact the local personnel office.

Closing Date and Time

PostalEASE closes at 5:00 p.m. Central Time on July 31, 1999, for TSP open season elections.

PLEASE POST ON ALL BULLETIN BOARDS THROUGH JULY 31, 1999

Retail

What's in Store

A POP change

Keep in mind

Retail units take note. Point of Purchase (POP) signage for the Summer and Fall Drive Periods will be combined into one shipment. The aim is to reduce costs. The Summer/Fall POP kit will arrive in early June with POP scheduled to be displayed from June 21 through October 31. With the exception of one promotional menuboard panel for stamps, scheduled to be flipped over August 16, signage will not change out until the Holiday Drive Period, which begins November 1.

The Summer/Fall POP kit also includes holiday closing notices for the Independence Day, Labor Day and Columbus Day holidays.

PMGG

Look for info

Expedited/Package Services and the International Business Unit, through an international strategic alliance with DHL Worldwide Express, introduced Priority Mail Global Guaranteed (PMGG) on April 19.

PMGG is an enhanced international expedited service offering customers the lowest published rates for guaranteed delivery of nondutiable general correspondence to 18 countries and one territory in Western Europe. PMGG packages will be delivered to most cities within destination countries in 2 business days.

A list of these countries and a description of how PMGG works can be found in this issue of the *Postal Bulletin*. A list of participating offices and an outline of service terms are available on the website at <http://pmgg.usps.com>.

Check it out!

On the web

There's always something new on the Retail web page. Want to see the floor plan for POP signage for the Spring Drive Period (April 19 through June 20)? Go to <http://retail.usps.gov>. On the home page click on "Programs and Contacts," then "In-Store Management," and scroll down until you arrive at "Spring."

These POP elements also can be accessed through the following web address: <http://retail.usps.gov/html/programs/floorplans/mapspring.html>. (That's some address!)

If you're interested in reading what postal employees are saying about the new Handbook PO-130, *Postal Products and Services*, check out the scrolling screen on the Retail home page.

What's in Store

If you have any questions about the website, you can use the purple feedback button and complete the quick and easy online form, or contact Gail Breed at 202-268-3341.

Stamp release highlights

May stamp releases:

- * *Tropical Flowers*
- * *Mount Vernon Stamped Card*
- * *Niagara Falls*
- * *Mt. Rainier Stamped Card*
- * *Voyageurs National Park Aerogramme*
- * *John & William Bartram*
- * *Celebrate The Century™ — 1950s*
- * *Prostate Cancer Awareness*

1950s issued

The Postal Service will issue the *Celebrate The Century™ — 1950s* Commemorative Stamp souvenir sheet on May 26 in Springfield, MA. The stamps go on sale nationwide the same day and will be sold only as a souvenir sheet. No individual stamps are available. This sheet is the first in the CTC series that was voted on by the public. Leading up to this event will be the following unveilings of CTC — 1950s stamp subjects:

- * *Rocky Marciano*, May 7, Brockton, MA
- * *Rock 'n' Roll*, May 15, St. Louis, MO
- * *Desegregating Public Schools*, May 17, Topeka, KS
- * *Stock Car Racing*, May 22, Charlotte, NC

CTC Express

The Celebrate The Century Express will cross the "Show-Me State" during May. The train and its traveling stamp exhibit will stop in Jefferson City, MO (May 7–9), Independence, MO (May 12), and St. Louis (May 15–17). The Rock 'n' Roll stamp, a CTC — 1950s winner, will be unveiled in St. Louis during the CTC Express train's visit to the city on May 15. Chuck Berry is scheduled to perform at the festivities.

Chuck Berry!

Then it's on to the Land of Lincoln, with a visit to Springfield, IL (May 20–21).

How Priority Mail Global Guaranteed™ works:

Participating Offices

For a complete list of offices that offer Priority Mail Global Guaranteed, check the website at www.usps.com. Post office box lobby posters, take-one brochures, and menuboard panels should be on display in participating offices at this time.

Destination Countries

Delivery service will be offered to all locations in the following 19 countries in Western Europe:

- Austria
- Belgium
- Denmark
- Finland
- France
- Germany
- Gibraltar
- Ireland
- Italy
- Liechtenstein
- Luxembourg
- Monaco
- Netherlands
- Norway
- Portugal
- Spain
- Sweden
- Switzerland
- United Kingdom

Rates

Rates start at \$23 for nondutiable, general correspondence weighing 1/2 lb. or less, and go up to \$291 for a maximum of 70 lbs.

Delivery Guarantee

Priority Mail Global Guaranteed package will be delivered to most cities within destination countries in two business days or the United States Postal Service will refund the full amount of postage. Other delivery guarantees apply for areas outside of these cities. Retail clerks can furnish details. Other restrictions apply. For full information about the service guarantee, call 1-800-222-1811.

Track and Trace

Packages can be tracked by logging onto our website at www.usps.com or by calling our customer service center at 1-800-222-1811. Enter the tracking number located in the upper left corner of the mailing label receipt.

Extent of Liability

If a shipment is lost or damaged, our liability is limited to a maximum of \$100 for document reconstruction.

Supplies

Free envelopes and labels are available at participating post offices.
