Domestic Mail

DMM REVISION

Changes in Bulk Parcel Return Service

Effective October 3, 1999, *Domestic Mail Manual* (DMM) S924 is amended to provide for changes in the Bulk Parcel Return Service (BPRS). These changes will allow properly endorsed Standard Mail (A) machinable parcels to be returned to the original mailer as part of BPRS when recipients have opened, resealed, and redeposited the parcels in the mail without paying additional postage, and it is impracticable or inefficient for the Postal Service to seek payment of return postage from the recipient. These changes also allow mailers the option to provide at their own expense a label with a barcode that can be used by recipients when returning a parcel to a previously designated postal facility.

The Postal Service requested these changes to improve our operational efficiency when BPRS parcels are returned to the mailstream without the payment of postage after being opened by a recipient. The use of an optional label on a BPRS parcel will clearly indicate that the parcel is being returned as BPRS at the expense of the original mailer.

Other changes in S924 have been made to clarify existing BPRS procedures and requirements.

These revisions will appear in the next printed version of the DMM and are included in the monthly update of the online DMM available via Postal Explorer (<http://pe.usps.gov>).

S924 Bulk Parcel Return Service

1.0 BASIC INFORMATION

[Amend 1.1 to allow the remailing of opened parcels to read as follows:]

1.1 Description

Bulk Parcel Return Service (BPRS) allows mailers of large quantities of Standard Mail (A) machinable parcels that are either undeliverable-as-addressed or opened and remailed by

addressees to be returned to designated postal facilities. The mailer has the option of picking up all returned parcels from a designated postal facility at a predetermined frequency specified by the Postal Service or having them delivered by the Postal Service in a manner and frequency specified by the Postal Service. For this service a mailer pays an annual permit fee and a per piece fee for each parcel returned.

[Revise 1.2 to read as follows:]

1.2 Availability

A mailer may be authorized to use BPRS when the following conditions apply:

- a. All returned parcels are initially prepared as Regular or Nonprofit Standard Mail (A) and are machinable parcels as defined in C050.
- b. At least 10,000 Standard Mail (A) machinable parcels will be returned to a designated postal facility during a 12-month period.
- c. Parcels are returned to the mailer either because they are undeliverable-as-addressed or because they have been opened, resealed, and redeposited in the mail by the recipient and it is impractical or inefficient for the Postal Service to return them.
- d. Parcels bear one of the following BPRS endorsements (F010):
 "Return Service Requested — BPRS"
 "Address Service Requested — BPRS"
- e. Parcels have a return address that is in the delivery area of the post office that issued the BPRS permit.
- f. The postal facility designated for returned parcels is located in the United States, its territories or possessions, or is a U.S. military post office overseas (APO or FPO).
- g. The mailer has a valid postage due advance deposit account and pays the annual BPRS permit fee.
- h. BPRS parcels may be combined with the shipper paid forwarding service (F030).
- i. Standard Mail (A) parcels that qualify for a single-piece Standard Mail (B) rate under the applicable standards and that contain the name of the Standard Mail (B) rate in the mailer's ancillary service endorsement are not eligible for BPRS.

[Revise 1.3 to read as follows:]

1.3 Optional Label

An authorized BPRS permit holder has the option to use a label to identify BPRS parcels for return to a designated postal facility. The label is prepared at the mailer's expense and must meet all format requirements described in 4.0 and 5.0 and specifications in C820 for a postal routing barcode symbology used to produce a correct, readable barcode for the return address. Each label must be accompanied by complete instructions for its use.

[Remove current 1.4.]

2.0 PERMITS

[Revise 2.1 to read as follows:]

2.1 Application Procedures

To obtain a BPRS permit, a mailer must send a written request to the postmaster at each post office where parcels are to be returned. The request must include the following:

- a. Payment for the annual BPRS permit fee.
- b. Information pertinent to each requested delivery point that documents either the receipt of at least 10,000 machinable parcels originally mailed at Standard Mail (A) rates during the past 12 months, or that there are reasonable grounds to expect at least 10,000 machinable parcels originally mailed at Standard Mail (A) rates will be returned during the next 12-month period.
- c. A description of the returned parcels (e.g., piece size and packaging).
- d. A statement of the desired frequency and location of the parcel pickup or delivery point.
- e. Sample documentation that will be used to substantiate the number of parcels returned daily to each location.
- f. If labels will be furnished for returning opened parcels, sample labels prepared in accordance with 4.0 and 5.0 along with instructions for their use.
- g. A written statement agreeing to pay the per piece fee for each returned parcel from a centralized advance deposit account.

[Redesignate 2.2 as 2.4 and add new 2.2 as follows:]

2.2 Authorization

Upon approval of a mailer's request, the post office issues an authorization letter and provides a postage due service agreement with a BPRS permit number. The permit number is used for account administration only and is not for use on mail.

[Revise 2.3 to read as follows:]

2.3 Postage Due Service Agreement

A BPRS mailer will be required to sign a postage due service agreement with each post office that issues a permit for the return of BPRS parcels.

[Amend redesignated 2.4 to clarify permit renewal as follows:]

2.4 Permit Renewal

A post office provides BPRS permit holders with annual renewal notices advising that their permits are due to expire. A notice must be returned to the issuing post office with the fee payment or authorization for the postmaster to deduct the fee from the advance deposit account by the permit expiration date. Written authorization is not necessary for renewal of a permit if there is no change to the authorization on file at the post office where the parcels are returned. If a permit holder does not renew a BPRS permit after having been given notice, the USPS will endorse the mail "Bulk Parcel Return Service Canceled" and will charge postage due at the single-piece First-Class Mail or Priority Mail rate as appropriate for the weight of the piece. If the single-piece First-Class Mail or Priority Mail rate is not paid, the mail is forwarded to the nearest mail recovery center for final disposition.

[Redesignate current 2.4 as 2.5 and revise to read as follows:]

2.5 Permit Cancellation

A BPRS permit may be canceled by the USPS for any of the following reasons:

- a. Failure to meet the minimum volume requirement of 10,000 parcels returned during a 12-month period to each postal facility.
- b. Failure of the mailer to pay the required postage and fees for returned parcels.
- c. Insufficient funds in an advance deposit account to cover postage and fees that are due for returned parcels.
- d. Failure to fulfill the terms and conditions of the BPRS permit authorization.
- e. Failure to conform return labels to the specifications in sections 4.0 and 5.0.

[Redesignate current 2.5 as 2.6 and revise to read as follows:]

2.6 Reapplying After Cancellation

A mailer must do the following to receive a new BPRS permit at the same post office where a permit was canceled earlier:

- a. Submit a letter to that office requesting a permit and new agreement.
- b. Pay a new permit fee.
- c. Provide evidence showing that the reasons for cancellation of the previous permit no longer exist.
- d. Maintain adequate funds in an advance deposit account to cover the number of returns expected over at least a 2-week period.

3.0 POSTAGE AND FEES

3.1 Permit Fee

[Amend 3.1 for clarification to read as follows:]

The permit fee is charged once for each 12-month period and the fee for a permit renewal is due on the anniversary date of the original permit issuance. The fee may be paid in advance only for the next year and only during the last 30 days of the current service period under the existing permit. The fee charged is that which is in effect on the date of payment.

3.2 Payment

[Revise 3.2 to read as follows:]

The requirements for payment of the BPRS annual permit fee and per piece fees are as follows:

- a. The permit holder must pay BPRS per piece fees through an advance deposit account.
- b. Parcels will be turned over to the mailer only when sufficient funds are in the account to pay all applicable fees.
- c. The permit holder may establish a unique advance deposit account or use an existing one to pay postage and fees under BPRS.

[Add new 4.0 to specify label requirements to read as follows:]

4.0 LABEL REQUIREMENTS

4.1 Production Methods

Any photographic, mechanical, or electronic process, or any combination of such processes other than typewriting or handwriting may be used to prepare the BPRS label. The background may be any light color that allows the address, postmark, and other endorsements to be easily read. Brilliant colors may not be used for the background. If a label is prepared with adhesive on its reverse side, the adhesive must be capable of securely bonding the label to the parcel.

4.2 Label Instructions

Written instructions must be provided with the label that, at a minimum, advise the user to do the following:

- a. Obliterate all other delivery addresses and barcodes on the outside of the parcel.
- b. Print a complete return address in the location provided in the upper left corner of the label.
- c. Place the label with the delivery address and barcode on the side of the mailpiece with the largest surface area. If tape or similar material is used, it must not cover any part of the label where the mailer's return address and postal routing barcode are located. The barcode should be at least 1 inch from the edge of the parcel. If the shape of the parcel requires specific orientation for stability, the label must be placed on the top surface.

- d. Take the parcel to a post office, drop it in a collection box, or give it to a postal carrier.

4.3 Distribution

BPRS return labels may be distributed to customers as an enclosure with merchandise, as a separate item, as a facsimile transmission (fax), or as an electronic transmission for customer downloading and printing. Regardless of distribution method, all standards in 4.2 and 5.0 must be met. An electronic file must include instructions that explain how to affix the label securely to the parcel as required in 4.2.

[Add new 5.0 to read as follows:]

5.0 FORMAT

5.1 General

The BPRS label contents and format must meet all applicable standards before the label may be distributed for use. Format requirements are shown in Exhibit 5.0.

5.2 Postage Guarantee

The endorsement "NO POSTAGE NECESSARY IF MAILED IN THE UNITED STATES" must be printed in the upper right corner of the face of the piece. The endorsement must not extend more than 1-3/4 inches (1.75 inches) from the right edge of the label.

5.3 Horizontal Bars

To facilitate recognition of BPRS parcels, a series of horizontal bars parallel to the label length must be printed directly below the endorsement "NO POSTAGE NECESSARY IF MAILED IN THE UNITED STATES":

- a. The bars must be uniform in length, at least 1 inch long and 1/16 inch (0.0625 inch) to 3/16 inch (0.1875 inch) thick, and evenly spaced.
- b. There must be at least a 1/2 inch (0.500 inch) clearance between the right edge of the ZIP Code in the delivery address and the left edge of the horizontal bars.
- c. The bottom bar in the series must be above (not on or below) the top of the delivery address line (the next-to-last line in the address, just above the line with the city, state, and ZIP Code).
- d. Do not use a facing identification mark (FIM) on this label.

5.4 Class Endorsement

The Standard Mail (A) class endorsement must be at least 1/4 inch (.25 inch) high and shown in capital letters to the left of the postage guarantee endorsement.

5.5 Bulk Parcel Return Service Legend

The Bulk Parcel Return Service legend must be placed above the return delivery address on all BPRS parcels. The legend means that the BPRS permit holder guarantees payment of postage and fees on all returned Standard Mail (A) parcels.

The following information must be enclosed in a rectangle:

- a. Line 1: Show the words "BULK PARCEL RETURN SERVICE" in capital letters at least 3/16 inch (0.1875) high, enclosed in a rectangle.
- b. Line 2: The name of the BPRS permit holder must also be printed in capital letters in the rectangle directly below the words "BULK PARCEL RETURN SERVICE."
- c. The permit holder's city, state, and ZIP Code must appear in capital letters and must be located on the same line as the company name.
- d. The post office box number and/or street address must appear in capital letters on the line beneath this information.

5.6 Delivery Address

A complete delivery address (city, state, ZIP Code) specified by the post office that issued the BPRS permit and to which parcels are returned must be printed in capital letters at least 3/16 inch (0.1875) high below the Bulk Parcel Return Service rectangle and at least 1 inch from the left edge of the label. There must be at least a 1/2-inch (0.50) clearance between the ZIP Code and the horizontal bars.

5.7 Customer's Return Address

The complete return address (street, city, state, ZIP Code) of the customer mailing the article back to the permit holder must be shown in the upper left corner of the label. Space must be provided for the customer's return address if it is not preprinted by the permit holder.

5.8 Optional Information

At the option of the permit holder, a single line above the top line of the customer return address may be used for customer account or other information.

5.9 Postal Routing Barcode

Every BPRS label must include a properly prepared barcode that represents the correct ZIP Code information for the delivery address of the returned parcel plus the appropriate verifier character suffix or application identifier prefix characters appropriate for the barcode symbology as described in C850 for machineable parcels. In addition to the barcode requirements in C850, the following requirements must be met in preparing BPRS labels:

- a. Barcode Location. The barcode must be placed on the label immediately adjacent to the address and the label must be located on the parcel so the barcode is at least 1 inch from the parcel edge.
- b. Barcode Clear Zone. No printing may appear in the area 1/8 inch (0.125) above and below the barcode regardless of location on the label. A minimum clear zone equal to 10 times the average measured narrow element (bars or space) width must be maintained to the left and right of the barcode.
- c. Human-Readable Barcode Information. The human-readable equivalent of the ZIP Code or ZIP+4 code encoded in the barcode as referenced in C850 may be omitted.

DMM REVISION

Insured Mail

Effective October 7, 1999, *Domestic Mail Manual* (DMM) R900 and S900 are revised to clarify the differences in treatment of insured parcels. Parcels insured for \$50.00 or less are given a special elliptical marking to distinguish them, but they do not receive an insured number. Parcels that are insured for more than \$50.00 must have Form 3813-P, *Receipt for Insured Mail — Domestic-International*, affixed and are assigned an insured number. Form 3813-P must not be used with parcels insured for \$50.00 or less.

If a mailer is authorized to use a privately printed Form 3813-P, it must be used only with parcels insured for more than \$50.00. Insured numbers may not be used for parcels insured for \$50.00 or less. Mailers who produce manifests for mailings must properly report insured numbers in conformance with these requirements. Software vendors have been advised of the need to bring their products into compliance.

These revisions will appear in the next printed version of the DMM and are included in the monthly update of the online DMM available via Postal Explorer (<http://pe.usps.gov>).

[Revise 2.3 to read as follows:]

The treatment of parcels is determined by the insurance amount:

- When insured for \$50 or less, a parcel must be stamped on its address side with an elliptical insured marking, shown in Exhibit 2.3. This marking must be placed above the address and to the right of the return address.
- When insured for more than \$50, a parcel must have Form 3813-P, shown in Exhibit 2.3, affixed above the address and to the right of the return address. Form 3813-P must not be used under any circumstances with parcels insured for \$50 or less.
- All insured parcels, regardless of insurance amount, must be postmarked unless a postage meter stamp or permit imprint is used to pay postage.

Bulk Parcel Return Service Opened and Returned Parcels: Fact Sheet and Questions and Answers

On August 31, 1999, the Board of Governors approved the Postal Rate Commission's recommendation to allow for the return of opened and resealed Bulk Parcel Return Service (BPRS) parcels without the payment of additional postage in certain circumstances. This change will become effective on October 3, 1999.

The change allows properly endorsed Standard Mail (A) machinable parcels to be returned to the original mailer as part of the Bulk Parcel Return Service when parcels that have been opened, resealed, and redeposited into the mail by the recipient (1) bear a mailer-supplied BPRS return label or (2) are found in the mailstream without additional postage or a BPRS return label, and it is impracticable or inefficient to return the parcel to the recipient for payment of return postage.

The change does not allow recipients to bypass applying postage when returning an opened and resealed parcel to the mailer (unless using a BPRS return label). However, it does provide that should such a parcel be found in the mailstream it would be returned to the original mailer as part of BPRS, and not returned to the recipient for additional postage or sent to the Mail Recovery Center.

This service applies *only* to properly endorsed BPRS Standard Mail (A) machinable parcels and not to other classes of mail or to other Standard Mail (A) parcels.

Look for the BPRS return label:

Questions & Answers

Q. What is Bulk Parcel Return Service?

A. A method whereby high-volume parcel mailers have (undeliverable-as-addressed) Standard Mail (A) machinable parcels returned at a flat fee of \$1.75 per parcel.

Q. How do mailers qualify for Bulk Parcel Return Service?

A. A mailer must be able to demonstrate receipt of at least 10,000 returned Standard (A) machinable parcels at a given delivery point per year and be authorized by the Postal Service to use BPRS. Payment for returned BPRS parcels is made through a centralized advance deposit postage due account.

Q. What, exactly, is changing?

A. Currently the \$1.75 flat fee applies only to undeliverable-as-addressed BPRS returns. The change will allow the Postal Service, in certain circumstances, to treat opened, resealed, and redeposited parcels properly endorsed as BPRS as part of the BPRS return mailstream.

Q. What are the benefits?

A. This is a winner for everyone. Recipients can be provided labels that will allow them to return merchandise at the expense of the original mailer. They can give parcels with the labels attached to their letter carrier, drop them in a collection box, or take them to a retail outlet. The BPRS mailer benefits from a streamlined accounting system and a more reliable method of getting returns back. The Postal Service benefits from improved efficiency by eliminating rehandling of the parcels. Opened and resealed BPRS parcels found in the mailstream, even without return labels, may be returned directly to the original mailer when sending them back to the recipient for payment of postage would be impracticable or inefficient.

Q. Why isn't a similar service available to Standard Mail (B) parcel shippers?

A. There are at least two important differences between Standard Mail (B) and Standard Mail (A) parcels that must be considered. First, BPRS, which has been available for high-volume Standard Mail (A) machinable parcel returns since October 12, 1997, is based on a per-piece fee not dependent on weight or zone. With Standard Mail (B), multiple weights ranging from one pound to 70 pounds and multiple zones do not allow for a cost-effective flat rate or fee. Second, there was no pre-paid return service of any kind available at Standard Mail (A) rates. With Standard Mail (B), parcel shippers have merchandise return service available to facilitate returns from their customers at Standard Mail (B) rates. Other issues related to return of Standard Mail (B) are being considered by the Postal Service for possible future enhancements.

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The table below outlines these conditions by APO/FPO ZIP Codes through the use of foot-noted mailing restrictions codes, which appear on the page following the table.

Acceptance clerks should use this table with the Integrated Retail Terminal (IRT) or POS One terminal to

determine whether an APO/FPO ZIP Code is active and which conditions of mailing apply.

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The complete table appears in the last *Postal Bulletin* of each month. Changes from the previous month's listing are in bold type.

REVISION

Handbook F-1, Post Office Accounting Procedures

Handbook F-1, *Post Office Accounting Procedures*, is revised to include changes to account identifier codes (AICs) 759 and 359, effective A/P 1, PFY 2000.

AIC 759 should be used to record revenue deficiencies found. Offices in Standard Field Accounting System (SFAS) must use TASS Worksheet and provide the mailer's name, date, and a brief description of the type of deficiency. Statement of Account (SOA) offices should record revenue deficiencies on Form 1556, *Suspense Item Support Information*, with the mailer's name, date, and a brief description of the type of deficiency. These should be updated quarterly with the status of collection efforts. Revenue deficiencies held in other suspense AICs can be moved to AIC 759.

AIC 359 should be used to record payment of revenue deficiencies. SFAS offices must use TASS Worksheet to identify the proper control number for deficiency being cleared.

These revisions will be incorporated in the next quarterly update of the online Handbook F-1, located on the Corporate Intranet at <http://blue.gov/cpim> (click on "Handbooks," then "By Document Number," and select "F-1, *Post Office Accounting Procedures*"). It will also be incorporated into the next printed edition.

STAMP ANNOUNCEMENT 99-45

Holiday Traditional: Vivarini Madonna and Child Stamp

Copyright USPS 1998

The Postal Service will issue the 33-cent *Vivarini Madona and Child* stamp (Item Number 663800), double-sided convertible booklet of 20, on October 20, 1999, in Washington, DC. The stamp, designed by Richard Sheaff of Scottsdale, AZ, and based on a painting by artist Bartolomeo Vivarini, goes on sale nationwide October 21, 1999.

Since 1966, with the issuance of a 5-cent *Madonna and Child* stamp by Hans Memling, these traditional Christmas stamps have attracted a devoted following.

This year's design is based on a detail of Venetian artist Bartolomeo Vivarini's *Madonna and Child* masterpiece, circa 1475. This tempera-on-wood-panel painting is considered one of his more important works.

HANDBOOK EL-802 REVISION

Safety Guidance for Management

Added to Handbook EL-802, *Executive's and Manager's Safety Compliance Guide*, is new guidance for responding to OSHA inspections — a section of annotated excerpts from OSHA Publication 3000, *Employer Rights and Responsibilities Following an OSHA Inspection*.

Handbook EL-802 was issued earlier this year to help executives and managers improve safety compliance and deal with the OSHA inspections. Chapter 5, "Dealing With OSHA," contains three sections of excerpts — one section from OSHA Publication 2098, *OSHA Inspections*; one section concerning policy and responsibilities from the *Employee and Labor*

Relations Manual; and the new section, "What to Do Following an OSHA Inspection."

The new section can be found as revision pages on pages 79–87 of this *Postal Bulletin*. The section can also be downloaded from a reformatted online version of the handbook found on the Policies and Procedures home page at <http://blue.usps.gov/cpim> or on the Human Resources home page at <http://blue.usps.gov/hrisp>.

*Through 1990 the F Fund was invested in the Wells Fargo Bond Index Fund.

The C Fund is invested in the Barclays Equity Index Fund, which tracks the S&P 500 stock index. The F Fund is invested in the Barclays U.S. Debt Index Fund, which tracks the Lehman Brothers Aggregate Bond index. Because of expenses and changing balances in the C and F Funds, their returns vary from Barclays' returns. The G Fund is invested in special issues of U.S. Treasury securities.

Future performance of the three funds will vary and may differ significantly from the returns shown above. See the "Summary of the Thrift Savings Plan" for detailed information about the funds and their investment risks.

The monthly C, F, and G Fund returns represent net earnings after deduction of accrued administrative expenses. The C and F Fund returns also reflect the deduction of trading costs and accrued investment management fees.

The C, F, and G Fund monthly returns are dollar-weighted: they reflect net earnings on the changing balances invested during the month. The C, F, and G Fund returns for the last 12 months assume, except for the crediting of earnings, unchanging balances (time-weighting) from month to month and that earnings are compounded on a monthly basis.

2000-Year Type for Hand Stamp and Canceling Machines

The 2000-year type for hand stamp and canceling machines will be automatically distributed to all postal facilities that received 1999-year types for hand stamp and canceling machines. The material distribution centers (MDCs) will mail a postcard notification on September 23, 1999, to each postal facility that received 1999-year types. If your facility needs a different quantity or a different 2000-year type, make changes on the pre-addressed postcard and drop it in the mail. *If no changes are needed, do not return the postcard.* Complete instructions are printed on the postcard.

If your facility needs 2000-year type for hand stamp or canceling machines but has not received postcard notification by October 14, 1999, contact Materials Customer Service no later than October 22, 1999. Please be ready to give the customer service representative the PSIN number for the item needed, the quantity, and the FEDSTRIP number for the ordering facility.

The MDCs will ship the year type no later than December 13, 1999. Allow 10 to 14 days for delivery.

To determine the proper year type for canceling machines, check the model number on the machine nameplate. Use Exhibit 15 in Publication 247, *Supply and Equipment Catalog*, as a guide for ordering the correct type as follows:

926 PC Postage™ Products

926.1 General

PC Postage™ products allow customers to use their personal computers to purchase and print postage directly on envelopes or labels for domestic First-Class Mail, Priority Mail, Express Mail, Parcel Post or other Standard B Mail classes (i.e., Bound Printed Matter, Library Mail, Special Standard Mail, and Packages). **Note:** In the future, PC Postage will become available for international mail. Through its Information Based Indicia Program (IBIP), the U.S. Postal Service establishes certain security standards and performance criteria by which commercially developed products are evaluated and authorized for distribution as PC Postage products. The term “PC Postage” is a trademark owned by the U.S. Postal Service. Customers should look for the official USPS PC Postage trademark (see below) to identify those products that have been evaluated and authorized by the Postal Service. Various companies have developed PC Postage products to meet U.S. Postal Service security and interface requirements. They will be authorized for distribution as PC Postage products after complete testing and evaluation by the Postal Service. For a list of PC Postage products and providers see <http://www.usps.com/ibip>.

926.2 Information Based Indicia (IBI)

926.21 General

The postage printed by PC Postage products is referred to as “Information Based Indicia” (IBI), which is a digital indicium or “electronic stamp.” This technology of conveying digital information on the mailpiece directly supports the U.S. Postal Service objective of an information-rich mail stream. An IBI contains two types of information:

- a. **Readable Information.** This information includes the postage amount, mail class, date of mailing, device identification number, and town or licensing post office.
- b. **Two-dimensional barcode.** The two-dimensional barcode encodes readable, as well as other security, information. It also includes a “digital signature” that is unique to each mail piece, which helps the Postal Service to detect fraudulent postage.

926.22 Placement Information

Like other forms of postage evidencing, the IBI is printed in the upper right hand corner of an envelope. It may also be printed on a label and affixed to an envelope or package.

926.23 Postage Payment

The postage paid to the Postal Service using PC Postage products is the same as paying for any other form of postage for full rate mail. PC Postage can be used only on pieces that are mailed at regular single piece rates; no discounts for presorting or other work-sharing activities are currently available.

926.4 Sample Information Based Indicia (IBI)

Samples of all information based indicia (IBI) currently approved for postage evidencing, including those authorized for national distribution and those still in field test (at date of issue), are shown in exhibit 926.4.

Exhibit 926.4

The following two indicia have been authorized for national distribution:

E-Stamp Corporation

926.5 Customer Ease of Use and Benefits of PC Postage

PC Postage Ease of Use	PC Postage Benefits
Convenience	Eliminates the need to go to the post office to buy postage.
Access	Postage can be purchased or used 24 hours a day, seven days a week.
Cost Savings	Exact postage due is applied, avoiding the overpayment that is common when using stamps.
Efficiency	Provides postage accounting records that can be integrated into other computerized systems. For example, postage expenditures can be downloaded to accounting systems. Integrates with word processing, financial, and address management software. Imports existing mailing lists automatically to the PC Postage product, and some permit access to PC Postage without exiting the software application.
Control	Accurately tracks postage purchased and used.
Delivery Effectiveness	Address verification and barcoding guarantee automated mail processing, which results in faster delivery.
Security	The Postal Service tests all PC Postage products to ensure that they meet Postal Service security and performance criteria. Peripheral devices are designed to stop functioning if they are tampered with.
Fraud Protection	Each IBI is unique to the mail piece, enabling the Postal Service to detect fraudulent copies and thereby reduce the costs associated with postage fraud.

Electronic Lobby Scales

Managers, Retail (area and districts) must replace existing electronic lobby scales with improved electronic lobby scales.

Replace your Unisys weighing and rating units (WRUs) and obsolete mechanical scales with either an Ascom Hasler or Triner scale. Scales are to be funded locally; therefore, please ensure you include this item in your FY 2001 budget. Maintenance and repair are to be performed by the scale manufacturer. Be sure to provide for future rate changes when agreeing on the terms of your local purchase. All mechanical scales and Unisys WRUs must be replaced by the end of Quarter 1, FY 2001. WRU maintenance ends December 31, 2000.

Managers are advised that new electronic lobby scales are manufactured by Ascom Hasler and Triner. Procedures to order using direct vendor delivery (DVD) and electronic data interchange (EDI) are published in *Material Logistics Bulletin* MLB-CO-99-002, 3-19-99. The scale's operational features are also outlined in that *Bulletin*. Requirements offices must prepare

funded Form 7381, *Requisition for Supplies, Services, or Equipment*, and forward to:

SUPPLY REQUISITIONS
500 SW MONTARA PKWY
TOPEKA KS 66624-9702

Both vendors offer scales that weigh packages of up to 30 lbs. The Ascom Hasler approved scale is model AH30P (PSIN AH30P3), (PSN 6670-04-000-5271). Estimated price is \$749. The Triner approved scale is model TS30P (PSIN TS30P), (PSN 6670-04-000-5272). Estimated price is \$597. Ordering information and product information can be accessed from the Engineering ESCAP web page at <http://web.eng.usps.gov/enggroup/acqmgmt/confmgmt/escap/prodlist.htm> (click on "S" or scroll down to "Scale").

Material in brackets is amplifying or Postal Service-specific information not contained in the original.

What to Do After an Inspection

An OSHA compliance safety and health officer (CSHO) conducts an inspection of your workplace.... After the inspection, the CSHO reports the findings to the Area Director who evaluates them. If a violation exists, OSHA will issue you a **Citation and Notification of Penalty** detailing the exact nature of the violation(s) and any associated penalties.... A citation informs you of the alleged violation, sets a proposed time period within which to correct the violation, and proposes the appropriate dollar penalties.

The information in this booklet can and should be used as a discussion guide during your closing conference with the OSHA compliance officer. For each apparent violation found during the inspection, the compliance officer has discussed or will discuss the following with you:

- Nature of the violation,
- Possible abatement measures you may take to correct the violative condition, and
- Possible abatement dates you may be required to meet.

* * *

To minimize employee exposure to possible hazardous conditions, abatement efforts should always begin as soon as possible.

[State issues]

Important Note: ...Employers and employees in the [approved plan states] that operate OSHA-approved workplace safety and health plans should check with their state agency. Their state may be enforcing standards and other procedures that, while "at least as effective as" federal standards, are not always identical to the federal requirements. For example:

- Some states have different options and procedures for the employer who [disagrees with a citation or penalty];
- Although Federal OSHA recommends that employers... establish comprehensive workplace safety and health programs, some states require such programs; and
- In state plan states, an employee who believes he/she has been discriminated against pursuant to Section 11[c] of the OSH Act is entitled to file a complaint alleging discrimination under both state and federal procedures.

[Comment: The U.S. Department of Labor, Occupational Safety and Health Administration, is coordinating with state agencies to determine which, if any, will elect to include the Postal Service in their respective state plans. For calendar year

1999, no states have opted to include the Postal Service. Check with Safety and Health to determine state authority.]

* * *

[Types of Violations]

Willful: A willful violation is defined as a violation in which the employer knew that a hazardous condition existed but made no reasonable effort to eliminate it and in which the hazardous condition violated a standard, regulation, or the OSH Act. Penalties range from \$5,000 to \$70,000 per willful violation, with a minimum penalty of \$25,000 for a willful serious violation....

Serious: A serious violation exists when the workplace hazard could cause an accident or illness that would most likely result in death or serious physical harm, unless the employer did not know or could not have known of the violation. A mandatory penalty of up to \$7,000 for each violation is proposed.

Repeated: An employer may be cited for a repeated violation if that employer has been cited previously for a **substantially similar condition** and the citation has become a final order of the Occupational Safety and Health Review Commission. A citation is viewed as a repeated violation if it occurs within 3 years either from the date that the earlier citation becomes a final order or from the final abatement date, whichever is later. Repeated violations can bring a fine of up to \$70,000 for each such violation.

* * *

A VIOLATION CAN BE CITED AS REPEATED IF THE EMPLOYER HAS BEEN CITED FOR THE SAME VIOLATION ANYWHERE IN THE NATION WITHIN THE PAST 3 YEARS.

Other: A violation that has a direct relationship to job safety and health, but is not serious in nature, is classified as "other."

* * *

[Posting Requirements]

When you receive a Citation and Notification of Penalty, you must post the citation (or a copy of it) at or near the place where each violation occurred to make employees aware of the hazards to which they may be exposed. The citation must remain posted for 3 working days or until the violation is corrected, whichever is longer. (Saturdays, Sundays, and Federal holidays are not counted as working days.) **You must comply with these posting requirements even if you contest the citation.**

The abatement certification documents..., like citations, must be posted at or near the place where the violations occurred. For moveable equipment found to be in violation and where the posting of the violations would be difficult or impractical, the employer has an option to identify the equipment with a "Warning" tag specified in the Abatement Verification regulation 29 CFR 1903.19.[I].

[All citations must also be entered into the Citation Management System for tracking purposes.]

* * *

[Employer Options]

As an employer who has been cited, you may take either of the following courses of action:

1. If you agree to the Citation and Notification of Penalty, you should correct the condition by the date set in the citation and pay the penalty, if one is proposed; [or]
2. If you do not agree, you have 15 working days from the date you receive the citation to contest in writing any or all of the following:
 - Citation,
 - Proposed penalty, and/or
 - Abatement date.

* * *

Before deciding on either of these options, you may request an **Informal Conference** with the OSHA Area Director to discuss any issues related to the Citation and Notification of Penalty.

[Note: Always request an informal conference in coordination with Headquarters Safety and Health and the Law Department.]

* * *

[How to Comply]

For violations you do not contest, you must (1) promptly notify the OSHA Area Director by letter that you have taken appropriate corrective action within the time set forth in the citation, and (2) pay any penalties itemized therein. [See the OSHA 2 Form, under Notification of Corrective Action in Tab 7.]

* * *

The penalties itemized on the Citation and Notification of Penalty are payable within 15 working days of receipt of the penalty notice. If, however, you contest the citation or penalty in good faith, abatement and payment of penalties for those items contested are suspended until the Occupational Safety and Health Review Commission reviews your case and issues a final order. The Review Commission is an independent agency and is not a part of the U.S. Department of Labor. The final order of the Commission will either uphold, modify, or eliminate the citations and/or penalties. Penalties for items not contested, however, are still due within 15 working days.

[See the Appendix for an Invoice/Debt Collection Notice.]

[Comment: Coordinate all responses to OSHA with Headquarters General Counsel and Safety and Health.]

* * *

[Informal Conference and Settlement]

Before deciding whether to file a **Notice of Intent of Contest**, you may request an informal conference with the OSHA Area Director to discuss the Citation and Notification of Penalty.

You may use this opportunity to do any of the following:

- Obtain a better explanation of the violations cited;
- Obtain a more complete understanding of the specific standards that apply;
- Negotiate and enter into an Informal Settlement Agreement;
- Discuss ways to correct violations;
- Discuss problems concerning the abatement dates;
- Discuss problems concerning employee safety practices;
- Resolve disputed citations and penalties, (thereby eliminating the need for the more formal procedures associated with litigation before the review Commission); and
- Obtain answers to any other questions you may have.

You are encouraged to take advantage of the opportunity to have an Informal Conference if you foresee any difficulties in complying with any part of the citation. **Please note, however, that an Informal Conference will neither extend the 15 working day Notice of Intent to Contest period nor take the place of the filing of a written notice if you desire to contest.** Employee representative(s) have the right to participate in any Informal Conference or negotiations between the Regional Administrator or Area Director and the employer.

If you agree that the cited violations do exist, but you have a valid reason for wishing to extend the abatement date(s), you may discuss this with the Area Director in an Informal Conference. He or she may issue an amended citation that changes the abatement date prior to the expiration of the 15 working day period without your filing a Notice of Intent to Contest.

If you do not contest within 15 working days, the citation will become a final order.... After this occurs, the OSHA Area Director may continue to provide you with information and assistance on how to abate the hazards cited in your citation, but may not amend or change any citation or penalty which has become a final order. The Area Director may only advise you on abatement methods or extend the time you need to abate the violation. (See **Petition for Modification of Abatement.**)

[Comment: Coordinate all citations with Headquarters General Counsel and Safety and Health.]

* * *

[How To Contest]

If you wish to contest any portion of your citation, a Notice of Intent to Contest must be submitted in writing within 15 working days after receipt of the Citation and Notification of Penalty even if you have orally stated your disagreement with a citation, penalty, or abatement date during a telephone conversation or an Informal Conference.

A Notice of Intent to Contest must clearly state what is being contested — the citation, the penalty, the abatement date, or any combination of these factors. In addition, the notice must state whether all the violations on the citation, or just specific violations, are being contested. (For example, "I wish to contest the citation and penalty proposed for items 3 and 4 of the citation issued June 27, 1990.")

Your contest must be made in good faith. A contest filed solely to avoid your responsibilities for abatement of payment of penalties will not be considered a good-faith contest.

A proper contest of any item suspends your legal obligation to abate and pay until the item contested has been administratively resolved. If you contest only the penalty, you must still correct all violations by the dates indicated on the citation. If only some items on the citation are contested, the other items must be corrected by the abatement date and the corresponding penalties paid within 15 days of the notification.

After you file a Notice of Intent to Contest, your case is officially in litigation. If you wish to settle the case, you may contact the OSHA Area Director who will give you the name of the attorney for OSHA handling your case. All settlements of contested cases are negotiated between you and the attorney according to the rules of procedure of the Occupational Safety and Health Review Commission.

[Notices of Contest will be issued only by the General Counsel.]

* * *

[The Contest Process]

If the written Notice of Intent to Contest has been filed within the required 15 working days, the OSHA Area Director forwards your case to the Occupational Safety and Health Review Commission. The Commission assigns the case to an administrative law judge who usually will schedule a hearing in a public place close to your workplace. Both employers and employees have the right to participate in this hearing which contains all the elements of a trial, including examination and cross-examination of witnesses. You may choose to represent yourself or be represented by an attorney. [See below.] The administrative law judge may affirm, modify, or eliminate any contested items of the citation or penalty.

As with any other legal procedure, there is an appeals process. Once the administrative law judge has ruled, any party to the case may request a further review by the full Review Commission. In addition, any of the three commissioners may, on his or her own motion, bring the case before the entire Commission for review. The Commission's ruling, in turn, may be appealed to the U.S. Court of Appeals for the circuit in which the case arose or for the circuit where the employer has his or her principal office.

[Comment: Postal Service attorneys will be appointed to contest citations.]

* * *

[Petition for Modification of Abatement]

Abatement dates are assigned on the basis of the best information available at the time the citation is issued. When you are unable to meet an abatement date because of uncontrollable events or other circumstances, and the 15 working day contest period has expired, you may file a **Petition for Modification of Abatement (PMA)** with the OSHA Area Director.

This petition must be in writing and must be submitted as soon as possible, but no later than 1 working day after the abatement date. To show clearly that you have made a good-faith effort to comply, the PMA must include all of the following information before it can be considered:

- Steps you have taken in an effort to achieve compliance, and dates they were taken;
- Additional time you need to comply;
- Why you need additional time;
- Interim steps you are taking to safeguard your employees against the cited hazard(s) until the abatement;
- A certification that the petition has been posted, the date of the posting and, when appropriate, a statement that the petition has been furnished to an authorized representative of the affected employees. The petition must remain posted for 10 working days, during which employees may file an objection.

A PMA may be granted or opposed by the OSHA Area Director. If it is opposed, it automatically becomes a contested case before the Review Commission. If a PMA is granted, a monitoring inspection may be conducted to ensure that conditions are as they have been described and that adequate progress toward abatement has been made. Further information on PMAs may be obtained from the OSHA Area Office.

[Coordinate all PMA activities with the Headquarters General Counsel and Safety and Health.]

* * *

[Employee Courses of Action]

Employees or their authorized representatives may contest any or all of the abatement dates set for violations if they believe them to be unreasonable. A written notice of Intent to Contest must be filed with the OSHA Area Director within 15 working days after the employer receives the citation.

* * *

[Followup Inspection and Failure to Abate]

If you receive a citation, a followup inspection may be conducted to verify that you have done the following:

- Posted the citation as required,
- Corrected the violations as required in the citation, and/or
- Adequately protected employees and made appropriate progress in correcting hazards during multistep or lengthy abatement periods.

In addition to providing for penalties for failure-to-post citations and failure-to-abate violations, the OSH Act clearly states that you have a **continuing responsibility** to comply with the OSH Act and assure your employees of safe and healthful working conditions. Any new violations discovered during a followup inspection will be cited.

To achieve abatement by the date set forth in the citation, it is important that abatement efforts be promptly initiated.

[See section on Notification of Corrective Action in the OSHA-2 Form.]

* * *

[Employer Discrimination]

The *OSH Act* prohibits employers from discharging or otherwise discriminating against an employee who has exercised any right under this law, including the right to make safety and health complaints or to request an OSHA inspection. Complaints from employees who believe they have been discriminated against will be investigated by OSHA. If the investigation discloses probable violations of employee rights, court action may follow.

Employees who believe they have been discriminated against must file their complaints within **30 days** of the alleged act of discrimination. To obtain further information on this matter, employees may contact OSHA and inquire about Section 11[c] procedures.

* * *

[Providing False Information]

All information reported to OSHA by employers and employees must be accurate and truthful. Providing false information on efforts to abate cited conditions or in required records is punishable under the OSHA Act [referred to courts for criminal action].

[Comment: Coordinate all 11[c] investigations with Headquarters General Counsel and Safety and Health.]
