ASM REVISION

Use of Signature Devices

Effective August 9, 2001, *Administrative Support Manual* (ASM) 13 is revised to include new section 112.4, Use of Signature Devices. This change reflects the responsibilities for delegating and managing use of signature devices. The new policy and implementation procedures are intended to address the security issues involved with authorizing use of automatic signature machines, signature stamps, and digitized signatures.

We will incorporate these revisions into the printed version of ASM 14 and into an incremental update of the online ASM 13, accessible through the Policies and Procedures page of the Postal Service Intranet at <http://blue.usps.gov/cpim>; click on *Manuals*.

Administrative Support Manual (ASM)

1	Postal Organization	*	*	*	*	*
112	Delegations of Authority	*	*	*	*	*

[Add new section 112.4 as follows:]

112.4 Use of Signature Devices

112.41 General

This provides policy and procedures to establish and manage signature devices used in the Postal Service. It requires Postal Service officers, executives, and managers to authorize the use of such devices that reproduce their signatures, to delegate in writing the authority to use them, and to control and monitor their use.

112.42 Policy

Postal Service officers, executives, and managers are responsible and accountable for the security and uses of devices containing reproductions of their signatures. They must determine the appropriate use of each device and establish a process to manage the use, which must include written delegation of authority to specified individuals for use of each device. These devices may not be used to sign contracts or interagency agreements or to commit the Postal Service to any expenditure of more than \$10,000 (see the Postal Service *Purchasing Manual*).

112.43 Scope

112.431 Devices Covered

Signature devices covered by this policy include:

- Automatic signature machines.
- Signature stamps.
- Digitized signatures (e.g., scanned images of handwritten signatures, which are stored in computers and applied electronically to documents).
- Photocopiers, printers, or other mechanisms when used to *apply* a signature; this does not apply to duplication of documents that already bear a signature.

112.432 Devices Not Covered

This policy does not cover digital or electronic signatures. To use a signature device or technology not listed in 112.431, you must send a request to the Corporate Information Security Office for review and the chief information officer for approval. These may include solutions based on digital (not *digitized*) signatures, biometrics, or other devices or technologies that generate a signature and apply it electronically to a document.

112.44 Responsibility

112.441 Officers, Executives, and Managers

Postal Service officers, executives, and managers are responsible for complying with the policy and procedures for delegating signature authority.

112.442 Corporate Information Security Office

The Corporate Information Security Office is responsible for reviewing requests for all new technology signature solutions.

112.443 Chief Information Officer

The chief information officer is responsible for approving use of any signature devices or technologies not covered in 112.431.

112.45 Procedures for Managing Use of Signature Devices

112.451 Obtain Approval

The officer, executive, or manager whose signature will be put on a document by a signature device must do the following:

- a. Prepare a written request defining the number and types of signature devices, the conditions under which each device will be used, and the controls and monitoring to be implemented.
- b. Submit the written request to his or her manager for approval.

112.452 Delegate a Signature Solution Authority

Upon obtaining approval for a signature solution, the requester will issue a written delegation of authority to the individual authorized to affix his or her signature. That delegation:

- a. Defines the conditions under which the signature device is to be used.
- b. Identifies the period of time during which the authorized individual may use the signature device.
- c. Identifies the security practices that will be implemented to prevent unauthorized use of the signature device.

112.453 Protect the Signature Device

The requester must ensure that the signature device is protected from unauthorized use. Recommended controls include:

- a. For *automatic signature machines and signature stamps*, secure the signature device under lock and key when it is not in use or not actively assigned.
- b. For *digitized signatures*, wipe or encrypt the file until the digitized signature is reissued for subsequent use. Protections may include:
 - (1) Setting directory or file permissions.
 - (2) Encrypting files to restrict access to only authorized users.

112.454 Record the Use of Signature Devices

Individuals authorized to use a signature device should maintain an electronic or paper log sufficient to monitor and audit the use of the signature device. The log should contain the following information:

- a. Signature control number, which is a unique number that identifies each authorized use. (A batch of documents — e.g., general announcements, routine correspondence, mass mailings — may be recorded as a single use, provided that the number of documents constituting the batch is recorded.)
- b. Time and date of use.
- c. Description of document(s) signed.
- d. Name of authorized individual applying the signature.

112.46 Record Retention Periods

Records relating to the use of signature devices will be retained as follows:

- a. Approved requests to use signature devices must be retained by the officer, executive, or manager until one year after the signature device is deactivated.
- b. Delegations of authority must be retained by the individual authorized to use the signature device for one year beyond expiration of authority (or by the manager if that individual vacates the position before that time).
- c. The log or record of use of the signature device must be retained for one year beyond the application of signature.

Missing Children Poster Display Instructions

Please display this poster prominently on bulletin boards in retail lobbies of main post offices, classified stations, and branches. Operators of contract postal units may display this poster at their option.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by NCMEC.

In addition to *Postal Bulletin* updates, NCMEC distributes information via broadcast fax. Notification of newly reported missing children is sent to designated district "Missing Children" coordinators at fax numbers provided by district managers. Within 24 hours of receipt of a facsimile Missing Children poster, district coordinators should distribute copies to all postal facilities in their districts. Missing Children posters are to be displayed for 30 days in post office lobbies, workroom floor areas, and other postal facilities, unless notification is received (from NCMEC) to remove a particular poster sooner. The broadcast fax network is used to distribute posters and information in only the most urgent cases of missing and exploited children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service only as described above. If postal employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local post offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 1-800-843-5678.

Domestic Mail

DMM REMINDER

Mail Preparation Changes for First-Class Mail, Standard Mail, and Bound Printed Matter Flats

Employees are reminded that, effective September 1, 2001, *Domestic Mail Manual* (DMM) modules E and M are amended to implement a number of mail preparation changes. These amendments were first published in *Postal Bulletin* 22052 (6-14-01, pages 15–24). Employees should be working with customers to make them aware of the new requirements. Any questions can be directed to the district manager of business mail entry.

The changes are as follows:

1. Packages of First-Class Mail Presorted rate flats and automation rate flats that are part of the same mailing job and reported on the same postage statement must be co-trayed according to the standards in DMM M910.
2. Packages of Standard Mail Presorted rate flats and automation rate flats that are part of the same mailing job and reported on the same postage statement must be co-sacked according to the standards in DMM M910.
3. Packages of Standard Mail Enhanced Carrier Route flats and Presorted 5-digit flats must be sacked or palletized using the labeling list L001 scheme sort. This includes the scheme sorts in the optional preparation methods in DMM M920, M930, and M940.
4. Packages of Bound Printed Matter Carrier Route flats and Presorted 5-digit flats must be sacked or palletized using the labeling list L001 scheme sort.

These changes are outlined in detail below by class of mail. The DMM language appeared in *Postal Bulletin* 22052; we will incorporate it into the printed version of DMM Issue 57 and the September 1 update of the online DMM available via Postal Explorer at <http://pe.usps.gov>.

The September 1 implementation date allows presort software vendors time to update and distribute software to their customers and includes time for installation and testing of the software. PAVE-certified software is not required to sort Standard Mail and Bound Printed Matter flats using labeling list L001. For mailings that are co-trayed or co-sacked under M910, documentation produced by PAVE-certified software or standardized documentation under P012 must be submitted with each mailing job. Use of PAVE-certified software is required for the advanced

merging preparation options in M920, M930, and M940, which include the L001 scheme sort.

The changes, by class of mail, are as follows:

1. First-Class Mail

Required Co-Traying

Since January 7, 2001, mailers have had the option to use M910 to co-tray packages of Presorted rate flats and automation rate flats that are part of the same mailing job (see M130.1.6 and M820.1.9). This revision changes that option into a requirement. Therefore, effective September 1, 2001, any First-Class Mail mailing job that contains packages of Presorted rate flats and packages of automation rate flats and is reported on a single postage statement must be co-trayed using M910.1.0.

2. Standard Mail

a. Scheme Sort

Currently, Standard Mail Enhanced Carrier Route flats are sorted to two required sack levels and one optional sort level (required carrier route, optional 5-digit scheme carrier routes using labeling list L001, and required 5-digit carrier routes) (see M620.4.0). This revision changes the optional sort level into a required sort level. Therefore, effective September 1, 2001, all Enhanced Carrier Route Standard Mail flats must be sorted to all three required sack levels (carrier route, 5-digit scheme carrier routes, and 5-digit carrier routes).

Current M620.4.0 combines the preparation standards for flats and irregular parcels into one section. Because the L001 scheme sort will be required for flats but not for irregular parcels, the current single section has been split into two sections: one for flats (M620.4.0) and one for irregular parcels (M620.5.0). There are no mail preparation changes for irregular parcels.

Currently, mailers have the option to use the L001 scheme sort for packages of Standard Mail Enhanced Carrier Route flats and 5-digit packages of Presorted flats on pallets (see M045.3.2). This revision changes the two optional sort levels using

labeling list L001 (5-digit scheme carrier routes and 5-digit scheme) into required sort levels. Therefore, effective September 1, 2001, packages of carrier route rate flats on pallets must be sorted to 5-digit scheme carrier routes pallets as the first sort level, and 5-digit packages of Presorted flats must be sorted to 5-digit scheme pallets as the first sort level.

Under the advanced preparation options in M920, M930, and M940, mailers currently have the option of sorting Standard Mail packages with or without using the L001 scheme sort. This revision eliminates the "non-L001" sort (current M920.2.4, M920.2.6, M930.2.4, and M940.2.4). Therefore, effective September 1, 2001, mailers sorting Standard Mail flats under M920, M930, or M940 will be required to use the L001 scheme sort.

These changes apply to regular and nonprofit Standard Mail flats.

b. Required Co-Sacking

Since January 7, 2001, mailers have had the option to use M910 to co-sack packages of Presorted rate flats and packages of automation rate flats that are part of the same mailing job (see M610.1.5 and M820.1.9). This revision changes that option into a requirement. Therefore, effective September 1, 2001, any Standard Mail mailing job that contains packages of Presorted rate flats and packages of automation rate flats and is reported on a single postage statement must be co-sacked using M910.3.0.

These changes apply to regular and nonprofit Standard Mail flats.

3. Bound Printed Matter

Scheme Sort

Currently, Bound Printed Matter Carrier Route flats are sorted to two required sack levels and one optional sort level (required carrier route, optional 5-digit scheme carrier routes using labeling list L001, and required 5-digit carrier routes) (see M723.2.3). This revision changes the optional sort level into a required sort level. Therefore, effective September 1, 2001, all Bound Printed Matter Carrier Route flats must be sorted to all three required sack levels (carrier route, 5-digit scheme carrier routes, and 5-digit carrier routes).

Currently, mailers have the option to use the L001 scheme sort for packages of Bound Printed Matter Carrier Route flats and 5-digit packages of Presorted flats on pallets (M045.3.3). This revision changes the two optional sort levels (5-digit scheme carrier routes and 5-digit scheme) into required sort levels. Therefore, effective September 1, 2001, packages of carrier route rate flats on pallets must be sorted to 5-digit scheme carrier routes pallets as the first sort level, and 5-digit packages of Presorted flats must be sorted to 5-digit scheme pallets as the first sort level. There are no other mail preparation changes for Bound Printed Matter.

Pricing and Product Design, 8-9-01*

DMM REMINDER

Upcoming Mail Preparation Changes

The table below summarizes upcoming mail preparation changes that have been published in the *Postal Bulletin* or are currently included in the *Domestic Mail Manual* (DMM). Employees should begin working with customers as soon as possible to ensure that mailers are aware of these changes.

This list will be published periodically in the *Postal Bulletin*. Employees with questions about these changes should contact their district manager of business mail entry.

The DMM is updated online once a month and is available via the Postal Explorer Web site at <http://pe.usps.gov>.

Missing, Lost, or Stolen U.S. Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service employees responsible for accepting and cashing Postal money orders. All interim notices should be destroyed when the numbers listed appear in the *Postal Bulletin*. The

actual serial numbers consist of the first 10 digits on the money orders. Check for altered dollar amounts by holding money orders to the light.

Missing, Lost, or Stolen Canadian Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service employees responsible for accepting and cashing Postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first nine digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

IMM REVISION

Online Postage Payment and Discounted Rates for Global Express Guaranteed

To further increase revenue opportunities by meeting customer needs, Global Express Guaranteed™ service options are expanding. The newest enhancements to Global Express Guaranteed, the Postal Service’s premier expedited international service, are (1) On-call and Scheduled Pickup Service and (2) Online Postage Payment and Discounted Rates.

(See also “IMM Revision: On-Call and Scheduled Pickup Service for Global Express Guaranteed™” on page 39 and “Service Talk: Expanded Service Options for Global Express Guaranteed” on page 54.)

Effective August 9, 2001, *International Mail Manual* (IMM) 216 is revised to add a new 216.3 (existing 216.3 is renumbered as 216.4). The IMM is revised to include online postage payment and discount rates for Global Express Guaranteed service at <http://www.usps.com/gxg>. Mailers who are interested in using the online payment option and postage discounts for Global Express Guaranteed service should send an e-mail message to xgdisco@email.usps.gov.

We will incorporate these changes into the printed version of IMM Issue 26 and into the monthly update of the online IMM available via the Postal Explorer at <http://pe.usps.gov>.

[Add new 216.3 as follows. Renumber existing 216.3 as 216.4.]

216.3 Discounted Rates

216.31 General

Discounted rates apply to Global Express Guaranteed customers who prepare and pay for Global Express Guaranteed shipments online using the Web application located at

<http://www.usps.com/gxg>. The Global Express Guaranteed online application provides the necessary systems for tracking usage and volume, as well as verifying and protecting revenue. These discounts do not apply to Global Express Guaranteed shipments that are paid for at participating Post Offices because the necessary volume tracking capabilities are not available at retail locations.

216.32 Eligibility for Online Discounts

To be eligible for discounts for purchasing Global Express Guaranteed online, customers must register via the Global Express Guaranteed Web site, <http://www.usps.com/gxg>. Registration is accomplished by selecting the designated icon on the Global Express Guaranteed home page and following the accompanying instructions. This one-time registration will establish a shipping record and a customer history for purposes of calculating the appropriate discounts. To be eligible for online discounts, customers must prepare their shipping labels and pay for their shipments online using a credit card.

216.33 Online Discounts

216.331 General

Two types of online discounts are offered: standard discounts and volume-based discounts. The discount applies only to the postage portion of the Global Express Guaranteed rates. It does not apply to any other service charges or additional insurance coverage fees. The discounted postage rates applicable to Global Express Guaranteed are set forth in 216.36 and are separate and distinct from the postage rates set forth in 216.1 and 216.2.

216.332 Standard Web Discount

A standard discount schedule will apply to all items prepared and paid for on the Web that do not qualify for the volume discount schedule. The discount is automatically applied to each shipment.

216.333 Volume Discounts

If previous volume minimums are met, volume discounts will apply to registered customers who prepare and pay for shipments online. Volume is calculated on a weekly basis, with a week defined as Monday through Sunday. The Web application automatically tracks the customer’s daily shipping activity and applies the appropriate discount based on delivery destination.

216.334 Determination of Volume Discounts

There are three different rate schedules for Global Express Guaranteed volume discounts. Each rate schedule reflects different rates based on previous usage averaging 5 shipments or more per week, 12 shipments or more per week, and 20 or more shipments per week.

The first week of shipping, all shipments get the standard online discount of 5 percent off the applicable non-discounted rate. The second week, the discount is based on the volume shipped the first week. The third week, the discount is based on the average volume of the first 2 weeks. The fourth week, the discount is based on the average volume of the first 3 weeks. This continues through a 12-week cycle. After a 12-week history is established, the discount is always based on the average volume of the preceding 12 weeks.

216.34 Online Postage Payment**216.341 Credit Card Payment**

Customers must pay postage online using a credit card. The following credit cards are accepted for payment online: American Express, Diner's Club, Discover, MasterCard, and Visa.

216.342 Deposit Within 24 Hours

Customers paying postage online must enter their shipment via any of the methods outlined in 216.35 within 24 hours of the time when the label is printed or the transaction will be voided.

216.343 Postage Adjustments

Use of the online service is subject to subsequent verification of the shipment upon acceptance by the Postal Service to verify that the payment, weight, and time of entry are accurate. Registration for online service constitutes an authorization to the Postal Service to make adjustments to the initial credit charge for any postage deficiencies discovered upon acceptance. Adjustments for items paid online will be made to the customer's credit card account.

216.344 Notification

An email notification will be provided to each customer showing the exact postage amount applicable for the online shipment, as well as the acceptance time and date.

216.35 Shipment Preparation and Deposit**216.351 Preparation**

Customers must prepare shipments following the shipping preparation instructions on the Global Express Guaranteed Web site.

216.352 Deposit

The following choices are available for depositing Global Express Guaranteed shipments prepared online:

- a. On-Call and scheduled pickup services are available for an added charge of \$10.25 for each pickup stop, regardless of the number of pieces picked up. Only one pickup fee will be charged if domestic Express Mail, International Express Mail, domestic Priority Mail, International Parcel Post, and/or domestic Parcel Post is picked up at the same time. No pickup fee will be charged when Global Express Guaranteed is picked up during a delivery stop or during a scheduled stop made to collect other mail not subject to a pickup fee. Pickup service is provided in accordance with DMM D010. A complete listing of participating Global Express Guaranteed Post Offices is available on the Web site at <http://www.usps.com/gxg>.
- b. Customers may present their online shipments at the retail counter of any participating Global Express Guaranteed Post Office.
- c. Customers using the online postage payment option may drop shipments in collection boxes served by a participating Global Express Guaranteed Post Office.

216.353 Acceptance of Online Shipments

For purposes of computing the delivery guarantee, postal acceptance of a Global Express Guaranteed item prepared online occurs when the shipment is received and scanned at a participating Global Express Guaranteed Post Office. Collection box deposit and carrier pickup do not constitute Postal Service acceptance of a Global Express Guaranteed shipment. Acceptance occurs when the shipment is brought back to the Post Office and the acceptance office performs a retail system scan to verify the weight and dimensions of the shipment. The customer will receive an email verification of the acceptance date, time, and weight, as well as a verification of the amount of postage applicable for the shipment.

IMM REVISION

On-Call and Scheduled Pickup Service for Global Express Guaranteed

To further increase revenue opportunities by meeting customer needs, Global Express Guaranteed™ service options are expanding. The newest enhancements to Global Express Guarantee, the Postal Service’s premier expedited international service, are (1) On-call and Scheduled Pickup Service and (2) Online Postage Payment and Discounted Rates.

(See also “IMM Revision: Online Postage Payment and Discounted Rates for Global Express Guaranteed” on page 27 and “Service Talk: Expanded Service Options for Global Express Guaranteed” on page 54.)

Effective August 22, 2001, *International Mail Manual* (IMM) 213.3 is revised to change the pickup policy for Global Express Guaranteed. The revised policy adds the

availability of On-Call and Scheduled Pickup services for Global Express Guaranteed. This revised pickup service is available only for addresses in ZIP Code areas that accept Global Express Guaranteed. Call Center agent applications have been updated to include participating Global Express Guaranteed acceptance ZIP Codes and associated cutoff times.

We will incorporate these changes into the printed version of IMM Issue 26 and into the monthly update of the on-line IMM available via the Postal Explorer at <http://pe.usps.gov/>.

[Revise 213.3 to read as follows:]

On-call and scheduled pickup services are available for an added charge of \$10.25 for each pickup stop, regardless of the number of pieces picked up. Only one pickup fee will be charged if domestic Express Mail, International Express Mail, domestic Priority Mail, International Parcel Post, and/or domestic Parcel Post is picked up at the same time. No pickup fee will be charged when Global Express Guaranteed is picked up during a delivery stop or during a scheduled stop made to collect other mail not subject to a pickup fee. Pickup service is provided in accordance with DMM D010.

STANDARD PROHIBITED AND RESTRICTED ITEMS

Wherever possible we will try to provide service to our customers by transporting their shipments. However, a variety of laws and regulations, as well as common-sense safety and security issues, means that some items are not acceptable for transport.

Standard Prohibited items – Not acceptable for transport

The following items are NOT acceptable for transport UNDER ANY CIRCUMSTANCES:

- Any item(s), the carriage of which is prohibited by law, regulation or statute of any federal, state or local government of any country, to or through which the shipment may be carried.
- Alcoholic beverages (e.g. beer, wine, spirits)
- Animals, Eggs, Larva, Live insects, Live spiders
- Antiques or Fine Art of works of Art
- Bullion
- Collectible and/or irreplaceable items (any item worth more than its original purchase price or that is not commonly available.)
- Credit Cards (Non-activated other than financial institutions)
- Currency
- Dangerous goods, hazardous or combustible materials including asbestos as defined by IATA or by applicable sea or road transport regulations.
- Drugs/Narcotics (illegal)
- Firearms, parts thereof and ammunition
- Furs (s) and Ivory and Endangered Animal
- Human remains (including ashes)
- Industrial Diamonds/Carbon
- Jewelry
- Medical samples (e.g. diagnostic specimens, blood, urine, bodily fluids, tissue samples)
- Money Orders not issued by the U.S. Postal Service or a financial institution
- Negotiable instruments (See Page 6 for Additional UNACCEPTABLE Commodities)
- Pornography
- Perishable items (e.g. flowers, dry ice, foodstuffs, items requiring temperature control or Special handling, plants)
- Plants
- Precious Metals and Stones
- Tickets (Blank Stock)

Restricted items- MAY be acceptable for transport

The following items MAY be acceptable for transport. Refer to the Individual Country listings for additional country specific restrictions:

Commodity	Condition
Animal products and plant products	Importation of these goods is often restricted. Refer to Individual Country Listing.
Drugs and pharmaceutical products	Refer to Individual Country listing.
Watches, Costume Jewelry	Only items with an individual item value less than USD \$100 and with a total shipment value less than USD \$2499 are acceptable.

NEGOTIABLE INSTRUMENTS

What are Negotiable Instruments?

Negotiable Instruments are any paper, document or device that can be used to transfer value (e.g. travelers checks) OR written and signed unconditional promises, OR orders to pay a specific sum or money on demand or at a definite time, payable to order or bearer. Specific Negotiable Instruments are defined as either Bearer or Non-bearer form.

Why do we need this policy on Negotiable Instruments?

- To communicate special procedures for the handling of negotiable instruments to ensure compliance.
- To ensure insurance coverage in the event of lost shipments.

Non-Bearer Form

Non-Bearer (Negotiable Instrument) - when a paper, document or device *is not* transferable; made payable to a specific person or entity requires a signature endorsement/validation before payment is transferred.

Examples: **Acceptable** if in non-bearer form: bankers drafts, bills of exchange, bills of lading, bonds, two party checks; delivery order, no nominative shares, stock certificates, money orders (made out to 2nd party) drawn from a financial institution such as banks, and post offices if a stop payment can be made. (Not from convenience or grocery stores.)

Refer to country notes for specific restrictions for the individual country.

Most Negotiable Instruments in non-bearer form may be shipped without any special requirements. There are a few exceptions listed below:

NON-BEARER FORM NEGOTIABLE INSTRUMENTS

ACCEPTABLE FOR TRANSPORT WITHOUT RESTRICTIONS:

These items must be Non-Bearer Form: Bankers Drafts, Bills of Exchange, Bills of Lading, Bonds, Checks (Two Party), Delivery Order, Shares (Nominative), Stock Certificates and money orders (drawn on a financial institution or the Post Office)

All other Negotiable Instruments in Non-bearer form not listed may be transported without any special requirements.

PROHIBITED – Credit cards (Non-activated other than financial institutions) and Tickets. (Blank Stock)

Bearer Form

A Negotiable Instrument is in Bearer Form when it is readily transferable. Negotiable Instruments in bearer form may not be shipped.

ICM UPDATE

International Customized Mail

On April 30, 2001, the Postal Service amended an International Customized Mail (ICM) Service Agreement dated January 15, 1999. The Agreement was published in *Postal Bulletin* 21996 (4-22-99, page 72). The Amendment modifies the Agreement to extend the existing Agreement and to insert Global Express Mail (EMS) and Airmail Parcel Post (APP) services in place of Global Package Link service that will become effective on May 1, 2001. In accordance with *International Mail Manual* (IMM) 297.4, the Postal Service previously announced entering into an International Customized Mail Service Agreement with this qualifying mailer and hereby makes public the following information regarding this Amendment:

- a. **Term:** May 1, 2001, through June 15, 2001.
- b. **Type of mail:** *Global Express Mail* (EMS) and *Airmail Parcel Post* (APP).
- c. **Destination countries:** *All other provisions of the Agreement shall remain in force.*

d. Services provided by the Postal Service: The Postal Service has agreed to:

1. Furnish Mailer with the Postal Service equipment and supplies required for using Qualifying Mail.
2. Provide Mailer with any training necessary to prepare mail shipments in conformity with the requirements for Qualifying Mail.
3. Provide Mailer with technical assistance necessary to prepare the necessary information linkages, electronic data files, and data exchanges.
4. Transport Qualifying Mail to international destinations for delivery by the appropriate authority.
5. Return EMS items refused by an addressee and undeliverable items to the Mailer at no charge provided that the return rate is no more than four (4) percent of total volume. Return APP items refused by an addressee and undeliverable items to the Mailer in accordance with IMM.
6. Furnish Mailer with tracking reports and delivery performance reports on a regular basis.

e. Minimum volume commitments: The Mailer has agreed to tender an annualized minimum of 100,000

pieces of EMS and/or APP and to tender a combined annualized minimum of 3.0 million pieces of other combined international mail to the Postal Service.

f. Worksharing: The Mailer has agreed to:

1. Establish the necessary linkages with the Postal Service.
2. Exchange electronic information with the Postal Service according to the instructions the Postal Service provides.
3. Provide the Postal Service with notification of new permit numbers used for Qualifying Mail, 1 week in advance of using the new permit numbers.
4. Provide the appropriate Postal Service acceptance sites a schedule of mailings, including the intended date, weight, volume, and location where mail will originate, in accordance with the instructions the Postal Service provides.

g. Rates: The Mailer has agreed to pay postage of Qualifying Mail according to the rate chart in Exhibit 1.

SERVICE TALK

Expanded Service Options for Global Express Guaranteed

See also "IMM Revision: Online Postage Payment and Discounted Rates for Global Express Guaranteed" on page 27 and "IMM Revision: On-Call and Scheduled Pickup Service for Global Express Guaranteed" on page 39.)

Please provide this service talk as soon as possible and not later than August 17, 2001.

To further increase revenue opportunities by meeting customer needs, Global Express Guaranteed™ service options are expanding. The newest enhancements to Global Express Guaranteed, the Postal Service's premier expedited international service, are (1) On-call and Scheduled Pickup Service and (2) Online Postage Payment and Discounted Rates.

Global Express Guaranteed has been on the cutting edge in meeting our customers' international shipping needs. That trend continues as service expands to provide customers with on-call or scheduled pickup service, online postage payment and discounted rates.

Effective immediately, customers can now pay for postage online via credit card for Global Express Guaranteed service. In addition, customers who use our Web site (www.usps.com/gxg) to prepare and pay for their Global Express Guaranteed shipments will be eligible for discounted postage rates, a standard 5% for all online shipments, and further discounts based on volumes mailed. Mailers who are interested in using the online payment option and postage discounts for Global Express Guaranteed service should send an e-mail message to gxgdisco@email.usps.gov.

Effective August 22, 2001, On-Call and Scheduled Pickup services will be available for Global Express Guaranteed shipments as well. All shipments brought back to the office by carriers must be presented to a retail employee, accountable clerk, or other locally designated employee upon return to the office for proper retail acceptance.

Retail Associates

Retail associates will see a slight difference in the way they accept Global Express Guaranteed shipments prepared and paid for online. For these shipments, retail associates must ensure the shipment label contains indication of postage payment (see Exhibit 1). Retail associates will not need to verify the amount of postage paid, as the online Web application will collect and verify postage. Also, customers may be getting a discounted postage rate, and retail

associates will not be aware of the appropriate rate. Retail associates will still need to verify the weight that appears on the label. If there is a discrepancy, the retail associate must enter the correct weight on the shipping label. Complete acceptance procedures are covered in the What's in Store section of this *Postal Bulletin* (see pages 74–79).

These discounted rates apply *only* to Global Express Guaranteed shipments prepared and paid for online, since the online shipping application automatically tracks customer activity and volume, a capability not currently available at retail terminals. Also, there are cost savings for the Postal Service when customers prepare and pay for shipments online.

Carriers

Shipments prepared online meet the Postal Service's Aviation Security requirements. Therefore, the shipments can be handed to a letter carrier or dropped in any collection box within a Global Express Guaranteed acceptance area. Global Express Guaranteed shipments that are collected by carriers on collection runs must be handled in the same manner as Express Mail to ensure that the proper retail acceptance procedures are followed. For online shipments picked up from customers or collection boxes, carriers must verify that there is indication of postage payment (see Exhibit 1).

All Personnel

In all cases, everyone handling Global Express Guaranteed needs to remember that this is our premier, top-of-the-line, international service. Global Express Guaranteed is guaranteed to arrive on time, and we must pay special attention to ensure it is expedited.

Please help Global Express Guaranteed continue to meet our customers' international shipping needs and demands. Our continued success will be a measurement of their satisfaction with our service.

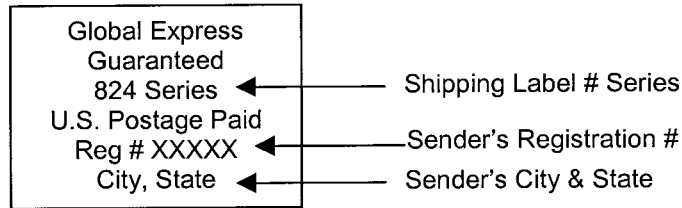

If you receive customer inquiries about Global Express Guaranteed, please advise customers that they can obtain more information by visiting our Web site, www.usps.com/gxg, or by calling 1-800-222-1811.

See Exhibit 1 on page 55 for a sample Global Express Guaranteed postage indicia and a sample Global Express Guaranteed Web shipping label with postage indicia.

Pictorial Cancellations Announcement

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be post-marked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage. Items submitted for cancellation may not include

postage issued after the date of the requested cancellation. Such items will be returned unserviced.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

Customers can also send stamped envelopes and postcards without addresses for cancellation, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial cancellation, the Postal Service returns the items (with or without addresses) under addressed protective cover.

NOTICE AND CORRECTION

Proper Identification of Damaged Mail Transport Equipment Rolling Stock

Please disregard the article titled "Notice: Proper Identification of Damaged Mail Transport Equipment Rolling Stock" in Postal Bulletin 22051 (5-31-01, page 59). The article that appears here has the correct information.

All users of mail transport equipment (MTE) are requested to promptly identify, "red tag," and isolate damaged or defective wheeled containers used to transport mail. Damaged rolling stock must be removed from service and placed in a holding area for return to the servicing mail transport equipment service center (MTESC).

Although all MTE items passing through the MTESCs are scanned for obvious defects, use of the orange PS Form 4707, "Out of Order" tag, will ensure that broken rolling stock is identified and scheduled for repair. Please help the MTESC network keep your rolling stock serviceable by tagging all defective containers.

NOTICE AND CORRECTION

Removal of Trash From Mail Transport Equipment

Please disregard the article titled "Notice: Removal of Trash from Mail Transport Equipment" in Postal Bulletin 22051 (5-31-01, page 59). The article that appears here has the correct information.

Mail processing centers and facilities must immediately stop shipping excess or broken office and workroom furniture, equipment, garbage, and trash to the mail transport equipment service centers (MTESCs) in excess containers or cardboard boxes. Incidents of this type have increased sharply during 2001. This practice creates environmental health and safety problems at the receiving MTESCs, which must spend unbudgeted funds to dispose of the refuse through waste management contractors.

Future shipments of this type will be returned to the originating offices, which will be billed for the additional shipping and handling expenses.

Refer to Handbook AS-701, *Material Management*, for instructions on disposing of unneeded or broken equipment.

Postal Employees

Federal Income Tax Withholding

Congress has approved and President Bush has signed into law a multiple-year tax cut. Under provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001, each individual tax rate above 15 percent decreased by 1 point, effective July 1, 2001. Subsequent reductions scheduled for 2004 and 2006 will provide further cuts to federal taxation rates for individual employees.

The majority of Postal Service employees are subject to the tax changes contained in this new law. The new withholding tables may reduce the amount of income tax withheld from wages paid after June 30, 2001. The reductions in tax withholding are due to the across-the-board decrease in the existing 28 percent and higher tax brackets that became effective on July 1, 2001. However, the IRS has not changed the amounts on the Form W-4, *Employee's Withholding Allowance Certificate*. Therefore, if Postal Service employees do not want to have their withholding reduced, they may want to file a new Form W-4 with their personnel office. Employees may claim fewer withholding allowances on Line 5, or request additional amounts to be withheld on Line 6. Either action should serve to maintain an employee's individual withholding total at his or her desired amount.

Because of the short time period available between the bill signing and the effective date of July 1, 2001, the Postal Service was not able to complete testing procedures to our payroll system in time for the July 1 implementation date. These changes were not effective in our pay system until July 14, 2001. The Postal Service will *not* recompute employee taxes for that 2-week period. When completing their 2001 federal income tax returns, Postal Service employees should take special care to enter the proper data into all sections of the tax forms.

Effective Pay Period (PP)16-2001, payroll checks reflected changes in federal tax withholding, and the exemption value increases for each allowance rose from \$107.69 to \$111.54. All information in this article is based upon a biweekly PP.

Federal Income Tax Withholding Table — Wages (minus withholding allowances, FSA, Income Tax Rates FEHB, and TSP contributions)

Single Person (Including Head of Household)

Not over \$102		\$0

Federal Employees Health Benefits (FEHB), Flexible Spending Accounts (FSA), and Thrift Savings Plan (TSP) contributions made by employees are treated as pre-tax monies (unless an employee has signed a pre-tax waiver for FEHB benefits). When calculating taxes, Postal Service employees should remember to subtract their allowances (\$111.54 for each allowance) and all of these contribution amounts from their gross earnings. The following steps help to determine the amount of withholding:

1. Determine normal biweekly gross wages from earnings statement.
2. Determine normal biweekly TSP contributions from earnings statement.
3. Determine normal biweekly FSA contributions from earnings statement. If applicable, add the amounts from both the FSA Dependent Child (FSADC) Sub-Account and the FSA Health Care (FSAHC) Sub-Account together.

4. Determine normal biweekly FEHB pre-tax employee contribution from earnings statement (abbreviated as HP).
5. Multiply the number of exemptions claimed by the new biweekly exemption value of \$111.54 (withholding allowance). The federal tax line on the earnings statement shows the number of exemptions claimed (e.g., S1 = Single with One Exemption, M3 = Married with Three Exemptions).
6. Subtract the amounts in Step 2 (TSP), Step 3 (FSA), Step 4 (FEHB), and Step 5 (Exemptions) from Step 1 (Gross Biweekly Wages). The remainder is the amount that is subject to withholding.
7. Determine which range this amount falls into on the Federal Income Tax Withholding Table, and follow the instructions listed in the Table.

The example below shows how to compute federal income taxes for a Federal Employees Retirement System (FERS) employee who claims three exemptions and makes pre-tax contributions to the FEHB, FSA, and TSP.

Example

A FERS employee receives \$3,150.50 as gross biweekly wages. The employee makes the following contributions from his or her pay: 10 percent per PP to the TSP; \$30.00 per PP to the FSADC Sub-Account; \$75.00 per PP to the FSAHC Sub-Account; and \$45.56 for FEHB. (This example uses the actual Family Standard dollar amount from the Blue Cross Health Plan.) The employee is married and claims three exemptions (M3 on the Federal Tax Line of the Earnings Statement). Using the information provided above in the Federal Income Tax Withholding Table, federal taxes can be computed as follows:

Computation 1

Total biweekly gross wages	\$3,150.50
TSP contributions	315.05
FSADC contribution	30.00
FSAHC contribution	75.00
Total FSA contribution	105.00
FEHB contributions	45.56
Exemptions (3 x \$111.54)	334.62

Computation 2

Biweekly gross wages	\$3,150.50
Minus TSP contributions	-315.054
Minus FSA contributions	-105.00
Minus FEHB contributions	-45.56
Minus exemptions	-334.62
Amount of wages subject to withholding	\$2,350.27

To complete the computation, refer to the Married/Biweekly segment of the Federal Income Tax Withholding Table. The amount of wages subject to withholding, \$2,350.27, falls within the "Over \$1,919 but not over \$4,046" range. Using the information provided within that range, the final computation is as follows:

Computation 3

Amount subject to withholding	\$2,350.27
Subtract \$1,919 from \$2,350.27	431.27
Multiply \$431.27 by .27 (27%)	116.44
Add from the IRS Table	250.65
Add \$116.44 and \$250.65	367.09
The total Federal Income Tax* that should be withheld from this employee's biweekly check is	\$367.09

* Please note that rounding may vary this total by a few cents.

Purchasing and Materials

GENERAL INFORMATION

Consignment of Vehicle Maintenance Repair Parts Inventory

The Philadelphia Purchasing and Materials Service Center (PMSC) has been named the Center of Excellence for the consignment of the vehicle maintenance repair parts inventory. The consignment program is a value-added feature of National Ordering Agreements (NOAs). Through the consignment process, selected vehicle repair parts are ordered, received, and stocked at vehicle maintenance facilities (VMFs). The parts remain the property of the supplier until used to repair a vehicle, at which time the Postal Service is charged for them.

Among other benefits, consignment provides for a 5 percent discount from negotiated NOA prices, supplier paid shipping, and a 12 percent avoidance of the Economic Value Added (EVA) charge on all consigned parts used. As of accounting period (AP) 8, 176 of 322 VMFs and/or auxiliary VMFs are either actively participating in the consignment program, or have begun the process of identifying parts lists for consignment.

For more information on the consignment program, visit the Delivery Vehicles Operations Web site (<http://blue.usps.gov/vehicles/>) and click on *Vehicle Repair Parts Inventory Consignment*, or visit the Download section of the Philadelphia PMSC Web site (<http://blue.usps.gov/purchase/material/pmsc/philadelphia/dlphi.htm>) and click on *VMF Consignments*. You can also call Sharon Greer, Delivery Vehicle Operations, at 202-268-3588 or Peggy Garrity, Philadelphia PMSC, at 215-931-5167.

Look for the labels

*Global Express
Guaranteed*

Be on the lookout for more and more Global Express Guaranteed™ shipments in the mail stream that bear labels generated online. The following are the items that the retail clerk should verify or complete on the shipping label upon acceptance of a Web label for Global Express Guaranteed:

1. Place item on scale. Ensure customer has affixed the label pouch with identical information showing through each pouch window. Remove and review "Original Copy" from the front pouch to ensure that the customer signed the label and initialed the export license block, if applicable. **Note:** *The "Addressee Copy" of the label should remain in the back pouch and also must have the customer signature.*
2. Round date the Original Copy of the label to the immediate left of the postage.
3. Verify that the dimensional weight (length x width x height)/166 versus the actual weight is correct. If the measurements or weight are incorrect on the shipping label, line through and enter the correct dimensions or weight above, rounded down to the whole inch, with a minimum of 1 inch for the DIM weight only. Enter the correct measurements or weight into the POS/IRT system.
4. Enter the Postal Code as it appears on the shipping label into the POS/IRT system.
5. Enter the delivery guarantee as it appears on the shipping label into the POS/IRT system (remembering to calculate an additional business day if the shipment is accepted after the Global Express Guaranteed retail cut-off time).
6. Enter the insurance amount in the POS/IRT system, if applicable. (If incorrect, line through and make correction on the shipping label.)
7. In the "Origin (Postal Use Only)" section of the shipping label, ensure that "Postage Paid Online" is indicated as a computer generated image in the "Postage Only" and "Total postage and Fees" section blocks. Also ensure that you indicate the "PO ZIP+4 Code," "Date In," and "Time In" on the shipping label and entered into the POS/IRT system.

What's in Store

8. Scan the Global Express Guaranteed shipping label barcode with the POS/IRT system scanner.
9. Reinsert the Original Copy of the shipping label in the front pouch. If additional documentation from the customer was received, ensure that it is placed behind the shipping label in both front and back pouches. **Note:** *If customers present the "Customer Copy" of the shipping label, return it to them.*
10. Place the Global Express Guaranteed article in the designated Express Mail service sack. *Do not mix with other expedited articles.* Close sack, properly tag with Global Express Guaranteed Tag #141, and use destination slide label for the designated AMC/AMF facility. Dispatch articles daily as required, at specified dispatch times.

See page 55 in this issue of the *Postal Bulletin* for samples of the online labels and indicia.

Retail Coaches Corner

Welcome to the August Corner!

Standard Acceptance Procedures for Packages

A customer presents a package at the retail counter. Let's review what steps must be followed:

- Check the delivery and return address – review DMM A010.3.0 and 4.0 on requirements.
- Conduct a visual inspection — review DMM C010.2.0 on requirements.
- Then ask customer, “Does the parcel contain anything liquid, fragile, perishable, or potentially hazardous?”
- If customer answers “no,” then ask him or her, “When do you want the item to arrive” or “How soon do you need to get it there?”
- The customer will tell you what the contents are. If you do not know if the item is mailable, consult DMM C020-024; Publication 52, *Hazardous, Restricted, and Perishable Mail*; or the IMM to determine mailability. Either accept the item for mailing or refuse based on directives. Explain to the customer *why* the item must be refused.

Look for additional training and information regarding these procedures in AP 1 FY 2002.

Return Receipt for Merchandise or Merchandise Return Service

Merchandise Return Service allows an *authorized permit holder* to pay postage and special service fees on single-piece rate First-Class Mail service, Priority Mail service, and Package Services parcels that are returned to the permit holder by its customers via a special label produced by the permit holder. Also available with this service is **Merchandise Return Label with Mailing Acknowledgement** (DMM Exhibit 5.6c), which allows a customer a round date of the label at the retail counter at no charge. Review DMM S923 for additional information.

Return Receipt for Merchandise is a form of return receipt service that provides the sender a mailing receipt and a return receipt. The mailer can obtain PS Form 3804, *Return Receipt for Merchandise*, and PS Form 3811, *Return Receipt*, and must mail at a Post Office, branch, or station, or give to a rural carrier. Review DMM S917 for additional information.

Priority Mail Service or Express Mail Service

Customers often confuse Express Mail and Priority Mail services. There is still a misconception among customers that Priority Mail service is a guaranteed service. The key difference when explaining to a customer is using the word “guaranteed.” Express Mail service is a guaranteed service. Priority Mail service is a reliable service, but it is *not guaranteed*. Customers will understand the difference when you explain it to them.

Refunds for Express Mail Corporate Account Customers

How is a refund processed for corporate account customers? DMM P014.5.7 states that the Postal Service refunds the postage by issuing a *credit* to that account within 5 business days. The customer can complete PS Form 3533, *Application and Voucher for Refund of Postage and Fees*, in local unit. The completed form should then be forwarded to the District Express Mail Office for processing.
