PUBLISHED SINCE MARCH 4, 1880

PB 22072, March 21, 2002

At the Oval Office ceremony were (from left) PMG Jack Potter; firefighters Billy Eisengrein and George Johnson; President George Bush; U.S. Rep. Gary Ackerman of New York; firefighter Dan McWilliams; and The Record (Bergen County, NJ) photographer Thomas Franklin, who took the photo featured on the stamp.

## Heroes

It is a memorable photograph. Firefighters raising the U.S. flag atop the rubble of the World Trade Center towers in New York City. Now, it will be a memorable stamp image. The Heroes of

2001 semipostal stamp will raise funds to provide assistance to families of emergency relief personnel killed or permanently disabled as a result of the Sept. 11 terrorist attacks.

With President George W. Bush and Postmaster General John E. Potter on hand, the Heroes of 2001 stamp was unveiled at a White House ceremony on the six-month anniversary of the attacks.

"The Postal Service is proud to honor the men and women who gave their all in the rescue efforts following the terrorist attacks of Sept. 11," said Potter. "Sadly, many of these true American heroes paid the ultimate sacrifice. We hope this stamp will

be a lasting tribute to them and a testimony to the spirit and resolve of our great country."

The price of the semipostal stamp will be 45 cents. The net proceeds from the sale of the stamp will be transferred to the Federal Emergency Management Agency for distribution to the families of the relief personnel.

The stamp is expected to be available in Post Offices nationwide in a few months.

SUBJECT: USPS Pro Cycling Team Publicity Kit

The USPS Pro Cycling Team begins its professional cycling competition for 2002 with a full schedule of both international and domestic racing events. I am asking for your support in maximizing the opportunities of title sponsorship at U.S. domestic race venues this year.

Led by team leader Lance Armstrong, the USPS Pro Cycling Team is coming off its third consecutive Tour de France victory. The Team is set to begin its seventh season with USPS as its title sponsor and will have a twenty-one rider roster in 2002. It will continue to be one of the most diverse teams in the sport with riders representing ten different nations. Everyone will be watching.

Our role as title sponsor provides us with an excellent opportunity to build our brand, create positive publicity about the Postal Service and, most important, generate additional revenue. Thanks to the success and popularity of our USPS Pro Cycling Team, the opportunities have never been greater to further the image and business goals of the Postal Service.

I encourage you to take advantage of the opportunity presented by the appearance of the Team in your communities during the 2002 race season. A list of confirmed, tentative and possible races and locations is included. The attached communications toolkit will be helpful in planning activities and in generating media attention.

Please use the materials in this publicity kit to help develop and plan your local events. Be sure to keep your area Public Affairs and Communications manager informed of your activities. Your support of the USPS Pro Cycling Team is critical to the success of our title sponsorship.

THANK YOU!

### Objectives

- Heighten Postal Service brand awareness through promoting postal products (philatelic, domestic, and international).
- Heighten awareness of Postal Service-sponsored cycling teams.
- Reach new markets to promote Global Delivery Services.™
- Enhance employee morale through involvement in local cycling events and initiatives.

### Target Audience

#### External

- Cycling trade press
- General news media

- Postal Service Global Delivery Services offer the same qualities that produced winning results at three Tours de France: exceptional teamwork, speed and efficiency, and determination.
- USPS cycling team sponsorships generate excitement, enthusiasm, and pride for Postal Service employees.

### Tactics

#### Community Relations

- Invite members of Congress and/or other elected officials to introduce USPS cycling team members at local events. *(Use this opportunity to engage in informal discussions on the USPS Transformation Plan and create confidence in the mail).*
- Partner with bike shops and host bike safety clinics at local schools.
- Develop stamp design contests at local schools based on a cycling theme.
- Invite Consumer Affairs to provide consumer information at a postal booth set up at the race.

#### Revenue Generation

- Establish a postal retail booth at all race locations.
- Develop souvenir envelopes and pictorial cancellations. *(See designs on page 15. Contact Area Public Affairs and Communications office for available artwork, page 16).*

#### **Communications Publicity Kit**

Items in this publicity kit can be used in their present form or adapted to support the goals of this plan.

#### *External Communications*

- Media advisory
- Postal official speech
- Postmaster column for local newspaper
- Cycling team backgrounder
- Internal communications
- Team race schedules and rosters
- Employee business talk
- Newsbreak
- Sponsorship Qs&As

#### **Publicity Ideas**

Create a photo opportunity for general media coverage at your event when the Pro, National Development, or Junior National Cycling Teams come to your city to race. Cyclists are required to make a number of public appearances for sponsors and are usually available a day or more before races begin. These ideas present a number of photo opportunities. Two-week or more advance notice is recommended when requesting participation of a cycling team member.

**Contact to arrange for cycling team member participation at local events:  
Jennie Coe, 202-268-2428**

#### *Postal Facility Visit*

Invite the media to attend a local plant or Post Office visit by members of the cycling team. Schedule this when a significant number of employees are present. Consider a combined public/employee event. Invite elected officials to participate. Have the team's publicity director or manager and a local postal official introduce each team member. Team representatives can present an overview of the season's races, objectives, etc. Invite Qs&As. A postal official can present talking points on Postal Service sponsorship and present team representatives with a plaque, gift, or philatelic item on behalf of employees to show Postal Service support. Set up a table where cyclists can sign autographs for employees.

#### *School Visit*

Contact a local school to plan an outdoor assembly during the cycling team's visit. Prior to the visit, engage kids in a stamp design contest on a cycling theme, such as safety. Pick first-, second-, and third-place winners. Team representatives usually arrive in racing gear, riding their bikes, followed by race support vehicle. Team members can talk about bicycle safety and racing. Kids love to see the riders in their colorful cycling uniforms, and they will ask plenty of questions in a Q&A. Have a team rider present the top three stamp design winners with a philatelic award. Post winning designs in the Post Office lobby.

#### *Retail Booth at Race Day*

Invite cycling team members to the retail booth for an hour on a race day. Hold a raffle based on minimum postal purchase, and ask the team member to pick the winner in a drawing for postal or cycling merchandise or an autographed pictorial cancellation. Request that the team member sign autographs at a table or pose with racing fans and employees. Cycling merchandise is available online at [www.usps.com](http://www.usps.com); click on *The Postal Store*, then *Pro Cycling Gear*.

## USPS Pro Cycling Team Domestic Race Schedules

In today's business environment we must capitalize on every publicity and revenue opportunity available when the cycling team races in our communities. Competitive cycling is a fast-changing sport, and rider participation in a race depends on many factors, including injuries and events at the Pro Cycling Team's European races, which occur at the same time.

For this reason we have included three schedules: confirmed, tentative, and possible. The best way to determine if USPS Pro Cycling Team members will participate is to contact USPS Pro Cycling Team liaison Jennie Coe at 202-268-2428. You are encouraged to also check the Internet web sites maintained by many of the race organizers.

**POSTMASTER COLUMN****USPS Pro and Amateur Cycling Teams — Go! Ride! Win!**

What do the United States Postal Service and the USPS Pro and Amateur Cycling Teams have in common? They are all winners and they rely on exceptional teamwork in order to deliver a winning product.

In the case of the USPS Pro and Amateur Cycling Teams, each racer makes a selfless contribution to the team effort in order to position one team member to be the overall winner. That was the case when Lance Armstrong became a three-time winner at the Tour de France. The world now recognizes Armstrong as the champion he is. However, he would not have been able to don the coveted yellow jersey worn by the race leader without the support of his entire team.

Similarly, the Postal Service could not be in a position to compete in the global marketplace without the dedication and support of all its employees, each contributing in a different way toward a common goal.

As the title sponsor for the USPS Pro and Amateur Cycling Teams, the Postal Service is delivering a strong message to its competitors: The Postal Service is in a race for business and plans to win that race by establishing itself as the champion in Global Delivery Services.

Like Armstrong's yellow jersey, the Postal Service's corporate brand is recognized as the symbol of excellence throughout the business world. As title sponsor of the USPS Pro and Amateur Cycling Teams, we plan to use that association to raise awareness of our Global Delivery Services. Our sponsorship ties directly into our business goals and serves as a vehicle for our aggressive pursuit of new business at every turn in the race.

The USPS Pro and Amateur Cycling Teams offer unique opportunities to enhance the Postal Service image in local communities and instill pride in Postal Service employees. Local races such as the one scheduled in **[INSERT LOCATION AND DATE]** benefits our communities, schools, and civic organizations and promote youth bicycle safety programs.

As Lance Armstrong and the USPS Pro Cycling Team challenge the world for a fourth Tour de France victory, the Postal Service looks ahead to the continued growth of Global Delivery Services and its leadership in global communications.

## **EMPLOYEE BUSINESS TALK**

### **USPS Pro and Amateur Cycling Teams — Go! Ride! Win!**

Today, I'd like to talk about a subject you've heard a lot about, the USPS Pro Cycling Team. The Postal Service continues with this, its seventh consecutive year of sponsorship as the 2002 title sponsor of the Pro and Amateur National Development and Junior National Teams.

You might ask, "What does cycling have to do with our core business of selling stamps, and processing and delivering the mail?" The answer is that our sponsorship ties directly into the international, retail, and sales business goals of the Postal Service.

The cycling team sponsorships help raise awareness of the Postal Service as a global delivery service, positioned to help customers move their products overseas. The sales group works to identify new business opportunities with companies. Stamp-collecting products and a limited line of merchandise featuring the team logo are sold at races held in this country. The Postal Service expects to increase international revenue tenfold over the next 10 years.

Lance Armstrong and his team's spectacular performance the last 3 years in the Tour de France created extensive positive publicity. This translated into Postal Service brand awareness and positioned us favorably in the minds of prospective business clients. A winning image in business is worth a lot!

The USPS Pro and Amateur Cycling Teams offer unique opportunities to enhance the Postal Service image in local communities too. Local races such as the one scheduled in **[INSERT LOCATION AND DATE]** benefit our communities, schools, and civic organizations and promote youth bicycle safety programs.

Cycling is one of the world's most popular sports, with more than 60 million spectators annually. The Tour de France is one of the world's largest sporting events, attracting over 20 million spectators and generating TV coverage in 140 countries with more than 2 billion viewers.

With so much focus and attention on a world-class cycling event, leveraging the success of a world-class team brings rewards to the Postal Service that go beyond finishing first. It means first in the minds of prospective business clients, first in the minds of residential customers, and first in the minds of employees who take pride in working for a first-class organization.

So if you are asked about our sponsorship, I hope you will translate it into terms our customers and your coworkers understand: revenue generation, image, and brand enhancement.

**POSTMASTER SPEECH SEGMENT****USPS Pro and Amateur Cycling Teams — Go! Ride! Win!****Sponsorship and the Race for Business**

Let me start by asking a question. (*Raising hand*) How many people think the cost of education is just too high today? You may be right. But I ask, if you think the cost of education is too high, what are you willing to pay for ignorance?

Now, that's a heck of a way to start off a speech about how proud we are about our USPS Pro and Amateur Cycling Teams that will be competing here in our city on **[INSERT DATE]** around the country, and in Europe. But some of you might be asking, why is the Postal Service sponsoring these teams?

Well, the United States Postal Service is in a competitive race too, a race for business as the global shipper of choice. We cannot afford to be either complacent or ignorant about the needs and requirements of our business-to-business customers. We are in a race for business, and like Lance Armstrong, it is a race we plan to win. Every race has strategies. Our strategy is to gain knowledge about our customers' needs.

As title sponsor of the USPS Pro and Amateur Cycling Teams, we plan to use that association to raise awareness of the Postal Service as a global competitor in the delivery business. Our sponsorship ties directly into our business goals. It puts us in gear to increase revenue and sales through postal products and services such as our line of Global Delivery Services. The bottom line is sponsorship contributes to the overall financial success of the Postal Service, which is good news for postal customers.

Extensive positive publicity from our relationship with Lance and the team generated brand awareness and helped position the Postal Service favorably in the minds of prospective business clients. This association sets the Postal Service apart from our competitors. A winning image *is* important. When a company chooses its courier of choice, it wants a winner.

While the Tour de France is a race on a global stage, our association with cycling takes place on a local stage as well. Sponsorship gives us visibility at local races, which helps solidify our presence in domestic markets. These events also benefit our communities, schools, and civic organizations and promote youth bicycle safety programs.

Cycling is one of the world's most popular sports, with more than 60 million spectators annually. The Tour de France is one of the world's largest sporting events, attracting over 20 million spectators and generating TV coverage in 140 countries with more than 2 billion viewers.

With so much focus and attention on a world-class cycling event, leveraging the success of a world-class team brings rewards to the Postal Service that go beyond finishing first. It means first in the minds of prospective business clients, first in the minds of residential customers, and first in the minds of employees who take pride in working for a first-class organization.

## Questions And Answers

**Q. Why is the U.S. Postal Service sponsoring the professional and amateur cycling teams when revenues are down and postage rates are going up?**

A. The pro and amateur cycling teams position the Postal Service as an innovative global marketer through our Global Delivery Services products. This is expected to increase revenue and sales of postal products and services on a global basis. It also offers unique opportunities to enhance the Postal Service image in local communities and among our employees.

**Q. What does the sponsorship entail?**

A. The Postal Service is the title sponsor of the Pro Cycling Team, which is owned and managed by Tailwind Sports, Inc., Sausalito, California. Other sponsors also provide either funding or in-kind services to support the team's budget. Our sponsorship of the National Development and Junior National Teams gives our brand image added exposure and provides us with a tremendous reach throughout organized cycling at its three highest levels.

**Q. What benefit does the Postal Service expect to get from the sponsorship?**

A. The pro and amateur cycling sponsorship supports the business goals of the international business, retail, and sales organizations.

The international business group responds to the increasing globalization of U.S. businesses. As American businesses look to "go global," the international business group has positioned itself to help them reach new markets and increase revenue. By facilitating the movement of products overseas for American businesses, the Postal Service expects to increase international revenue tenfold over the next decade.

Retail sales will occur at many of the domestic race sites. Stamp collecting products and a limited line of merchandise featuring the logo of the team will be sold.

The sales group works to identify new business opportunities with companies and individuals affiliated with cycling. These relationships, and the revenue generated as a result, help support the cycling sponsorship.

The sponsorship also offers unique opportunities to enhance the Postal Service image in local communities and among its employees.

**Q. How much does the Postal Service pay to sponsor the cycling teams?**

A. Because the funding for the sponsorship is considered part of our overall advertising budget, and we do not release information about individual parts of that budget, we don't discuss the amount of the contract publicly.

**Q. What part does Lance Armstrong play in the sponsorship?**

A. He is strictly part of the USPS Pro Cycling Team. There is no special sponsorship arrangement with him.

**Q. What other sports sponsorships is the Postal Service involved in?**

A. The cycling sponsorship is the only national sports sponsorship in which the Postal Service is engaged.

**Q. The Postal Service is also the title sponsor of the National Development and Junior National Team. Why is the Postal Service including cyclists in amateur status along with its sponsorship of the USPS Pro Cycling Team?**

A. Starting with the 2001 race season, the Postal Service became title sponsor of the amateur National Development and the Junior National Cycling Teams. USA Cycling, the umbrella organization of pro and amateur cycling in the U.S., is committed to development of the next generation of cycling champions.

USA Cycling believes the National Development and Junior National Teams are critical to our mission of sustained success in international competition. Therefore, as the "bridge" between emerging elite U.S. amateur athletes and the elite professional ranks, the National Development and Junior National Teams will become USA Cycling's primary focus in this effort. USA Cycling's goal is to give our best young riders the necessary preparation and opportunities for a productive career in the professional European cycling peloton. This help's ensure our sponsorship of the world's most elite racing team.

## Secure Teleconferences

The following is process and procedures information for establishing a secure (restricted information) teleconference. The process and procedures are effective immediately.

### Introduction

This article provides basic information and guidance to postal managers and their designees on the process for establishing a secure teleconference. A secure teleconference is distinguished from an ordinary teleconference in that it includes precautions to protect privacy through password protection or other measures. Secure teleconferencing is a cost-effective way to conduct telephone meetings that involve Postal Service restricted (ASM 351) and other sensitive information.

### Background

It is often practical, productive, and cost-effective for Postal Service managers and designated personnel to conduct teleconference meetings. The Postal Service maintains a competitively acquired contract with MCI WorldCom for local, long-distance, and teleconference service.

### Policy

A secure teleconference must be used for all teleconferences when Postal Service restricted (ASM 351) information will be discussed. Through the MCI WorldCom service and with management approval, any postal facility may conduct a secure teleconference.

### Funding

Functional organizations hosting secure teleconference meetings are responsible for cost and connection fees. The call sponsor must provide his or her finance number for payment. Teleconference pricing information can be obtained from the MCI WorldCom operator.

### Procedures

Secure teleconferences require a reservation. To schedule a secure teleconference, follow the procedures below.

#### **To set up the call:**

- Step 1. Obtain a corporate authorization number by calling 800-459-2940 and providing the company name (Postal Service) and your finance number. The authorization number functions as your account number. Retain it to make reservations for all of your teleconferences (secure and nonsecure) tied to this finance number.

- Step 2. Dial Postal Service conferencing reservations at 800-459-2940 and provide the date/time, authorization number (from step 1 above), and number of telephone lines needed for the call.

- Step 3. Ask for a standard-level call and specify that the call needs to be secure. There is no additional charge, but the secure functionality will not be engaged unless you request it. Provide the reservations operator with a customized passcode of your choosing.

#### **To finalize arrangements for the call, select and apply one of the following:**

##### Call-Out Option:

- In advance of the secure teleconference, call the reservations operator at 800-459-2940 and provide a list of participant names and phone numbers. Make sure that the list provides each participant's preferred number (desk, home, or cell) for the teleconference.
- Before the teleconference, provide each authorized participant with the customized passcode.
- At the time of the teleconference, MCI WorldCom's operator will dial each participant at his or her designated number. The operator will ask each participant for the customized passcode.

##### Call-In Option:

- In advance of the secure teleconference, call the reservations operator at 800-459-2940 and provide a list of participants. Establish with the operator the toll-free number for participants to call for admission to the teleconference.
- Before the teleconference, instruct each authorized participant to call 800-459-2940 or the toll-free number previously established (under "Call-Out Option" above) at the appointed time. Provide each participant with the customized passcode.
- At the time of the teleconference, participants will dial in on the established toll-free number. The operator will ask for the participant's name and customized passcode before entering him or her into the call.

**To secure the call:**

- After all participants are present on the call, you, as the call sponsor, secure the call by pressing star (\*) 7 on the telephone keypad. Your phone will emit a distinctive tone (other than the familiar enter/leave tone). This tone assures you that the operator has left the call. If this distinctive tone does not sound, the operator is still on the call, and you should ask the operator to leave the call. You should then press star (\*) 7 again to secure the call.
- Once the call has been secured, additional participants cannot join the call unless the security features are removed.

**To re-admit a participant who has dropped off an ongoing call:**

- If a participant's connection to a secure teleconference is terminated, you, as the call sponsor, can reopen the call to that individual by pressing star (\*) 7. This will remove the security from the call. The participant may then rejoin the call through the MCI WorldCom operator. Once the participant is back on the call, you press star (\*) 7 once again to restore the security features.

**To obtain operator assistance:**

- If you need the operator for assistance during the call — either for troubleshooting or to redial a participant whose connection to the conference has been terminated — press star (\*) 7 to remove the security features and then press star (\*) 0 to get the operator. When the operator has left the call, press star (\*) 7 again to restore the call security features.

**Contact**

If you have questions or issues concerning the quality of services you receive using this secure teleconference service, please call Marvin Benham at 919-501-9226.

**Disclaimer**

No telephone conversation is guaranteed free from the risk of being intercepted or overheard by unauthorized persons. Although the secure teleconference service enhances the privacy of the information being discussed, you should still carefully consider disclosing and discussing Postal Service restricted (ASM 351) and other sensitive information.

### **Missing Children Poster Display Instructions**

Please display this poster prominently on bulletin boards in retail lobbies of main Post Offices, classified stations, and branches. Operators of contract postal units may display this poster at their option.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by NCMEC.

In addition to *Postal Bulletin* updates, NCMEC distributes information via broadcast fax. Notification of newly reported missing children is sent to designated district "Missing Children" coordinators at fax numbers provided by district managers. Within 24 hours of receipt of a facsimile Missing Children poster, district coordinators should distribute copies to all postal facilities in their districts. Missing Children posters are to be displayed for 30 days in Post Office lobbies, workroom floor areas, and other postal facilities, unless notification is received (from NCMEC) to remove a particular poster sooner. The broadcast fax network is used to distribute posters and information in only the most urgent cases of missing and exploited children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service only as described above. If postal employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local Post Offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 1-800-843-5678.

## DMM REVISION

### Bedloaded Bundles of Periodicals

Effective March 31, 2002, *Domestic Mail Manual* (DMM) M011, M013, M210, and M220 are revised to remove the option that allows mailers to bedload bundles of Periodicals flat-size mail instead of placing them in sacks or on pallets.

Current DMM M210.5.0 and M220.5.0 allow authorized mailers to place packages of Presorted rate and carrier route rate Periodicals flats directly into a truck or trailer if the packages are secured together into bundles containing a minimum of 20 pounds of mail (instead of sacking or palletizing those packages). Such preparation is optional and requires Postal Service authorization from Business Mailer Support at Headquarters.

Our records indicate that there are no mailers who are preparing bedloaded bundles in this manner. For this reason, and because bedloaded bundles are generally not cost-efficient for the Postal Service to handle and process, we are removing the option to prepare Periodicals flats as bedloaded bundles. Effective March 31, 2002, all Periodicals flats must be prepared in sacks or on pallets.

This change does not apply to mailers who transport packages of Periodicals to destination delivery units under exceptional dispatch.

We will incorporate these revisions into the next printed version of the DMM and into the March 31 update of the online DMM available via Postal Explorer at <http://pe.usps.gov>.

Effective March 21, 2002, Domestic Mail Manual (DMM) C850.1.4 is revised to reflect changes in the updated Publication 91, Confirmation Services Technical Guide.

We will incorporate this revision into the next printed version of the DMM and into the March 31 update of the online DMM available via Postal Explorer at http://pe.usps.gov.

DMM REMINDER

New Sort Level for Pallets

Effective March 31, 2002, the Postal Service is introducing a new optional level of pallet sort for a limited number of sectional center facility (SCF) service areas. This option is available for Periodicals nonletters (flats and irregular parcels), Standard Mail flats, and Bound Printed Matter flats prepared on pallets.

New labeling list L006 allows mailers to prepare flats on pallets based on specific groupings of 5-digit ZIP Codes to facilitate entering the pallets directly into the facility where that mail is processed. To implement this change, we have added a new optional pallet level called a "5-digit metro" pallet prepared using labeling list L006. These pallets will contain mail for certain groupings of 5-digit ZIP Codes that are all processed within a single facility. In the sortation hierarchy, the 5-digit metro pallet follows the 5-digit scheme and 5-digit sort levels and precedes the 3-digit and SCF sort levels. A 5-digit metro pallet could contain carrier route, 5-digit, and 3-digit packages.

The Postal Service and its customers will benefit from this new optional sort because mail will be prepared and deposited more efficiently, going directly to the facility where the packages of mail are processed by the Postal Service and avoiding extra handling and transportation.

We first published these changes in Postal Bulletin 22066 (12-27-01, pages 9–15) and we will include them in a special update of the online DMM on March 31, 2002. The DMM is available via Postal Explorer at http://pe.usps.gov.

## DMM REMINDER

**Co-Packaging of Automation Rate and Presorted Rate Flats**

Effective March 31, 2002, portions of *Domestic Mail Manual* (DMM) Module M are revised and new M950 is added to provide a new option that allows mailers to combine flat-size automation rate pieces and flat-size Presorted rate pieces of the same mail class within the same package. This new preparation option is called “co-packaging” and is available for First-Class Mail® items, Periodicals, and Standard Mail items.

Under current standards, flats prepared as an automation rate mailing must bear a ZIP+4 or delivery point barcode, while flats prepared as a Presorted rate mailing are not required to bear a barcode. The new co-packaging option requires that all Presorted rate pieces bear a 5-digit barcode. Pieces without a 5-digit barcode must continue to be prepared as separate mailings but could be co-trayed or co-sacked under M910.

Under the new co-packaging option, the current minimum volume requirements for automation rate and Presorted rate mailings continue to apply separately for First-Class Mail and Standard Mail items. The total of all automation rate and Presorted rate pieces can be used jointly to meet package and container minimums (i.e., a minimum of 10 pieces per package for First-Class Mail or Standard Mail items, and a minimum of 6 pieces per package for Periodicals). Postage for Presorted rate and automation rate pieces will still be determined under DMM E130 and E140 for First-Class Mail items; under E220 and E240 for Periodicals; and under E620 and E640 for Standard Mail items.

As part of this new option, mailers may combine Presorted rate pieces and automation rate pieces in no more than one physical package per “logical” presort destination. A “logical” presort destination represents the total number of pieces that are eligible for a specific presort level based

on the required sortation but that might not necessarily be contained in a single container, such as a package, sack, or pallet, due to the applicable preparation requirements. As an example, if 9 Presorted rate Periodicals pieces (each containing a 5-digit barcode) are sorted to the same 3-digit ZIP Code destination as 19 automation rate pieces (each containing a ZIP+4 barcode), the following physical packages might be prepared: one package containing 8 Presorted rate pieces; one package containing 1 Presorted rate piece and 7 automation rate pieces; and one package containing 12 automation rate pieces.

This option is beneficial to customers because it allows some pieces to move up to a finer presort level and qualify for lower postage rates. The Postal Service benefits by receiving more finely sorted mail.

Mailers who elect to use this new co-packaging option must prepare their mail using Presort Accuracy, Validation, and Evaluation (PAVE)—certified software or the standardized documentation option in DMM P012. The documentation must indicate the total number of automation rate and Presorted rate pieces in each package. Because this option is beneficial to customers and the Postal Service, we encourage presort software vendors to set this option as a default.

We first published these changes in *Postal Bulletin* 22064 (11-29-01, pages 36–47) and we will include them in a special update of the online DMM on March 31, 2002. The DMM is available via Postal Explorer at <http://pe.usps.gov>.

ANNOUNCEMENT

**Test Center for Voluntary Barcode Readability Pretesting on MERLIN**

The Mailing Evaluation, Readability, and Lookup Instrument (MERLIN) is a new tool used during verification and acceptance in business mail entry units (BMEU) and detached mail entry units (DMU). MERLIN verifies whether customer-prepared letter- or flat-size mailings are eligible for the postage rates claimed by a customer on postage statements. MERLIN machines are currently under deployment in the Southeast and Southwest areas and will be completely deployed nationally in approximately 2 years.

In response to customer requests, the Postal Service has dedicated a MERLIN barcode readability test site in Chicago, Illinois. Customers may *voluntarily* request to have prebarcoded sample mailpieces checked for barcode readability at the test center. However, mailpieces cannot be submitted for barcode readability pretesting more than **90 days** prior to installation of MERLIN at the BMEU or DMU where the mailings are verified for acceptance. Customers will receive a letter from the Postal Service 90 days or more in advance that will notify them of the actual MERLIN installation date. There is one exception. Large national printers with multiple mailing entry points throughout the country may request testing out of the MERLIN 90-day installation limit. Testing may be deferred, as necessary, to test mailings received from customers where MERLIN has been installed.

Customer voluntary pretesting of sample mailpieces does not change the requirement that all automation rate mailings prebarcoded by customers will receive MERLIN testing at the time mail is deposited.

Barcode readability pretesting is for First-Class Mail®, Periodicals, or Standard Mail letters or flat-size mailpieces. Customers must complete and send two copies of the “Request for MERLIN Barcode Readability Test” (that is included with this *Postal Bulletin* on page 31) with the test mailpieces. The following outlines customer and test center procedures for submission and mailpiece pretesting.

**Customer Procedures**

Customers may not submit mailpieces more than 90 days prior to MERLIN installation at the BMEU or DMU where they present mailings for verification and acceptance. (See note above about large national printers).

Mailpieces cannot weigh more than 16 ounces and must be within the maximum and minimum size limitations for letters or flats as noted in *Domestic Mail Manual* (DMM) C050:

Dimensions	Minimum	Maximum
<b>Letter-Size Mail</b>		
Height	3-1/2"	6-1/8"
Length	5"	11-1/2"
Thickness	0.007"	0.250" (1/4")
<b>Flat-Size Mail</b>		
Height	6-1/8"	12"
Length	11-1/2"	15"
Thickness	0.250" (1/4")* 3/4"	

\*Must exceed at least one of these letter-size dimensions.

Each mailpiece must bear an actual address (street, city, state, and ZIP+4). Fictitious addresses will result in negative test results.

Customers must submit either 25 or 50 mailpieces for each test.

Customers must submit two copies of the “Request for MERLIN Barcode Readability Test” with the test mailpieces.

Customers must package test mailpieces in cartons, affix postage, and mail to:

MITCH FILIP  
 MERLIN TEST CENTER  
 3400 W PRATT AVENUE  
 CHICAGO IL 60712-3700

*Note:* If more than one test is in the carton, clearly separate and identify the tests and secure the readability test forms to the package of test mailpieces.

Customers must check one of the boxes on the pretesting request forms to indicate how they would like the Postal Service to handle the mailpieces after pretesting. Following are the four options:

*Option 1*

The test center will deposit the test mailpieces individually into the mailstream and send the readability report to the customer. The customer must place applicable First-Class Mail postage on each mailpiece before sending the sample mailpieces to the test center.

*Option 2*

The test center will discard the mailpieces as waste and will send the readability report to the customer.

*Option 3*

The test center will return the test mailpieces with errors to the customer with the readability report. Customers must supply a return shipping label(s) with enough postage affixed to return the test mailpieces by First-Class Mail service or Package Services mail service.

*Option 4*

The test center will return all of the test mailpieces to the customer with the readability report. Customers must supply return shipping label(s) with enough postage affixed for return of the test mailpieces by First-Class Mail service or Package Services mail service.

**Test Center Procedures**

The test center will conduct the barcode readability test within 72 hours of receipt of test mailpieces. The test center will return the readability report results and process the mailpieces as instructed by the customer in the "Request for MERLIN Barcode Readability Test."

*REVISED PROCEDURE***Issuance of Postal Payroll Checks**

Effective March 29, 2002, the Postal Service will revise its procedure for the issuance of employee payroll checks. Through a competitive bid process, the Postal Service has awarded a new national contract for payroll processing services to Citibank and U.S. Bancorp. This contract will replace the current contract under which three U.S. commercial banks have provided payroll-processing services since 1997. This operational change will enhance cash management procedures, improve internal controls, and reduce Postal Service costs.

Beginning March 29, employees who receive paper checks will notice that their payroll check has been drawn on either Citibank or U.S. Bancorp instead of one of the three banks that currently provide payroll processing services. Employees who have direct deposit will notice no change.

**Employees are reminded that they can use the direct deposit program to have their payroll check electronically credited to their account at the financial institution of their choice.** To enroll in direct deposit, call PostalEASE at 877-477-3273 and follow the recorded instructions.

*IMM AND PUBLICATION 51 REVISIONS*

**International Mail — Air Parcel Post and Global Express Mail**

Effective March 21, 2002, the *International Mail Manual* (IMM) and Publication 51, *International Postal Rates and Fees*, are revised to reflect new delivery requirements for Global Express Mail™ (EMS) and Global Airmail™ parcel post (air parcels) in 23 European countries, based on the Postal Service's entering into an arrangement with Consignia LLP, formerly the British Post Office. The actual delivery of packages is being made by Consignia's parcel company, General Logistics Systems (GLS), operating as General Parcel.

The 23 countries covered by this agreement are Andorra, Austria, Belgium, Denmark, Finland, France, Germany, Gibraltar, Greece, Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, Portugal, San Marino, Spain, Sweden, Switzerland, and Vatican City. Currently, Consignia provides delivery of air parcels to all 23 countries and delivery of EMS items to Austria, Denmark, France, Germany, Monaco, Netherlands, and Sweden. Letter-post and economy parcels will continue to be delivered by the postal administration in those countries.

In the IMM, revisions appear in sections 221.4 and 283.23 and in the International Country Listings (ICLs). Depending on the destination country, the new delivery requirements may affect the following sections in the ICLs: Prohibitions, Observations (including the need to provide commercial invoices with shipments), Size Limits (parcel post), Airmail Parcel Post (weight limit), Insurance (parcel post), Return Receipt (availability), Global Express Mail (weight limit), Size Limits (EMS), and Notes. In Publication 51, revisions appear in the sections on size limits for parcel post and EMS shipments and in the Country Listing table. Depending on the destination country, the new delivery requirements may affect the columns in the Country Listing table regarding the parcel post insurance indemnity limit and the maximum weight limits for parcel post and EMS.

We will incorporate these revisions into the printed version of IMM 27 and the next printed version of Publication 51, and also into the online versions of the IMM and Publication 51, both of which can be accessed via Postal Explorer at <http://pe.usps.gov>.

In the following table, we list all 23 countries mentioned in this article (but not all the countries listed in the actual Country Listing table), and we list only those columns that have revised information — i.e., only three of the eight columns in the actual Country Listing table. Because not every one of these 23 countries has revised information in every column, we use boldface type to indicate revisions — information that is not in boldface type is not revised. Also, to have consistent language throughout the table, we have changed the term “Surface” to “Econ.” where appropriate. For instance, for the country Ascension, under the column “Parcel Post Max. Weight Limit (lb.),” the previous text was “44 Surface Only” — revise this entry to read “44 Econ. Only.” Likewise, revise such text as appropriate for the

following countries: Ascension, Equatorial Guinea, Falkland Islands, Iraq, Mongolia, and Tuvalu.]

STAMP ANNOUNCEMENT 02-08

## Longleaf Pine Forest Stamps

Copyright USPS 2001

The Postal Service will issue a souvenir sheet of ten 34-cent *Longleaf Pine Forest* stamps (Item 452800) on April 26, 2002, in Tallahassee, Florida. The stamps, designed by Ethel Kessler, Bethesda, Maryland, and illustrated by John D. Dawson, Hilo, Hawaii, go on sale nationwide April 27, 2002. The souvenir sheet may not be split and the stamps may not be sold individually.

The *Longleaf Pine Forest* stamps are the fourth in an educational series designed to promote appreciation of North America's major plant and animal communities. The previous issuances in the *Nature of America* series were the

*Sonoran Desert* (1999), *Pacific Coast Rain Forest* (2000), and *Great Plains Prairie* (2001).

Although greatly reduced in size, the longleaf pine forest still occupies part of its natural range in the coastal plains from southeastern Virginia to eastern Texas. Characterized by the longleaf pine, this unique ecosystem includes many plant communities that vary with soil type, moisture, and frequency of fire. This "forest built by fire" still supports a rich diversity of 300 animal species, including the endangered red-cockaded woodpecker. A description of the longleaf pine forest and a numbered key to the artwork appear

on the back of the sheet, along with a corresponding list of common and scientific names for 27 selected species inhabiting the forest.

#### UPDATED ANNOUNCEMENT 02-B

### 2002 Stamps and Postal Stationery

"2002 Stamps and Postal Stationery" (Announcement 02-B, March 2002), which appears on page 91, is intended to replace the quarterly announcement of the same name, previously printed and sent to customers on request through Stamp Fulfillment Services in Kansas City. The announcement is a listing of stamps and postal stationery items scheduled for issuance during calendar year 2002. Post Offices may wish to post this schedule on their bulletin boards.

Customers may also be directed to access the *Postal Bulletin* through the Postal Service Web site at [www.usps.com](http://www.usps.com), then by clicking on *Info*, and then *Postal Periodicals and Publications*.

This announcement will be updated every 2 to 3 months, as changes warrant.

#### How to Order First Day of Issue Cancellations and Covers

Customers may purchase new stamps or postal stationery items at their Post Office, from the *USA Philatelic* catalog, by calling 1 800 STAMP-24, or online at [www.usps.com](http://www.usps.com) by clicking on *Buy Stamps & More*. Then they should prepare their own covers by affixing new stamps to the upper right corner of envelopes or postcards of their choice, and address those envelopes, postcards, or postal stationery

items to themselves or others. (Postage must equal the current First-Class Mail rate.) For sturdiness, include a card of postcard thickness in each cover (envelopes only) submitted, and tuck in the flap. Place the cover in a larger envelope addressed to: NAME OF ISSUE, POSTMASTER, CITY, STATE, and ZIP CODE (followed by -9991). Covers submitted for first day of issue cancellations may include additional uncanceled stamps only if the uncanceled stamps were issued before the first day of issue of the new stamps or postal stationery items. All orders must be postmarked on or before the deadline indicated in the "2002 Stamps and Postal Stationery" announcement that follows.

The U.S. Postal Service offers uncanceled first day covers for new stamp issues and postal stationery items postmarked with the official first day of issue cancellation. Each item has its own catalog number in *USA Philatelic*, issued quarterly. Customers may request a free catalog by phoning 1 800 STAMP-24, by sending an email to [sfs@email.usps.gov](mailto:sfs@email.usps.gov), or by writing to: INFORMATION FULFILLMENT, DEPT 6270, US POSTAL SERVICE, PO BOX 219014, KANSAS CITY MO 64121-9014.

## Pictorial Cancellations Announcement

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary Post Office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage. Items submitted for cancellation may not include

postage issued after the date of the requested cancellation. Such items will be returned unserved.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

Customers can also send stamped envelopes and postcards without addresses for cancellation, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial cancellation, the Postal Service returns the items (with or without addresses) under addressed protective cover.

*The following pictorial cancellations have been extended for 60 days.*

ELM REVISION

## Paid Military Leave Changes

Effective Fiscal Year 2002, *Employee and Labor Relations Manual* (ELM) 517, Paid Military Leave, is revised as follows:

**517.41, General Allowance**, is modified with an addition to allow employees to carry over allotted but unused (not to exceed 15 days) paid military leave from one fiscal year to the next. On rare occasions, two sets of military orders fall in one postal fiscal year, and no orders are received in the preceding or following fiscal year. This change allows employees to use the allotment for each year.

**517.53, Leave Charge for Nonworkdays**, is deleted.

**517.54, Active Duty Extends Into Another Fiscal Year**, is deleted because 517.41 allows limited carryover of paid military leave.

**517.71, Form 3973**, second paragraph, the words "and charges for nonworkdays" are deleted to be consistent with the changes in 517.53.

We will incorporate these revisions into the next printed version of the ELM and into the online version, available on the Postal Service Intranet at <http://blue.usps.gov/cpim>; click on *Manuals*.

# SUMMARIES OF RECENT USPS NEWS RELEASES

## PMG Seeks Reimbursement for Services Rendered

March 14

Postmaster General Jack Potter told Congress the Postal Service is taking "aggressive and successful" actions to manage costs, but there is a need for appropriations in defined areas. He said, however, that USPS has no intention of seeking any general taxpayer subsidies.

Potter said USPS is requesting appropriations in three distinct areas for fiscal year 2003. The first is \$29 million for revenue forgone reimbursements — the 10th payment in a series of 42 annual payments. These funds pay for a portion of the postage for reduced rate mail handled in the past.

Second is \$31 million for free mail for the blind and overseas voting materials. The third element of the request is \$928 million for the remaining balance of the total authorized amount of revenue foregone reimbursement. These funds would be used to restart frozen capital projects, such as building new post offices.

Potter thanked lawmakers for the \$500 million Congress appropriated for USPS to enhance mail security. And he acknowledged the \$175 million provided by the White House in October to meet immediate needs to protect employees, customers and the mail.

## PMG Appoints Two New Officers

March 12

Postmaster General Jack Potter announced the appointments of Ralph Moden as vice president, Strategic Planning and Robert Pedersen as vice president, Treasurer.

Moden has an extensive background in Operations and has served in numerous field and headquarters positions, which uniquely qualifies him for his new position. In his new role, Moden reports directly to the PMG and will be responsible for coordinating the development of plans and analyses contributing to the establishment of the

strategic direction of the Postal Service.

Additionally, he is overseeing the development of the Comprehensive Transformation Plan, which is due to Congress April 5.

Pedersen has an extensive background in finance, having worked as an economist, investment officer, and debt manager in previous positions. As vice president, Treasurer, Pedersen reports to the Chief Financial Officer and is responsible for managing the Postal Service's cash flows and debt. In addition, he will oversee Bank Secrecy Act compliance, business evaluation activities and the new audit response function with Finance.

## USPS Readies Transformation Plan

March 5

USPS will submit a transformation plan — a blueprint document detailing the future vision of the Postal Service — to Congress on April 4, said Board of Governors Chairman Robert Rider at the Board's monthly public meeting. Rider said the plan "will provide the framework for how the Postal Service of the future will be reformed and revitalized to meet the changing needs of our customers over the next 10 to 20 years. It is clear to all of us that the time for debating the need for reform is past."

Congress and the General Accounting Office requested that USPS create a comprehensive transformation plan outlining how USPS intends to transform itself in the face of changing global markets, increased competition from new technologies and the need to deliver mail to an ever-increasing number of addresses.

In other news, it was announced that after an extensive review of its Internet-based services, USPS will discontinue its secure online messaging service, PosteCS. USPS is continuing to review current eCommerce services. A transition plan will minimize any inconvenience current PosteCS users may encounter.

## ORDERING INSTRUCTIONS

**Corrugated Boxes Now on eBay**

Beginning March 13, 2002, Postal Service employees **must** order corrugated boxes using eBay and the intranet purchasing system at <http://ebuy.usps.gov/jsp/co/Login.jsp>.

A contract with the Smurfit Stone Container Corporation became effective September 1, 2001. That contract covers the Capital Metro, Great Lakes, Pacific, Southeast, Southwest, and Western areas, as well as the Appalachian, Columbia, Greensboro, Kentuckiana, and Mid-Carolina districts in the Eastern area.

A contract with the Rand Whitney Corporation became effective September 1, 2000. That contract covers the Northeast and New York Metro areas, as well as the Akron, Cincinnati, Cleveland, Columbus, Erie, Harrisburg, Lancaster, Philadelphia, Pittsburgh, and South Jersey districts in the Eastern area.

The Memphis Purchasing and Materials Service Center has applied the principles of supply chain management to reduce the costs of corrugated boxes. Reduced prices will be reflected in *Material Logistics Bulletins* and in the supplier catalogs on eBay.

We will provide updated ordering instructions in a future *Postal Bulletin* and in future *Material Logistics Bulletins*. All offices with intranet access **must** use the eBay intranet purchasing system.

Offices without intranet access may order by one of the following means:

- **Touch Tone Order Entry:** Call 1-800-332-0317, option 1, then option 2.
- **cc:Mail:** Send an F3Fill-completed PS Form 7380, *MDC Supply Requisition*, to MDC Customer Service at TOKS001L.

### HANDBOOK REVISION

#### Semipostal Stamp Vending Information

Effective March 23, 2002, Handbook PO-102, *Self Service Vending Operational and Marketing Program*, is revised to give general information on when pricing and item numbers of semipostal stamps are determined. A new section is also added to give information on vend locations. These changes provide further information on the revision of this handbook in *Postal Bulletin 22071* (3-7-02, pages 7–8).

We will incorporate this revision into the next printed edition of Handbook PO-102 and into the online version of Handbook PO-102 at <http://blue.usps.gov/cpjm>; click on HBKs.

## REMINDER

**Unnumbered Insured Mail Purchases**

Some retail customers incorrectly believe that if they purchase unnumbered insurance on an item, regardless of the value of the item (which could be any amount between \$.01 and \$50), they will automatically be reimbursed \$50 for any claim they file as a result of nonreceipt.

When selling unnumbered insurance to customers (value \$.01 up to \$50), you must show them the "Coverage" section on the back of PS Form 3813, *Receipt for Domestic*

*Insured Parcel*, and point out that **Postal insurance covers (1) the value of the article(s) at time of mailing, if lost or totally damaged, or (2) the cost of repairs.** This will help customers better understand the limitations, particularly when they file future claims.

## ANNOUNCEMENT

**Setting Electronic Manually Reset Meters After April 30, 2002**

The Postal Service is in the last stages of retiring all electronic manually reset postage meters. Fewer than 25,000 of those meters remain in use, out of more than 1.5 million meters in use nationwide. Retirement of those meters will reduce Postal Service exposure to meter fraud, misuse, and loss of revenue.

The plan for retiring those meters links the last date on which each of these meters can be reset to the end of the customer's lease or rental agreement for the meter. It gives the customer at least 3 months from the end of the agreement to upgrade to a currently approved model.

After April 30, 2002, a new process will be in place to enable you to determine the last date on which each of these meters can be reset. Postage Technology Management will mail a letter authorizing meter resetting for each meter that can still be reset after April 30, 2002. Each authorization identifies a single meter, by manufacturer, model, serial number, and meter license and lists the last date that the listed meter can be reset.

After April 30, every time customers request a meter resetting, you must ask to see their authorization for that meter. The authorization applies **only** to the specific meter described and **must not** be used to allow the resetting of any other meter. Meter licensees with more than one electronic manually reset meter must bring a separate authorization for each meter for which they are requesting a reset. No funds transfer is allowed from one electronic manually reset meter to another without a copy of the authorization letter. In addition, the customer may not transfer funds from one electronic manually reset meter to another after the last day on which a reset is allowed.

If a reset is requested after the last date on which resetting is authorized, remind the customer to contact the meter manufacturer to upgrade the meter. The manufacturer name and contact phone number are on each authorization.

For customers who have not received an authorization letter, ask them to call the meter manufacturer immediately.

The authorization presented by the customer must be the **original**, which is printed on special "security" paper. It must not be a copy. It must not have been altered. Following are ways to know that the letter is the original:

- The front of the paper is light blue, except for an even white border on all four edges.
- When the text is erased, the erasure leaves a lighter area.
- A Postal Service logo is on the back of the paper and can be seen by holding the paper horizontally and looking across the back of the sheet.
- When the letter is copied, scanned, or faxed, the word "VOID" appears in the background.
- When the letter is copied, scanned, or faxed, the Postal Service logo is **not** visible on the back of the sheet.

**AFTER APRIL 30, 2002:  
NO ORIGINAL AUTHORIZATION LETTER, NO RESET**

## Stamps By Mail Forms

In January 2001, a national contract was awarded to Cyril-Scott Co. to print PS Form 3227, *Stamps by Mail*. All forms ordered through that contract are overprinted with the address of the fulfillment office. This ensures that the customer's order goes to the correct office for fulfillment in a timely manner.

All old Stamps By Mail® forms should be destroyed. This includes any forms that do not have an overprinted fulfillment address on the form. Offices should use only forms ordered through the Cyril-Scott Co. contract.

For additional information about the national contract and how to order, refer to *Postal Bulletin* 22042 (1-25-01, page 82) and *Postal Bulletin* 22065 (12-13-01, page 77).
