PMG to PCC members — “Stay involved!” — National Postal Customer Council satellite broadcast held

Postmaster General Jack Potter urged customers nationwide to stay involved in the issues and challenges facing the mailing industry, and to help raise awareness

of the value of the mail to businesses during a National Postal Customer Council (PCC) day satellite broadcast from Boxborough, MA.

Potter encouraged PCC members to assume a greater role in providing feedback on new ways to improve service, develop new products, build efficiency and generate new opportunities to reduce costs.

Potter said USPS® is working to build the business and make it more valuable to customers through its Transformation Plan. “We are improving service, improving operational efficiency and enhancing our products to foster growth.”

Potter said research indicates the public still loves hard-copy mail. Nine out of 10 households review mail the same day it’s received. Seventy-four percent of direct mail is read by the consumer, 52 percent of households order products and services based on direct mail and 21 percent have actually taken a direct-mail piece with them when they’ve gone shopping.

Overall, Potter said, mail is the highest rated medium when compared with magazine, newspaper, radio, billboard and Internet advertising.

Veterans of World War II remembered: Stamp unveiling highlights National WW II Memorial dedication

Tens of thousands of veterans, their families and friends converged on Washington, DC, to attend the National World War II Memorial dedication, which included one of the largest first-day-of-issue ceremonies in Postal Service™ history.

PMG Jack Potter, and WW II Veteran and Vice Chairman of the USPS® Board of Governors John Walsh, unveiled the *National World War II Memorial* commemorative postage stamp shortly before the memorial, itself, was dedicated.

Walsh served in the 78th Infantry Division of the U.S. Army. Also known as the Lightning Division, it was the first American infantry unit to span the Rhine during World War II.

Potter expressed pride in knowing that “mail call” was the sound of home for soldiers around the world during World War II.

Potter said the stamp represented the joining of an entire nation, acknowledging, on a single day, that “We stand on the shoulders of giants.” He added, “As their children, we love them. As their friends, we support them. As their countrymen, we salute them. And today, as a nation, we honor them. They, who have given so much, deserve no less.”

More than 96 million stamps became available at Post Offices™ nationwide May 29. Ordinarily, the first-day-of-issuance host city holds the unique distinction of being the only city in the nation where the stamp is available the same day. The special release provided an opportunity for communities to recognize veterans unable to attend the dedication in Washington.

A safer world for our children: National Center for Missing and Exploited Children honors USPS Inspectors

The National Center for Missing and Exploited Children (NCMEC) recently honored two of the Postal Service's own — Inspectors Steven Sadowitz and Martin Vega — at the 9th Annual Congressional Breakfast in Washington, DC.

Sadowitz was honored for his part in dismantling an international child exploitation ring operating out of Dyer, IN, and Acapulco, Mexico.

Inspector Vega was honored for his investigation of the videotaped sexual assault of two young girls. Vega and Connecticut State Police Detective James Smith worked with NCMEC to identify and arrest the offender. Over the next several months, Vega and Smith unraveled a conspiracy resulting in four more arrests and the identification of five more child victims.

Improve service, generate revenue: Quality of Work Life conference showcases mail handler innovations

Connecting the World ZIP by ZIP with QWL: That was the theme of this year's National Quality of Work Life (QWL) conference in Chicago, the conference that highlights mail handler innovations that help improve service and efficiency, and generate revenue.

Among innovations showcased at the conference was an ergo prep table — a 50-inch folding table that attaches to the front of the ergo cart, giving mail handlers a safer, more productive work space to prep mail for processing. The table was developed by Cincinnati Processing and Distribution Center (PDC).

Other projects from around the country included a mail container cover to keep pieces dry on rainy days, created by Cardiss Collins, IL, PDC; a guard to prevent mail sliding back on the belt and dropping under the dumper when in the up position, developed by Southern Maryland PDC; improved packaging, processing and reporting to stop mail bundles from breaking open, designed by Portland, OR, PDC; and color handouts illustrating nondenominated postage for employees and customers to determine the correct value of stamps, produced by Harrisburg, PA, PDC.

This marks the seventh year that USPS® plant, district, area and Labor Relations managers; local and national Mail Handlers Union officials; and supervisors and mail handlers have come together for the event.

2 Audits and Investigations

24 Audits

[Revise 24 to read as follows:]

241 Responsibility

241.1 Office of Inspector General

The OIG is responsible for providing Congress, the Governors, and Postal Service management with timely, objective, and complete information on, and analysis and recommendations to improve, Postal Service programs and operations.

241.2 Mission

The OIG’s mission is to conduct and supervise objective and independent audits, reviews, and investigations relating to Postal Service programs and operations to promote economy, efficiency, and effectiveness, and to prevent and detect fraud, waste, abuse, and mismanagement. The OIG is also responsible for providing oversight of the Postal Inspection Service.

241.3 Role and Function

The OIG audits and other reviews play important roles as management tools for evaluating whether operations are executed economically, efficiently, and effectively. OIG personnel do not exercise authority over persons in the organizations reviewed. Findings are provided to make management aware of any problems noted during a review. Recommendations are offered as workable solutions to noted problems.

241.4 Authority

The Inspector General Act of 1978, amended in September 1996 (Public Law 104–208), created an independent OIG for the Postal Service (5 U.S.C. App. 3).

241.5 Standards

OIG work complies with appropriate standards established by the comptroller general of the United States, the President’s Council on Integrity and Efficiency, the American Institute of Certified Public Accountants, and the Institute of Internal Auditors.

241.6 Cooperation

In carrying out the provisions of the Inspector General Act, employees of the OIG have reasonable access to all Postal Service employees, records, reports, audits, reviews, documents, papers, recommendations, or other material available that relate to Postal Service programs and operations with respect to which the OIG has responsibilities under the Act. Postal Service officials and employees should cooperate fully to provide employee interviews and such information and assistance to the auditors, evaluators, and authorized representatives of the OIG as may be necessary for them to carry out their duties and responsibilities under the Act.

241.7 Liaison

Outside organizations such as the General Accounting Office and the independent certified public accountants hired by the Board of Governors also provide selective reviews of Postal Service activities. The OIG maintains liaison and coordinates activities with these and other external organizations providing audit attention.

241.8 Corporate Audit and Response Management

Corporate Audit and Response Management reports to the manager of Internal Control under the chief financial officer and executive vice president and serves as a focal point for all Postal Service audit activity. Corporate Audit and Response Management will assist Postal Service management in all phases of the audit process, including arranging and attending entrance and exit conferences, assisting in the preparation and delivery of management responses to OIG draft reports, and gathering documentation to close out significant recommendations for submittal to the OIG. Corporate Audit and Response Management is responsible for maintaining the Audit Tracking System (ATS) and tracking all recommendations resulting from OIG reports in the system.

242 Overview

242.1 Objectives

The OIG's objectives are as follows:

- a. Provide an independent check on the adequacy and effectiveness of systems of control to ensure achievement of corporate goals.
- b. Determine compliance with Postal Service policies and procedures and public laws.
- c. Verify the existence of assets and assure that proper safeguards are maintained to detect failures that may lead to fraud, waste, and abuse.
- d. Assess the reliability and operation of accounting and reporting systems.
- e. Review operations for economy and efficiency, and effective use of resources.
- f. Evaluate the effectiveness of management's corrective actions relating to identified problems and deficiencies.

242.2 Project Category Overview

- a. *Performance.* The OIG is responsible for conducting performance audits and reviews of the Postal Service. The OIG conducts audits and evaluations to test systems and/or internal controls. The OIG provides an independent assessment of the performance of an organization, program, activity, or function in order to provide information to improve public accountability and facilitate decision-making.
- b. *Financial.* The OIG directs financial audit activity, installation and district financial audits, and other financially related audits of the Postal Service. The Postal Service's financial statements, however, are audited by an independent certified public accounting firm pursuant to 39 U.S.C. Section 2008(e).

- c. *Protective Reviews.* The OIG performs protective reviews at local Postal Service facilities to identify systemic issues related to financial and operational functions. These limited-scope, short-duration reviews generally test internal controls and compliance with Postal Service policy applicable to these functions and are intended to provide valuable and timely feedback regarding office and program management to local and Headquarters officials.
- d. *Contract.* The OIG is responsible for pre- and post-award contract audits requested by supply management officials. The OIG also conducts self-initiated reviews of significant contracts and various elements of the supply chain management processes. The OIG analyzes results of this audit work to identify trends, patterns, and issues relating to Postal Service suppliers, contract administration, and the postal supply chain process.
- e. *Developmental.* The OIG performs developmental audit work to provide management with an assessment of the design and integrity of internal controls during the early phases of new projects. These projects include automation, technical, information-based, and business process projects. Developmental work encompasses both performance and financial auditing issues, with an emphasis on an independent assessment and evaluation of new or re-designed systems.

242.3 Process Overview

OIG projects generally adhere to the following process:

- a. Announcement letters are issued at the start of a project to solicit management's input and perspective.
- b. Entrance conferences ensure that management is provided an opportunity to discuss the project scope and objectives and are required if requested by postal management.
- c. Surveys are conducted to formulate specific project objectives and determine the scope of the project.
- d. Field work and data analysis is performed to independently assess the programs and operations within the scope of the project.
- e. Draft reports or memoranda are issued to management to communicate findings and recommendations.
- f. Exit conferences and working meetings ensure that management is aware of pertinent issues and provides a forum for discussion. An exit conference is required if requested by postal management.
- g. Management responses are requested, evaluated, and included in the final report.

- h. Audit reports communicate audit findings, conclusions, and recommendations to management. It is Postal Service policy that the responsible managers respond in writing (see section 243.12) to all recommendations made in these reports.
- i. Final reports are distributed to appropriate levels of management to ensure that issues are adequately addressed.

243 Reports

243.1 Draft Reports

243.11 Transmittal Letters

Each draft report is issued with a transmittal letter requesting a written response within a specified time frame, usually within 30 calendar days after the draft report is issued. Management is required to respond to reports by addressing each finding, recommendation, and identified savings as detailed in section 243.12. Management is encouraged to provide comments as soon as possible regardless of time allocated. If the OIG does not receive management's comments within the specified time frame, the OIG may publish the final report without management's comments.

243.12 Management Responses

Management's response when requested should include the following:

- a. Whether management agrees with each finding or observation. (Management's general comments regarding the audit report/review can address any factual inaccuracies found in the report.)
- b. If the audit lists any questioned costs, unsupported costs, funds put to better use or other potential savings, management must explicitly state whether it agrees or disagrees with the calculations. If management disagrees with the calculations, then management, if possible, should specify any alternative dollar amounts that it believes are more accurate and then describe how these amounts were calculated.
- c. For each recommendation/suggestion, indicate whether management agrees, disagrees, or agrees in part, and include the reasons or justification.
- d. If management agrees with the recommendation, list the specific course(s) of action that will be taken along with the estimated completion date(s).
- e. For each corrective action, state who in the organization will be responsible for the implementation of the agreed-upon actions.
- f. An identification of any portion(s) of the draft report, including a short justification for such assertion(s), which management believes may contain proprietary or other business information that may be exempt

from disclosure under the Freedom of Information Act (FOIA).

Management should not include comments that are not related to the audit in the written reply.

Management comments should be *addressed* to the signer of the report; however, comments should be *delivered* to the director, Audit Operations and Follow-up, who serves as focal point for all management responses at the OIG.

The original signed management response should either be mailed, hand delivered to the OIG (when applicable), deposited in the OIG mail slot located in the Postal Service Headquarters building, or delivered to Corporate Audit and Response Management, which will arrange for delivery to the OIG. A copy of the signed management response should be sent to the manager of Corporate Audit and Response Management.

The response must be received by the OIG on or before the date specified in the OIG report. If additional time is needed to prepare the response, an extension should be requested prior to the suspense date. Corporate Audit and Response Management will assist with requests for an extension; however, if the request is made directly to the OIG, Corporate Audit and Response Management should be notified of the request.

Management responses to the draft report are evaluated and incorporated into the final report in synopsis form. A verbatim copy of the response will be included in the final report. The final report is then transmitted to the responsible managers, under the signature of the appropriate OIG issuing authority.

243.2 Release and Distribution of Audit Reports

243.21 Headquarters

243.211 Office of Inspector General

The inspector general, assistant inspector general for audit, or the appropriate deputy assistant inspector general transmits reports of Headquarters interest and those reports containing recommendations for Headquarters action, to the appropriate Headquarters unit with a copy to Corporate Audit and Response Management. Copies of reports are generally accessible at the OIG Web site, and also can be requested from Postal Service Corporate and Audit Response Management.

243.212 Freedom of Information Act

The OIG's policy is to disclose all final audit and management advisory reports when requested pursuant to the FOIA unless an exemption under the FOIA applies. In addition, the Electronic FOIA (e-FOIA) Amendments require the OIG to post certain reports on the e-FOIA Web page unless an exemption under the FOIA applies.

243.22 Levels Below Headquarters

243.221 Performance Audits

When audit reports include recommendations to area office management or other levels below Headquarters, a report is submitted to the manager of the installation or activity audited. Draft reports issued by the OIG are transmitted to the responsible Postal Service manager under the signature of the appropriate deputy assistant inspector general. Copies of reports can be requested from Corporate Audit and Response Management.

243.222 Financial Audits

At the conclusion of financial audits of Post Offices and facilities, an exit conference will be held with the facility head to discuss the findings and any recommendations. The manager must review the report and will usually have 30 calendar days after the report is issued to respond with management comments addressing the findings and any recommendations. Copies of reports can be requested from Corporate Audit and Response Management.

243.223 Contract Audits

Contract audit reports issued by the OIG provide an opinion, typically covering the adequacy of cost or pricing data submitted by postal suppliers. These reports are advisory in nature and are issued in final form directly to the requesting official. The OIG also issues self-initiated audit reports addressing issues within the supply chain management processes. These reports include findings and recommendations for corrective actions by management officials. Report copies are generally accessible at the OIG Web site, and also can be requested from Postal Service Corporate Audit and Response Management.

243.224 Protective Reviews

At the conclusion of protective reviews of Postal Service facilities, an exit conference will be held with the facility head to discuss the findings and any recommendations. The manager must review the report and will usually have 30 calendar days after the report is issued to respond with management comments addressing the findings and any recommendations. Copies of reports can be requested from Corporate Audit and Response Management.

244 Audit Resolution Process — Unresolved Recommendations

When the OIG determines that a response by management to a significant recommendation is “not responsive,” an audit resolution process for resolving the disagreement is followed. Part of the process may include taking the disagreement to the Governors.

Copies of the *Resolution Process for Disagreements Involving Office of Inspector General Reports*, approved by the Board of Governors, can be obtained from Corporate Audit and Response Management.

245 Implementation of Audit Recommendations

245.1 Management Responsibility

Management must ensure the implementation of audit recommendations to which it has agreed.

245.2 Documentation

In the audit report, the OIG will identify any recommendations that it considers as significant and as such, would require the OIG's concurrence before closing. The OIG requests written confirmation and/or documentation when the agreed upon corrective actions have been completed.

Documentation and requests to close a significant recommendation or an audit should be submitted to Corporate Audit and Response Management in order to accurately track the status of recommendations in the Audit Tracking System (ATS). Corporate Audit and Response Management will forward documentation to the OIG with the request to close the recommendation or audit.

For those recommendations that the OIG does not consider as significant, once Corporate Audit and Response Management has been notified that the corrective actions have been implemented, the recommendation(s) can be closed.

245.3 Audit Follow-Up

Corporate Audit and Response Management is responsible for maintaining management's audit tracking and reporting system and will provide periodic status updates on the implementation of management action on recommendations to postal management and the OIG, as appropriate. The appropriate Headquarters, area, or district office responsible for the implementation of corrective action must identify any formalized plan to respond to audit recommendations, and periodically report the current status in ATS and to Corporate Audit and Response Management, as requested.

245.4 Periodic Reviews

The OIG will conduct periodic follow-up reviews to assess the effectiveness of management's actions.

245.5 Coordinating, Tracking, and Reporting

245.51 Headquarters

245.511 Corporate Audit and Response Management

Corporate Audit and Response Management reviews implementation of recommendations and tracks the reports in ATS. In addition, Corporate Audit and Response Management prepares the statistical tables showing disallowed costs and funds put to better use as required by the

Inspector General Act, in connection with the OIG semi-annual report to Congress.

245.512 Vice Presidents

Each vice president has overall responsibility for the implementation of audit recommendations made to his or her organization and to ensure that audit recommendations are carried out as soon as practical. A target date must be established for full implementation and to monitor follow-up action.

Each vice president designates a person responsible for tracking and documenting the implementation of audit recommendations within that organization. The designee also furnishes status updates to Corporate Audit and Response Management who reviews the implementation of recommendations and tracks the reports in ATS.

Documentation of implementation or completion of agreed upon actions should be submitted to Corporate Audit and Response Management for transmittal to the OIG.

The vice president and/or designee reviews audit reports, findings, and recommendations on matters within their area and takes appropriate action.

245.52 Area Office Level

Each vice president has the overall responsibility for the implementation of audit recommendations made to his or her organization and to ensure that audit recommendations are carried out as soon as practical. A target date must be established for full implementation and to monitor follow-up action.

Each vice president designates a person responsible for tracking and documenting the implementation of the agreed upon actions and recommendations within that organization. The designee also furnishes results and status updates to Corporate Audit and Response Management who reviews the implementation of recommendations and tracks the reports in ATS.

Documentation of implementation or completion of agreed upon actions should be submitted to Corporate Audit and Response Management for transmittal to the OIG.

The vice president and/or designee reviews audit reports, findings, and recommendations on matters within their area and takes appropriate action.

245.53 District Level

District managers review each audit report on facilities within their organization. They provide a written response within the specified time frame when requested by the OIG. They monitor the implementation of recommendations at facilities reporting to their district and provide to the vice president of Area Operations, the results of status updates.

246 Requests for Audit Attention

246.1 All Levels

All requests for audit attention, including installation and district compliance audits, should be directed to the inspector general.

246.2 Management Responsibility

Management cannot, and should not, completely rely on auditors and/or evaluators to detect problems and recommend solutions. Managers must routinely assess their own operations to assure themselves and their superiors that operations are well controlled and meet the goals and objectives of the organization.

Addressing and Mailpiece Design Information

Publication 221, *Addressing for Success*, is now obsolete. Consumers and retail customers can find addressing information in Domestic Mail Manual (DMM) 100, *A Customer's Guide to Mailing*. Business mailers and mailpiece designers needing more advanced information can consult the following documents:

- DMM 200-A, *A Guide to Mailing for Businesses and Organizations*.
- Publication 25, *Designing Letter and Reply Mail*.
- Publication 28, *Postal Addressing Standards*.

DMM 100

DMM 100, *A Customer's Guide to Mailing*, is an extremely useful and easy-to-understand reference for consumers, retail customers, and Postal Service™ employees. This guide is currently available in English, Spanish, and Chinese versions.

DMM 100's illustrated section on addressing mail leads the customer through all the critical steps needed to address mail for optimal processing and delivery by the Postal Service. DMM 100 contains important information on the various elements of a complete delivery address and the placement of other elements such as postage, extra service labels, and a return address. DMM 100 also has clear

illustrations showing a properly addressed letter and a properly addressed parcel.

The section on addressing letter mail includes important information on envelopes — including Express Mail® and Priority Mail® envelopes — and tips on address placement, addressing methods, and military mail. DMM 100 also contains a complete list of the two-letter state abbreviations approved by the Postal Service.

The section on addressing parcels includes useful information on how to choose the proper box or mailing container for sending items through the mail, how to pack and cushion items, and how to seal the containers. That section also advises customers where to deposit properly addressed and prepared parcels.

DMM 200

DMM 200-A, *A Guide to Mailing for Businesses and Organizations*, presents more comprehensive information on preparing and addressing mail for small- and medium-volume mailers. It provides details on addressing and barcoding mail for discounted rates, using ancillary service endorsements for the return or forwarding of mail, maintaining address lists, and verifying ZIP Codes™, address-barcode matching, and carrier route codes.

DMM 200-A provides practical information on ancillary service endorsements for address correction service and the return or forwarding of mail. The section on endorsements also explains the wording and the purpose of the four available endorsements ("Change Service Requested," "Forwarding Service Requested," "Return Service Requested," and "Address Service Requested").

DMM 200-A describes the requirements for checking address lists for the various discount rates. It also provides additional guidance on Postal Service sources and vendor sources for software and services that help mailers meet address list maintenance requirements for discounted rates.

Publication 25

Publication 25, *Designing Letter and Reply Mail*, contains information on optimal design formats for letter mail and detailed addressing specifications for automation, including placement of address elements, address printing guidelines, reflectance, and print contrast. It describes the benefits of POSTNET barcodes and has detailed descriptions and illustrations of their format, location, and printing. Publication 25 also includes information on ink and paper definitions and measurement, a list of the appropriate Quick Service Guides, and the use of ancillary service endorsements.

Publication 28

Publication 28, *Postal Addressing Standards*, provides the most comprehensive information on Postal Service addressing standards, formats, and elements that form proper addresses, including standardized delivery address lines, secondary address unit designators, attention lines, and dual addresses. Publication 28 includes detailed information for business addresses, military addresses, Puerto Rico addresses, and various nonaddress elements such as the use of mailer keylines.

SAFETY REMINDER

Summer Vacation Is Upon Us

As school comes to a close and summer break quickly approaches, employees should anticipate an increase in movement of our customers and their families. Temporary and permanent changes of address bring new faces to a carrier route. Be alert for new children, pets, and porch or plant fixtures.

Also, as the temperature increases and the vacations begin, employees must be more attentive to children at play. Children are no longer protected by the confines of their school schedules or their schoolyards.

Be watchful:

- In neighborhoods and near parks, schools, and playgrounds.
- For skateboarders, scooters, mopeds, motorcyclists, and pedestrians — they're harder to see.
- For kids at play — children on foot and on bikes are unpredictable and may dart out in front of you.
- During the late afternoon and evening — longer day-time hours mean that children may be outside playing later than usual.

Avoid:

- Handing mail to children or receiving mail from them. Children might approach your vehicle from any direction to either mail a letter or collect the mail. Encourage them to use the mail receptacle and discourage them from getting close to your vehicle.
- Backing up — if you notice your mail is out of delivery sequence, dismount if necessary and walk back to make the delivery. Avoid backing your vehicle on your delivery route.

Remember, children have a more difficult time judging traffic situations because their peripheral vision is one-third narrower than an adult's. You must utilize your professional defensive driving skills and expect the unexpected.

Stay safe, keep hydrated, have a great summer, and remember — *Child Safety Depends on Me!*

NOTICE

Household Diary Study

The Postal Service's™ Household Diary Study (HDS), conducted since 1987, provides information about the contents of the mail sent and received by U.S. households. The Postal Service uses this information to help understand why and how customers use the mail. The results are used to:

- Forecast mail volume.
- Plan marketing strategies.
- Provide information for rate-setting purposes.

The HDS is administered at Headquarters by the Office of Demand Forecasting and Economic Analysis, Finance. NuStats, the HDS survey research firm contractor since July 1999, conducts the interviews and collects and analyzes the HDS data throughout the year.

HDS is a two-stage survey. Stage 1 is the *Household Interview*. NuStats sends an advance letter, signed by the postmaster general, to a representative sample of U.S. households. The letter emphasizes the importance of the HDS and asks for participation. The sample households are contacted either by telephone or in person and asked about the mail they send and receive, their adoption and use of various communications' technologies, their attitudes about mail service in general, and information relating to their household and personal demographics. The respondent households are recruited to participate in HDS Stage 2.

Stage 2 is the *Mail Diary*. NuStats asks households that agree to participate in Stage 2 to record information about the mail they send and receive for a 7-day period from Monday to Sunday. Information recorded includes: number of mailpieces received and sent, industry mail source, mail characteristics, and attitudes regarding mail received. As an incentive for HDS Stage 2 participation, households are offered the options of receiving: \$30, \$30 to donate to the Lance Armstrong Foundation, or a roll of 100 First-Class Mail® stamps.

Data gathered in both HDS stages is available in a final report, "The Household Diary Study — Mail Use and Attitudes." The report is published in hard copy and as a free electronic file. Order forms for the latest HDS report may be obtained via the Postal Service Internet at www.usps.com/householddiary.

OPERATIONS REMINDER

Dispatch Instructions for International Letter-Post Mail and Parcel Post

Letter-post items (formally categorized as LC/AO) and parcel post (CP) items are two categories of international mail that can be similar in size, shape, and weight. However, the two categories have different mailing restrictions and requirements. When dispatching international mail to an International Service Center (ISC), the originating plant *must not* commingle letter-post items with parcel post items.

To ensure proper separation and dispatch, refer to the customs form attached to the package.

Letter-post items can be similar to small parcels and rolls (SPRs) in domestic mail and must not be confused with international parcel post mail, which has similar characteristics. Letter-post items weighing at least 16 ounces up to 4 pounds must bear a PS Form 2976, *Customs Declarations CN 22 — Sender's Declaration*. PS Form 2976 may be printed on green or white paper, and its alphanumeric barcode begins with "LC."

Parcel post items are generally heavier-weight packages, but some may weigh less than 1 pound. Each parcel post item must bear a PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72*. PS Form 2976-A is a multi-part form set, and its alphanumeric barcode begins with "CP" or "CT." The PS 2976-A form set must be affixed to the address side of the parcel and enclosed in PS Form 2976-E, *Customs Declaration Envelope — CP 91* (plastic envelope). *Note:* Items paid at the parcel post rates must never contain a PS Form 2976.

Proper separations of these items are important because the Postal Service™ makes payment to the delivery postal administrations based on an item's category of mail. Furthermore, properly segregating LC items from CP items will eliminate rehandling and separation expenses at the ISC and, in some cases, may also reduce transportation expenses.

See pages 20 and 21 in this *Postal Bulletin* for graphics showing PS Form 2976 and PS Form 2976-A.

GXG FIELD INFORMATION KIT

The Postal Service and FedEx Join Forces to Deliver Global Express Guaranteed

This Global Express Guaranteed® (GXG™) Field Information Kit contains the following items:

- Overview.
- Graphic of an International Airway Bill and Instructions.
- Fact Sheet.
- Frequently Asked Questions.
- Stand-Up Talk for All Employees.
- Talking Points for Retail Associates.
- GXG Acceptance Matrix (Effective July 1, 2004).
- Postal Service Locations That Sell/Service GXG.

Overview

The Postal Service™ has selected FedEx as its new alliance partner for delivery of Global Express Guaranteed® (GXG™) items, our date-certain international shipping product. The new contract with FedEx takes effect on July 1, 2004, replacing a previous agreement with DHL Worldwide Express.

The alliance offers more direct transportation links for GXG and adds service to several countries, including Japan and Brazil. More countries will be added in the future. For specific countries and territories served, see the *International Mail Manual* (IMM) section 210 or the individual country listing for each country (we will publish revisions to the IMM sections pertaining to GXG service in

an upcoming issue of the *Postal Bulletin*), or see the hard-copy of Publication 141, *Global Express Guaranteed Service Guide*. (Copies of Publication 141 were mailed to participating locations starting on June 4, 2004. Participating locations can order extra copies by calling 800-610-8734 or by faxing an order to 800-270-6233.)

The new GXG labels, which feature both the Postal Service and FedEx logos, are easier to complete and affix. The Postal Service will continue to provide guaranteed high-quality service, and there is no increase in prices as a result of the new alliance.

At the close of business on June 30, 2004, Post Office™ facilities must destroy all DHL GXG shipping labels and envelopes, and also remove all copies of Publication 4268, *Global Shipping: A World of Savings*. Starting on July 1, 2004, Post Office facilities cannot accept GXG packages with DHL mailing labels. Also starting on July 1, 2004, participating retail units should display the new co-branded GXG shipping supplies (see the graphics on this page) along with other USPS® complimentary packaging supplies and encourage customers to use the new GXG co-branded envelopes — not only are they free to the customer, but they cost less for the Postal Service to process.

We will publish revisions to the *International Mail Manual* (IMM) sections pertaining to GXG service in an upcoming issue of the *Postal Bulletin*.

What is happening to GXG?

On July 1, 2004, a new strategic alliance between the Postal Service™ and FedEx takes effect, replacing the contract with DHL Worldwide Express to handle GXG.

Why?

As the expiration date for the DHL agreement approached, the Postal Service evaluated the international shipping marketplace and a number of international integrators with an eye toward accelerating revenue growth and improving service quality. The review concluded that a new strategic alliance with FedEx offered the best combination of price, service, brand recognition, and cost/network efficiencies.

Why is delivery service provided by a private company rather than through foreign posts?

More and more businesses need guaranteed date-certain, courier-level service. Foreign post offices could not deliver a guaranteed date-certain service in 2–3 days. Companies like FedEx and DHL have the capability. To meet the needs of our customers, the Postal Service decided to partner with an industry leader to offer our GXG service.

Does this mean the Postal Service is phasing out this international service?

Absolutely not. GXG is a profitable product that has shown steady growth over the last 3 years and continues to have significant untapped upside potential. More and more global shippers are demanding date-certain, courier-level services to international destinations. GXG meets this need and is competitively priced — GXG prices are often lower than the published rates of other service providers.

Was there a problem with DHL's performance?

No. USPS® Chief Marketing Officer Anita Bizzotto said, “The relationship with DHL Worldwide Express has been a good one, and GXG has been profitable.” As the end of the DHL contract approached, the Postal Service considered other international shipping companies. “Our review found that FedEx offered the best combination of price, service, brand recognition, and cost/network efficiencies,” said Bizzotto.

Can customers purchase GXG at FedEx retail locations?

No.

How will the new alliance change things for customers?

The new GXG labels and packaging carry the logos of both the Postal Service and FedEx. Thanks to input from our retail associates, we have made the new labels smaller and easier to complete and affix. The alliance with FedEx offers more direct transportation links for GXG and

makes some adjustments to the network of destinations served. We will add more destinations in the future.

We are adding the following countries and territories to the GXG service network:

- Afghanistan
- Barbuda
- Bonaire
- Brazil
- Cook Islands
- Curacao
- East Timor
- Iraq
- Japan
- Monaco
- Saba
- St. Barthelemy

GXG service is no longer available to the following countries and territories:

- Algeria

- Burma (Myanmar)
- Cuba
- Falkland Islands
- Grenada
- Guinea-Bissau
- Helena
- Iran
- Kiribati
- Korea, Democratic People's Republic of

For specific countries and territories served, see the *International Mail Manual (IMM)* section 210 or the individual country listing for each country (we will publish revisions to the IMM sections pertaining to GXG service in an upcoming issue of the *Postal Bulletin*), or see the hardcopy of Publication 141, *Global Express Guaranteed Service Guide* (copies of Publication 141 were mailed to participating locations starting on June 4, 2004).

It's important to note that two things are *not* changing. GXG still provides the highest quality international service, and GXG rates are not changing as a result of this new alliance — the rates remain lower than the published prices of most other service providers.

How will a customer make a claim under the new alliance?

To file a claim, customers should call our toll-free number — 800-222-1811.

How will the new alliance change things for employees?

FedEx will collect outgoing GXG directly from our originating airport mail centers/facilities (AMCs/AMFs), and the GXG items will remain in the FedEx network all the way to delivery in the foreign country. This eliminates the handoff to DHL at the U.S. gateway. The number of Postal Service facilities offering GXG will drop to the 7,330 highest-demand locations, allowing the Postal Service to focus our resources where customer demand is greatest. As demand grows, so will the number of participating Postal Service facilities.

Will any Postal Service jobs be lost because of the changes?

No.

Is GXG shipping information available through POS?

No, not yet. While the countries served and rate information are available on POS, retail associates will still need to look up guaranteed service standards and country information to accept GXG shipments. We are doing everything we can to eliminate the need for a hardcopy of Publication 141 in POS offices and to make all of the necessary information available electronically through the system.

Can we still use the old DHL GXG labels and shipping containers?

No. At the close of business on June 30, 2004, destroy all DHL GXG shipping labels and envelopes, and also remove all copies of Publication 4268, *Global Shipping: A World of Savings*. Starting on July 1, 2004, we cannot

accept GXG packages with DHL mailing labels. Also starting on July 1, 2004, make sure to display the new co-branded GXG shipping supplies along with other complimentary Postal Service packaging supplies and encourage customers to use the new GXG envelopes — they are free to customers, they make a positive impression on recipients, and they cost less for us to process.

What features come with GXG?

GXG includes a money-back guarantee, tracking and tracing services, and insurance coverage of up to \$100 for loss, damage, rifling, or document reconstruction free of charge. Customers can purchase additional merchandise insurance to cover loss, damage, or rifling up to \$2,499. GXG date-certain service is 1–2 days to most major international markets and 3 days to most other international destinations. It is competitively priced — GXG prices are often lower than the published prices of most other service providers. Discounts of up to 30 percent, based on volume and shipping frequency, are available online through the Click-N-Ship® Web site at www.usps.com/clicknship. Shipping supplies are free — they are available to customers at participating Post Office facilities, by calling 800-610-8734, by faxing an order to 800-270-6233, or through the Postal Service's GXG Web site at www.usps.com/gxg.

Can customers use their own packaging for GXG?

Yes. However, we encourage mailers to use the new GXG co-branded packaging — it's free for customers, makes a positive impression upon delivery, and costs less for us to handle. Customers can request free shipping supplies at participating Post Office facilities, by calling 800-610-8734, by faxing their order to 800-270-6233, or by going online at www.usps.com/gxg.

How does GXG compare to Global Express Mail?

Global Express Mail™ is designed to be delivered in 3–5 days to international destinations and does not offer a date-certain guarantee or tracking and tracing. GXG guarantees date-certain delivery in 1–2 days to most major international markets and 3 days to most other international destinations.

Can GXG be purchased through online postage payment services?

Yes. GXG is available online through our Click-N-Ship Web site at www.usps.com/clicknship.

Is Carrier Pickup available for GXG?

Yes. Customers who purchase GXG service through the Postal Service's Click-N-Ship Web site at www.usps.com/clicknship can request Carrier Pickup service (next-day pickup by their letter carrier at no additional charge), provided they also have requested a pickup for Priority Mail® and/or Express Mail® service.

USPS selects FedEx to deliver Global Express Guaranteed

The Postal Service™ has selected FedEx to be its new delivery agent for Global Express Guaranteed® (GXG™). The new strategic alliance with FedEx takes effect July 1, 2004, replacing a similar agreement with DHL Worldwide Express.

Here is what Chief Marketing Officer Anita Bizzotto says: “GXG is our premium international shipping product, but its potential up to now has not been fully tapped. This new strategic alliance brings two shipping powerhouses together to deliver world-class service reliability, reduce costs, and bring the resources of both organizations to bear to grow volume and revenue.”

What will be different starting July 1?

[Read the next four bullets at all offices.]

- The FedEx partnership adjusts the service network to more than 190 countries and territories, establishes new service to Japan and Brazil, and features more direct transportation links for GXG.
- FedEx will collect outgoing GXG directly from our originating airport mail centers/facilities (AMCs/AMFs).
- The number of Postal Service facilities offering GXG will drop to the 7,330 highest-demand locations, allowing us to focus our resources where customer interest is greatest. As demand grows, the number of acceptance locations will grow.
- One thing that isn't changing is our competitive price — GXG prices are often lower than the published rates of other service providers.

- GXG will get a new co-branded logo. Here's what the new GXG Air Waybills look like. *[Show or pass around the illustration from page 23 in this issue of the Postal Bulletin (22130).]* Thanks to input from retail associates, we have made the new labels simpler and easier to fill out, and they slip easily into the plastic holder provided.
- During the first few months of the new co-branded service, retail associates will have to look up some information to complete the labels. However, we are working hard to eliminate the need for the hardcopy of Publication 141 (the GXG service guide) and to make all of the necessary information available electronically. We will get it accomplished as soon as possible.
- Encourage customers to use the new GXG co-branded shipping envelopes. They are free to customers, they make a positive impression on recipients, and they cost less for us to handle.
- Retail associates and mail processors will be provided detailed training information.

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service™ employees responsible for accepting and cashing postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first 9 digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1630.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entries under “Changes” appear in bold in the APO/FPO table below.

The stamp artwork is a painting of Fuller by Boris Artzybasheff (1899–1965). The painting, which originally appeared on the cover of *Time* magazine on January 10, 1964, depicts Fuller’s head in the pattern of a geodesic dome. Fuller is surrounded by geodesic domes and a number of his other inventions, including the Dymazion™ Car, a geodesic dome being airlifted by helicopter, the 4D

Apartment House, and several objects and models that reflect the geometric and structural principles he discovered.

STAMP ANNOUNCEMENT 04-22

Wilma Rudolph Definitive Stamp

Copyright USPS 2003

The Postal Service™ will issue a 23-cent, *Wilma Rudolph* definitive stamp on July 14, 2004, in Sacramento, California. The stamp, designed by Richard Sheaff of Scottsdale, Arizona, goes on sale nationwide July 15, 2004.

With this fifth issuance in the *Distinguished Americans* series, the Postal Service honors Wilma Rudolph, who overcame a childhood plagued by serious illness to become one of the nation’s greatest athletes. Artist Mark Summers created the portrait for the stamp using as a reference a photograph of Rudolph taken after she won three gold medals at the 1960 Olympic Games in Rome. Summers also created the stamp art for the first four issuances in the *Distinguished Americans* series: Joseph W. Stilwell (2000), Claude Pepper (2000), Hattie W. Caraway (2001), and Edna Ferber (2002).

The *Wilma Rudolph* stamp will be issued in a pressure-sensitive adhesive (PSA) pane of 20 stamps (Item 108400), a PSA vending booklet of 10 stamps (Item 672900), and a PSA convertible booklet of 10 stamps (Item 673000).

Pictorial Cancellations Announcement

As a community service, the Postal Service™ offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary Post Office™ station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be post-marked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for cancellation may not include

postage issued after the date of the requested cancellation. Such items will be returned unserviced.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for cancellation, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial cancellation, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following cancellations have been extended for 30 days.

*UPDATED ANNOUNCEMENT 04-D***2004 Stamps and Postal Stationery**

"2004 Stamps and Postal Stationery" (Announcement 04-D, June 2004), which appears on page 55, is intended to replace the quarterly announcement of the same name, previously printed and sent to customers on request through Stamp Fulfillment Services in Kansas City. The announcement is a listing of stamps and postal stationery items scheduled for issuance during calendar year 2004. Post Offices™ may wish to post this schedule on their bulletin boards.

Customers may also access the *Postal Bulletin* through the Postal Service™ Web site at www.usps.com; click on *About USPS & News*, then *Forms & Publications*, then *Postal Bulletin*.

This announcement will be updated every 2 to 3 months, as changes warrant.

How to Order First Day of Issue Cancellations and Covers

Customers may purchase new stamps or postal stationery items at their Post Office, from the *USA Philatelic* catalog, by calling 800-STAMP-24, or online at www.usps.com by clicking on *Buy Stamps & Shop*. Then they should prepare their own covers by affixing new stamps to the upper-right corner of envelopes or postcards of their choice, and

address those envelopes, postcards, or postal stationery items to themselves or others. (Postage must equal the current First-Class Mail® rate.) For sturdiness, include a card of postcard thickness in each cover (envelopes only) submitted, and tuck in the flap. Place the cover in a larger envelope addressed to:

NAME OF ISSUE
POSTMASTER
CITY STATE ZIP CODE (followed by -9991).

Covers submitted for first day of issue cancellations may include additional uncanceled stamps only if the uncanceled stamps were issued before the first day of issue of the new stamps or postal stationery items. All orders must be postmarked on or before the deadline indicated in the "2004 Stamps and Postal Stationery" announcement that follows.

Tyvek Envelopes/ Stamps by Mail

Supply-chain purchasing remains a Postal Service™ Transformation Plan initiative as well as a smart business decision. Another opportunity to support this effort is through purchasing Tyvek envelopes. These are most commonly used to package Stamps by Mail® orders, but have other uses as well.

Effective immediately, all Stamps by Mail fulfillment sites (from centralized operations to local Post Offices™) should purchase Tyvek envelopes from the Material Distribution Center (MDC). You may purchase envelopes from local Post Offices only in an emergency. This ordering system saves the Postal Service money while assuring efficient service and quality products for you.

Ordering Information:

You can order a 7.5" x 10" peel 'n' seal Tyvek envelope (inventory code EP192A) and a 9" x 12" peel 'n' seal Tyvek envelope (inventory code EP192B) from the MDC by using touch tone order entry (TTOE): Call 800-332-0317, option 2.

Show me a sign

*Summer/Fall
starts July 1*

Continuity signs up? They should be. June 1 was the date to begin displaying the new blue continuity menuboards in Post Offices™. These redesigned, updated signs make it easier for our customers to pick the products and services they need so retail transactions move swiftly and smoothly. Continuity signs are designed to be displayed continually unless the rates and services they depict need to be updated.

Make sure Shrek is still smiling on your Spring point-of-purchase (POP) signage through the end of this month. The time to say goodbye to the Shrek characters is July 1 when the Summer/Fall drive period begins. New elements for Summer/Fall include a standee promoting Priority Mail® bundles and a poster about Carrier Pickup, and much more.

And remember — your POP signs come with directions included. The up/down arrows printed on the bottom right corner of signs let you know when to put them up — and when to take them down.

Calling globally

It's a test

The new Global International FIRSTCLASS PHONECARD® is being tested at select Post Offices. On the front of the card, which costs \$10, is a list of countries that can be called using the card, but these are just examples. Calls can be made to more than 200 countries. Rates will vary. For specific rate information, call the customer service number on the back of the card. If you have questions about the card, please contact your district retail manager.

Salute to America

*Red, white,
and blue!*

Just in time for the Fourth of July! POP signage is on the way for our "Salute to America" promotion. Beginning July 1, customers can purchase any two FIRSTCLASS PHONECARDS and get a mail-in offer to receive a free U.S. flag. Please see your Summer/Fall POP kits for details.

This month's edition has information about PVI's and barcodes.

Barcoding mail for automated processing drives efficiency, and efficiency keeps rates affordable. Postage validation imprinter (PVI) labels must be clear and legible. Mail processing facilities report that some PVI labels are not readable by our automated mail processing equipment.

Quick tips for PVI maintenance

Print PVI test labels daily: Press the Mode button on the PVI three times until the display reads "LABEL," then press the Paper Feed button. Examine the test labels; if you observe labels with incomplete or unclear barcodes, clean the PVI print head using an alcohol cleaning pen. The diagram on the inside of the PVI cover shows the location of the print head.

Order alcohol cleaning pens through the Material Distribution Center (MDC) in Topeka by using touch tone order entry (TTOE): Call 800-332-0317, option 2.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order.)

Use the following information to order alcohol cleaning pens:

PSIN: CP-1
PSN: 5120-01-356-2413
Unit of Measure: DZ
Min. Order Quantity: 1
Quick Pick Number: N/A
Bulk Pack Quantity: N/A
Price: \$18.63

Clean the PVI print head when installing a new roll of blank labels, at least once a month, or if the quality of the print degrades.

You may also use the cleaning pen to remove adhesive from the pressure roller, but alcohol on a cotton swab may be more effective. Do *not* use a cotton swab to clean the print head or sensors.

Use a damp (not wet) cloth to clean the outside of the PVI. Any moisture that enters the cover or switches could cause damage to the electronic components. Do not use commercial cleaners, use only water.

Refer to *Postal Bulletin* 22107 (7-24-03, pages 89–90) for detailed, step-by-step PVI cleaning instructions.

PVI supplies

PVI labels should be ordered through eBay; go to <http://blue.usps.gov>; under Essential Links, click *eBuy*. Select the Moore catalog, the only authorized supplier of PVI labels. Other sources may not use the correct type of paper and may produce labels that cannot be read by mail processing equipment. Use of unapproved labels may also damage the PVI and lead to premature failure of the printer

However, PVI labels may be ordered through the MDC if necessary.

Use the following information to order PVI labels:

PSIN: O7522
PSN: 7690-04-000-1181
Unit of Measure: CS
Min. Order Quantity: 1
Quick Pick Number: 503
Bulk Pack Quantity: 1
Price: \$24.5216

PVI labels have a shelf life of 1 year — after that time the quality of the printed label may deteriorate. Only order the quantity that you expect to use within a 6-month time frame.

The Postal Service™ is exploring new barcode technology that would enable us to enrich the information on mail as it moves through our system for better customer service.

What's in Store

Retail Coaches Corner

Sales and services associates must always use the correct ZIP Code™ for accurate processing. ZIP Code information entered during a retail transaction creates a barcode on the PVI label of the article that will be sorted on our automated equipment. Machines like the Automated Flats Sorter Machine (AFSM) 100 or Automated Package Processing System (APPS) attempt to sort mail by first looking at the PVI barcode.

Designating "FLAT" when you are accepting a flat also is important in the POS ONE and IRT systems. It notifies the PVI that a POSTNET Code should appear on the PVI label. Flats and parcels each have specific barcode types important for processing and on-time delivery.

Proper transaction processing serves other vital purposes in addition to expediting mail delivery:

- Scanning barcodes when selling stamps provides data used to make decisions on budgeting, ordering, and purchasing inventory.
- Specific mailing transactions are tied to workload-based report data. If transaction shortcuts are used, the data will not show how hard each associate is working.

- Veterans Day, November 11

Note: If any of these days fall on a nonbusiness day, Postal Service facilities are required to display the POW-MIA flag on the last business day before the designated day.

The flag and its display at our facilities honor the sacrifices made by members of the armed forces held as prisoners of war or missing in action. Use the information below to order POW-MIA flags.
