Register or Relinquish, IT wants you to register your mobile device by May 18

All postal cellular users, regardless of your device type — cellular phone, cellular broadband or BlackBerry — must register your Postal Service-funded cellular service by close of business May 18. Any cellular service not registered at that time will be suspended.

Mobile devices can be registered three ways: You can go directly to <http://HQCELLREG.usps.gov>. Or, you can reach the registration site from Blue or LiteBlue. Go to either site under "Hot Topics" and click on Important! Register Mobile Device Here!

The Web address for the Postal Service Intranet is <http://blue.usps.gov>, and the address for LiteBlue is <https://liteblue.usps.gov>. Remember, your employee ID and password are required to access LiteBlue. The eight-digit ID number is located at the top of your pay stub, and the password is your *PostalEASE* password.

This Information Technology initiative is aimed at reducing the cost of cellular services. (See Vice President and Chief Technology Officer Robert Otto's letter, on page 75.) Your action will save the Postal Service a substantial amount of money and lead to an increase in service levels, functionality and improved devices.

The History Channel uses USPS stamps for new series

It seems only fitting that a pane of stamps that made history when released is helping *The History Channel* take viewers on a tour of the United States.

Running through June 23, *The History Channel* is airing a 10-part, weekly series — *The States* — that chronicles the unique histories of each of the 50 states. Each state profile is introduced using one of the *Greetings from America* stamps, a pane of 50 stamps celebrating each of the 50 states.

Viewers tuning into *The History Channel* find engaging stories and surprising facts and figures from five American states each week.

Online teens still 2 SMRT 4U: Postal Inspection Service extends Internet safety campaign

2 SMRT 4U, an Internet safety campaign for teens, continues to exceed expectations and will be extended through Fiscal Year 2007.

Launched last November, the partnership between the U.S. Postal Inspection Service and the National Center for Missing and Exploited Children now has reached more than 80 countries. Teens have ordered nearly 300,000 of the 2 SMRT 4U stainless-steel rings, and surveys tally excellent campaign feedback. Best of all, 68 percent of teen girls reported changing their online behavior as a result of the campaign.

Teens visiting the www.2smrt4u.com Web site get online safety tips from Hayden Panettiere, star of NBC's *Heroes*, and can report inappropriate conduct on the Internet. The Postal Inspection Service has investigated obscenity offenses since the 1800s, but has focused particular attention on child exploitation since the passage of the Sexual Exploitation of Children Act of 1977. Today, nearly all such cases involve the Internet, as well as the U.S. Mail.

Oklahoma District's Maintenance Chief wins award

Lew Flowers, manager of Vehicle Maintenance for the Oklahoma District, has received the Technology and Maintenance Career Leadership Award.

The award is given each year by the *Commerce Carrier Journal*, a trade publication for the commercial trucking industry.

Cover story — Oklahoma District Manager of Vehicle Maintenance Lew Flowers wins leadership award.

Flowers is responsible for the Oklahoma District's 2,100 vehicles, 51 employees and a \$5 million budget. He is a member of the Society of Automotive engineers and the Oklahoma Trucking Association. Flowers is also a member of the Technology and Maintenance Council (TMC), where he has served on and chaired numerous study groups and was the organization's general chairman. In 1997, he earned the Silver Spark Plug — TMC's highest honor.

RMS Titanic mail room keys fetch record proceeds in U.K. auction

The keys and chain to the mail room on board the *RMS Titanic* are now in the hands of a private collector who paid more than \$200,000 for them during an auction in the U.K.

The keys and chain to the mail room on board the *Titanic*. Photo: courtesy of U.S. Postal Museum.

The sale — a record for *Titanic* memorabilia — recalls the bravery of five postal clerks. Three of the clerks were from the U.S. Post Office and two from the Royal Mail. The ship's postmaster was Oscar Scott Woody, a 15-year postal veteran and a railroad mail clerk before he began his service aboard the *Titanic*.

The keys were recovered from Woody's body and given to his widow. "The Postmaster and his staff were the *crème de la crème*," Auctioneer Andrew Aldridge told *The Times* of London. "To serve on a transatlantic steamer, you had to be in the top 1 percent of your profession because you had to sort through hundreds of letters per hour."

New look for Priority Mail, Express Mail starts May 14

Focusing on convenience, the Postal Service has redesigned all Priority Mail and Express Mail packages and envelopes, including the popular Flat Rate boxes and envelopes. Beginning May 14, mailers can use the same Priority Mail and Express Mail packaging whether they are shipping in the United States or to another country.

The design change — the first since 1995 — has a fresher, crisper look. The Postal Service logo is prominent alongside international symbols for use by foreign posts. The new design has ample space for required forms, labels and Intelligent Mail barcodes.

Post Offices across the country should receive the new packaging this month. All packaging will be available online at www.usps.com May 14.

Driving E85: Northland District leads in alternative fuel use

With its expanding use of E85 fuel — a special mix of 15 percent gasoline and 85 percent ethanol — the Northland District has emerged as a Postal Service leader in the use of alternative energy supplies.

The district has increased its use of E85 fuel by 65 percent in the last three years. In 2006, postal vehicles in the Land of 10,000 Lakes used more than 273,000 gallons of E85 fuel.

Today, more than 90 percent of the district's E85 fleet vehicles use the energy-saving fuel. Also, the Minnesota America Lung Association presented the Northland District with its Extra Mile Award for the unit's "dedication to the advancement of E85."

SUBJECT: Spring Into Summer Publicity Kit

Spring and summer are seasons of celebrations. In the coming months, our customers will be marking many special occasions — Mother's Day, Father's Day, high school and college graduations, weddings — and summer vacations. As we move from spring into summer, it's an ideal time to promote our products and services.

This field publicity kit includes standard press releases to generate "evergreen" stories that can be placed with local media in coming months. Topics include:

- NetPost CardStore
- Click-N-Ship®
- International mail products
- Hold Mail Service
- Express Mail® and Priority Mail® services

Some of the press releases give a new mail twist on familiar themes, like "Graduation Tips 101" or "The Best Dressed Wedding Invitation," and others highlight traditional postal products and services, like "Going Global this Spring" or "Going on Vacation? Get Your Mail Held With Just a Few Clicks."

An article in a local newspaper, prompted by one or more of these news releases, will let customers know we have products and services that make it easier and more convenient for them to stay in touch with family and friends and make celebrations and special occasions more memorable.

Employee service talks are also included in this kit. We all know USPS® offers great products and services at great value. Employees help us deliver that message to our customers — and that helps us increase revenue.

Keep in Touch With Moms and Dads Serving Overseas

Postmaster **[Insert First and Last Name]** says nothing brightens the day more than mail from friends and loved ones. Follow these guidelines so your letters and packages are intact when they reach moms and dads serving around the world.

- Use the service member's full name. Include the unit and APO/FPO (Air/Army Post Office or Fleet Post Office) address with the nine-digit ZIP Code.
- Include a return address and customs declaration form (available online).
- For packages, print on one side only with the recipient's address in the lower right portion. Or print a postage-paid label online with *Click-N-Ship*, which will automatically standardize your APO/FPO address.
- When sending packages, select a strong box with room for cushioning. If you use a recycled box, cover all previous labels and markings with a heavy black marker or adhesive labels.
- Cushion contents with Styrofoam or bubble wrap to keep items from shifting. Double-box fragile items with cushioning inside and between the boxes to absorb shock. Remove and wrap batteries separately. Put a card inside the package listing the sender's and recipient's addresses with a description of the contents.
- Tape the opening of the box and reinforce all seams with 2-inch-wide tape. Use clear or brown packaging tape, reinforced packing tape or paper tape. Do not use cord, string or twine.
- Make sure you're aware of mailing restrictions. Every country has customs regulations regarding incoming mail. Generally, the following are prohibited in the region of Operation Iraqi Freedom: obscene articles, any matter depicting nude or seminude persons, bulk quantities of religious materials contrary to the Islamic faith, and pork or pork by-products.
- For specific restrictions and mailing rates to an APO/FPO address, call 800-ASK-USPS, consult your local Post Office, or phone the Military Postal Service Agency at 800-810-6098.
- Go to www.usps.com/supportingourtroops for more tips on how to keep in touch with the men and women serving overseas.

Go Global This Spring — Tips From USPS That Make It Easy

Postmaster **[Insert First and Last Name Here]** says the U.S. Postal Service is making it easier to go global with international mail. And that's true whether you're doing business overseas or need to reach relatives and friends outside the United States and its territories.

- International mail products have had a name change. The new names, Global Express Guaranteed, Express Mail International, Priority Mail International and First-Class Mail International, have been chosen to mirror their domestic counterparts Priority Mail and Express Mail.
- Forget about what packaging to choose — now you can use the same packaging for domestic and international shipping.
- It gets even better. Skip the trip to the Post Office and reach USPS international mail products online at www.usps.com. You'll find you can obtain postage discounts and popular flat-rate shipping options using Click-N-Ship.
- Use Click-N-Ship to send packages to service members overseas. When available, Click-N-Ship databases will automatically standardize APO/FPO addresses. For more information on sending letters and packages to military members, go to www.usps.com/supportingourtroops.
- Send a gift of money to friends or family in participating countries using Sure Money (DineroSeguro): Argentina, Colombia, Dominican Republic, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua and Peru. It takes just 15 minutes. For more information, call toll free: 888-368-4669.

Apply for a new passport, or renew an expired one, at thousands of Post Offices. To find the location of a participating Post Office closest to you, log on to www.usps.com and click on *Locate a Post Office*. Under *Options*, select *Passport Application Services*. Due to unprecedented demand, the State Department recommends travelers allow 10 weeks for their passport applications to be processed, with expedited processing available at an extra charge for service in 4 weeks or less.

[Insert City, State] — Spring is here and summer is close behind. Soon it will be time to pack the car or hop on a plane to the beach or mountains, to an exotic destination or to visit relatives. But remember, your mail doesn't take a vacation. To make your departure as smooth and stress-free as possible, the U.S. Postal Service offers an easy solution for holding your mail while you're away.

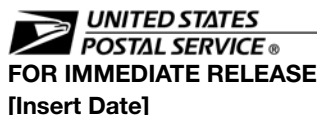

"Arranging to have your mail held while you're away has never been easier," says Postmaster **[Insert First and Last Name]**. "Now, thanks to Hold Mail Service from the Postal Service, you can go online and arrange to have your mail held from three to 30 days. Just go to www.usps.com and search for Hold Mail Service. There's no charge for a vacation hold and the site is secure for your protection." It takes only a few easy steps:

- Log on to the Postal Service's Web site, www.usps.com, available around-the-clock for customer convenience.
- Search for "Hold Mail Service."
- Enter your ZIP Code at the prompt, then enter your address information and the dates the mail should be held.
- Make sure to record the confirmation number you're given at the end of the process in case you need to modify the request if you come back early or if you decide to stay on your vacation a little longer.

The online service will electronically notify your local Post Office, which will hold all your mail for the time specified. Delivery resumes on your requested date.

If you are planning to be away from home for more than two weeks and up to a year, for a fee you can have all your mail forwarded by Priority Mail to your temporary address. Your mail will be intercepted at the Post Office and sent to your temporary address each week. Graduation Mailing Tips 101

Does it feel like only yesterday when your son or daughter walked or maybe ran off to the first day of school? Graduation time is here and it's time to plan. Whether you are throwing a party or sending your child off to college, here are some helpful reminders from the U.S. Postal Service.

- Invite guests to the graduation party using personalized postcards that you create and mail online. As a special touch, these can be made using an old or new photograph of your favorite grad. Here's how it's done: go to www.usps.com and click on *NetPost CardStore*. Download your favorite photo, create a greeting or select one of the many prewritten greetings or online graphics options. Click to add a gift card from a wide choice of popular national retailers at denominations from \$25 to \$200. Put in your mailing list and select a stamp. Within days, a high-quality card will be delivered to your family and friends. Payment is easy with a debit or credit card.
- Remember to mail party invitations at least 10 to 14 days in advance.
- A well-dressed envelope is important: Did you know mail is sorted on high-speed automated equipment as fast as 35,000 pieces an hour? The machines "read" the addresses, so it's important to print or write clearly. If there is an apartment number, be sure to include it on the same line as the street address. The last line in the address should include the city, the two-letter abbreviation for the state and the ZIP Code.
- It's also convenient and fun to thank family members and friends for graduation gifts using a photo postcard of the graduate in cap and gown. Go to www.usps.com, click on *NetPost CardStore*, and follow the instructions above.
- Need gift ideas for the new graduate? At the same Postal Service Web site — www.usps.com — you'll find great gift ideas such as plush bears, T-shirts, stationery and ever-popular gift cards from leading national retailers.
- If you're still rushing to meet deadlines for college applications, send them overnight using Express Mail.
- Use Priority Mail Flat Rate Boxes to send "care" packages to your college-bound graduate. Fit as many items as you want in the specially marked box and pay one flat fee regardless of weight, as long as it's less than 70 pounds.
- And when your college student forgets something or has an unusual request, you'll find Priority Mail boxes come in many different sizes and shapes to meet your needs. Get them at your local Post Office.
- Whatever you're mailing or shipping, Click-N-Ship at www.usps.com can save you a trip to the Post Office. It's where you can meet all of your mailing needs, including shipping labels and postage. You can also request Package Pickup and your carrier will pick up the package from your home or business at no extra charge the following day.

- “Accessorize” your correspondence by using the new Love stamps, available June 27. Featuring vines that form the shape of a heart, these stamps were designed especially for mailing wedding invitations and RSVPs and are available in both the 2-ounce (58 cents) and the 1-ounce (41 cents) First-Class Mail postage rate denominations. Stamps are an inexpensive way to add color to an invitation and you can also use them to decorate an envelope, even on the flap (where they do not count toward required postage). *Star Wars* stamps issued this month may be a fun way to speed your response cards back to you.
- Mail your invitations four to six weeks before the wedding and make sure the return address is complete and legible.
- Whether you dress your wedding invitation in a traditional style or use more flamboyant papers and embellished envelopes, take care with the most important accessory — the address. Provide a complete address, including apartment number, on each envelope. Confirm ZIP Codes easily at www.usps.com by clicking on *Find a ZIP Code* on the navigation bar.
- Go to the Postal Service Web site, www.usps.com, to order stamps, view and purchase related postal products, look up ZIP Codes instantly, learn about mailing options and calculate postage.
- Affix your stamps securely, but do not put tape over the stamp(s) — this invalidates the postage. If your envelope is textured, or contains decorative fibers or floral inclusions, you may want to secure the postage using a glue stick.
- Or, prepare your invitations online and mail them through the Postal Service's NetPost Print and Mail Services — you'll save time and money.

- For save-the-date cards and thank-you notes, create customized postcards at www.usps.com/netpost. Postage is included in the price, and discounts are available with every mailing. The hottest trend is to use your own artwork or photograph on your thank-you notes. Stand out in the crowd — customize your postage with pictures from your wedding. For more information go to Print Postage Online at www.usps.com.
- Tell family and friends who can't make the big day about NetPost Gift Card. From the convenience of their home they can use their computer to send greetings and a gift card from a wide choice of popular national retailers at denominations from \$25 to \$200.

Star Wars Stamps Are the New Galactic Rage

[Insert City, State] — Newly entering the galaxy are 15 *Star Wars* stamps destined to make greeting cards, letters and packages as unforgettable as the characters and intergalactic vehicles they feature. “I’m sure *Star Wars* fans will love to see one or more of the new *Star Wars* postage stamps on their graduation, Father’s Day, birthday and even wedding cards,” says [Insert City] Postmaster [Insert First and Last Name], “so we’ve stocked up our vaults and are ready to meet the demand.”

“Because of the popularity of the movies, many believe these stamps will reach the blockbuster status of the Elvis stamp,” says the [Insert City, State Abbreviation] Postmaster. “A sheet of the stamps — framed or otherwise — could make the perfect gift for young and old Jedi Masters.”

The new *Star Wars* sheet of stamps — on sale May 25 — feature Darth Vader, Luke Skywalker, Han Solo with Chewbacca, Princess Leia Organa with R2-D2, C-3PO, Yoda, Obi-Wan Kenobi, Emperor Palpatine, stormtroopers, Boba Fett, the *Millennium Falcon*, an X-wing starfighter, Queen Padmé Amidala, Obi-Wan Kenobi with Anakin Skywalker, and Darth Maul.

Of the 15 stamp images, the Postal Service is inviting the public to vote on its favorite. To place your vote, go online at www.uspsjedimaster.com now through May 23. The winning stamp will be announced May 25 and honored with the issuance of a single stamp, which will be for sale later this summer.

The stamp sheet selvage includes the *Star Wars* logo and background images of a space battle, including a Star Destroyer, TIE fighters, X-wing starfighters and the second Death Star as shown under construction in *Star Wars: Episode VI Return of the Jedi*. The background also includes the light saber-wielding form of Darth Vader, whose helmet comprises the largest of the 15 stamps. The back of the souvenir sheet describes the dramatic roles that each featured character or vehicle plays in the *Star Wars* saga.

“It gets better — from now until Sept. 1, 2007, new prepaid Express Mail Flat Rate envelopes feature 30th anniversary *Star Wars* graphics — so even your urgent documents can speed across the planet,” adds [Insert Last Name].

Spring Into Summer — Hold Mail and Premium Forwarding Services Employee Service Talk

Spring is here and summer is close behind. Now is the time to remind your customers, if they are planning a trip or vacation, the Postal Service can hold their mail and keep it from piling up. Nothing says “no one is home” like a mailbox overflowing with letters and magazines. Tell your customers to take advantage of the Postal Service’s quick, easy and convenient www.usps.com online services that save them a trip to the Post Office.

With just a few clicks, customers can arrange to have their mail held from three to 30 days. Go to www.usps.com and search for “Hold Mail Service.” First, enter the ZIP Code at the prompt. Then, enter address information and the dates the mail should be held. At the end of the process a confirmation number is given in case the dates need to be modified or the customer decides to extend the vacation. The online service electronically notifies the Post Office with a request to hold all the mail for the time specified. Delivery resumes on the requested date. Arranging to have mail held has never been easier, thanks to Hold Mail Service from the Postal Service.

Are your customers planning on being gone a while? They may prefer to take advantage of Premium Forwarding service. This service is great for those snowbirds who need their mail while they are away. For a small fee, Premium Forwarding with the Postal Service will use Priority Mail to box and reship mail once a week for periods of at least two weeks and up to one year. Your customers can stop by their local Post Offices for more information, or go to www.usps.com.

Mailbox Improvement Week, May 21–27

Each year, the Postal Service™ designates the third full week of May as Mailbox Improvement Week to encourage customers on city motorized, rural, or contract delivery service routes (formerly highway contract box delivery routes) to examine and, where necessary, improve the appearance of their mailboxes. Neat, attractive mailboxes make a significant contribution to the appearance of the countryside and streets in suburban areas. Mailbox Improvement Week, May 21–27, calls attention to the need for providing mailboxes that are:

1. Approved by the Postmaster General.
2. Designed to protect the mail from weather.
3. Safe to use.
4. Conveniently located.
5. Neat in appearance.

Additional information is available on the Delivery and Retail Web site at (http://blue.usps.gov/delret/L4CityDelvry_GROWTH.htm.)

Mailboxes that meet these five important requirements help delivery and collection operations and improve service to the entire route. There are three approved styles of curbside mailboxes:

1. Traditional design (see Exhibit A).
2. Contemporary design (see Exhibit B).
3. Locked, Full, or Limited service.

USPS-STD-7B governs the design and specifications of curbside mailboxes and includes provisions for improved quality of the product.

Notice 209

Postmasters should send Notice 209, *Mailbox Improvement Week*, to all rural and highway contract box delivery route customers the week before Mailbox Improvement Week to alert them of the event. You can order Notice 209 from the Material Distribution Center (MDC) through one of the following methods.

- Use Touch Tone Order Entry. Call 800-273-1509.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order). For complete TTOE ordering instructions, you can visit the Materials Customer Service Web site at: http://blue.usps.gov/purchase/_doc/ops_ttoeins.doc or call National Materials Customer Service at 800-332-0317, option 4.

- Send a completed PS Form 7380, *MDC Supply Requisition*, by e-mail to MDC Customer Service.
- Fax a supply requisition order to 651-406-5583.
- Mail a completed PS Form 7380 to:

City Motorized, Rural, and Contract Delivery Service Routes

Customers must use only approved traditional, contemporary, or locked full/limited service curbside mailboxes for new installations or replacements. When new delivery is established or extended, Postmasters must ensure that customers use delivery equipment that is approved by the postmaster general. However, a customer may use a custom-built curbside mailbox if the local postmaster gives prior approval and the mailbox conforms generally to the same requirements as approved manufactured curbside mailboxes relative to the flag, size, strength, and quality of construction.

Carriers on motorized city routes may continue to serve mailboxes that are designed primarily for use by customers receiving door delivery and that have been erected and served under previous regulations (see Exhibit C on the following page). However, carriers should advise customers that they may use only approved curbside mailboxes when replacing these types of mailboxes. A list of approved manufacturers of traditional curbside mailboxes appears on pages [21–25](#).

For motorized city routes, and where the use of street names and house numbers is authorized on rural and contract delivery service routes, the mailbox must display the number on the side of single mailboxes or on the door of grouped mailboxes. If the mailbox is on a street other than the one on which the customer resides, the street name and house number must be on the mailbox. When rural and contract delivery service route customers box delivery route customers have assigned box numbers, the numbers

must appear on the side of single mailboxes or on the doors of grouped mailboxes, visible to the approaching carrier. The street number, box number, and any other address information must be inscribed in contrasting color in neat letters and numerals not less than 1 inch in height. In all instances, placing the owner's name on the box is optional.

Exhibit A

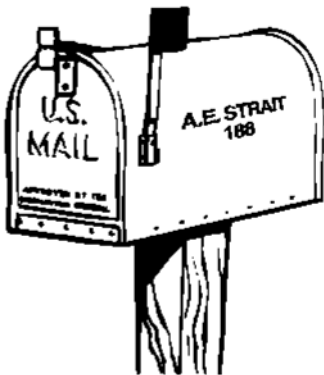

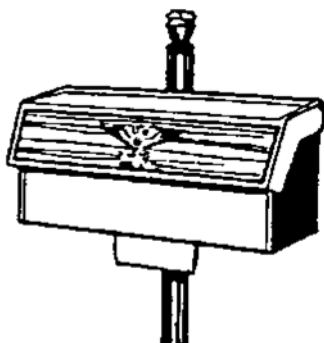

Exhibit B

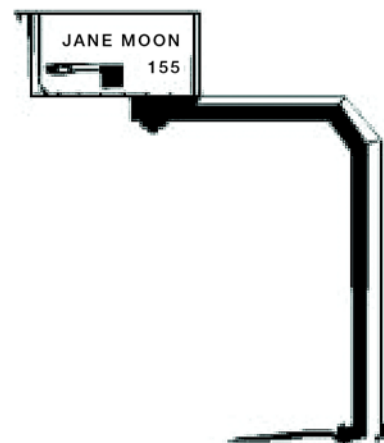

Exhibit C

Motorized city, rural, and contract delivery service route customers should be encouraged but not required to group mailboxes whenever practical, especially where many mailboxes are located at or near crossroads, service turnouts, or similar locations. Customers should also paint mailboxes and supports/posts and keep them rust-free. Advertising on mailboxes and mailbox supports is prohibited.

In areas where snow removal is a problem, the Postal Service suggests using a semi-arch or extended arm-type support (see Exhibit D), which allows snowplows to sweep near or under mailboxes without damaging supports and provides easy access to the mailboxes by carriers and customers.

Exhibit D

Generally, mailboxes should be installed at a height of 41–45 inches from the road surface to the bottom of the mailbox or point of mail entry. Mailboxes are set back 6–8 inches from the front face of the curb or road edge to the mailbox door. However, because of varying road and curb conditions and other factors, the Postal Service recommends that customers contact their local Post Office before erecting or replacing mailboxes and supports.

Location

Customers must place mailboxes on motorized city, rural, and contract delivery service routes so a carrier can safely and conveniently serve them without leaving his or her vehicle. The mailboxes must be on the right-hand side of the road in the carrier's travel direction in all cases where traffic conditions make it dangerous for the carrier to drive to the left to reach the mailboxes, or where doing so would constitute a violation of traffic laws and regulations. *Postal Operations Manual* (POM) 632.6 specifies postal regulations regarding locations for apartment houses and other multiple unit dwellings. On new rural and contract delivery service routes, all mailboxes must be on the right-hand side of the road in the direction of the route line of travel.

Mailbox placement must conform with state laws and highway regulations. City motorized, rural, and highway contract box delivery route carriers are subject to the same traffic laws and regulations as other motorists. Customers must remove obstructions, including vehicles, trash cans, and snow, that impede safe and efficient delivery. Except when a mailbox is temporarily blocked, carriers must have access to the mailbox without leaving the vehicle unless authorized to dismount.

Mailbox Supports

The Postal Service does not regulate mailbox supports in any way except for purposes of carrier safety and delivery efficiency. Posts and other supports for curbside mailboxes are owned and controlled by customers, who are responsible for ensuring that posts are neat and adequate in strength and size. Heavy metal posts, concrete posts, and miscellaneous items of farm equipment, such as milk cans filled with concrete, are examples of potentially dangerous supports. The ideal support is an assembly that bends or falls away when struck by a vehicle. Post or support designs may not represent effigies or caricatures that disparage or ridicule any person. Customers may attach the box to a fixed or movable arm. POM 632.5 specifies postal regulations regarding construction and placement of mailboxes and supports on motorized city, rural, and contract delivery service routes.

The Federal Highway Administration (FHWA) has determined that wooden mailbox supports no larger than 4 inches by 4 inches, or a 2-inch diameter standard steel or aluminum pipe, buried no more than 24 inches, should safely break away if struck by a vehicle. According to FHWA, the mailbox must also be securely attached to its post to prevent separation if struck. See Exhibits E (page 22) and F (page 23) for examples of mailbox mountings and supports suggested by the FHWA.

Cluster Box Units and All-Weather Parcel Lockers

During Mailbox Improvement Week, postmasters and managers or their designees must review all cluster box units (CBUs), neighborhood delivery and collection box units (NDCBUs), and outdoor parcel lockers (OPLs) in their delivery areas to identify any hazards or irregularities, and they must record the results of the review.

Note: NDCBUs are not approved for use in new delivery or as replacement units for existing NDCBUs — even when privately purchased. Postal Service officials must not install Arrow locks in new NDCBUs or initiate delivery to NDCBU units installed as replacements.

Upon completing the reviews, keep a copy in your local office and send consolidated copies to the designated growth coordinator for each district. Use PS Form 8143, *Equipment Checklist and Follow-up Review*, in conducting and recording the reviews. PS Form 8143 is available in this Postal Bulletin (see Exhibit G on page 32), PS Form 8143 is also available on the PolicyNet Web site (<http://blue.usps.gov/cpim/>). Click on *Forms*. Employees

conducting the reviews must complete PS Form 1624, *Delivery/Collection Equipment Work Request*, for any equipment that poses a safety hazard to postal customers or employees. You can order PS Form 1624 from the MDC using Touch Tone order entry (described previously) or download it from the PolicyNet Web site (<http://blue.usps.gov/cpim/>). The relevant ordering information for PS Form 1624 is as follows:

Equipment Review Procedure

Employees must use the CBU and parcel locker equipment checklist and follow-up review procedure when examining the condition of CBUs, NDCBUs, and OPLs. You must:

1. List the 5-digit, USPS-marked Postal ID number of the unit. This is usually visible on the front or side of the body or pedestal. If a Postal ID number is not available, list the unit location, equipment type, and manufacturer in the left-hand column. If you are able to access the back of the unit, list the unit's vendor-supplied serial number. You *must* distinguish the type listed as an NDCBU or CBU.
 2. Assign each checklist item one of the following ratings:
 - a. OK — Equipment does not need attention for this item.
 - b. X — Equipment needs attention for this item.
 - c. NA — Item does not apply to this particular piece of equipment.
 3. When examining the equipment, use the instructions below to complete PS Form 8143:
 - a. Check equipment. All CBUs, NDCBUs, and OPLs must be straight, vertical, and firmly mounted. For safety concerns, please ensure that customer compartments are facing **away** from the street (refer to the safety note below). Visually verify that four bolts/nuts are firmly in place securing the pedestal to the concrete pad and to the CBU, NDCBU, or OPL. Apply hand pressure to the top edge of the unit from the front side. While the unit may flex under the load, verify that the pedestal stays firmly mounted to the concrete and that the unit does not separate from the pedestal.
- Note:** For safety concerns, please ensure that customer compartments are located such that customers do not have to stand in the street to access their mail.
- b. Check visible welds. Make note of cracked, broken, or rusted welds. For NDCBUs and OPLs only, tap the pedestal with a lightweight hammer, especially along the seams, to check for corrosion from the inside out or perforated corrosion.
 - c. For CBUs and NDCBUs, observe whether the carrier access door is locked and secure. Open it and observe whether it is bowed or warped and whether the door and locking bar operate smoothly. With the carrier access door open, check whether restraining devices prevent the door from blowing closed. These devices, which may have to be set manually, should be serviceable.
 - d. Ensure that the Arrow lock operates smoothly and easily and that the mounting hardware is tight. For NDCBUs and OPLs, the protective cover that shields the Arrow lock from customer tampering must be serviceable and firmly attached.
 - e. For OPLs, the cover that protects the Arrow lock from theft must be secured with the proper quantity of tamper resistant screws.
 - f. Ensure that all customer access doors are present, closed, and locked with no visible damage or signs of forced entry. Check that customer door numbers are legible.
 - g. Ensure that the exterior surface of the unit is free from rust and graffiti.
 - h. Examine the unit. Check it for defects or damage and whether it reflects a proper Postal Service image.
 - i. Check whether the unit and any protecting structure appears watertight and in good repair. Check whether there are any noticeable watermarks inside the unit or any wet mail.
 - j. Note any other conditions that require attention. Also, look for signs of vandalism such as pry marks on doors and locks.
4. Record the results of the inspection on the checklist.
 5. Submit the completed PS Form 1624 for each unit reviewed to the maintenance office responsible for Centralized Delivery Equipment installation or repair in the area.

Carriers must note equipment deficiencies and report them to the postmaster, supervisor, or designee. The postmaster or designee must then submit PS Form 1624 reporting the equipment defects. In addition, carriers

should complete PS Form 1767, *Report of Hazard, Unsafe Condition, or Practice*, for items that pose an immediate threat to safety, such as an improperly secured or leaning NDCBU/CBU. You can order PS Form 1767 from the MDC using touch tone ordering procedures. The relevant ordering information for PS Form 1767 is as follows:

PSN: 7530-01-000-9422
PSIN: PS1767
Unit of Issue: SE
Quick Pick #: 141
Bulk Pack Quantity: 1000
Minimum Order: 25
Price: \$.0500

The postmaster or supervisor must immediately notify by telephone the office responsible for repair of reported hazards. The postmaster or supervisor must follow up to ensure that the work is satisfactorily completed and documented. The office responsible for repair should use its local buying authority to accomplish the repairs.

In January of 1999, the Postal Service announced that NDCBUs cannot be installed for delivery of mail beginning in FY 2000. As previously stated, there are no waivers granted for this policy. Place all orders for CBUs and OPLs against the national contracts listed below. Use eBay to place all orders.

For eBay ordering instructions, go to the Postal Service Intranet (<http://blue.usps.gov>). In the left-hand column, select the eBay link, then select *Training*. You may also call 800-USPS-HELP for additional help.

Wall-Mounted Centralized Mail Receptacles (USPS STD-4C)

USPS STD-4C was fully implemented on October 6, 2006.

All new multi-unit construction with building permits submitted before October 6, 2006, retain the option of using apartment style receptacles built to the specifications of USPS STD-4B+.

All multi-unit construction with building plans submitted on October 6, 2006, or later are required to use Wall-Mounted Mail Receptacles built and approved to the specifications of USPS STD-4C.

The receptacles built under the new specifications offer:

- Improved compartment security.
- Customer friendly compartment designs, which allow mail to be placed flat into the compartment.
- Increased ease of use for carriers
- Larger customer compartment capacity for small parcels and rolls (SPRs), small parcels, and large volume of mail.
- One parcel lockers for every 10 customer compartments above 10 compartments or more.
- Secure outgoing mail compartments.

The use of STD-4C boxes is primarily intended for new construction and not as a means of retrofitting existing complexes. However buildings undergoing significant renovations or rehabilitations may be required to convert to wall-mounted receptacles that are USPS STD-4C compliant. If these renovations include significant structural changes and present an opportunity for more complete makeovers, the builders should include 4C receptacles. Buildings that are simply remodeling or changing the outward/surface appearance of the lobby *are not* considered examples of renovations that would trigger the use of 4C receptacles.

If you have additional questions regarding these timelines, please contact your area or district growth coordinators for further information.

Apartment House Mail Receptacles — Horizontal and Vertical

Note: The Postal Service has revised USPS-STD-4B. The new standard is USPS-STD-4C.

For replacement of existing equipment, security enhanced versions of both horizontal and vertical boxes are now available. They are referred to as “USPS-STD-4B+” boxes and are designed to fit cleanly into buildings with old USPS-STD-4B boxes.

USPS-STD-4B+ boxes are approved for Postal Service mail delivery for indoor installations or protected outdoor locations. However, the Postal Service does not approve the purchase of this equipment for new installations and will not install Arrow locks in any such equipment. You may only order *replacement* parts for Postal Service-owned equipment that was installed in the past.

State and Local Regulations

Some states have enacted laws that are more stringent and specific about the type of mailbox that may be used, the post or support that must be used to mount the mailbox, and the location of the delivery equipment. Regulations and recommendations published in this notice might not reflect appropriate requirements for your area. When providing guidance to the general public concerning mailbox placement and replacement, advise them not only of Postal Service regulations but also of any mailbox regulations that you know have been enacted by state or local authorities. Further information is available from the following:

Publicity

Postmasters must give these guidelines and suggestions maximum local publicity. Consult your area Public Affairs and Communications representative for further guidance and assistance in publicizing Mailbox Improvement Week. The news release on page [31](#) is provided for postmasters to distribute to daily or weekly newspapers or broadcast stations in their delivery area to promote Mailbox Improvement Week. Retype the press release, double-spaced, on Postal Service letterhead. You may also find it helpful to alert the media to locations of particularly interesting mailboxes in your delivery area.

Responsibility

Motorized city, rural, and highway contract box delivery route carriers must cooperate to ensure the success of this endeavor and later report the results to the postmaster. In addition, postmasters should use the most up-to-date list of manufacturers and mailbox suppliers when providing motorized city, rural, and highway contract box delivery route customers with information about the type of box to install.

Mailbox Improvement Week Arrives in Time for Spring Cleaning

The U.S. Postal Service is asking all [city name] homeowners to inspect and repair their mailboxes during Mailbox Improvement Week, May 21-27, says Postmaster [full name].

“Repairing suburban and rural mailboxes improves the appearance of our community and makes delivering and receiving mail safer for our carriers and customers,” [last name] says.

The Postal Service makes this annual request because of the wear and tear that occurs to mailboxes every year. “This is especially important after the effects of last winter,” [he/she] adds [if applicable].

Some of the typical activities that may need to be done include:

- Replacing loose hinges on a mailbox door.
- Repainting a mailbox that may have rusted or started peeling.
- Remounting a mailbox post if loosened.
- Replacing or adding house numbers.

“If a homeowner plans to install a new mailbox or replace a worn one, he or she must use only Postal Service-approved traditional, contemporary, or locking full/limited service mailboxes,” said [last name]. “Customers should be careful when purchasing curbside mail receptacles because the use of unapproved boxes is prohibited. Customers may use a custom-built mailbox, but they must consult with my office to ensure it conforms to guidelines applying to flag, size, strength, and quality of construction.”

For more information on the use of names or numbers on mailboxes, or answers to any other questions, contact Postmaster [full name] at [phone number] or call your local postmaster at [phone number].

Online International Shipping Enhancements and Forms

Field Information Kit

This information kit is designed to inform Postal Service™ employees about the new international online shipping enhancements and their related forms. The new enhancements offer customers the ability to more easily transact online and streamline the acceptance of international online shipments that are tendered through Carrier Pickup service or retail locations. The following international enhancements will be available for use by customers who pay and print postage online with customs forms:

- **Electronic Mailing Date Stamp** — Click-N-Ship®, the eBay/PayPal Integrated Shipping Solution, and the PC Postage® vendors will now have the option to print a mailing date stamp on labels that are paid online. The mailing date stamp will appear in the mailing date stamp box allocated on the label and will include the origin ZIP Code™ and shipping date in the stamp. The mailing date stamp will be printed on all copies required for shipment and will replace the requirement to physically round date all forms when presented at a retail counter or through Carrier Pickup service.
- **Electronic Post Office Copy** — Customers who print online international shipping labels that include the customs forms will not have to submit a copy for retention at their local Post Office. Instead, the Post Office™ copy will be stored electronically for at least 1 year. Retail associates will no longer be required to pull and retain a Post Office copy when postage is paid online and deposited at a Post Office.
- **Online Insurance** — Click-N-Ship, the eBay/PayPal Integrated Shipping Solution, and PC Postage vendors will now have the option of offering insurance online for Express Mail International® and Priority Mail® International (not available for Priority Mail flat-rate envelope) services based on the availability in the country of destination. Customers may purchase up to \$500 of insurance online. Rates will be the same as domestic rates. Online insurance may not be combined with insurance purchased at retail locations.
- **Online Custom Form Barcodes** — Customers who print online labels combined with customs forms will now have customs forms with a **CJ**123456789US or **LJ**123456789US barcodes instead of the currently used **CP**123456789US or **LC**123456789US barcodes. This change will allow for fewer duplicate numbers and meet the growing demand of international online shipping.

- **Single Ply 4" x 6" Labels** — Customers who print online international shipping labels that use the PS Form 2976, *Customs Declaration CN 22*, will now be able to print this form as a single ply 4" x 6" label format (like domestic online shipping labels). This new online label will resemble PS Form 2976, *Customs Declaration CN 22* (green form), and can be used as a combination postage, address, and customs form label for Priority Mail International flat-rate envelope and First-Class Mail® International services.
- **Signature and Date Printing** — Click-N-Ship, the eBay/PayPal Integrated Shipping Solution, and PC Postage vendors will now have the option to print the customers name and date of mailing in the customs forms signature fields. Customers must agree to the terms and conditions of the signature field when they print a shipping label with customs forms online.
- **Online Discounts** — Customers who purchase postage at www.usps.com using Click-N-Ship or through authorized postage vendors will qualify for the following postage discounts:
 - 10 percent on Global Express Guaranteed shipments.
 - 8 percent on Express Mail International shipments.
 - 5 percent on Priority Mail International shipments.

Related to these enhancements are new international online shipping labels that combine mailing information with customs forms, thereby eliminating the need for a separate customs form (either PS Form 2976, *Customs Declaration CN 22 — Senders Declaration* (green label), or PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72*). The new forms are:

- PS Form 2976-A-EMI, *USPS Express Mail International* (see pages [34–36](#) of this *Postal Bulletin*).
- PS Form 2976-PMI, *USPS Priority Mail International Flat Rate Envelope* (see page [37](#) of this *Postal Bulletin*).
- PS Form 2976-A-PMI, *USPS Priority Mail International* (not pictured).

Frequently Asked Questions

Q. Will customers need to fill out and attach a customs form when they purchase international postage online?

A. No. Each international shipping label created through the Click-N-Ship, eBay/PayPal Integrated Shipping Solution, or a PC Postage vendor web site contains all necessary mailing labels and customs form information. A separate form is not required.

Q. How should customers attach international online shipping labels to package?

A. Do the following:

- Express Mail International and Priority Mail International shipments. The customer should place the first three copies of the online shipping label inside the customs envelope (PS Form 2976-E) and retain the sender's copy.
- Priority Mail International flat-rate envelope and First Class Mail International shipments. The customer should adhere their label to the package. A self-adhesive label is recommended. If tape or glue is used, they should not tape over the barcode. The edges should be secure.

Q. Can self-adhesive or thermal labels be used with international labels?

A. Yes. Customers who print international shipping labels for Priority Mail International flat-rate envelope and First-Class Mail International will have the option of printing the single ply label to adhesive or thermal labels. All other services printed online will require the customer to place the appropriate number of copies in a clear customs form pouch (PS Form 2976-E, *Customs Declaration and Dispatch Note Envelope*), which must be attached to the parcel.

Q. Where can customers get the customs form envelope that is required for use with international packages?

A. Customers can order PS Form 2976-E — at no additional cost — online at www.usps.com/internationalsupplies or pick them up at a local Post Office.

Q. Can customers use Carrier Pickup service when printing international shipping labels?

A. Yes. Carrier Pickup service can be scheduled with any of the international services available online at www.usps.com.

Q. Can customers drop their international mail item in a Postal Service collection box?

A. No. International shipments created online include customs forms and by rule may not be deposited in a collection box. Customers must hand the item to a Postal Service employee in a Post Office or to their carrier at the time of mail delivery, or schedule a Carrier Pickup online at www.usps.com/pickup.

Q. Can insurance be purchased online for the international postage?

A. Yes. Up to \$500 of insurance can be purchased online for Express Mail International and Priority Mail International based upon availability in the country of destination. Insurance is not available for the Priority Mail flat-rate envelope.

Q. Where can customers print and pay for First Class Mail International postage online?

A. First-Class Mail International labels can be purchased online through authorized PC Postage vendors.

Handbooks

Revision of Handbook AS-873, Telecommunications Services

Effective May 10, 2007, we are revising Handbook AS-873, *Telecommunications Services*, chapter 8 to update the instructions on reviewing bills submitted to the Postal Service™ by ProfitLine, a third party billing aggregator.

Handbook AS-873, Telecommunications Services

	*	*	*	*	*
8	Telephony				
	*	*	*	*	*
8-8	Other Telephony-Related Resources				
	*	*	*	*	*

[Revise heading and text of 8-8.3 as follows:]

8-8.3 Review of Telecommunication Bills

This section provides basic information and guidance to the appointed Postal Service representative concerning the process of reviewing and approving telecommunication bills for the Postal Service. This section describes responsibilities for facility managers and approvers, and provides guidelines and procedures for determining what is a reasonable charge.

8-8.3.1 Policy

The following policies apply to the processing and disposition of telecommunication bills:

- (1) The appointed representative listed in the MyTelcoManager “Client Batch Approval” (CBA)

module must review and approve telecommunication bills before payment.

- (2) Postal Service employees must reimburse the Postal Service for the cost of all personal toll calls in accordance with current policy.
- (3) In cases of suspected fraudulent use, the appointed representative must make an “Approve and Flag” notation in the MyTelcoManager CBA, notifying ProfitLine of the suspected fraudulent use, and whether a claim should be filed on behalf of the Postal Service. Report confirmed fraudulent use of telecommunication services to the Office of the Inspector General (888-877-7644).
- (4) Charges for collect calls are permitted only in the case of an emergency.

8-8.3.2 Postal Service Personnel Responsibility

All managers must ensure that the Postal Service does not incur unnecessary telecommunication expenses. While specific circumstances may require procedures different from those described in this handbook, adhering to the intent of these guidelines and procedures will help to eliminate unnecessary, wasteful, or fraudulent telecommunication charges and reduce costs to the Postal Service.

Facility Manager

Each facility manager is responsible for the daily operations of voice and data communications in the facility he or she oversees. ProfitLine is responsible for processing, auditing, and paying the telecom invoices associated with those

services. The facility manager's responsibility includes the following:

- (1) Ensuring that only official obligations are paid from Postal Service funds.
- (2) Contacting the designated approver to remove services that are known to no longer be required. Contact your local IT office for guidance regarding removal of services.
- (3) Reviewing and researching inquiries from the designated approver in cases where billing variances are flagged for further scrutiny.
- (4) Reviewing bills, as requested by management, for services or calls related to accredited organizations, such as credit unions and canteens.
- (5) Collecting the amounts, where appropriate, due from employees or organizations, and furnishing a receipt using PS Form 3544, *USPS Receipt for Money or Services*.

Designated Approver

The designated approver is responsible for the billing approval process. The designated approver's responsibilities include the following:

- (1) Reviewing telecommunication bills for any discrepancies that fall outside of accepted parameters prior to approving the bills. The selected representative must place appropriate approvals or flags in the MyTelcoManager "Client Batch Approval" module (<http://www3.mytelcomanager.com>). Pay attention to the following:
 - a. Bills received from locations where telecommunication services have been disconnected.
 - b. Bills received for areas where service is not provided.
 - c. Ongoing service issues which may affect payment to telephone companies.
- (2) Marking bills as "Approved," "Approved and Flagged," or "Denied" and submitting the bills through the MyTelcoManager CBA module. Provide a detailed explanation for bills marked "Approved and Flagged" or "Denied." A ProfitLine auditor will follow up on these bills.
- (3) Following through with ProfitLine to remove unneeded services and associated charges.
- (4) Noting all issues in CBA at the time of approval, or through the Customer Care Center (888-660-6647) at the time of occurrence.

8-8.3.3 Guidelines and Procedures

The following guidelines and procedures are provided to assist the designated approver in processing telecommunication bills for approval:

- (1) Typically, the designated approver reviews two types of telecommunication bills: Local Exchange Carrier (LEC) bills for local calls and Primary Inter-exchange Carrier (PIC) bills for long distance calls. The two types of bills may be combined and both must be approved.
- (2) Consult field IT to identify new or changed services that may cause fluctuations in monthly billing.
- (3) Permissible charges on telecommunication bills include the following:
 - Primary inter-exchange carrier charges for long distance toll calls.
 - Local service line or trunk charges. These charges include installation, lease of the line or trunk, use of the line or trunk (local calls), and long distance access.
 - Telephone equipment lease charges.
 - Telephone equipment maintenance charges (may be a monthly or one-time nonrecurring charge).

Note: Local IT offices must approve additional features.

- (4) Conduct periodic inventory reviews of all leased equipment and lines used in the facility. Have the lessor remove any unnecessary equipment from the lease. Ensure that the charges are appropriately adjusted or removed as a result of changes to the equipment lease and review of the line/equipment inventory.
- (5) If it is cost effective, purchase the leased equipment or replace it with Postal Service-owned equipment. For more information on telephone system procurement, contact local IT.
- (6) Calling cards may still be used in certain circumstances. Review the call details for unusual activity and obvious unauthorized charges. Report stolen cards to your local IT for disconnection.

8-8.3.4 ProfitLine Responsibilities

ProfitLine is responsible for:

- (1) Following up with telecommunication vendors to resolve any federal tax charges, and reviewing applicable state or local taxes. ProfitLine will file claims on behalf of the Postal Service and follow up directly with the vendor until the issues are resolved.

Note: Surcharges are not considered to be taxes.

- (2) Flagging calls to telephone numbers with a 900 area code; bill-to-caller charges from 800 and 976 area codes; third-party calls; and other bill-to-caller charges. ProfitLine will follow up directly with the telecommunications vendor, and place blocks where available and file claims where appropriate.
- (3) Requesting blocks on collect and third-party calls from local exchange carriers, per Postal Service policy. The Postal Service may incur a charge for these services.
- (4) Asking local exchange carriers to cancel wire maintenance plans and remove the charges from bills, per Postal Service policy. These charges generally cover the cost of servicing in-house telephone wire, a service that is rarely required, particularly in smaller facilities.
- (5) Itemizing telephone equipment maintenance charges, detailing hardware, labor, and other costs associated with the service. If a bill does not supply this level of detail, ProfitLine will request the information from the service provider to accurately verify the charges.
- (6) Auditing vendor contracts to confirm accuracy of billing, filing all appropriate claims on behalf of the Postal Service, and following through until the issues are resolved. Issues are considered resolved when a credit appears on an invoice or the Postal Service receives a refund check.
- (7) Following up on all "Approve," "Approve Flag," and "Deny" actions submitted by the Postal Service. These terms are defined as follows:
 - (1) Approve: The Postal Service selected representative confirms that this account belongs to a facility within the confines of a specific district. Further batch approval confirms that you understand that ProfitLine is responsible for reviewing and accounting for all related charges.
 - (2) Approve Flag: The Postal Service selected representative confirms that this account belongs to a facility within the confines of a specific District and requests that ProfitLine take specific action on a specific account. Further the Approve Flag action confirms that you understand that ProfitLine is responsible for reviewing and accounting for all related charges.
 - (3) Deny: The Postal Service selected representative identifies that an individual account does not belong to a Postal Service facility, that the Postal Service facility is not responsible for funding the identified services, or both.
- (8) ProfitLine is responsible for making sure that all Inter/Intra LATA (Local Access Transport Area) services are pre-subscribed (PIC) to the Postal Service national long-distance contract.
- (9) Paying telephone bills it receives before the due date. Profitline is responsible for the late charges if the bill is not processed for payment by the due date. However, if the telephone company sends the invoice to the Postal Service and the account holder or the Postal Service designated approver fails to forward the invoice to Profitline before the due date, the Postal Service will pay the late charges.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to deter-

mine which APO/FPO ZIP Codes are active and which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

How to Display

Displaying the U.S. flag at *half-staff* means lowering the flag to half the distance between the top and bottom of the staff.

- May 15: Peace Officers Memorial Day (see note 1 below).
- Last Monday in May: Memorial Day Observed (see note 2 below).

Note 2: On the last Monday in May, when Memorial Day is observed, display the flag at half-staff from sunrise, or the hour at which you raise it, until 12 noon, and then hoist it to the peak of the staff, until the time of closing or no later than sunset.

- If displayed on the same flagstaff, place it below the U.S. flag.
- If displayed on a separate flagstaff, place it at the same level or lower. If displayed at the same level, place it on the U.S. flag's left.

When flying the U.S. flag at half-staff, fly the POW-MIA flag (and any other flags) at half-staff also.

CHIEF TECHNOLOGY OFFICER

SUBJECT: Cellular Technology Registration

As I have mentioned in previous correspondence, Information Technology currently is involved with a servicewide initiative designed to reduce costs on postal cellular technologies. This effort includes postal-funded cellular phones, cellular broadband and Blackberry devices. As a result, the Postal Service will save a substantial amount of money as well as providing an increased level of service and productivity.

The next phase of this cellular optimization effort is aimed at creating a dynamic asset inventory which will offer the ability to identify and track all cellular services. It will associate the cellular services to the user or custodian, their finance number, and business and organizational unit within the Postal Service.

To accomplish this we have created a web portal for all cellular users and/or custodians to register their cellular devices that they use or have responsibility for. The address of the web portal is: <http://HQCELLREG.usps.gov> and is accessible from the Blue (<http://Blue.usps.gov>) and LiteBlue (<https://Liteblue.usps.gov>) web pages.

All cellular users regardless of device type, cellular phone, cellular broadband, or Blackberry, must register their USPS-funded cellular service by close of business May 18. Any cellular service not registered at that time will be suspended.

In order to have service re-instated, the user or custodian must register the cellular service using the web portal noted above. Any cellular service not registered by May 22 will be permanently eliminated from the postal cellular inventory.

This memorandum is to keep you informed of what we are doing and ask for your assistance. Please ensure that your organizations take action within the timeframe listed. With your support we can save a substantial amount of money and see an increase in service levels, functionality, and improved devices.

Please contact Warren Schwartz of my staff if you require further information on this effort. He can be reached via email or at 919-501-9049.

Missing Children Poster Display Instructions

Post Offices, classified stations, branches, and contract postal units may display this poster at their option. If the poster is displayed, it should be placed on the community bulletin board located in the Post Office™ box lobby and not in the main retail (full service) lobby. Alternatively, Missing Children posters can be maintained in a binder behind the counter to be used as a reference guide. The posters also may be posted in a prominent location where letter carriers will be able to see them before or after they go out of their routes. Making this information available to letter carriers is consistent with the NALC/USPS Child Alert Program to facilitate identification of missing children.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by the National Center for Missing and Exploited Children (NCMEC).

In addition to *Postal Bulletin* updates, NCMEC distributes information periodically. Notification of newly reported missing children is sent to designated district "Missing Children" coordinators via e-mail addresses provided by district managers. Within 24 hours of receipt of an e-mailed Missing Children poster, district coordinators should distribute copies to all Postal Service™ facilities in their districts. Missing Children posters are to be displayed as noted above for 30 days unless notification is received (from NCMEC) to remove a particular poster sooner. The e-mail network is used to distribute posters and information in only the most urgent cases of missing children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service® only as described above. If Postal Service employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local Post Offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 800-843-5678.

If you have any information, or for free prevention tips, please call 800-THE-LOST (800-843-5678).

Missing Children Poster Display Instructions

Post Offices, classified stations, branches, and contract postal units may display this poster at their option. If the poster is displayed, it should be placed on the community bulletin board located in the Post Office™ box lobby and not in the main retail (full service) lobby. Alternatively, Missing Children posters can be maintained in a binder behind the counter to be used as a reference guide. The posters also may be posted in a prominent location where letter carriers will be able to see them before or after they go out of their routes. Making this information available to letter carriers is consistent with the NALC/USPS Child Alert Program to facilitate identification of missing children.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by the National Center for Missing and Exploited Children (NCMEC).

In addition to *Postal Bulletin* updates, NCMEC distributes information periodically. Notification of newly reported missing children is sent to designated district "Missing Children" coordinators via e-mail addresses provided by district managers. Within 24 hours of receipt of an e-mailed Missing Children poster, district coordinators should distribute copies to all Postal Service™ facilities in their districts. Missing Children posters are to be displayed as noted above for 30 days unless notification is received (from NCMEC) to remove a particular poster sooner. The e-mail network is used to distribute posters and information in only the most urgent cases of missing children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service® only as described above. If Postal Service employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local Post Offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 800-843-5678.

If you have any information, or for free prevention tips, please call 800-THE-LOST (800-843-5678).

Pricing Change Implementation Update

On May 2, the Board of Governors of the Postal Service™ announced it accepted the decision of the Postal Regulatory Commission (PRC) to modify two of its earlier rate case recommendations: lowering the price of the Priority Mail® Flat-Rate Box to \$8.95 and extending the nonmachinable surcharge to all single-piece and presorted First-Class Mail® letters, regardless of weight. The Board set May 14 as the implementation date for the two items.

What changed as a result of the reconsideration?

The Priority Mail Flat-Rate Box price will be \$8.95 instead of the price originally recommended by the Commission—\$9.15.

The 17-cent First-Class Mail nonmachinable surcharge now applies to all First-Class Mail nonmachinable letters—not just to those that weigh 1 ounce or less.

All previously published hard-copy materials containing references to the Priority Mail Flat-Rate Box price and the First-Class Mail letter nonmachinable surcharge will not be reprinted. However, we have updated online references as appropriate. The list below provides some of these important items and their status.

In-store Retail Rate Change Brochure

Please be aware that the Rate Change Brochure designed to be placed in the lobby for customers features a price of \$9.15 for the Priority Mail Flat-Rate Box. On May 2, the Board of Governors accepted the decision of the Postal Regulatory Commission (PRC) to modify its earlier rate case recommendations—lowering the price of the Priority Mail Flat-Rate Box to **\$8.95**.

Due to the large number of brochures printed, we will not destroy and re-print the brochures. Offices are asked to make customers aware of the correct \$8.95 price.

Employee Cash Credit Count Changes to Once a Month

Effective May 10, 2007, postmasters, managers, and supervisors at Post Offices™ and postal retail units under Segmented Inventory Accountability (SIA) must perform employee's cash credit counts randomly at least once a month. The frequency of employee cash credit counts in SIA offices changed from at least once every two weeks to no less frequently than once a month. In conjunction with the cash credit count, SIA offices must verify domestic, international, and bait money orders assigned to the employees. The procedure is as follows:

1. The postmaster, manager, supervisor or designated person will perform the physical employee cash credit count using PS Form 3294-C, *Cash Credit Count and Summary*.
2. The employee or designated employee will also document the count into their PS Form 3294-C.
3. Upon agreement to the count, both the supervisor and employee will sign both PS Form 3294-C.
4. The supervisor must enter this count into the POS ONE system under the Count Inventory and Cash workflow.
5. The employee (owner of the credit being counted) or designated employee will logon into the POS One system and review the count.

6. The employee will have the option to either acknowledge or reject the count. If the employee or designated employee is in agreement with the count, he/she will acknowledge the count and follow the system prompts. (If employee does not agree with the count and rejects it, this will prompt for the supervisor to fix the count entered and resubmit or the count will be purged from the system.)

7. POS ONE will automatically print the following:

- A Counts Result Receipt for the employee.
- A preliminary PS Form 1412, *Daily Financial Report*.
- In the back office will print a Cash Credit Count report, supervisor will file this together with PS Form 3294-C in record of employee credit.

Note: All counts performed must be entered into the POS ONE system regardless of the count results.

Safety Awareness Reminder: Close Calls Are Wake-up Calls!

Close calls or near misses are very common in the workplace. They are incidents that don't cause an injury or property damage only because there was nothing in the way to be damaged, or no one close enough to be injured.

Why talk about accidents that didn't happen? The sequence of events that leads to an accident is like a series of errors that fall onto one another like dominoes. The close-call incident is simply a sequence of events with one of the dominoes missing. Close-call incidents alert us to the fact that something is seriously wrong. They allow us the opportunity to investigate and correct a situation before the same thing happens again and causes an injury or death. Experience has proven that if the causes of accidents are not removed, the potential for an accident will occur again and again. Unfortunately, a typical story told after many accidents is, "Yeah, that happened to Jim as well — just last week!"

Why are close-call incidents not reported? Typical reasons include fear of reprimand or repercussions, red tape, not being aware of the importance of reporting for controlling future accidents, embarrassment, fear of spoiling of a safety or production record, and lack of feedback when similar incidents were reported. Controlling close-call incidents is the secret to reducing the frequency of accidents. One survey of 300 companies discovered that for every 600 close-call incidents, the companies experienced 30 cases of property damage, 10 minor accidents, and 1 very serious accident.

Reporting close-call incidents is a very valuable tool that helps us all to manage an effective safety program. But, the vital part is to apply corrective action immediately. The only way this can be done is if a close call is reported immediately after it happens. Then, we can learn as much as possible—as soon as possible.

A wise man once said: "A fool is not a man who makes no mistakes — we all do that. The fool is the man who refuses to learn from them."

(The purpose of this article is to promote personal safety — on and off the job. It is not to be construed as Postal Service policy.)

Goodbye to PS Form 1510...It's History Postal Inspection Service Replaces 1510 With Online and Phone Reporting

June 1, 2007, will mark a historic milestone for the U.S. Postal Inspection Service — make that the entire U.S. Postal Service! Used for nearly 114 years, PS Form 1510, *Mail Loss and Rifling Report*, becomes obsolete.

The earliest known reference to PS Form 1510 was found in an 1893 edition of *Postal Laws and Regulations*, a precursor to the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®). The “Chief Post Office Inspector” (as the position was known then) was the originator of the form.

Post Offices™ should destroy all forms currently in stock and recycle as appropriate. Customers who wish to report suspected mail theft or rifling must now call 800-ASK-USPS or go to the Postal Inspection Service’s Web site and input the information online at www.usps.com/postalinspectors.

(No. 1510.)

POSTMASTERS SHOULD FORWARD THIS FORM CAREFULLY FILLED OUT TO "CHIEF POST OFFICE INSPECTOR, WASHINGTON, D. C."

REPORT ON REGISTERED OR ORDINARY MAIL MATTER, DOMESTIC OR FOREIGN.

What is the nature of the complaint—loss, damage, delay, rifling, wrong delivery, non-delivery, or other irregularity?

LETTER or PACKAGE

REGISTERED or ORDINARY (or PAID) Post

Date of mailing (AND HOUR, if known)

By whom was the letter or packet sent? Give exact local or street address.

Post office, County, and State where it was posted. (If in a foreign country, give, Post Office, Province, and State.)

To whom and to what office was it directed? Give address in full, including street and number, if in a large town, and in other cases give Post Office, County (or Province), and State.

If a Packet, describe CONTENTS minutely, and state true value.

If a letter, describe CONTENTS with precision. Give number and particulars of issue of draft or money order. If money, state amount currency, and the denomination of bills. (The sender should be prepared to make oath on this point, if necessary.)

Was it deposited in the post office or in a STREET LETTERBOX?

Are you sure that the letter or packet was properly post paid?

At what hour, over what route, and in what manner by due course of mail would the letter or packet have been forwarded?

If Registered, give number of letter, and number of Registered Package Envelope in which it was enclosed, and state how mailed, whether "direct," or to a distributing post office. If the letter, to what office?

NOW YOU SEE THEM. NOW YOU DON'T.

Children are like that. One minute they're playing in the yard.
The next minute they're chasing a ball into the street.
Or playing hide-and-seek around your vehicle.
Or trying to hitch a ride on your bumper.
Don't count on children or pedestrians to be
watching for you.
Be on the lookout for them.

LOOK. LISTEN. LOOK AGAIN. DRIVE DEFENSIVELY.

Stamp Announcement 07-19: Harriet Beecher Stowe

Copyright 2006 USPS

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of those postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmark by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, and at The Postal Store® Web site at www.usps.com/shop.

Customers may submit #6 or #10 covers constructed of paper rated as "laser safe." The Postal Service™ recommends 80-pound Accent Opaque, acid-free envelopes, 9/16" side seams with no glue on the flap. There is a minimum of 10 covers at 50 cents per postmark required at the time of servicing. You may submit a check, money order, or credit card for payment. Two test envelopes must be included. For covers with graphics or lettering, please note the maximum size of all digital color postmarks is 2" high x 4" long. The Postal Service reserves the

right not to accept hand painted and other cachets that are not compatible with our digital color postmark. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of non-specified envelopes results in poor image quality or damage to equipment.

After applying the first day of issue postmark, the Postal Service will return the envelopes through the mail. There is no charge for the postmark. All orders must be postmarked within 60 days of the first day of issue date.

They should affix the stamps to envelopes of their choice, address the envelopes (to themselves or others), and place them in a larger envelope addressed to the following address:

Understanding Certificate of Mailing Options

A certificate of mailing provides evidence that a mailer presented a specific mailpiece or group of mailpieces to the Postal Service™ for mailing. This service does not provide a record of delivery. Certificate of mailing service can be combined with special handling service (providing preferential handling for fragile or perishable items), Parcel Return Service (PRS), and parcel airlift service (PAL) (air service for Parcel Post® packages sent to or from a military base outside the 48 contiguous states).

The Postal Service offers three certificate of mailing options, each requiring its own Postal Service form, its own acceptance process, and its own fees. One option provides “evidence of the *total quantity* of pieces presented” in an identical-weight piece mailing with postage affixed, and the other two options provide “evidence of *individual pieces* presented.”

PS Form 3606, *Certificate of Bulk Mailing*, is used for bulk quantities of *identical weight* First-Class Mail® (including Priority Mail®), Standard Mail®, and Package Services pieces *with postage affixed*. This option requires the mailer to present the mail and PS Form 3606 showing the total number of pieces mailed. The Postal Service employee who accepts the mail must weigh the mailing and divide by the weight per piece to verify the number of pieces claimed. Certificate of bulk mailing service cannot be used for a bulk mailing paid by permit imprint or for nonidentical-weight pieces. This option records *only* the number of pieces presented. It does not provide evidence that a particular piece was mailed to a particular address. Fees are paid by affixing stamps or metered postage to PS Form 3606. Ensure the following:

- The mailer completes the top portion of PS Form 3606 and affixes meter postage or uncanceled postage stamps in the space provided to pay the fee.
- The employee accepting the mail and verifying the piece count date stamps/cancels the postage

stamps or date stamps in the area of the meter postage, and then signs on the line above “Postmaster or Designee.”

- The employee returns the form to the mailer as a receipt for evidence of mailing.

PS Form 3817, *Certificate of Mailing*, provides evidence of mailing for individual single-piece First-Class Mail (including Priority Mail) and Package Services mail. The fee is paid by affixing uncanceled or precanceled stamps or meter postage on PS Form 3817 under “To pay fee, affix stamps or meter postage here.” Ensure the following:

- The mailer enters the return address in the “From” section and the addressee information in the “To” section using a typewriter or pen.
- The employee date stamps PS Form 3817 under “Postmark Here” and returns the form to the mailer as a receipt for evidence of mailing.

PS Form 3877, *Firm Mailing Book for Accountable Mail*, is presented when requesting evidence of mailing if three or more mailpieces are presented at one time. It lists the name and address on each mailpiece presented. Mailers using PS Form 3877 with a permit imprint mailing have the option to pay certificate of mailing fees with permit imprint. If a permit imprint postage method is not used, the fee is paid by affixing ordinary stamps, precanceled stamps, or metered stamps to the PS Form 3877. Ensure the following:

- The mailer either (a) presents the pieces in the same order as shown on the list or (b) consecutively numbers each entry and lightly numbers each piece to show the corresponding sheet and line number.
- The employee who accepts the mail conducts a sampling to verify the listing's accuracy.
- The mailer and employee initial any alterations made to PS Form 3877.

- The employee date stamps each sheet of PS Form 3877 or approved facsimile PS Form 3877.
- The employee returns the form to the mailer as a receipt for evidence of mailing.

Information on certificate of mailing service can be found in *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 503.5, in *Postal Operations Manual* (POM) 82, and at usps.com by searching for “certificate of mailing.”
