DMM Revision: Automated Clearing House Debit Added as New Method of Payment for Express Mail Corporate Account Customers

Beginning October 1, 2008, the Postal Service™ began permitting an Automated Clearing House (ACH) debit as a new method of payment for Express Mail® Corporate Account (EMCA) customers and eliminate the option to open new local trust accounts. The ACH system is a secure, private network that connects banks to one another by way of the Federal Reserve Board. This network enables electronic payments, such as ACH debits, to be handled and processed. EMCA customers will continue to have a total of three options to fund their accounts: participate in the Centralized Account Processing System (CAPS), use a personal or business credit card, or authorize the USPS® to originate an ACH debit from a specified bank account. Existing EMCA customers who deposit cash and checks in local trust accounts will be transitioned to electronic payment methods. Details of this process will be directly communicated to current EMCA customers.

We are also revising *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* by adding provisions to close an EMCA funded by ACH debit payments.

[Revise the heading and text in 2.4 as follows:]

2.4 Payment Method

For opening and maintaining an account, the mailer may do any of the following:

- a. Use a personal or business credit card.

- b. Authorize the USPS to originate an Automated Clearing House (ACH) debit from a specified bank account.
- c. Participate in the Centralized Account Processing System (CAPS) debit only if combined with other *PostalOne!* accounts such as permit imprint, Periodicals, and Business Reply Mail.
- d. Maintain a minimum balance in the account equal to an average week's postage and fees, or \$100, whichever is higher (existing EMCA customers who deposit cash and checks in local trust accounts).

* * * * *

2.6 Closing Account

[Revise the text in 2.6 as follows:]

The USPS may close an account with 10 days' written advance notice to the account holder (and reserves the right to refer closed corporate accounts with negative balances or unpaid mailings to a collection agency) for any of the following reasons:

- a. The ending balance on the mailing activity statement is below the minimum balance required for two consecutive months.
- b. The account remains inactive for three consecutive months, unless circumstances warrant otherwise (e.g., a seasonal mailer, positive balance, etc.).
- c. There are unpaid mailings. The closing of an account due to repetitive unpaid mailings caused by the rejection of the payment by an account holders' credit card company or ACH institution is subject to review by the manager, Business Mail Entry.

We will include these revisions in the next update of the online DMM on Postal Explorer® at <http://pe.usps.com> and in the next printed edition on the DMM.

2.2 Parcel Select, Bound Printed Matter, Media Mail, and Library Mail Markings

2.2.1 Basic Markings

[Revise the text of 2.2.1 as follows:]

The basic required marking (e.g., “Parcel Select,” “Bound Printed Matter,” “Media Mail,” “Library Mail”) must be printed on each piece claimed at the respective price. The basic required marking must be placed in the postage area (printed or produced as part of, or directly below or to the left of, the permit imprint indicia or meter stamp or impression). Optionally, the basic required marking may be printed on the shipping address label as service indicators composed of a service icon and service banner (see Exhibit 2.2.1):

- a. The service icon that identifies the marking will be a 1-inch solid black square. If the service icon is used, it must appear in the upper left corner of the shipping label.

- b. The service banner must appear directly below the postage payment area and the service icon, and it must extend across the shipping label. If the service banner is used, the appropriate marking (e.g., “PARCEL SELECT,” “MEDIA MAIL”) must be preceded by the text “USPS” and must be printed in minimum 20-point bold sans serif typeface, uppercase letters, centered within the banner, and bordered above and below by minimum 1-point separator lines. There must be a 1/16-inch clearance above and below the text.

DMM Revision: New Intelligent Mail Barcoded Tray Label and Container Placard Standards

Effective October 9, 2008, the Postal Service™ is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 235.4, 245.4, 335.4, 345.4, 365.4, 705.8, and 708.6 to provide optional standards for the use of Intelligent Mail® tray labels and Intelligent Mail container placards. These new standards are available to mailers who wish to transition, in advance of the May 2009 effective date, towards the full-service option of the Postal Service’s Intelligent Mail technology. This technology allows unique identification of letters and flats at their acceptance point and within USPS® processing.

Initially, the Intelligent Mail tray label will be available for use in the form of the 10/24 transitional Intelligent Mail tray label, which contains a traditional 10-digit barcode in addition to a 24-digit Intelligent Mail tray barcode. The Intelligent Mail tray label individually identifies mail owners or mailing agents through an assigned Mailer ID, uniquely identifies each tray or sack, and provides routing and content information. Intelligent Mail tray labels are designed to be read by automated mail processing equipment and will provide visibility within our processing environment. We will replace the 10/24 transitional format with the 24-digit Intelligent Mail tray label as systems and other conditions allow. The 24-digit Intelligent Mail tray label is scheduled to be available for mailer use in April of 2009.

Mailers may also begin using pallet and other container placards (formally known as pallet labels) that include Intelligent Mail container barcodes. These placards utilize a Mailer ID and a unique container identifier to provide visibility within our processing and transportation systems. Placards bearing Intelligent Mail container barcodes may be placed on each pallet, container, or rolling stock item, which enable USPS employees to scan the barcodes at the point of induction.

Mailers using Intelligent Mail container barcodes on pallet placards must place two placards on each pallet, on adjacent sides. Mailers must affix the placards on the outside of the plastic wrap by a self-adhesive or other adhesive means that will not obscure any required element of the placard and will assure they remain secure throughout USPS processing. Mailers using other USPS-approved containers must place one placard in the designated area.

Design requirements for the standard 8-inch by 11-inch Intelligent Mail container placard include designating the top half of the label for exclusive USPS-defined information, a specified location for placement of the Intelligent Mail container barcode, and the placement of a “USPS SCAN REQUIRED” endorsement to further enhance scanning visibility.

Alternatively, mailers may apply pallet placards prepared in an optional smaller format, measuring no less than 4 inches high by 7 inches long, and including a restricted mailer/acceptance unit area. The mailer/acceptance unit area can accommodate no more than one line of text, must contain print no larger than 12 points, must be restricted to the bottom line of the placard, and must be approved by the business mail entry unit (BMEU) servicing the mailer for acceptance and verification.

Standards for Intelligent Mail barcodes were published in the *Federal Register* final rule dated August 21, 2008 (Volume 73, Number 163, pages 49333–49348) and may be viewed on the Postal Explorer® website at <http://pe.usps.com>. This revision will introduce some of DMM changes described in the August 21, 2008, *Federal Register*, as optional standards, in advance of the May 2009 effective date.

We encourage mailers to use these new Intelligent Mail options as appropriate.

[Add new 6.1 as follows:]

6.1 General

6.1.1 Tray and Sack Labels

Intelligent Mail tray labels (see 6.5), barcoded 2-inch tray and sack labels, and barcoded 1-inch sack labels are the USPS-approved methods to encode routing, content, origin, and mailer information on trays and sacks. Intelligent Mail tray labels are designed for use with Intelligent Mail barcoded mail and have the capacity to provide unique identification throughout postal processing.

6.1.2 Container Placards

Mailer-generated container placards bearing Intelligent Mail container barcodes identify the mail owner or agent and uniquely identify the unit (pallet, container, or rolling stock). Intelligent Mail container placards are designed for use with Intelligent Mail barcoded mail and Intelligent Mail tray labels.

[Revise title of renumbered Exhibit 6.2.1 as follows:]

Exhibit 6.2.1 Required Barcoded Tray and Sack Labels

* * * * *

[Add new 6.5 as follows:]

6.5 Intelligent Mail Tray Labels

6.5.1 Definition

Intelligent Mail tray labels are 2-inch labels used on trays and sacks to provide unique identification within postal processing. To facilitate the transition from 10-digit tray and sack labels to 24-digit barcoded Intelligent Mail tray labels, a transitional label has been developed that includes a 10-digit barcode using the AIM/USS-I 2/5 symbology, in addition to a 24-digit barcode using International Symbology Specification Code 128 subset C symbology (see Exhibit 6.5.1). Intelligent Mail tray labels feature a human-readable field designed to indicate the carrier route for carrier route mailings, display an "AUTO" indicator text for automation mailings, or remain blank for nonautomation mailings. Mail-

ers using Intelligent Mail tray labels must print labels in the transitional format. Detailed specifications for the tray label and barcode formats are at <http://ribbs.usps.gov>.

Exhibit 6.5.1 10/24 Transitional Intelligent Mail Tray Label

6.5.2 Transitional Intelligent Mail Tray Label Format

The general format for Intelligent Mail tray labels are as follows:

- a. Printer line.
- b. Tray or sack presort destination (postal destination name).
- c. Content description, as listed in Exhibit 6.2.4.
- d. Office of mailing or mailer information.
- e. Destination ZIP Code.
- f. Carrier route or “AUTO” designation field.
- g. Mailer ID.
- h. 24-digit ISS code 128 subset C barcode numeric line.
- i. 10-digit AIM/USS-I 2/5 barcode numeric line.
- j. Mailer’s area (for mailer-generated information).

6.5.3 Barcode Format

The barcode format is dependent on the Mailer ID assigned by the USPS. Upon request by the mailer, the USPS assigns a 6-digit or 9-digit Mailer ID based on the demonstrated mail volume of the mailer. Intelligent Mail tray barcodes contain the following elements:

- a. Destination ZIP Code.
- b. Content identifier number (CIN), as listed in Exhibit 6.2.4.
- c. Processing code, identifying the system or facility generating the label.
- d. Mailer ID.
- e. Serial number, a unique number assigned to each tray or sack.
- f. Label type, a default digit.

6.5.4 Unique Serial Number

The Intelligent Mail tray barcode can encode a unique identifier for each tray and sack.

6.5.5 Quality Assurance Provisions

Mailers printing Intelligent Mail tray labels are responsible for the inspection and testing of the labels prior to submission to USPS and for maintaining the overall quality of the labels produced. Inspection and testing of Intelligent Mail tray labels should be performed periodically. Mailers and label vendors are encouraged to submit samples to the National Customer Service Center (NCSC) in Memphis for certification (see 608.8.0 for address).

[Add new 6.6 as follows:]

6.6 Intelligent Mail Container Placards (Labels)

6.6.1 Definition

Mailer-generated container placards bearing Intelligent Mail container barcodes identify pallets and other rolling stock, such as all-purpose containers. Intelligent Mail container barcodes uniquely identify each container and may be scanned at induction points. Detailed specifications for Intelligent Mail container barcodes and placards are available at <http://ribbs.usps.gov>.

6.6.2 Intelligent Mail Container Placard Configurations

Intelligent Mail container placards may be produced in two configurations:

- a. *Affixed placard measuring at least 8 inches by 11 inches.* Placards must be affixed to the outside of any shrinkwrap or plastic by a self-adhesive or other adhesive means that will not obscure any required element of the placard, and remain secure throughout USPS processing. See 6.6.3 for specifications.
- b. *Optional affixed placard measuring at least 4 inches by 7 inches.* Placards may be prepared in the alternate format (see 6.6.6) affixed to the outside of any shrinkwrap or plastic by a self-adhesive or other adhesive means that will not obscure any required element of the placard and remain secure throughout USPS processing. This optional configuration permits a restricted mailer/acceptance unit area that cannot exceed one line of text. Mailers wishing to include additional information other than that approved for use in the defined “mailer/acceptance unit area” of the placard must use a placard with a minimum size of 8 inches by 11 inches under 6.6.3.

6.6.3 Intelligent Mail Container Placard Format

In addition to the general requirements for pallet placards in 705.8.6, Intelligent Mail container placards (see Exhibit 6.6.3) must retain the top one-half of the placard for USPS-

required elements. The USPS banner, identification bars, and human-readable text are required elements related to the Intelligent Mail container barcode and will serve as a guide to distinguish the barcode from the other information on the container placard. Required elements include:

- a. USPS Banner. "USPS SCAN REQUIRED" must be printed in all uppercase letters centered above the barcode and embedded within the upper identification bar. Clear zone and font size are as follows:
 1. A clear zone of at least 0.125 inch, but no more than 0.5 inch, must be maintained between the bottom edge of the text and the top of the barcode.
 2. The banner must be printed in a boldface sans-serif font of at least 14-point type.
- b. Identification Bars. Horizontal black bars of at least 0.10 inch thick must be printed above and below the barcode. At a minimum, the bars must extend the length of the barcode. Clear zone and other requirements are as follows:
 1. The upper bar must be printed at least 0.125 inch above the top edge of the barcode.
 2. The upper bar must have a void in the middle sufficient to insert the USPS banner without any element being obscured.
 3. The lower bar must be printed at least 0.125 inch below the human-readable representation of the barcode string.
- c. Human-Readable Representation of Barcode Data. The human-readable representation of barcode data (text) must be printed in a boldface sans-serif font of at least 12-point type. The text must not exceed the length of the barcode and must be separated by a data field. Two blank character spaces must be left between each field. The text must be centered at least 0.125 inch, but no more than 0.25 inch, below the barcode.
- d. Barcode Location. The barcode, along with the corresponding USPS banner and identification bars, must be printed on the front side of the pallet placard. When the identification bars extend beyond the length of the barcode, the barcode must be horizontally centered.
- e. Minimum size. The minimum size of this placard is 8 inches high by 11 inches long. See additional specifications at <http://ribbs.usps.gov>. Mailers using larger placards must ensure the barcode conforms to the published specification and the human-readable content is provided as illustrated in Exhibit 6.6.3 and as published on the RIBBS website.

Exhibit 6.6.3 Intelligent Mail Container Placard

6.6.4 Barcode Format

Intelligent Mail container barcodes are 21 characters in length and contain a USPS-assigned Mailer ID. The format depends on the Mailer ID assigned. Intelligent Mail container barcodes contain the following elements:

- a. Application identifier, identifying the source of the barcode.
- b. Type indicator, identifying internal or external label generation.
- c. Mailer ID.
- d. Serial number, a unique number assigned to each container.

6.6.5 Placard Requirements

Mailers using placards bearing Intelligent Mail container barcodes must:

- a. Place two placards on pallets, one on each adjacent side, on the outside of shrinkwrap or plastic. Placards must be affixed by self-adhesive or other adhesive means that will not obscure any required element of the placard and remain secure throughout USPS processing.
- b. Place one placard in the designated area on other USPS containers.

6.6.6 Optional Smaller Placard Format

Mailers may prepare placards bearing Intelligent Mail container barcodes (see Exhibit 6.6.6) in a smaller alternate format and must affix the placards to the outside of any shrinkwrap or plastic as follows:

- a. Placards must include the required elements described in 705.8.6.
- b. Placards include a restricted mailer/acceptance unit area that cannot exceed one line of text, must

contain print no larger than 12 points, and must be restricted to the bottom line of the placard (below the lower barcode identification bar).

- c. All text placed in the mailer/acceptance unit area must be approved by the business mail entry unit (BMEU) servicing the mailer for acceptance and verification.
- d. Mailers wishing to include additional information other than that approved for use in the defined "mailer/acceptance unit area" must use the larger size placard specified in 6.6.3.
- e. Placards must be securely affixed on two adjacent sides on the outside of the shrinkwrap or plastic of pallets.
- f. Placards must measure no less than 4 inches high by 7 inches long.
- g. Placards containing Intelligent Mail container barcodes must meet the specifications for placards posted at <http://ribbs.usps.gov>.

6.6.7 Unique Serial Number

The Intelligent Mail container barcode can encode a unique identifier for each container.

6.6.8 Quality Assurance Provisions

Mailers printing Intelligent Mail container placards are responsible for the inspection and testing of the placards prior to submission to the USPS and for maintaining the overall quality of the placards they produce. Inspection and testing of Intelligent Mail container placards should be performed periodically. Mailers are encouraged to work with their local mailpiece design analyst to validate the accuracy and quality of their placards.

IMM Revision: U.S. Census Bureau Electronic Export Information

The U.S. Postal Service® is revising *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) 520 to reflect new requirements for all international shipments for which a Shipper's Export Declaration (SED) was previously required.

Beginning September 30, 2008, the U.S. Census Bureau required mandatory filing of export information through the Automated Export System (AES) or through *AESDirect* for all international shipments for which an SED was previously required. This regulation mandates that Electronic Export Information (EEI) be filed when any type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) is valued at more than \$2,500 or requires an export license under U.S. law.

Mailing Standards of the United States Postal Service, International Mail Manual (IMM)

5 Nonpostal Export Regulations

* * * * *

[Revise subchapter 520 in its entirety to read as follows:]

520 Foreign Trade Regulations — U.S. Department of Commerce, U.S. Bureau of the Census

521 Description

As of September 30, 2008, Shipper's Export Declarations are no longer accepted. Electronic filing of export information is required through the Automated Export System (AES) or through *AESDirect*.

522 Mandatory Filing

Electronic filing of export information is required when either of the following applies:

- a. A type of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) is valued at more than \$2,500.
- b. An item requires an export license under U.S. law.

523 How to File Electronically

To file through *AESDirect*, go to www.aesdirect.gov. For additional information on electronic filing, refer to the Census Bureau's website at www.census.gov/foreign-trade/aes or call the toll-free information hotline at 800-549-0595.

524 How to Present to U.S. Postal Service

When the mailer or authorized agent has filed the Electronic Export Information (EEI), AES will provide an alphanumeric Internal Transaction Number (ITN), which confirms that EEI was successfully filed. Mailpieces presented to the Postal Service must bear the Proof of Filing Citation (PFC), which consists of the letters "AES" followed by the ITN. If the AES is unavailable at the time of filing, the mailer or authorized agent must provide an AES Downtime Citation instead of the PFC. An AES Downtime Citation consists of the letters "AESDOWN," the user's identification number, and the date. Customers must legibly write the PFC on the applicable customs form without obstructing the barcode on the label. On PS Form 2976, customers may write the number anywhere on the "green" portion of the form; on PS Form 2976-A, customers may write the number at the top of the form or in any clear space.

IMM Revision: New Mailing Standards for Cuba

Effective October 9, 2008, we are revising *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) Exhibit 532.2, note 4 in the Country Price Groups and Weight Limits, and the Individual Country Listing for Cuba to implement new standards for mailing to Cuba. These revisions are consistent with the exception in the Department of Commerce Export Administration Regulations regarding mail to Cuba published as a *Federal Register* final rule (June 13, 2008, Volume 73, Number 115, pages 33671–33673).

Prior to mailing to Cuba, customers must abide by the gift parcel rules published in 15 CFR § 740.12 for general provisions governing sanctions and for comprehensive information about goods and services that may not be imported to or exported from Cuba. Gift parcels may weigh up to 4 pounds. Potentially dutiable items may be confiscated upon entering Cuba or returned to sender.

Handbook F-15 Revision: Excess Baggage Rules

Effective October 9, 2008, Handbook F-15, *Travel and Relocation*, is revised with the following updates concerning the fees and charges permitted for excess baggage.

Handbook F-15, *Travel and Relocation*

* * * * *

8 While You're Traveling

8-1 Allowable Expenses

* * * * *

8-1.5 Excess Baggage

[Revise the text in 8-1.5 to read as follows:]

Any baggage — either your personal baggage or Postal Service™ property necessary for your trip — that exceeds the weight or size carried free by transportation companies is classified as “excess.” Before you travel, be sure to weigh your personal baggage and check the airline’s website for its latest policies.

The Postal Service will pay for one (1) personal checked bag. If your manager approves taking a second personal bag or packing your one bag overweight as necessary, the Postal Service will reimburse you for the second checked bag fee or for the single overweight bag fee. Choose the less-expensive option when planning your travel. For some airlines, checking two non-excess bags will be cheaper than checking a single overweight bag. For other airlines, the reverse will apply. Fees for more than two checked personal bags are discouraged and will only be reimbursed with pre-approval from your manager for the expense.

The Postal Service will pay baggage fees for Postal Service property you carry for business.

* * * * *

8-2 Documenting Your Expenses

* * * * *

8-2.2 When Claiming Per Diem

* * * * *

8-2.2.5 Documenting Excess Baggage

[Revise the text in 8-2.2.5 to read as follows:]

Baggage fees are charged when you check in for your flight — either online, at a kiosk, or at the ticket counter. If you have an individually billed travel credit card, you may use it for your baggage fee.

If you do not have an individually billed travel credit card, pay the baggage fee with your personal credit card or cash, and claim reimbursement in eTravel. Bargaining employees who plan to check a bag may include baggage fees as part of their total travel advance requisition using PS Form 1011, *Travel Advance Request and Itinerary Schedule*. Only in emergency circumstances will a bargaining employee be allowed a cash advance for baggage fees at their local retail unit. For example, travel for a last-minute opening in training would qualify as an emergency.

You must have a receipt showing the baggage weight and the points between which the baggage was moved if the excess baggage cost exceeds \$50, unless you paid with your individually billed travel credit card, and you added the expense into your expense report from the Company Card page of the eTravel system.

Handbook F-101 Revision: New Stamp Stock Limits for Postal Retail Units and Automated Postal Centers

The temporarily modified stamp stock limits due to the May 12, 2008, price increase as outlined in “Stamp Stock Limits Revised Temporarily Due to New Prices” in *Postal Bulletin 22230* (4-10-08, page 54) expire on October 31, 2008.

Effective November 1, 2008, Handbook F-101, *Field Accounting Procedures*, is revised with new stamp stock limits for postal retail units (PRUs) and Automated Postal Centers® (APCs®). This policy will also apply to contract postal units (CPUs) as long as the stamp accountability and unused balance on a remote-set postage meter (if applicable) do not exceed the CPU’s bond authorization limit.

The formula for calculating stamp stock limits at PRUs and APCs has been revised to manage stamp stock inventory levels by two periods, or time frames, for each fiscal year (FY).

- **Postal FY Quarter 1:** The total stamp stock limit for PRUs and APCs during Postal FY Quarter 1 is the total amount of postage sales (AIC 852) from Postal Quarter 1 for the same period last year (SPLY). (This period reflects increased holiday sales).
- **Postal FY Quarters 2, 3, and 4:** The total stamp stock limit for PRUs and APCs during Postal FY Quarters 2, 3, and 4 is the total amount of postage sales (AIC 852) from Postal Quarters 2, 3, and 4 from SPLY divided by three. (This will allow the PRU to maintain stamp stock of approximately 3 months of the average sales during these quarters.)

Exempt from this rule are PRUs and APCs at which the daily stamp stock total is less than or equal to \$5,000. This exception will allow PRUs and APCs to maintain up to \$5,000 in total stamp stock before the calculation for excess stamp stock applies.

With the implementation of this new policy, postmasters, managers, or supervisors will only have to calculate the maximum stamp stock limit twice a year; Quarter 1 and Quarters 2–4. Do not, at any time, exceed the maximum limit of your unit inventory (AIC 853) based on the calculations as stated herein.

Note: Newly established PRUs, APCs, and CPUs can request that the district finance manager (DFM) establish the stamp stock limit when there are no SPLY sales to use for calculating the stamp stock limit as described earlier. The DFM will provide the unit with a written authorization with the amount established, effective date, and expiration date.

11-3.4 Stamp Stock Limits

[Revise 11-3.4 to read as follows:]

The total stamp stock limit (AIC 853, Stamp Accountability Closing Balance) for postal retail units (PRUs) and Automated Postal Centers (APCs) is based on the following two periods:

- For Postal FY Quarter 1 (October 1 – December 31), the stamp stock limit is the total sales reported in AIC 852 from same period last year (SPLY), same quarter. **For example**, if your stamp sales revenue (AIC 852) from Quarter 1 of the previous year was \$10,000, your stamp stock limit (AIC 853) for each day in Quarter 1 of the current year must not exceed \$10,000.
- For Postal FY Quarters 2, 3, and 4 (January 1 – September 30), the stamp stock limit is the total sales reported in AIC 852 from Quarters 2, 3, and 4 of the same period last year (SPLY) divided by three. **For example**, if your stamp sales revenue (AIC 852) from Quarters 2, 3, and 4 of the previous year totals \$30,000, your stamp stock limit (AIC 853) for each day in Quarters 2, 3, and 4 of the current year must not exceed \$10,000 ($30,000/3 = 10,000$).

Exempt from this rule are PRUs and APCs at which the daily stamp stock total is less than or equal to \$5,000. This exception will allow PRUs and APCs to maintain up to \$5,000 in total stamp stock before the calculation for excess stamp stock applies.

This policy will also apply to contract postal units (CPUs) as long as the stamp accountability and unused balance on a remote-set postage meter (if applicable) does not exceed the CPU’s bond authorization limit (see part 6-4.2). **For example**, if a CPU’s stamp stock limit (based on the calculation described above) is \$10,000, but the CPU’s authorized bond amount is only \$8,000, then the maximum stamp stock limit for the CPU is \$8,000. In this example, if the CPU also has an unused balance in a Post Office meter of \$1,000, then the maximum stock limit for the CPU is

\$7,000. CPUs must not at any time exceed the maximum stock limit, even if the authorized bond amount is higher.

A unit's stamp stock total is the amount reported in AIC 853 in the unit's PS Form 1412, *Daily Financial Report*, and is comprised of the following:

- a. The unit reserve.
- b. Stamp stock credits assigned from the unit reserve (e.g., vending, philatelic, Stamps by Mail, mobile units, special events).
- c. The retail floor stock when the unit operates under Segmented Inventory Accountability (SIA).

Do not, at any time, exceed the maximum limit of your unit inventory (AIC 853) based on the calculations as stated above. It is the responsibility of the postmaster, manager, or supervisor to monitor automatic shipments of stamp stock

and adjust quantities as necessary in order not to exceed stamp stock limits (see part 11-4.2).

Printed Copies of the Postal Bulletin: Further Refinements of the Distribution List

Several years ago, Corporate Communications at Headquarters reduced the number of printed copies of the *Postal Bulletin* by 65 percent. We were able to do this because of advances in technology. There are many advantages to publishing the *Postal Bulletin* online such as faster access to the information (available to readers same day of publication), access to archived copies (issues back to 1995), electronic search and retrieval, and reduced printing costs.

An analysis of the distribution of the *Postal Bulletin* has shown that Post Offices™ Level 15 and above are equipped with the technology they need to receive the *Postal Bulletin* at <http://www.usps.com/cpim/ftp/bulletin/pb.htm>. At this time, Post Offices Level EAS 14 and below will continue to receive printed copies of the *Postal Bulletin*.

We will continue to improve efficiency, continue the timely sharing of information, and further refine the publishing process.

Rename UCC/EAN Code 128 Barcode to GS1-128 Barcode

The European Article Numbering (EAN) Association and the Uniform Code Council (UCC) has merged to form a new organization called GS1. Due to this new organization, the industry standard terminology has changed, and the UCC/EAN Code 128 barcode is now referred to as the GS1-128 barcode. To reflect the new name, over time, we will incorporate this change in our manuals and publications by replacing all references to UCC/EAN 128 with GS1-128.

End of Year Cutoff for Relocation Payments Processing

In order to provide accurate and timely year-end tax reporting for relocation expenses paid in 2008, Cartus, the relocation management firm, has been instructed to cut off expense processing of employees' expense reports as of December 8, 2008. All expense reports and required receipts and documentation received by Cartus by December 8 will be paid and included in the 2008 W-2s. Expense reports received at Cartus after the cutoff date will be processed, but payments will not be released until January 5, 2009.

Cartus will provide all relocating employees a Relocation Summary Package (RSP) summarizing all relocation-related expenses paid to them or on their behalf in 2008 by January 31, 2009. Relocating employees will receive a letter via First-Class Mail® service detailing the process for logging into Cartus' website to retrieve their summary package online.

Notice to All Post Offices With Rural Delivery Service: Rural Carrier Guarantee Period

Postal Service™ managers must effectively manage rural carriers who work under the provisions of the Fair Labor Standards Act (FLSA) section 7(b)(2). Those carriers are paid overtime for all hours actually worked in excess of 2,080, up to 2,240, within the 52-consecutive-week guarantee period.

If a carrier works more than 2,240 hours within the guarantee period, the agreement under FLSA, section 7(b)(2), is considered void, and the carrier must be compensated for all hours worked during the guarantee period in accordance with FLSA, section 7(a).

It is important that we make every effort to minimize the number of hours carriers work over 2,080 and strictly monitor these carriers to ensure that no carrier works in excess of 2,240 actual work hours.

The 2007–2008 guarantee period for the past year was from Saturday, October 27, 2007, through Friday, October 24, 2008. This year's 2008–2009 guarantee period will begin on Saturday, October 25, 2008, and continue through Friday, October 23, 2009.

“Monumental Opportunity” Business Connect Contest – Quarter 1

“Monumental Opportunity” is the Business Connect™ contest for FY2009 that can earn qualified participants great prizes throughout the year. The contest coincides with our fiscal year quarters, and winners are selected at the end of each quarter.

Each quarter will focus on communicating different products and services. Quarter 1 FY 2009 runs from October 1, 2008, to December 31, 2008, and is focused on conducting five Business Connect activities, discussing shipping services to promote domestic and international packages.

Competition Rules

Qualified participants include postmasters, station managers, managers of customer service, branch managers, and supervisors. Customer relations coordinators and business development team members are not eligible to enter, but they will be critical in the support and success of participants.

Activities throughout the competition will automatically count towards monthly program targets, but to qualify for the contest, activities listed as requirements for that quarter must be completed and documented in the Business Connect Data Center. (An activity can be an individual meeting, group presentation, or lobby event.)

After each quarter (i.e., after December 31, 2008, and March 31, June 30, and September 30, 2009), the names of all qualified participants (i.e., those who have met the minimum activity requirements) will be entered into a prize drawing for one Grand Prize winner and 50 runner-up winners.

Bonus Points: For every sale for at least \$5,000 in estimated annualized revenue, the qualified participant will have his/her name entered an additional time into the drawing. For example, a qualified participant who doesn't make a sale for \$5,000 will have his/her name entered once in the drawing (for having completed the requirements); a qualified participant who makes one sale for \$5,000 will have his/her name entered twice (once for having completed the requirements, and once for the \$5,000 sale); and a qualified participant who makes one sale for \$5,000 and one sale for \$10,000 will have his/her name entered three times (once for having completed the requirements, once for the \$5,000 sale, and once for the \$10,000 sale).

Additional Rules

Participants must complete five Business Connect activities discussing shipping services to promote domestic and international packages.

To be credited, participants must document their activities in the Business Connect Data Center by 11:59 P.M. CT on December 31, 2008.

To qualify, the five Business Connect activities must be documented by selecting from the following dropdown options:

- Domestic Express Mail (BC Contest).
- Domestic Priority Mail (BC Contest).
- Domestic Parcel Post (BC Contest).
- International (BC Contest).

Prizes

A drawing will be conducted after each quarterly contest period to award one Grand Prize winner and 50 runner-up winners.

After Quarter 1, a qualified participant will have his/her name entered into a drawing for the Grand Prize — a trip for two to the National Postal Forum in Washington, DC, in May 2009. Also, 50 runner-up winners will be selected to receive a gift certificate for a prize selection of their choice (\$50 value).

Additional Information

For questions about the “Monumental Opportunity” Business Connect contest, send an e-mail to BDT_HQ@usps.gov. In the subject line, include the word “Contest” and your district name (for example: “Contest — Houston District”).

Manual offices that don't have computers should contact their local district business development team manager for manual activity forms. In order to qualify for the contest, manual offices must complete and submit manual forms to district offices for input into the Business Connect Data Center to meet the above contest deadlines.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP™ Codes through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and which

conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday-Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entries under “Changes” appear in bold in the APO/FPO table starting below.

Missing Children Poster Display Instructions

Post Offices, classified stations, branches, and contract postal units may display this poster at their option. If the poster is displayed, it should be placed on the community bulletin board located in the Post Office™ box lobby and not in the main retail (full service) lobby. Alternatively, Missing Children posters can be maintained in a binder behind the counter to be used as a reference guide. The posters also may be posted in a prominent location where letter carriers will be able to see them before or after they go out on their routes. Making this information available to letter carriers is consistent with the NALC/USPS Child Alert Program to facilitate identification of missing children.

Companion posters, authorized for display on bulletin boards maintained by employee organizations, appear periodically in *The Postal Record*, a publication for members of the National Association of Letter Carriers.

This poster is published in cooperation with the National Center for Missing and Exploited Children, the United States Department of Justice, and the National Association of Letter Carriers. Information appearing on this poster is selected solely by the National Center for Missing and Exploited Children (NCMEC).

In addition to *Postal Bulletin* updates, NCMEC distributes information periodically. Notification of newly reported missing children is sent to designated district “Missing Children” coordinators via e-mail addresses provided by district managers. Within 24 hours of receipt of an e-mailed Missing Children poster, district coordinators should distribute copies to all Postal Service™ facilities in their districts. Missing Children posters are to be displayed as noted above for 30 days unless notification is received (from NCMEC) to remove a particular poster sooner. The e-mail network is used to distribute posters and information in only the most urgent cases of missing children. This system supplements, but does not replace, the missing children information in this *Postal Bulletin*.

Missing Children posters are available to the U.S. Postal Service® only as described above. If Postal Service employees are contacted by individuals or local agencies about displaying a sign or poster of a missing child in local Post Offices, the individual or agency should be politely informed that the U.S. Postal Service displays only those posters provided by NCMEC, because it has been designated by the U.S. Department of Justice to be the national clearinghouse and resource center for missing and exploited children. The individual or agency should then be referred to NCMEC at 800-843-5678.

If you have any information, or for free prevention tips, please call 800-THE-LOST (800-843-5678).

Service Talk

Subject: Promote the value of our expedited shipping services to small businesses, with a special focus on shipping important documents.

Last quarter, we launched a new brand campaign that challenged business customers to rethink their shipping. We introduced them to the many ways we're providing reliable shipping at a reasonable price. With benefits like no fuel surcharges, lower online pricing, Express Mail® volume rebates, and conveniences that include the option of shipping in our free packaging or in plain brown boxes, there's no doubt small business customers will be interested in our shipping services. And customers who ship important documents will certainly want to hear about our new 1/2-pound rate and our new legal-size envelopes – these provide outstanding value for our customers and exceptional profitability for us.

We are relying on you to give our campaign the personal touch: Talk to the business customers you regularly come into contact with – especially with small and home-based business customers who ship with the competition – and make sure they are aware of all the advantages of shipping documents and packages with us.

Use the tear pads provided to help initiate a conversation and to share details with our customers about the benefits of our expedited shipping services. Be sure you familiarize yourself with the key points listed on the tear pad:

- lowest published prices of any major shipper on 2-day shipments up to 5 lbs. with Priority Mail® service.*
- new lower online pricing and volume rebates with Express Mail overnight guaranteed!†
- no fuel or residential surcharges and no extra charge for Saturday pickup and delivery.**
- new Express Mail 1/2-pound rate and legal-size envelopes offer more flexibility and affordability.
- just go to usps.com/business to find out how easy it is to get started.

Feel free to ask your manager for more tear pads once you run out.

Postal policies and procedures are an essential part of every business process. They tell customers how to do business with us, and they give employees information they need to do their jobs. Policies and procedures impact the bottom line of the Postal Service in four ways:

Productivity -- When a task is done correctly, it prevents rework and saves workhours.
Revenue -- When we charge customers the correct amount, we make money.
Legal Liability -- When we comply with federal and state laws and regulations, we avoid fines and penalties.
Customer Service -- When we give correct and consistent answers, our customers are happier.

Defining Policies and Procedures

Policies are:

- Statements of the Postal Service position on an issue.
- Interpretations of how the Postal Service complies with federal, state, and local laws.
- Specific guidelines or standards which must be followed.
- Designed to influence decisions and actions.

Procedures are:

- The official way business is done in the Postal Service.
- A set of established methods of how a task is performed.

This collection is updated when new information becomes available.

Updated Announcement 08-G: 2008 Stamps and Postal Stationery

“2008 Stamps and Postal Stationery” (Updated Announcement 08-G, October 2008), which appears on pages [65–67](#), replaces the quarterly announcement of the same name, previously printed and sent to customers on request through Stamp Fulfillment Services in Kansas City. The announcement is a listing of stamps and postal stationery items scheduled for issuance during calendar year 2008. Postmasters may wish to post this schedule on their Post Office™ bulletin boards.

Customers may also access the *Postal Bulletin* through the Postal Service™ Web site at www.usps.com; click on *About USPS & News*, then *Forms & Publications*, then *Postal Bulletin*.

This announcement will be updated every 2 to 3 months, as changes warrant.

How to Order First Day of Issue Postmarks and Covers

Customers may purchase new stamps or postal stationery items at their Post Office, from the *USA Philatelic* catalog, by calling 800-STAMP-24, or online at www.usps.com by clicking *Buy Stamps & Shop*. Then they should prepare their own covers by affixing new stamps to the upper-right corner of envelopes or postcards of their

choice, and address those envelopes, postcards, or postal stationery items to themselves or others. (Postage must equal the current First-Class Mail® rate.) For sturdiness, include a card of postcard thickness in each cover (envelopes only) submitted, and tuck in the flap. Place the cover in a larger envelope addressed to:

NAME OF ISSUE
 POSTMASTER
 CITY STATE ZIP CODE (followed by -9998)

Covers submitted for first day of issue postmarks may include additional uncanceled stamps only if the uncanceled stamps were issued before the first day of issue of the new stamps or postal stationery items. All orders must be postmarked on or before the deadline indicated in the “2008 Stamps and Postal Stationery” announcement on pages [65–67](#).

Stamps: An American Journey — Postal Service and History Channel DVD Still Available

Two years ago, the History Channel, in partnership with the Postal Service™, developed a high-quality, fast-paced, short feature titled “Stamps: An American Journey.” The DVD gives a fascinating overview of the history of postage stamps and their changing meaning to American culture. For many years, stamps only depicted “monumental heroes” such as George Washington. The feature describes how stamps, through an evolving process, now honor Americans of political stature, celebrities, and popular culture subjects.

The DVD not only shows many stamp images in “flash” sequences, but it also quickly covers the general process for selecting stamp subjects and images, using the Motor-cycle stamps as an example. Also included in the DVD is footage of U.S. astronauts canceling stamps on the moon, historical footage matched to stamp images, and interviews with experts from the Postal Service and the Smithsonian Institution. The program runs approximately 13 1/2 minutes.

Availability

The DVD is still available for postmasters, managers, and other postal employees to order. It’s a great tool to create awareness of the integral role stamps play in American life. It can also enhance the public experience at stamp

shows, stamp club meetings, and other stamp events. The DVD is not available for distribution to the general public.

How to Order the DVD

You can order the DVD from the Material Distribution Center (MDC) and use touch-tone order entry (TTOE): Call 800-272-1509, option 2.

Note: You must be registered to use TTOE. To register, call 800-272-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order.)

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of those postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® Web site at www.usps.com/shop.

Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first day of issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first day of issue city. The first day of issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, P.O. Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum

size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of non-specified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first day of issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, P.O. Box 449992, Kansas City, MO 64144-9992.

After applying the first day of issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

ReadyPost Hotline Telephone Number Change

The ReadyPost hotline telephone number has changed to **800-332-0317, Option 2**. This telephone number change is a cost-saving measure for the organization.

The ReadyPost hotline should be used for the following purposes:

- To report shipment overages and shortages.
- To report merchandise received with manufacturer defects.
- To make shipment inquiries (Non-POSR offices *only*).
- To place product orders (Offices without eBay capabilities *only*).

Questions on POS issues, product auditing, merchandising, and customer special orders should be sent to your district retail office. Customer special orders must be submitted to the district retail office first, before approval by the Headquarters ReadyPost Program Office.

The old hotline number (800-711-0428, option 7) will *no longer be a valid telephone number* for ReadyPost customer service.

New Purchase Cards Will Be Issued Starting October 18

The Postal Service™ has awarded a task order under the GSA SmartPay 2 program to the incumbent bank provider, U.S. Bank. This task order will be in effect for up to 10 years beginning November 30, 2008. The purchase card will continue to be a VISA-brand card and will be easy to differentiate from current cards with its new design and colors (see below).

Employees who currently serve as cardholders under the Postal Service's GSA SmartPay Purchase Card Program should expect to receive their new cards between October 18 and November 7, 2008.

Upon receipt cardholders must:

- Activate their new card/account by following the instructions accompanying their new card (U.S. Bank Cardholder Guide).
- Contact any merchants that may have their old account on file and provide them with the new account number (e.g., Ricoh Corp). Advise them that the old numbers must be purged from their system.
- Contact U.S. Bank Customer Service Center at 888-994-6722, if they do not receive their card/account information by November 15.
- Start using their new purchase card on November 30, and destroy all old cards.

Updated Local Buying and Purchase Card Policies and Training Requirements

Effective October 1, 2008, the following policies and procedures supporting local buying activities were updated and are available on the PolicyNet website at <http://blue.usps.gov/cpim/>, click *Manuals* or *HBKs*, as applicable:

- Administrative Support Manual (ASM) Chapter 7:
 - Section 71, General.
 - Section 72, Purchasing, Parts 721, General, through 722, Local Buying Authority.
- Handbook AS-709, *Purchase Card Policies and Procedures for Local Buying*.

All personnel involved in the local buying process should access and review these updated policies and procedures.

Handbook AS-709 will no longer be printed in hardcopy and stocked at the Material Distribution Center (MDC) in Topeka. When necessary, you can order print on demand copies of Handbook AS-709 from the MDC through the touch-tone order entry (TTOE) system at 800-273-1509.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order.)

Use the following information to order Handbook AS-709:

These local buying-related policies and procedures were primarily updated to do the following:

- Further the mandate to use eBuy and Postal Service™-negotiated national/area contracts and agreements.
- Reflect changes in other organizational policies and procedures referenced within these policies.
- Include updates in Handbook AS-709 associated with the new GSA SmartPay 2 contract. **Note:** the name I.M.P.A.C. is no longer in use and has been replaced with “Purchase card” throughout governing policies and procedures.
- Incorporate process and policy recommendations resulting from internal and external Purchase card oversight reviews and advances in technology, with the most significant changes in Handbook AS-709, Chapter 4 covering the reconciliation process.
- Announce enhanced Purchase card training requirements in Handbook AS-709 that all cardholders, credit card approving officials (CCAOs), and Agency Program Coordinators (APCs) must complete by the end of Postal Quarter 2, FY2009. This includes completing a new web-based Purchase card training program, postal ethics training, eBuy training, a review of the updated Handbook AS-709, and, when applicable, U.S. Bank Electronic Access System (EAS) training on Access Online. Thereafter, there is a requirement for update/refresher training every 3 years. All training requirements details will be posted and maintained on the Supply Management Purchase card website on Blue at http://blue.usps.gov/purchase/operations/ops_impachome.htm. Cardholders and CCAOs may also contact their assigned APC regarding participant training requirements.
