DMM Revision: Changes to the Requirements for Mailing Cigarette Lighters

Effective June 1, 2009, the Postal Service™ is revised the *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 601.10.13.4 to comply with updated Department of Transportation (DOT) regulations. The changes require the following before shipping a lighter:

- The design of a lighter must be approved by an authorized DOT lighter certification agency.
- A test report identifier code followed by an alpha/numeric identifier (LAA****) must be on the address side of the outer shipping container. The codes for specific lighters are issued by a lighter certification

agency. This code replaces the previously used T-Number.

We have not changed our process that requires mailers to submit approval requests to the Pricing and Classification Service Center.

We will incorporate this revision into the next printed version of the DMM and into the monthly update of the online DMM available via Postal Explorer® at <http://pe.usps.com>.

DMM Revision: Revised Process for Postage Refund Appeals

Effective June 1, 2009, the Postal Service™ revised *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 604.9.2.8b to change the process for appealing denied refunds of unused dated meter postage.

Previously, when an authorized postage meter user was denied a refund for unused dated meter postage, the authorized user could appeal the adverse ruling to the manager, Postage Technology Management, at USPS® Headquarters, who issued the final agency decision. Now, the authorized user will appeal the adverse ruling, through

his/her postmaster, to the manager of the Pricing and Classification Service Center (PCSC), who will issue the final agency decision.

We will incorporate this revision into the next printed version of the DMM and into the monthly update of the online DMM available via Postal Explorer® at <http://pe.usps.com>.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP™ Codes through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO/DPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

Handbook F-101 Revision: Contract Postal Units Returning Accountable Paper

Effective immediately, Handbook F-101, *Field Accounting Procedures*, is revised to clarify the procedures for contract postal units (CPUs) to return accountable paper. These procedures are not intended for CPUs that are on the Contract Retail Access System (CARS).

The host Post Office™ or contracting officer’s representative (COR) must perform a verification of all blank money orders that were issued to the CPU before the money orders are returned to the servicing stamp distribution office (SDO) or stamp services center (SSC).

A PS Form 17, *Stamp Requisition/Stamp Return*, must be completed listing the serial numbers and quantities. The postal official performing the verification of the money orders being returned signs the PS Form 17 as a witness and retains a copy of the form at the host Post Office. Partial blocks of blank domestic money orders must be returned separately from international and/or unopened full blocks of domestic money orders.

The host Post Office accounts for the verified and returned blank money orders in the electronic Money Order Voucher Entry System (eMOVES) as follows:

- Remove full blocks of blank money orders from eMOVES.
- Mark each blank money order of a partial block as “VOID” in eMOVES.

When closing a CPU, the host Post Office coordinates with the SDO or SSC the return of any remaining stamp stock. If any stamp stock is transferred between the CPU and the host Post Office, follow the procedure in Handbook F-101, section 11-10.3.

11-6.11.1 Returning Blank Money Order Stock for Reissue

[Add a Note at the end of this section to read as follows:]

Note: The host Post Office or contracting officer’s representative (COR) must perform a verification of all blank money orders that were issued to the CPU before the

money orders are returned to the servicing SDO or SSC. The postal official performing the verification signs PS Form 17 as a witness and retains a copy of the form at the host Post Office. The host Post Office removes the full blocks of domestic money orders from eMOVES per the serial numbers listed on the PS Form 17. Any international money orders listed on the PS Form 17 should be marked as “VOID” in eMOVES.

11-6.11.2 Returning Blank Money Order Stock for Destruction

[Add a Note at the end of this section to read as follows:]

Note: The host Post Office or COR must perform a verification of all blank money orders that were issued to the CPU before the money orders are returned to the servicing SDO or SSC. The postal official performing the verification signs the PS Form 17 as a witness and retains a copy of the form at the host Post Office. The host Post Office personnel mark each blank money order of a partial block as “VOID” in eMOVES per the serial numbers listed on the PS Form 17.

13-7.3.2 Returning Accountable Papers

[Revise 13-7.3.2 to read as follows:]

If the CPU issues postal money orders, the host Post Office or COR must perform a verification of all blank money orders before the money orders are returned to the servicing SDO or SSC. The postal official performing the verification signs the PS Form 17 as a witness and retains a copy at the host Post Office.

Follow procedure in section 11-6.11.1 when returning full blocks of money orders and all international money orders and section 11-6.11.2 when returning partial blocks of money orders.

After the final count of the CPU’s stamp stock is conducted, the host Post Office supervisor does the following:

- a. Coordinates the return of any remaining stamp stock with the servicing SDO or SSC. (If any stamp stock is transferred between the CPU and host Post Office, follow the procedure in part 11-10.3.)

- b. Records the amount of the returned stamp stock in AIC 848 on the CPU's PS Form 1412; this should decrease the stamp accountability balance in AIC 853 to zero.
- c. Enters the CPU's final PS Form 1412 into eMOVES.
- d. Three business days after transmitting the CPU's last PS Form 1412, certifies that the CPU's closing stamp accountability balance (AIC 853) is "zero". To obtain this information, use the Stock Ledger Balances report in the Accounting Data Mart (ADM) (Accounting>Shared Reports>SAFR>Stock Ledger Reports>Stock Ledger Balances — "Stock on Hand" column.) Units that cannot access the ADM can call the Accounting Help Desk (AHD) at 866-974-2733 for assistance.
- e. Contacts the finance number control master (FNCM) coordinator to deactivate the CPU unit.

- f. Contacts the servicing SDO or SSC to deactivate the CPU after the last stock shipped out of the CPU is received by the SDO or SSC.

Publication 52 Revision: Changes to the Requirements for Mailing Cigarette Lighters

Effective June 1, 2009, we revised Publication 52, *Hazardous, Restricted, and Perishable Mail*, section 343.25 and Appendix C to reflect changes made to the mailing requirements for cigarette lighters in the *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*.

343.25 Cigarette Lighters

[Revise the first sentence of 343.25 to add the word flammable to read as follows:]

A cigarette lighter equipped with an ignition element and containing flammable liquid fuel is classified as a Class 3 flammable liquid.***

[Revise items 343.25a and b as follows:]

- a. The design of the lighter is approved by a lighter certification agency authorized by the DOT Associate Administrator for Hazardous Materials Safety, per 49 CFR 173.21(j) and 173.308, and a DOT approval number (e.g., "LAA****") is issued.
- b. The prospective mailer of the lighter submits to the PCSC manager a written request for authorization to mail the lighter, a legible photocopy of the official notice conveying the approval described in 343.25a, a specimen of the actual lighter, the packaging materials in which each lighter is to be mailed, the number of mailpieces, and the mailing location. The mailer then receives from the PCSC manager a written decision regarding the requested authorization for mailing.

* * * * *

[Revise item 343.25d as follows:]

- d. When presented for mailing, the address side of the mailpiece must prominently display the proper shipping name "Lighter(s)" or "Lighter(s) for Cigarette" followed by the approval number (e.g., "LAA****") and the marking ("Surface Only" or "Surface Mail Only"). All preparation and packaging requirements in the PCSC manager's approval letter must be met. A legible photocopy of the PCSC manager's approval must accompany the mailing at the time of deposit.

[Delete item 343.25e in its entirety.]

- Lighters, nonpressurized, containing flammable liquid, NA1057.
- Lighters, containing flammable gas, UN1057.

Required Authorization

[Revise the bullet as follows:]

- The design of the lighter must be approved by a lighter certification agency authorized by the Department of Transportation (DOT) Associate Administrator for Hazardous Materials Safety, per 49 CFR 173.21(i) and 173.308. A test report identifier code and unique identifier number must be assigned

(e.g., "LAA****") to the specific lighter by the agency. Prior to mailing, the mailer must request and obtain written approval from the PCSC manager. (See 343.25 and DMM 601.10.13.4.)

* * * * *

Required Packaging

Primary Receptacle

[Revise the bullet to read as follows:]

Confirmation Services/eVS Barcoded Label Precertification Program

On June 4, 2009, the Postal Service™ is offering mailers a new precertification process for Confirmation Services/eVS® barcoded labels. This precertification process will eliminate the need for qualified mailers to submit labels to Confirmation Services Technical Support at the National Customer Support Center for certification before mailing.

Currently, the Postal Service requires Confirmation Services/eVS customers to submit barcoded labels and files to Confirmation Services Technical Support for testing and certification before mailing. Mailers provide 10 labels per printer that will be used to generate labels, and software vendors provide 100 labels per printer that will be used to generate labels. An analysis is performed on the labels to ensure that the barcodes can be scanned by Postal Service equipment. This process is performed in 1 to 2 business days from receipt of the labels. Then a pass or fail response is provided back to the customers at the conclusion of the analysis. Customers passing the minimum label requirements are “certified” in our account management system and tracking database. The customers can then begin shipping.

Mailers and software vendors producing software that will be used either in-house or by their customers may qualify for the Confirmation Services/eVS Barcoded Label Precertification Program. Mailers and software vendors meeting this criterion will be referred to as “vendors.” This precertification process is specific to labels only and will allow new customers printing labels produced by the vendor’s software to be automatically “certified” after the Postal Service assigns a mailer ID to the vendor’s customers. This will allow vendors to acquire new customers promptly, and allow them to begin mailing soon thereafter.

To qualify, vendors must have multiple sites that mail a total of 10,000 or more pieces per month. The vendor’s files must be transmitted to and from one source, using the same file transfer method for which the vendor was approved. The vendor’s Master Mailer ID must be used in the Header Record of the file.

The following procedures must be used to precertify barcoded labels produced by a qualifying vendor’s software. During a 30- to 60-day trial period, the Postal Service will validate the accuracy and compliance of the vendor’s barcoded labels. The duration of the trial period is contingent on the vendor’s past label quality as identified on the USPS® Manually Keyed Label Report. Manually keyed labels are labels that bear a barcode that cannot be scanned by the Postal Service’s handheld scanners; therefore, the human-readable numbers are manually entered. When this occurs, the potential exists for transposing digits, which results in lost visibility of the mailpiece. This report provides a listing of the vendor’s existing customers, how many labels were presented, how many labels were

manually keyed, and the percentage of labels that were manually keyed.

Prior to the expiration of the trial period, the vendor must provide the Postal Service with quality assurance procedures that ensure its software’s ability to produce barcoded labels within the Postal Service’s specifications (e.g., a letter to their customers informing them of the importance of printer maintenance, etc.).

Precertification Trial Period

The following procedures will be used for precertification of vendor software during the trial period:

1. Prior to the start of the trial period, the vendor must submit 100 Confirmation Services/eVS labels with a valid Mailer ID. Each class of mail and each service (e.g., Delivery Confirmation™ service, eVS, etc.) generated from its software must be represented in the 100-label sample. The sample labels must be submitted to Confirmation Services Technical Support for evaluation.
2. Confirmation Services Technical Support will notify the vendor and USPS Product Information Requirements of label evaluation results. Upon successful label evaluation, Confirmation Services Technical Support must:
 - a. Add the vendor profile to the account management system.
 - b. Add the vendor’s customer’s profile to the account management system, selecting the vendor’s name in the account management system.
 - c. Enter comments in the account management system documenting the vendor’s software’s name and Master Mailer ID indicating that the vendor’s software successfully meets Postal Service requirements for the Confirmation Services/eVS Barcoded Label Precertification Program.The vendor’s customer’s labels will be automatically “certified” for Confirmation Services/eVS labels. If the labels submitted fail evaluation, the vendor must correct any problems identified and resubmit 100 label samples for evaluation until the labels pass.
3. The vendor must submit a separate completed PS Form 5051, *Confirmation Services Electronic Option Application*, to Confirmation Services Technical Support for each new customer acquired during the trial period. The vendor or its customer completing the form must:
 - a. Indicate the vendor’s name and the customer’s name in Field 1 (“Company Name”). The first seven characters of the company name field must be the vendor’s name (abbreviated if necessary), followed by the vendor’s customer’s name.

- b. Select 7.b: “No Transmission Form This Site: Labels only.”
- c. Specify the printer type and the Mailer ID assigned to the new customer from the preassigned Mailer ID range that will be provided to the vendor by the Postal Service in Field 11: “Please provide additional information unique to your process, or discuss other issues.”

PS Form 5052, *Printer Certification Submission*, and physical labels are not required. Confirmation Services Technical Support must enter profile information for the new customer using the specified Mailer ID in the account management system for each application and set the Mailer ID as “certified” for labels only. The customer may begin mailing on the next business day after the database has been updated.

- 4. The vendor’s software must produce unique barcoded labels that will be monitored on the Duplicate Label Report (sample will be provided).
- 5. The Postal Service will monitor barcoded labels generated by the vendor’s customers who have been precertified during this trial period to ensure the barcoded labels are being successfully scanned by USPS equipment. Scan rates are determined by using the USPS weekly Manually Keyed Label Report (sample will be provided). The Postal Service has determined that the acceptable successful scan rate is 98.5 percent during the 30- to 60-day trial period. No more than 1.5 percent of the vendor’s barcoded labels can be manually keyed during this period. During the trial period, the vendor will be notified of any customer(s) falling below acceptable scan rates. The vendor must provide the Postal Service with a contact name for this purpose. The vendor must contact the customer to provide feedback to correct manually keyed labels within 5 business days. Customers whose labels fall below the acceptable scan rates are encouraged to work with Confirmation Services Technical Support to identify and correct the issue(s). Failure to correct the manually keyed labels will result in termination of the trial period. Within 10 days of the start of the trial period, the vendor must provide the procedural steps to be used to notify its customers and the actions to be taken to correct the barcoded labels that fail Postal Service operational scanning. If, during the 30- to 60-day trial period, the scan rate has a significant negative trend, the Postal Service will collaborate with the vendor to assist in resolving any issues.
- 6. During the trial period, the vendor must notify the Postal Service’s Product Information Requirements and Confirmation Services Technical Support of any

version changes/upgrades made to its software system that may affect label generation.

At the conclusion of the 30- to 60-day trial period, the Postal Service will perform an analysis to determine if:

- The vendor’s software consistently met the needs for barcode requirements. The measure of success will be at least a 98.5 percent scan rate for pieces mailed during the trial period.
- Duplicate labels are identified.
- All vendor’s customers are using the vendor’s Mailer IDs.

Upon successful completion of the trial period, the vendor may be eligible to participate in the Postal Service’s Confirmation Services Barcoded Label Precertification Program.

Precertification Program Participation

At the conclusion of the trial period, the Postal Service will provide the vendor with a monthly Manually Keyed Report. The vendor must identify customers that produce more than 200 labels per month and exceed 1.5 percent manually keyed. The vendor must work with customers who exceed 1.5 percent manually keyed to improve their label quality. Customers are encouraged to submit labels to Confirmation Services Technical Support for courtesy checks so that the issues can be identified and corrected. The Postal Service will continue to monitor the monthly Manually Keyed Report. At the end of 1 year, the monthly Manually Keyed Report must demonstrate that no more than 5 percent of their customers producing more than 200 labels per month exceed 1.5 percent manually keyed. Failure to comply will result in a 1-month probationary period. At the conclusion of the month, label quality must improve, or, based on the extent of the poor label quality, the vendor will no longer be able to offer label precertification to new customers. New customers will be required to submit labels to Confirmation Services Technical Support for analysis.

After the vendor has successfully met the criteria listed above during the 30- to 60-day trial period and elects to participate in the label precertification program, mailers will not be required to submit barcoded labels for certification, except as set forth above.

The Postal Service reserves the right to cancel this process and trial period at any time. Details of the Confirmation Service Barcoded Label Precertification Program will be published in revisions to Publication 91, *Confirmation Services Technical Guide*, and Publication 205, *Electronic Verification System Business and Technical Guide*.

Mailers/software vendors meeting the criteria, who are interested, may contact Confirmation Services Technical Support at 877-264-9693 (option 1) for assistance.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of those postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at www.usps.com/shop.

Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first day of issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first day of issue city. The first day of issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum

size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first day of issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

After applying the first day of issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.
