## Go Green — Celebrate Earth Day by Recycling

Earth Day 2016 is a good time to re-emphasize our corporate commitment to waste reduction and recycling. In this issue of the *Postal Bulletin*, we feature strategies that will help you to reduce landfill disposal costs by diverting trash to recycling. Nearly everything we find in our trash containers can be recycled. And while reducing landfill waste helps to protect the environment, it is also good for business. Recycling generates revenue while at the same time reducing landfill disposal costs.

The Postal Service partners with the U.S. Environmental Protection Agency in the Federal Green Challenge and WasteWise programs to reduce all types of waste, including energy, water, fuel, electronics, consumables purchasing, and trash. Most of our trash is mixed paper — a commodity that is easily recycled and turned into a business opportunity.

This issue of the *Postal Bulletin* provides information about the ongoing National Recycling Operation (NRO). Under NRO, mixed paper is backhauled on existing transportation from postal facilities to plants and hubs where it is consolidated for sale to recyclers. As more mixed paper is diverted to recycling, the volume of trash decreases. We review the importance of facilities obtaining “best value” trash and recycling service contracts from Supply Management. We also urge you to become familiar with the instructions for using the correct accounting codes for documenting costs and revenues related to trash disposal and recycling, so the benefits from the operation can be accurately tracked and managed.

Earth Day may happen once a year, but our sustainability practices need to be an integral part of our working lives. We invite you to participate in a facility Lean Green Team, identify local opportunities to conserve resources, and celebrate Earth Day 2016 by recycling!

### **USPS National Recycling Operation: Putting Our Stamp on a Greener Tomorrow**

The Postmaster General and the Executive Leadership Team approved the National Recycling Operation (NRO) in October 2013. The goal of the National Recycling Operation is to increase recycling revenue and reduce trash disposal costs within the Postal Service™.

Eliminating waste is a key economic driver for all organizations. Given the nature of our business, the majority of waste that the Postal Service generates can be recycled.

This includes mixed paper from undeliverable mail that is generated at almost every delivery office. Our objective is to turn this waste into a business opportunity. Recycling is also now required by Federal Executive Order and is increasingly the law in many places. The communities we serve also have an expectation that the Postal Service will do its part and recycle. It enhances our corporate image and our bottom line. Recycling is no longer an optional, but an integral part of our business.

The USPS National Recycling Operation is a national business initiative designed to drive waste and costs out of our operations, generate revenue, and provide better stewardship of our environment. The initiative builds on existing best practices that many Post Offices™ are already performing. The process, known as “backhaul recycling,” is simple. Participating Post Offices transport recyclables to a nearby servicing hub using mail transport equipment (MTE) and our existing logistics network. This results in the generation of less trash, which reduces local disposal costs.

Consolidating the recyclable material at servicing hubs generates tons of recyclable material, achieving economies of scale that maximize revenue-generating opportunities. The effort utilizes empty MTE that is being returned to servicing hubs (usually mail processing and distribution centers) via existing transportation service runs. No additional MTE or transportation is required. This “reverse logistics” opportunity uniquely leverages our existing postal network infrastructure as an inherent business opportunity in a way few other government or private entities can.

Under the National Recycling Operation, designated hub facilities are receiving:

- Recycling dumper and compactor equipment;
- Standardized processes to implement recycling operations;
- Renegotiated recycling and trash contracts to maximize value for the Postal Service; and
- Training and communications support tools.

The USPS® Office of Sustainability has been tasked to oversee deployment of the National Recycling Operation in each district with key organizational stakeholders including Operations, Delivery, Maintenance, Facilities, and Supply Management. District leadership will communicate the effort to affected offices as the initiative is rolled out. The HQ Supply Management Facility Category Management Center plays a key role in soliciting and renegotiating recycling and trash disposal contracts to obtain maximum value.

### USPS National Recycling Operation: How USPS Facility Services Category Management Center (CMC) can Maximize Value and Reduce Cost

The goal of the National Recycling Operation (NRO) for the Postal Service™ is to increase recycling and reduce trash disposal costs. Key to this effort is obtaining contracts that provide “best value” for our recycling and trash services. By consolidating and making larger quantities of recyclable material available at fewer locations, the Postal Service enhances the value of our materials in the recycling market. Centralized recycling hubs also reduce costs by eliminating small volume pick-ups and associated transportation fees at Post Offices.

The Supply Management Facility Services Category Management Center (CMC) in Windsor, CT, oversees recycling and trash contracting services. They manage a portfolio of over 200 trash contracts and over 80 recycling contracts that encompass over 4,000 postal sites. Competitive solicitations for recycling services allow the Postal Service to leverage its size and obtain “best value” from suppliers. Skillfully negotiated contracts also protect the Postal Service from commodity market fluctuations and complex vendor fees and surcharges that are not contractually authorized. Learn more at: <http://blue.usps.gov/supplymanagement/fscmc-trash-recycling.htm>.

Historically, controlling and managing waste disposal and service costs has been a challenge for postal managers. These services were typically arrived at through local agreements without the requisite subject matter expertise and understanding of market rates and service options. The CMC team now assists in ensuring “best value” for these services. Services that exceed \$2,500 annually must be reviewed with a contracting officer to ensure compliance with federal law and postal policies. The CMC works closely with facility managers and contracting officer representatives (CORs) to ensure they are in compliance with the Service Contract Act, and other statutes, regulations, and postal policies.

As part of the National Recycling Operation deployment, the Office of Sustainability works with district management to baseline existing Post Office™ recycling and trash services to determine trash disposal cost savings opportunities. Based on this information and field visits to individual offices, recommendations are made to facility managers and the contracting officer’s representative to reduce service or to modify existing contract services. The contracting officer’s representative (COR) acts as a liaison between the contracting officer and the service vendors on all routine matters. This typically includes reducing the pick-up frequency and/or trash container size, based on

reduced volumes. In addition, any paid recycling services are eliminated as the hub facility backhaul recycling operations are initiated. The Postal Service must no longer pay to dispose of trash in containers that are only partially full.

### USPS National Recycling Operation: Accurately Accounting for Trash and Recycling Services

Proper accounting allows the USPS® to better monitor and manage its trash and recycling costs. The National Recycling Operation (NRO) is working with Finance to update accounting codes to track these services and communicate their proper use to field offices. Postal facilities that receive revenue from recyclables, such as mixed paper, cardboard, and plastic, are now directed to use the following account numbers. It is important to use the entire account number to avoid having funds placed in the wrong budget line.

There are two revenue account indicator codes for recycling revenue:

- Mixed paper, cardboard, and plastics (Acct#: 44036.149).
- Scrap metal (Acct#: 44036.156).

There are also two codes for service costs:

- Garbage and trash disposal service costs (Acct#: 54153).
- Recycling service costs (Acct#: 56607).

It is critical to ensure that the proper account codes for garbage and trash disposal costs and recycling service costs are used. **Note:** Previously water and sewer costs were included within the garbage and trash disposal service account code. A separate account code has now been established for water and sewer costs (Acct#: 54152). When you enter your financial transactions, do not include water and sewer costs within the garbage and trash service account cost code.

For a detailed description of what is included in each of these codes see below:

- **Mixed Paper, Cardboard, and Plastic Recycling Revenue, Acct#: 44036.149.** This account is used to record revenue from the sale of recyclables including mixed paper recyclables (i.e. discarded office paper, undeliverable standard mail, no obvious value mail, undeliverable bulk business mail, discarded lobby mail and waste, dead mail, and flats). Also included is cardboard, also known as old corrugated cardboard, all types of plastics (shrink, stretch wrap, mixed plastics), cans, bottles, and mail sacks. This account number also includes the sale of recyclable material from Mail Transport Equipment or Repair Centers (MTEC) and Mail Recovery Centers. Do not use this account code for scrap metal sales.

- **Recycling Service Costs, Acct#: 56607.** This account is used to record the costs of recycling services such as equipment rental and lease costs (i.e. receiver box spotted, trailer, open top roll off, compactor, card tipper, balers, container and Gaylord boxes) and recyclable material transportation/hauling/loading and material costs. Do not use this account for garbage and trash disposal service costs (refer to Acct#: 54153).
- **Scrap Metal (all types) Recycling Revenue, Acct#: 44036.156.** This account is used to record revenue from the sale of scrap metal of all types as well as non-capital equipment that is deemed unserviceable.
- **Garbage and Trash Disposal Service Costs, Acct#: 54153.** This account is used to record the costs of

municipal solid waste (i.e. garbage and trash) removal. Do not use this account for sewer charges (refer to Acct#: 54152) or any non-trash related disposal service such as recycling services, regulated hazardous or universal waste disposal, or trash disposal services included with building lease, water bill tax stipends, or common area costs (CAM).

Stock custodians and retail associates must ensure all inventory items and quantities listed are accurate for each segment. e1412 standard individual stamp credits and single drawer accountability PRUs must count the number of Forever stamps/NDN stamp items on hand to be revalued and multiply the number on hand by the difference between the original price (old price) and revalued price (new price) to compute the revaluation decrease in the accountability.

Please ensure all internal pending transfers going to/ from any segment are received, as well as any stamp stock shipments sent from SFS, prior to April 10, 2016.

The following are instructions for each financial reporting technology:

#### eMOVES Offices

## e1412 Standard Rural Credits Stamp Stock Revaluation

All Post Offices must decrease the value of each Forever<sup>®</sup> stamp item on hand in their rural carrier inventories prior to opening for business on April 10, 2016.

**Note:** e1412 SDA 2-, 4-, and 6-hour offices are not authorized to hold Rural Carrier Credits. If a Rural Carrier Credit is required, contact the Administrative Post Office (APO).

## Required Actions for Units Containing Rural Credits:

**Step 1:** Print/View the *Unit Reserve Itemized Inventory for Standard PO* report (Reports>Unit Inventory) to deter-

mine the number of established Rural Credits (i.e. Item # 910301, 910302, 910303, etc.) in your Unit.

**Step 2:** Determine if the Rural Credit contains any of the stamp stock items to be revalued:

- If there are **no stamp stock items** in the credit to be revalued, no action is necessary.
- If there **are items that need to be revalued**, complete the following actions:
  1. Perform a physical count of the stock/cash to validate the amount matches the original PS Form 3369. **Note:** All shortages must be paid at the time credit is returned.
  2. The unit reserve custodian initiates a transfer using the *rural credit item* number (i.e., Item # 910301, 910302, 910303, etc.) to an Individual Stamp Credit (ISC).
  3. The ISC receives the inventory transfer and then immediately initiates a new transfer back to the unit reserve using the *actual item* numbers. Print/View the *Unit Reserve Item Inventory for Standard PO* report after the transfer is completed to validate the rural credit item number is no longer listed.

After the inventory has been revalued, create a New Rural Credit and reissue stamp stock as follows:

1. The unit reserve custodian transfers the stamp items to be used as a rural credit to an ISC using the *actual item* numbers.
2. The ISC receives this transfer and then immediately initiates a new transfer back to the unit reserve using the assigned *rural credit item* number (i.e., Item # 910301, 910302, 910303, etc.).
3. Print the *Unit Reserve Item Inventory for Standard PO* report after the transfer is completed to validate the correct amount is listed for the rural credit item number.

**Rural Carrier Owned Stock**

No action needed.

**Forever Stamp Exchanges**

Forever stamps that are damaged or otherwise unusable for postage while in a customer’s possession may be exchanged for an equal number of Forever stamps at the current price. Postal Service employees must pick up the Forever stamps to be exchanged at the current price. For POS ONE/RSS equipment, follow the Exchanging Stamp Products workflow and scan the Forever stamps to be exchanged and the current price will be reflected.

which must be recycled. Acceptance clerks must not accept Priority Mail Express™ shipments bearing an invalid USPSCA number in the “Payment by Account” or “Agreement Number” section of the label or form.

## Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
  - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
  - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
  - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <https://www.usps.com/shop/money-orders.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

## Other Information

### Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks should use the table with the POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply. Inquiries may be sent to the Military Postal Service Agency at <https://amps.usps.gov/ij2/frm.htm>.

The entries under “Changes” appear in bold in the APO/FPO/DPO table starting below.

The G Fund is managed internally by the Federal Retirement Thrift Investment Board. Assets of the F, C, S, and I Funds are managed externally. The Board currently has contracts with BlackRock Institutional Trust Company, N.A., to manage the F, C, S, and I Fund assets. The F, C, S, and I Funds invest in commingled trust funds, in which the assets of tax-deferred employee benefit plans are combined and invested together. The F, C, S, and I Funds and the BlackRock funds are passively managed index funds.

Future performance of the funds will vary and may be significantly different from the returns shown above. See the *Summary of the Thrift Savings Plan* for detailed information about the funds and their investment risks. The monthly returns of the TSP Funds represent net earnings for the month after deduction of accrued administrative expenses and, except for the G Fund, after deduction of trading costs and accrued investment management fees as well. The returns for the four indexes shown do not include any of these deductions.

## Mailing and Shipping Services

### New Forms Put Certificate of Mailing in Business Customers' Corner

The Postal Service™ is making it easier for business customers to induct Certificate of Mailing shipments.

As of March 16, 2016, business mailers will be able to download and complete LiveCycle-compatible versions of two Certificate of Mailing forms: PS Form 3606-D, *Certificate of Bulk Mailing — Domestic*, and PS Form 3665, *Certificate of Mailing — Firm (Domestic)*.

The availability of easy-to-complete forms will reduce the time and money that business mailers spend filling out hard copies by hand and/or creating privately printed ver-

sions for Postal Service approval. Using these forms will ensure consistency and compliance to the Postal Service standards for Certificate of Mailing acceptance.

The new forms are available now at <http://about.usps.com/forms/all-forms.htm>.

### Accountable Mail Form Redesign Offers More Room Between the Lines

A redesigned version of PS Form 3867, *Accountable Mail Matter Received for Delivery*, is now available on PolicyNet.

The now horizontally-oriented accountable mail form offers more space for back office employees and USPS® carriers to enter Intelligent Mail® package barcodes (IMpbs®) or extra service barcodes before mailpieces are made available for pick-up or delivery.

The new form is available at: [http://blue.usps.gov/form-mgmt/forms/LiveCycle/psform3867\\_032016\\_lc.pdf](http://blue.usps.gov/form-mgmt/forms/LiveCycle/psform3867_032016_lc.pdf). PS Form 3867 is LiveCycle-compatible, which means that employees can fill it out electronically.

## How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first-day-of-issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at [www.usps.com/shop](http://www.usps.com/shop).

### Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first-day-of-issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first-day-of-issue city. The first-day-of-issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

### Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as “laser safe.” The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum

size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first-day-of-issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

## What is Investment Recovery?

Simply put, Investment Recovery (IR) is about:

- Identifying a surplus or excess asset,
- Evaluating that asset, and
- Disposing of that asset in the most cost-effective manner.

The IR group is responsible for facilitating that process with all USPS® locations to facilitate the redistribution, selling, recycling, and disposal of excess assets in a responsible manner. The IR group coordinates the disposal of surplus assets in the most efficient and cost-effective manner to bring the best possible return on that investment once an asset has been deemed excess or surplus to USPS needs. The IR group also helps create disposal plans for a future project and is instrumental in disposing of assets when facilities are consolidated or closed.

There are seven disposition options used in IR. In order of recouping optimal asset value, these disposition techniques are:

- Reuse – send to another location (redeploy).
- Recondition – fix up to reuse (refurbish).
- Return – send back to vendor (possible credit).
- Resell – sell to another user (trade, donation, third-party sale).
- Reclaim – to make item reusable from waste (repurpose chemicals).
- Recycle – reuse substance from waste (scrap).
- Remove – final disposition (pay for removal, landfill).

Examples of excess saleable items are (but not limited to):

- Conveyor systems.
- Safes (Antique, Diebold, Mosler, and Schwab).
- Scales (Triner Fan and Floor).
- Antique brass PO Boxes.
- Coin sorters.
- Forklifts.
- File cabinets.
- Stanley Vidmar cabinets.

For more information on IR services, please send an email to [InvestmentRecovery@usps.gov](mailto:InvestmentRecovery@usps.gov) or access the IR website at [http://blue.usps.gov/supplymanagement/am\\_recovery\\_home.htm](http://blue.usps.gov/supplymanagement/am_recovery_home.htm).
