Delivery

Mailbox Improvement Week, May 15–21, 2016

Each year, the Postal Service™ designates the third full week of May as Mailbox Improvement Week to encourage customers on city motorized, rural, or contract delivery service routes (formerly highway contract box delivery routes) to examine and, where necessary, improve the appearance of their mailboxes. Neat, attractive mailboxes make a significant contribution to the appearance of the countryside and streets in suburban areas. Mailbox Improvement Week, May 15–21, calls attention to the need for providing mailboxes that are:

1. Approved by the Postmaster General.
2. Fully operational.
3. Designed to protect the mail from weather.
4. Safe to use.
5. Conveniently located.
6. Neat in appearance.

Additional information is available on the Delivery and Post Office Operations website at http://blue.usps.gov/delret/L4CityDelvry_GROWTH.htm.

Mailboxes that meet these six important requirements help delivery and collection operations and improve service to the entire route. There are four approved styles of curbside mailboxes:

1. Traditional design (see Exhibit A1, page 4).
2. Traditional design–wide (see Exhibit A2, page 4).
3. Contemporary design (see Exhibit B, page 4).
4. Locked, full, or limited service.

USPS-STD-7C governs the design and specifications of curbside mailboxes and includes provisions for improved quality of the product.

Notice 209

Postmasters should send Notice 209, *Mailbox Improvement Week*, to all rural and highway contract box delivery route customers the week before Mailbox Improvement Week to alert them of the event.

Notice 209 for Mailbox Improvement Week may be ordered through the U.S. Postal Service eBuy2 Ordering System under the MDC eBuy2 catalog or the Touch Tone Order Entry (TTOE) system.

The National Stock Number (NSN) to search under is 7610-03-000-9145 and the Postal Service Item Number (PSIN) is NOT209. If you already have a 10-digit access code

for Touch Tone Order Entry, please dial 800-273-1509 to place your order. If you do not already have an access code, dial 800-332-0317 to register for Touch Tone Order Entry.

City Motorized, Rural, and Contract Delivery Service Routes

Customers must use only approved traditional, contemporary, or locked full/limited service curbside mailboxes for new installations or replacements. When new delivery is established or extended, Postmasters must ensure that customers use delivery equipment that is approved by the Postmaster General. However, a customer may use a custom-built *curbside mailbox* if the local Postmaster gives prior approval and the mailbox conforms generally to the same requirements as approved manufactured curbside mailboxes relative to the flag, size, strength, and quality of construction.

Note: Postmasters *do not have the authority* to approve mailbox systems such as USPS-STD-4C wall-mounted units or cluster box units (CBUs) that are not approved by the Postmaster General through the normal USPS® approval process.

Carriers on motorized city routes may continue to serve mailboxes that are designed primarily for use by customers receiving door delivery and that have been erected and served under previous regulations (see Exhibit C, page 4). However, carriers should advise customers that they may use only approved curbside mailboxes when replacing these types of mailboxes. A list of approved manufacturers of traditional curbside mailboxes appears on pages 8–11.

Exhibit A1

Exhibit A2

Exhibit B

Exhibit C

For motorized city routes, and where the use of street names and house numbers is authorized on rural and contract delivery service routes, the mailbox must display the number on the side of single mailboxes or on the door of grouped mailboxes. If the mailbox is on a street other than the one on which the customer resides, the street name and house number must be on the mailbox. When rural and contract delivery service route customers have assigned box numbers, the numbers must appear on the side of single mailboxes or on the doors of grouped mailboxes, visible to the approaching carrier. The street number, box number, and any other address information must be inscribed in contrasting color in neat letters and numerals not less than 1 inch in height. In all instances, placing the owner's name on the box is optional, but not recommended by the Postal Service.

Motorized city, rural, and contract delivery service route customers should be encouraged, but not required, to group mailboxes whenever practical, especially where many mailboxes are located at or near crossroads, service turnouts, or similar locations. Customers should also paint mailboxes and supports/posts and keep them rust-free. Advertising on mailboxes and mailbox supports is prohibited.

In areas where snow removal is a problem, the Postal Service suggests using a semi-arch or extended arm-type support (see Exhibit D, below), which allows snowplows to sweep near or under mailboxes without damaging supports and provides easy access to the mailboxes by carriers and customers.

Generally, mailboxes should be installed at a height of 41–45 inches from the road surface to the bottom of the mailbox or point of mail entry. Mailboxes should be set back 6–8 inches from the front face of the curb or road edge to the mailbox door. However, because of varying road and curb conditions and other factors, the Postal Service recommends that customers contact their local Post Office™ before erecting or replacing mailboxes and supports.

Exhibit D

Location

Customers must place mailboxes on motorized city, rural, and contract delivery service routes so a carrier can safely and conveniently serve them without leaving his or her vehicle. The mailboxes must be on the right-hand side of the road in the carrier's travel direction in all cases where traffic conditions make it dangerous for the carrier to drive to the left to reach the mailboxes, or where doing so would constitute a violation of traffic laws and regulations. *Postal Operations Manual* (POM) 632.6 specifies postal regulations regarding locations for apartment houses and other multiple unit dwellings. On new rural and contract delivery service routes, all mailboxes must be on the right-hand side of the road in the direction of the route line of travel. Mailbox placement must conform with state laws and highway regulations. City motorized, rural, and contract delivery service route carriers are subject to the same traffic laws and regulations as other motorists. Customers must remove obstructions, including vehicles, trash cans, and snow, that impede safe and efficient delivery. Except when a mailbox is temporarily blocked, carriers must have access to the mailbox without leaving the vehicle unless authorized to dismount.

Location of centralized delivery equipment is discussed during planning and prior to the start of construction whenever possible. Discussing equipment locations early in the process allows for builders and USPS officials to determine the safest and most efficient locations for equipment. By co-locating boxes, USPS and the building industry realize the best return on the investments of centralized delivery. Factors to consider when determining locations for centralized delivery equipment include but are not limited to the following:

- Co-locating delivery equipment.
- Carriers' line of travel.

- Customer and carrier safety.
- Customer accessibility (sufficient turnaround space and access for customers with mobility disabilities).
- Equipment security.

Mailbox Supports

The Postal Service does not regulate mailbox supports in any way except for purposes of carrier safety and delivery efficiency. Posts and other supports for curbside mailboxes are owned and controlled by customers, who are responsible for ensuring that posts are neat and adequate in strength and size. Heavy metal posts, concrete posts, and miscellaneous items of farm equipment, such as milk cans filled with concrete, are examples of potentially dangerous supports. The ideal support is an assembly that bends or falls away when struck by a vehicle. Post or support designs may not represent effigies or caricatures that disparage or ridicule any person. Customers may attach the box to a fixed or movable arm. POM 632.5 specifies postal regulations regarding construction and placement of mailboxes and supports on motorized city, rural, and contract delivery service routes.

The Federal Highway Administration (FHWA) has determined that wooden mailbox supports no larger than 4 inches by 4 inches, or a 2-inch diameter standard steel or aluminum pipe, buried no more than 24 inches, should safely break away if struck by a vehicle. According to FHWA, the mailbox must also be securely attached to its post to prevent separation if struck. See Exhibits E (page [6](#)) and F (page [7](#)) for examples of mailbox mountings and supports suggested by the FHWA.

Make Your Mailbox Green — Rightsize Your Mailbox

There are many items to consider when selecting your curbside mail receptacle. Your mailbox is where your Postal Service carrier places your mail at the time of delivery, but what about your packages?

A mail receptacle that can accommodate small packages will protect them from inclement weather and offer a safe haven for packages that may otherwise be left at your doorstep.

A mail receptacle large enough for larger packages to be placed inside can also be a convenient area for your carrier to pick up your outgoing packages through the USPS free Carrier Pickup™ program. By saving a trip to the Post Office, you conserve gasoline, save time, and help the environment.

Greener Mailboxes Lead to Greener Neighborhoods

Every mailbox appropriately constructed, installed, and in good physical condition allows the Postal Service to deliver the mail safely and efficiently, thus eliminating a trip to the Post Office for our customers, which saves fuel, thereby reducing carbon dioxide emissions.

However, the “greenest” form of mail delivery occurs where centralized mail delivery systems are located in neighborhoods that serve multiple residents from a single location.

Sometimes referred to as “clustered mailboxes” or “community mailboxes”, these neighborhood mailbox centers provide the greatest amount of fuel savings and carbon emission reductions because of the built-in efficiency of less truck idle time due to the carrier’s ability to deliver mail to multiple customers during a single stop.

When the Postal Service increases the use of centralized delivery for new and existing customers, the benefits to our environment are significant. We realize immediate fuel savings, reductions in carbon emissions, and “greener” neighborhoods everywhere across the country.

In addition to fostering a sense of community, centralized delivery provides the added benefits of secure equipment for mail and package delivery, outgoing mail collection, and reduced carbon emissions.

So, if you’re establishing or extending centralized delivery in your area of operations, or as a customer, moving into or living in a neighborhood served through centralized mail delivery, know that you are also helping to improve your environment because your neighborhood is served using the greenest form of mail delivery.

Cluster Box Units and All-Weather Parcel Lockers

During Mailbox Improvement Week, Postmasters and managers or their designees must review all cluster box units (CBUs), neighborhood delivery and collection box units (NDCBUs), and outdoor parcel lockers (OPLs) in their delivery areas to identify any hazards or irregularities, and they must record the results of the review.

Note: NDCBUs are not approved for use in new delivery or as replacement units for existing NDCBUs — even when privately purchased. Postal Service officials must not install Arrow locks in new NDCBUs or initiate delivery to NDCBU units installed as replacements.

Upon completing the reviews, keep a copy in your local office and send consolidated copies to the designated growth coordinator for each district. Use PS Form 8143, *Equipment Checklist and Followup Review*, in conducting and recording the reviews. PS Form 8143 is available in this *Postal Bulletin* (see Exhibit G on page 17). PS Form 8143 is also available on the PolicyNet website at <http://blue.usps.gov/cpim/>; click *Forms*. Employees conducting the reviews must complete PS Form 1624, *Delivery/Collection Equipment Work Request*, for any equipment that poses a safety hazard to postal customers or employees. You can order PS Form 1624 from the MDC using touch-tone order entry (see page 3 for MDC ordering instructions), or download it from the PolicyNet website at <http://blue.usps.gov/cpim/>. Wall-Mounted Centralized Mail Receptacles

USPS-STD-4C

USPS-STD-4C was fully implemented on October 6, 2006. All new multi-unit constructions with building permits submitted before October 6, 2006, retain the option of using apartment-style receptacles built to the specifications of USPS-STD-4B+.

All multi-unit construction with building plans submitted on October 6, 2006, or later are required to use wall-mounted mail receptacles built and approved to the specifications of USPS-STD-4C.

The receptacles offer:

- Improved compartment security.
- Customer-friendly compartment designs, which allow mail to be placed flat into the compartment.
- Increased ease of use for carriers
- Larger customer compartment capacity for small parcels and rolls (SPRs), small parcels, and large volumes of mail.
- One parcel locker for every 10 customer compartment ratios for installations with 10 customer compartments or more.
- Secure outgoing mail compartments.

The use of USPS-STD-4C boxes is primarily intended for new construction and not as a means of retrofitting existing complexes. However, buildings undergoing significant renovations or rehabilitations may be required to convert to wall-mounted receptacles that are USPS-STD-4C compliant. If these renovations include significant structural changes and present an opportunity for more complete makeovers, the builders should include 4C receptacles. Buildings that are simply remodeling or changing the outward/surface appearance of the lobby are *not* considered examples of renovations that would trigger the use of 4C receptacles.

If you have additional questions, contact your area or district growth coordinators for further information, or send an email to wallmountedreceptacles@usps.gov.

Apartment House Mail Receptacles — Horizontal and Vertical

Note: The Postal Service has revised USPS-STD-4B. The new standard is USPS-STD-4C.

For replacement of existing equipment, security enhanced versions of both horizontal and vertical boxes are now available. They are referred to as “USPS-STD-4B+” boxes and are designed to fit cleanly into buildings with old USPS-STD-4B boxes.

USPS-STD-4B+ boxes are approved for Postal Service mail delivery for existing indoor installations or existing protected outdoor locations. However, the Postal Service does not approve the purchase of this equipment for new installations and will not install Arrow locks in any such equipment. You may only order *replacement* parts for Postal Service-owned equipment that was installed in the past.

Licensing

USPS licenses two products of USPS-approved delivery and collection equipment for sale to customers other than USPS itself: a) customer compartment locks (O910A and B) used in centralized delivery equipment, and b) the CBU, which, when combined with the O910 lock, surpasses a required security level. Commercial manufacturers who wish to become licensed suppliers of either the O910 lock (USPS-L-1172D) or the CBU (USPS-B-1118G) should contact the following office for application procedures.

Equipment Review Procedure

Employees must use the CBU and parcel locker equipment checklist and follow-up review procedure when examining the condition of CBUs, NDCBUs, and OPLs. You must:

1. List the 5-digit, USPS-marked postal ID number of the unit. This is usually visible on the front or side of the body or pedestal. If a postal ID number is not available, list the unit location, equipment type, and manufacturer in the left-hand column. If you are able to access the back of the unit, list the unit's

vendor-supplied serial number. You *must* distinguish the type listed as an NDCBU or CBU.

2. Assign each checklist item one of the following ratings:
 - a. OK — Equipment does not need attention for this item.
 - b. X — Equipment needs attention for this item.
 - c. NA — Item does not apply to this particular piece of equipment.
3. When examining the equipment, use the instructions below to complete PS Form 8143:
 - a. Check equipment. All delivery and collection equipment should be straight, vertical, and firmly mounted. For safety concerns, please ensure that customer compartments are facing **away** from the street (refer to the safety note below) or are oriented such that safe collection and delivery of the mail may occur. Visually verify that four bolts/nuts are firmly in place securing the pedestal to the concrete pad and to the delivery equipment. Apply hand pressure to the top edge of the unit from the front side. While the unit may flex under the load, verify that the pedestal stays firmly mounted to the concrete and that the unit does not separate from the pedestal.

Note: For safety concerns, ensure that customer compartments are located such that customers do not have to stand in the street to access their mail or that letter carriers do not have to stand in the street to deliver mail. Consider all factors of equipment location including setbacks from streets that may allow customer compartments to face the road, but be of such a distance so as not to affect the safe delivery and collection of mail.

- b. Check visible welds. Make note of cracked, broken, or rusted welds. For NDCBUs and OPLs only, tap the pedestal with a lightweight hammer, especially along the seams, to check for corrosion from the inside out or perforated corrosion.
- c. For CBUs and NDCBUs, observe whether the carrier access door is locked and secure. Open it and observe whether it is bowed or warped and whether the door and locking bar operate smoothly. With the carrier access door open, check whether restraining devices prevent the two master doors from blowing closed. These devices, which may have to be set manually, should be serviceable.
- d. Ensure that the Arrow lock operates smoothly and easily and that the mounting hardware is tight. For NDCBUs, CBU parcel doors, and OPLs, the

protective cover that shields the Arrow lock from customer tampering or theft must be serviceable and firmly attached.

- e. For OPLs, secure the cover that protects the Arrow lock from theft with the proper quantity of tamper-resistant screws.
 - f. Ensure that all customer access doors are present, closed, and locked with no visible damage or signs of forced entry. Check that customer door numbers are legible.
 - g. Ensure that the exterior surface of the unit is free from rust and graffiti.
 - h. Examine the unit. Check it for defects or damage and whether it reflects a proper Postal Service image.
 - i. Check whether the unit and any protecting structure appears watertight and in good repair. Check whether there are any noticeable watermarks inside the unit or any wet mail.
 - j. Note any other conditions that require attention. Also, look for signs of vandalism such as pry marks on doors and locks.
4. Record the results of the inspection on the checklist.
 5. Submit the completed PS Form 1624 for each unit reviewed to the maintenance office responsible for centralized delivery equipment installation or repair in the area.

Carriers must note equipment deficiencies and report them to the Postmaster, supervisor, or designee. The Postmaster or designee must then submit PS Form 1624 reporting the equipment defects. In addition, carriers should complete PS Form 1767, *Report of Hazard, Unsafe Condition, or Practice*, for items that pose an immediate threat to safety, such as an improperly secured or leaning NDCBU/CBU. You can order PS Form 1767 from the MDC using touch-tone ordering procedures (see page 3). Ordering information for PS Form 1767 is as follows:

PSIN:	PS1767
PSN:	7530-01-000-9422
Unit of Issue:	SE
Quick Pick Number:	141
Bulk Pack Quantity:	1000
Minimum Order:	25
Price:	\$0.0570

The Postmaster or supervisor must immediately notify by telephone the office responsible for repair of reported hazards. The Postmaster or supervisor must follow up to ensure that the work is satisfactorily completed and documented. The office responsible for repair should use its local buying authority to accomplish the repairs.

In January of 1999, the Postal Service announced that NDCBUs cannot be installed for delivery of mail beginning in FY 2000. As previously stated, there are no waivers granted for this policy. Place all orders for CBUs and OPLs against the national contracts listed below. Use eBuy2 to place all orders.

Graffiti on mailboxes? There is a new special soy-based cleaner available through eBuy or the MDC identified as "Cleaner, Graffiti Remover, Collection Box" PSN: 7930-13-000-4764. Cost \$17.41 per 22 oz. bottle.

This product has proven successful in removing graffiti from collection boxes. While most effective on the most current collection boxes when treated as graffiti-resistant, this cleaner may still prove effective with any legacy equipment that has a good quality paint coating. For older collection boxes, test the product in an inconspicuous spot on the collection box to ensure it does not damage the current paint coating.

For eBuy2 ordering instructions, go to the Postal Service Intranet at <http://blue.usps.gov>; and in the left-hand column, click *eBuy/eBuy2*. You may also call 800-USPS-HELP for additional help.

State and Local Regulations

Some states have enacted laws that are more stringent and specific about the type of mailbox that may be used, the post or support that must be used to mount the mailbox, and the location of the delivery equipment. Regulations and recommendations published in this notice might not reflect appropriate requirements for your area. When providing guidance to the general public concerning mailbox placement and replacement, advise them not only of Postal Service regulations but also of any mailbox regulations that you know have been enacted by state or local authorities. Publicity

Postmasters must give these guidelines and suggestions maximum local publicity. Consult your area Corporate Communications representative for further guidance and assistance in publicizing Mailbox Improvement Week. The news release on page [19](#) is provided for Postmasters to distribute to daily or weekly newspapers or broadcast stations in their delivery area to promote Mailbox Improvement Week. You may also find it helpful to alert the media to locations of particularly interesting mailboxes in your delivery area.

Responsibility

Motorized city, rural, and contract delivery service route carriers must cooperate to ensure the success of this endeavor, and later report the results to the Postmaster. In addition, Postmasters should use the most up-to-date list of manufacturers and mailbox suppliers when providing motorized city, rural, and contract delivery service route customers with information about the type of box to install.

Mailbox Improvement Week Arrives in Time for Spring Cleaning

The U.S. Postal Service is asking all **[city name]** homeowners to inspect and repair their mailboxes during Mailbox Improvement Week, May 15–21, says Postmaster **[full name]**.

“Repairing suburban and rural mailboxes improves the appearance of our community and makes delivering and receiving mail safer for our carriers and customers,” **[last name]** says.

The Postal Service makes this annual request because of the wear and tear that occurs to mailboxes every year. “This is especially important after the effects of last winter,” **[he/she]** adds **[if applicable]**.

Some of the typical activities that may need to be done include:

- Replacing loose hinges on a mailbox door.
- Repainting a mailbox that may have rusted or started peeling.
- Remounting a mailbox post if loosened.
- Replacing or adding house numbers.

“If a homeowner plans to install a new mailbox or replace a worn one, he or she must use only Postal Service–approved traditional, contemporary or locking full/limited service mailboxes,” said **[last name]**. “Customers should be careful when purchasing curbside mail receptacles because the use of unapproved boxes is prohibited. Customers may use a custom-built mailbox, but they must consult with my office to ensure it conforms to guidelines applying to flag, size, strength and quality of construction.”

For more information on the use of names or numbers on mailboxes, or answers to any other questions, contact Postmaster **[full name]** at **[phone number]** or call your local Postmaster at **[phone number]**.

ELM Revision: Non-Postal Training Guidelines and Continued Service Agreement

Effective May 12, 2016, the Postal Service™ is revising the *Employee and Labor Relations Manual* (ELM), Chapter 7, to update the language and process around tuition reimbursement now referred to as “Authorization for Non-Postal Training.” Historically, employees were required to solicit approval in advance of any non-postal training opportunity, which made the terminology “tuition

reimbursement,” in essence, not the correct process terminology. Changes to the name of this program, now referred to as “Authorization for Non-Postal Training,” along with a realignment of the costs associated with the Continued Service Agreement (CSA) are included in this revision.

743.41 Condition for Signing

[Revise the text of 743.41 to read as follows:]

Employees who enroll in an undergraduate or graduate degree program, or an internal leadership program (such as the Managerial Leadership Program or the Advanced Leadership Program) must sign a Continued Service Agreement and certification statement and submit it to the Director, Learning and Development before starting the program (see Exhibit 743.43). Employees who enroll in individual college/university courses, a certification program, or an executive development program must also sign a Continued Service Agreement and certification statement, if dollar thresholds are met. The Director, Learning and Development forwards the Continued Service Agreement accountable information approved by the CHRO to the HRSSC for entry into the HCES.

If an employee completes more than five Non-Postal training courses within three consecutive years, the employee will be considered to be working toward the completion of an academic degree and will accordingly be required to complete a Continued Service Agreement before taking any additional courses.

Employees do not have to sign the agreement and certification when:

- a. Training is provided by a manufacturer as a normal service incidental to the initial purchase or lease of products under a procurement contract.
- b. There are no expenses to the Postal Service other than salary.

743.42 Period of Commitment

[Revise the text of 743.42 to read as follows:]

Employees will be required to complete a certain period of service following the completion of their internal leadership program, degree program, certification program, course(s), or executive development program. The commitment period begins immediately upon completion of training. Employees who separate from the Postal Service before completing their course, program, certification, or executive development program will be required to reimburse the Postal Service for all expenses the Postal Service incurred in connection with the employee's pursuit of the training. The commitment for each type of program is as follows:

- a. 1 year for programs that have a cost range from \$5,000 to \$20,000.
- b. 2 years for programs that have a cost range from \$20,000 to \$50,000 (to include MLP and ALP).
- c. 3 years for programs that have a cost range from \$50,000 to \$75,000.
- d. 4 years for programs that have a cost range from \$75,000 to \$100,000.
- e. 5 years for programs \$100,000 and up.

Approval will not be granted for participation in a doctoral program.

Note: When an employee enrolls in an executive-level graduate program (i.e., the Sloan Fellows Program) the employee's status is changed to "Executive in Training." This becomes the participant's work assignment and governs the terms and conditions of employment. Sloan Fellows are still responsible for reimbursing the Postal Service in accordance with the terms of their Continued Service Agreement, if they do not complete the requisite year(s) of service.

If the Postal Service is unable to collect the entire gross amount that I owe from my forthcoming pay check(s) or payment of any kind, I will be invoiced for any outstanding debt and agree to pay the Postal Service within thirty (30) days of receipt of any such invoice. In the event that I do not pay the Postal Service in full within thirty (30) days of receipt of any such invoice, I authorize the Postal Service to take any further collection action, including but not limited to, referral of my debt to the Office of Personnel Management and or to the United States Treasury Department for collection from any available funds due to me.

Invalid USPS Corporate Account Numbers

This listing should be provided to Contract Postal Units and used by acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. The online validation process is outlined in the USPSCA Validation SOP on the Retail webpage. This list supersedes all previous notices,

which must be recycled. Acceptance clerks must not accept Priority Mail Express™ shipments bearing an invalid USPSCA number in the “Payment by Account” or “Agreement Number” section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <https://www.usps.com/shop/money-orders.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks should use the table with the POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply. Inquiries may be sent to the Military Postal Service Agency at <https://amps.usps.gov/ijy2/frm.htm>.

The entries under “Changes” appear in bold in the APO/FPO/DPO table starting below.

Information Security

Reset Your ACE Login Credentials and Create Strong Passwords

Information security is our shared responsibility when we connect online at work and at home. CyberSafe at USPS™ offers tips to reset and create strong Postal Service™ passwords. Your password is like the key to your house, safeguarding important information stored on your computers and devices. By taking the appropriate steps to reset your ACE ID credentials and create strong passwords, you can guard the Postal Service's information resources.

Here are tips for resetting your ACE ID password and creating strong credentials.

Reset Your ACE ID Password

To view step-by-step instructions for resetting your ACE password, review this video posted on the CyberSafe at USPS Blue site: <http://blue.usps.gov/cyber/reset-passwords.htm>. Users may also refer to the instructions for password reset: <http://blue.usps.gov/cyber/security-password-reset.htm>.

Most ACE users are required to change their password every 90 days or when prompted by the system. For additional guidelines: <http://blue.usps.gov/cyber/assets/pdf/epassword-reset-and-eaccess-password-recovery-setttings-quick-tips.pdf>.

Create a Strong and Unique Password

To create strong, memorable online passwords for your ACE credentials, follow these tips:

- Use a combination of uppercase and lowercase letters, numbers, and special characters to create strong passwords that are difficult to guess.
- Passwords must not contain any part of the user's name. Also, don't use your ACE login ID as part of your password.
- Think of a favorite phrase and use it as a password, substituting some letters with other kinds of characters.

Once a password is created, never share it with anyone. Online security is a priority for USPS® employees, customers, and suppliers, so safeguard your passwords.

If you suspect that your password has been compromised, notify the CyberSecurity Operations Center (CSOC) via email at CyberSafe@usps.gov or by calling 866-877-7247.

CyberSafe at USPS offers additional resources on information security and sharing data at <http://blue.usps.gov/cyber/>. USPS has also partnered with the Department of Homeland Security's (DHS) Stop. Think. Connect™ campaign. DHS addresses performing a data back up on their website: <https://www.stopthinkconnect.org/>.

Online security is a priority for USPS employees, customers, and suppliers, so share information safely!

Stamp Announcement 16-21: Indiana Statehood Stamp

© 2015 USPS

On June 7, 2016, in Indianapolis, IN, the U.S. Postal Service® will issue the *Indiana Statehood* stamp (Forever® priced at 47 cents) in one design, in a pressure-sensitive adhesive (PSA) pane of 20 stamps (Item 473700).

The stamp will go on sale nationwide June 7, 2016.

This stamp celebrates the 200th anniversary of Indiana's statehood. Known as the Hoosier State, Indiana became the 19th state of the Union on December 11, 1816. The stamp features a contemplative photograph of the expansive cornfields near Milford, Indiana. The photographer, Michael Matti, grew up in Milford and had driven past that view hundreds of times until one day he decided to pull over, stand on top of his car, and take in the beautiful sunset. Art director Derry Noyes designed the stamp with Matti's existing photograph.

Initial Supply to Post Offices: Item 473700, Indiana Statehood (Forever priced at 47 cents) Commemorative PSA Pane of 20 Stamps

Stamp Fulfillment Services will make an automatic push distribution to Post Offices™ of a quantity to cover approximately 30 days of sales. Distribution quantities for the automatic push distribution are available by logging on to SFS Web at <https://sfsweb.usps.gov>. Post Offices™ may begin ordering stamps prior to the FDOI through SFS Web. However, offices should check the website noted above to determine the amount they will receive on their automatic push distribution.

Special Dedication Postmarks

Only the following pictorial postmark is permitted for the *Indiana Statehood* stamp. The word "Station" or the abbreviation "STA" is required somewhere in the design, because it will be a temporary station.

Guidelines for Finalizing *Indiana Statehood* Stamp Pictorial Postmark Art

To finalize the *Indiana Statehood* stamp pictorial postmark art, insert the date, city, state, and ZIP Code™ of the physical location of your event adjacent to the stamp image. Overall dimensions of the pictorial postmark must not exceed 4 inches horizontally by 2 inches vertically. Collectors prefer the dimensions 3-1/2 inches by 1.

The Postal Service™ must make all special postmarks known to collectors through advance publicity in the *Postal Bulletin*. Therefore, all special dedication cancellations must be reported to Stamp Services four weeks before the event using PS Form 413, *Pictorial Postmark Announcement/Report*. To get a copy of the form, go to <http://blue.usps.gov/formmgmt/forms/ps413.pdf>.

Stamp Announcement 16-22: EID Greetings Stamp

© 2015 USPS

On June 10, 2016, in Dearborn, MI, the U.S. Postal Service® will issue the *EID Greetings* stamp (Forever® priced at 47 cents) in one design, in a pressure-sensitive adhesive (PSA) pane of 20 stamps (Item 556200).

The stamp will go on sale nationwide June 10, 2016.

With a design that evokes centuries of tradition, this stamp featuring gold calligraphy and an olive branch against a brilliant blue background commemorates the two most important festivals — or eids — in the Islamic calendar: Eid al-Fitr and Eid al-Adha. On these days, Muslims wish each other *Eidukum mubarak*, the phrase shown in Islamic calligraphy on the stamp. *Eidukum mubarak* translates literally as “May your Eid be bountiful (or blessed),” a phrase that can be applied to both Eid al-Fitr and Eid al-Adha. Artist and calligrapher Mohamed Zakariya worked with art director Ethel Kessler to create this design.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first-day-of-issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at www.usps.com/shop.

Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should

submit a check, money order, or credit card for payment. After applying the first-day-of-issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first-day-of-issue city. The first-day-of-issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of

paper rated as “laser safe.” The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified

envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first-day-of-issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.
