Delivery

Mailbox Improvement Week, May 14–20, 2017

Each year, the Postal Service™ designates the third full week of May as Mailbox Improvement Week to encourage customers on city motorized, rural, or contract delivery service routes (formerly highway contract box delivery routes) to examine and, where necessary, improve the appearance of their mailboxes. Neat, attractive mailboxes make a significant contribution to the appearance of the countryside and streets in suburban areas. Mailbox Improvement Week, May 14–20, calls attention to the need for providing mailboxes that are:

1. Approved by the Postmaster General.
2. Fully operational.
3. Designed to protect the mail from weather.
4. Safe to use.
5. Conveniently located.
6. Neat in appearance.

Additional information is available on the Delivery and Post Office Operations website at blue.usps.gov/delret/L4CityDelvry_GROWTH.htm.

Mailboxes that meet these six important requirements help delivery and collection operations and improve service to the entire route. There are four approved styles of curbside mailboxes:

1. Traditional design (see Exhibit A1, page [4](#)).
2. Traditional design-wide (see Exhibit A2, page [4](#)).
3. Contemporary design (see Exhibit B, page [4](#)).
4. Locked, full, or limited service.

USPS-STD-7C governs the design and specifications of curbside mailboxes and includes provisions for improved quality of the product.

Notice 209

Postmasters must send Notice 209, *Mailbox Improvement Week*, to all rural and highway contract box delivery route customers the week before Mailbox Improvement Week to alert them of the event.

Postmasters may order Notice 209 for Mailbox Improvement Week through the U.S. Postal Service® eBuy2 Ordering System under the MDC eBuy2 catalog or the Touch Tone Order Entry (TTOE) system.

The Postal Service Stocking Number (PSN) to search under is 7610-03-000-9145 and the Postal Service Identification Number (PSIN) is NOT209. If you already have a 10-

digit access code for TTOE, please dial 800-273-1509 to place your order. If you do not already have an access code, dial 800-332-0317 to register for TTOE.

City Motorized, Rural, and Contract Delivery Service Routes

Customers must use only approved traditional, temporary, or locked full/limited service curbside mailboxes for new installations or replacements. When new delivery is established or extended, Postmasters must ensure that customers use delivery equipment that the Postmaster General has approved. However, a customer may use a custom-built *curbside mailbox* if the local Postmaster gives prior approval and the mailbox conforms generally to the same requirements as approved manufactured curbside mailboxes relative to the flag, size, strength, and quality of construction.

Note: Postmasters *do not have the authority* to approve mailbox systems such as USPS-STD-4C wall-mounted units or cluster box units (CBUs) that the Postmaster General has not approved through the normal USPS® approval process.

Carriers on motorized city routes may continue to serve mailboxes that are designed primarily for use by customers receiving door delivery and that have been erected and served under previous regulations (see Exhibit C, page [4](#)). However, carriers are to advise customers that they may use only approved curbside mailboxes when replacing these types of mailboxes. A list of approved manufacturers of traditional curbside mailboxes appears on pages [8–14](#).

Exhibit A2, Traditional Design - Wide

Exhibit B, Contemporary Design

Exhibit C, Door Delivery

For motorized city routes, and where the use of street names and house numbers is authorized on rural and contract delivery service routes, the mailbox must display the number on the side of single mailboxes or on the door of grouped mailboxes. If the mailbox is on a street other than the one on which the customer resides, the street name and house number must be on the mailbox. When rural and contract delivery service route customers have assigned box numbers, the numbers must appear on the side of single mailboxes or on the doors of grouped mailboxes, visible to the approaching carrier. The street number, box number, and any other address information must be inscribed in contrasting color in neat letters and numerals not less than 1 inch in height. In all instances, placing the owner's name on the box is optional, but not recommended by the Postal Service.

The Postal Service encourages, but does not require, motorized city, rural, and contract delivery service route customers to group mailboxes whenever practical, especially where many mailboxes are located at or near crossroads, service turnouts, or similar locations. Customers must also paint mailboxes and supports/posts and keep them rust-free. The Postal Service prohibits advertising on mailboxes and mailbox supports.

In areas where snow removal is a problem, the Postal Service suggests using a semi-arch or extended arm-type support (see Exhibit D), which allows snowplows to sweep near or under mailboxes without damaging supports and provides easy access to the mailboxes by carriers and customers.

Generally, customers must install mailboxes at a height of 41–45 inches from the road surface to the bottom of the mailbox or point of mail entry. Also, customers must set mailboxes back 6–8 inches from the front face of the curb or road edge to the mailbox door. However, because of varying road and curb conditions and other factors, the Postal Service recommends that customers contact their local Post Office™ before erecting or replacing mailboxes and supports.

Exhibit D, Extended Design

Location

Customers must place mailboxes on motorized city, rural, and contract delivery service routes so a carrier can safely and conveniently serve them without leaving his or her vehicle. The mailboxes must be on the right-hand side of the road in the carrier's travel direction in all cases where traffic conditions make it dangerous for the carrier to drive to the left to reach the mailboxes, or where doing so would constitute a violation of traffic laws and regulations. *Postal Operations Manual* (POM) 632.6 specifies postal regulations regarding locations for apartment houses and other multiple unit dwellings.

On new rural and contract delivery service routes, all mailboxes must be on the right-hand side of the road in the direction of the route line of travel. Mailbox placement must conform with state laws and highway regulations. City motorized, rural, and contract delivery service route carriers are subject to the same traffic laws and regulations as other motorists. Customers must remove obstructions, including vehicles, trash cans, and snow, that impede safe and efficient delivery. Except when a mailbox is temporarily blocked, carriers must have access to the mailbox without leaving the vehicle unless authorized to dismount.

Builders and USPS officials discuss the location of centralized delivery equipment during planning and before the start of construction whenever possible. Discussing equipment locations early in the process allows for builders and USPS officials to determine the safest and most efficient locations for equipment. By co-locating boxes, the USPS and the building industry realize the best return on the investments of centralized delivery. Factors to consider when determining locations for centralized delivery equipment include but are not limited to the following:

- Co-locating delivery equipment.
- Carriers' line of travel.

- Customer and carrier safety.
- Customer accessibility (sufficient turnaround space and access for customers with mobility disabilities).
- Equipment security.

Mailbox Supports

The Postal Service does not regulate mailbox supports in any way except for purposes of carrier safety and delivery efficiency. Customers own and control posts and other supports for curbside mailboxes and are responsible for ensuring that posts are neat and adequate in strength and size. Heavy metal posts, concrete posts, and miscellaneous items of farm equipment, such as milk cans filled with concrete, are examples of potentially dangerous supports. The ideal support is an assembly that bends or falls away when struck by a vehicle. Post or support designs may not represent effigies or caricatures that disparage or ridicule any person. Customers may attach the box to a fixed or movable arm. POM 632.5 specifies postal regulations regarding construction and placement of mailboxes and supports on motorized city, rural, and contract delivery service routes.

The Federal Highway Administration (FHWA) has determined that wooden mailbox supports no larger than 4 inches by 4 inches, or a 2-inch diameter standard steel or aluminum pipe, should safely break away if struck by a vehicle. According to FHWA, customers must also securely attach the mailbox to its post to prevent separation if struck. See Exhibits E (page [6](#)) and F (page [7](#)) for examples of mailbox mountings and supports suggested by the FHWA.

Make Your Mailbox Green — Rightsize Your Mailbox

There are many items to consider when selecting your curbside mail receptacle. Your mailbox is where your Postal Service carrier places your mail at the time of delivery, but what about your packages? You may want to consider:

- A mail receptacle that can accommodate small packages will protect them from inclement weather and offer a safe haven for packages that the carrier may otherwise leave at your doorstep.
- A mail receptacle that's large enough for larger packages to be placed inside can also be a convenient area for your carrier to pick up your outgoing packages through the USPS free Carrier Pickup™ program. By saving a trip to the Post Office, you conserve gasoline, save time, and help the environment.

Greener Mailboxes Lead to Greener Neighborhoods

Every mailbox appropriately constructed, installed, and in good physical condition allows the Postal Service to deliver the mail safely and efficiently, thus eliminating a trip to the Post Office for our customers, which saves fuel, thereby reducing carbon dioxide emissions.

However, the “greenest” form of mail delivery occurs where centralized mail delivery systems are located in neighborhoods that serve multiple residents from a single location.

Sometimes referred to as “clustered mailboxes” or “community mailboxes”, these neighborhood mailbox centers provide the greatest amount of fuel savings and carbon emission reductions because of the built-in efficiency of less truck idle time due to the carrier’s ability to deliver mail to multiple customers during a single stop.

When the Postal Service increases the use of centralized delivery for new and existing customers, the benefits to our environment are significant. We realize immediate fuel savings, reductions in carbon emissions, and “greener” neighborhoods everywhere across the country.

In addition to fostering a sense of community, centralized delivery provides the added benefits of secure equipment for mail and package delivery, outgoing mail collection, and reduced carbon emissions.

So, if you’re establishing or extending centralized delivery in your area of operations, or as a customer, moving into or living in a neighborhood served through centralized mail delivery, know that you are also helping to improve your environment because the Postal Service uses the greenest form of mail delivery to serve your neighborhood.

Cluster Box Units and All-Weather Parcel Lockers

During Mailbox Improvement Week, Postmasters and managers or their designees must review all cluster box units (CBUs), neighborhood delivery and collection box units (NDCBUs), and outdoor parcel lockers (OPLs) in their delivery areas to identify any hazards or irregularities, and they must record the results of the review.

The Postal Service has not approved NDCBUs for use in new delivery or as replacement units for existing NDCBUs – even when privately purchased. Postal Service officials must not install Arrow locks in new NDCBUs or initiate delivery to NDCBUs installed as replacements.

After you complete the reviews, keep a copy in your local office and send consolidated copies to the designated growth coordinator for each district. Use PS Form 8143, *Equipment Checklist and Followup Review*, in conducting and recording the reviews. PS Form 8143 is available in this *Postal Bulletin* (see Exhibit G on page 17). PS Form 8143 is also available on the PolicyNet website at blue.usps.gov/cpim/; click *Forms*. Employees who conduct the reviews must complete PS Form 1624, *Delivery/Collection Equipment Work Request*, for any equipment that poses a safety hazard to Postal Service customers or employees. You can order PS Form 1624 from the MDC using TTOE (see page 3 for MDC ordering instructions), or download it from the PolicyNet website at blue.usps.gov/cpim/. Ordering information for PS Form 1624 is as follows:

Wall-Mounted Centralized Mail Receptacles

USPS-STD-4C

The Postal Service fully implemented USPS-STD-4C on October 6, 2006. All new multi-unit constructions with building permits submitted before October 6, 2006, retain the option of using apartment-style receptacles built to the specifications of USPS-STD-4B+.

All multi-unit construction with building plans submitted on October 6, 2006, or later are required to use wall-mounted mail receptacles built and approved to the specifications of USPS-STD-4C.

The receptacles offer:

- Improved compartment security.
- Customer-friendly compartment designs, which allow the carrier to place mail flat into the compartment.
- Increased ease of use for carriers.
- Larger customer compartment capacity for small parcels and rolls (SPRs), small parcels, and large volumes of mail.
- One parcel locker for every 10 customer compartment ratios for installations with 10 customer compartments or more.
- Secure outgoing mail compartments.

The Postal Service primarily intends the use of USPS-STD-4C boxes for new construction and not as a means of retrofitting existing complexes. However, the Postal Service may require buildings undergoing significant renovations or rehabilitations to convert to wall-mounted receptacles that are USPS-STD-4C compliant. If these renovations include significant structural changes and present an opportunity for more complete makeovers, the builders should include 4C receptacles. The Postal Service does

not consider buildings that are simply remodeling or changing the outward/surface appearance of the lobby examples of renovations that would trigger the use of 4C receptacles.

If you have additional questions, contact your area or district growth coordinators for further information, or send an email to wallmountedreceptacles@usps.gov.

Apartment House Mail Receptacles — Horizontal and Vertical

Note: The Postal Service has revised USPS-STD-4B. The new standard is USPS-STD-4C.

For replacement of existing equipment, security enhanced versions of both horizontal and vertical boxes are now available. They are referred to as “USPS-STD-4B+” boxes and are designed to fit cleanly into buildings with old USPS-STD-4B boxes.

The Postal Service approves USPS-STD-4B+ boxes for mail delivery for existing indoor installations or existing protected outdoor locations. However, the Postal Service does not approve the purchase of this equipment for new installations and will not install Arrow locks in any such equipment. You may only order *replacement* parts for previously installed Postal Service-owned equipment.

Licensing

U.S. Postal Service licenses two products of USPS-approved delivery and collection equipment for sale to customers other than USPS itself: a) customer compartment locks (O910A and B) used in centralized delivery equipment, and b) the CBU, which, when combined with the O910 lock, surpasses a required security level. Commercial manufacturers who wish to become licensed suppliers of either the O910 lock (USPS-L-1172D) or the CBU (USPS-B-1118G) must contact the following office for application procedures.

This proprietary USPS product uses the CBU platform to make it secure and suitable for outdoor use as an exterior PO Box alternative. Similar to locks used on interior PO Boxes, premium PO Box customer locks are also proprietary USPS products. Premium PO Boxes are available for purchase from the U.S. Postal Service only.

Note: For USPS purchasing only; not available commercially.

Equipment Review Procedure

Employees must use the CBU and parcel locker equipment checklist and follow-up review procedure when examining the condition of CBUs, NDCBUs, and OPLs. You must:

1. List the unit's 5-digit, USPS-marked postal ID number. This is usually visible on the front or side of the body or pedestal. If a postal ID number is not available, list the unit location, equipment type, and manufacturer in the left-hand column. If you are able to access the back of the unit, list the unit's vendor-supplied serial number. You *must* distinguish the type listed as an NDCBU or CBU.
2. Assign each checklist item one of the following ratings:
 - a. OK — Equipment does not need attention for this item.
 - b. X — Equipment needs attention for this item.
 - c. NA — Item does not apply to this particular piece of equipment.
3. When examining the equipment, use the instructions below to complete PS Form 8143:
 - a. Check equipment. All delivery and collection equipment should be straight, vertical, and firmly mounted. For safety concerns, please ensure that customer compartments are facing **away** from the street (refer to the safety note below) or are oriented such that safe collection and delivery of the mail may occur. Visually verify that four bolts/nuts are firmly in place securing the pedestal to the concrete pad and to the delivery equipment. Apply hand pressure to the top edge of the unit from the front side. While the unit may flex under the load, verify that the pedestal stays firmly mounted to the concrete and that the unit does not separate from the pedestal.
 - b. For safety concerns, ensure that customer compartments are located such that customers do not have to stand in the street to access their mail or that letter carriers do not have to stand in the street to deliver mail. Consider all factors of equipment location including setbacks from streets that may allow customer compartments to face the road, but be of such a distance so as not to affect the safe delivery and collection of mail.
 - c. Check visible welds. Take note of cracked, broken, or rusted welds. For NDCBUs and OPLs only, tap the pedestal with a lightweight hammer, especially along the seams, to check for corrosion from the inside out or perforated corrosion.
 - d. For CBUs and NDCBUs, observe whether the carrier access door is locked and secure. Open it and observe whether it is bowed or warped and whether the door and locking bar operate smoothly. With the carrier access door open, check whether restraining devices prevent the two master doors from blowing closed. These devices, which you may have to set manually, should be serviceable.
 - e. Ensure that the Arrow lock operates smoothly and easily and that the mounting hardware is tight. For NDCBUs, CBU parcel doors, and OPLs, the protective cover that shields the Arrow lock from customer tampering or theft must be serviceable and firmly attached.
 - f. For OPLs, secure the cover that protects the Arrow lock from theft with the proper quantity of tamper-resistant screws.
 - g. Ensure that all customer access doors are present, closed, and locked with no visible damage or signs of forced entry. Check that customer door numbers are legible.
 - h. Ensure that the exterior surface of the unit is free from rust and graffiti.
 - i. Examine the unit. Check it for defects or damage and whether it reflects a proper Postal Service image.
 - j. Check whether the unit and any protecting structure appears watertight and in good repair. Check whether there are any noticeable watermarks inside the unit or any wet mail.

- k. Note any other conditions that require attention. Also, look for signs of vandalism such as pry marks on doors and locks.
4. Record the results of the inspection on the checklist.
5. Submit the completed PS Form 1624 for each unit reviewed to the maintenance office responsible for centralized delivery equipment installation or repair in the area.

Carriers must note equipment deficiencies and report them to the Postmaster, supervisor, or designee. The Postmaster, supervisor, or designee must then submit PS Form 1624 reporting the equipment defects. In addition, carriers must complete PS Form 1767, *Report of Hazard, Unsafe Condition, or Practice*, for items that pose an immediate threat to safety, such as an improperly secured or leaning NDCBU/CBU. You can order PS Form 1767 from the MDC using touch-tone ordering procedures (see page 3). Ordering information for PS Form 1767 is as follows:

| | |
|----------------------------|------------------|
| PSIN: | PS1767 |
| PSN: | 7530-01-000-9422 |
| Unit of Issue: | SE |
| Quick Pick Number: | 141 |
| Bulk Pack Quantity: | 1000 |
| Minimum Order: | 25 |
| Price: | \$0.0570 |

The Postmaster or supervisor must immediately notify by telephone the office responsible for repair of reported hazards. The Postmaster or supervisor must follow up to ensure that the work is satisfactorily completed and documented. The office responsible for repair must use its local buying authority to accomplish the repairs.

In January 1999, the Postal Service announced that NDCBUs cannot be installed for delivery of mail beginning in FY 2000. As previously stated, the Postal Service does not grant waivers for this policy. Place all orders for CBUs and OPLs against the national contracts. Use eBuy2 to place all orders.

Graffiti on mailboxes? There is a new special soy-based cleaner available through eBuy or the MDC identified as "Cleaner, Graffiti Remover, Collection Box" PSN: 7930-13-000-4764. Cost \$17.41 per 22 oz. bottle.

This product successfully removes graffiti from collection boxes. While most effective on the most current collection boxes when treated as graffiti-resistant, this cleaner may still prove effective with any legacy equipment that has a good quality paint coating. For older collection boxes, test the product in an inconspicuous spot on the collection box to ensure it does not damage the current paint coating.

For eBuy2 ordering instructions, go to the Postal Service intranet at blue.usps.gov; and in the left-hand column, click *eBuy/eBuy2*. You may also call 800-USPS-HELP for additional help.

State and Local Regulations

Some states have enacted laws that are more stringent and specific about the type of mailbox customers may use, the post or support costumers must use to mount the mailbox, and the location of the delivery equipment. Regulations and recommendations published in this notice might not reflect appropriate requirements for your area. When providing guidance to the public concerning mailbox placement and replacement, advise them not only of Postal Service regulations but also of any mailbox regulations enacted by state or local authorities. Publicity

Postmasters must give these guidelines and suggestions maximum local publicity. Consult your area Corporate Communications representative for further guidance and assistance in publicizing Mailbox Improvement Week. We've provided the news release on page 18 for Postmasters to distribute to daily or weekly newspapers or broadcast stations in their delivery area to promote Mailbox Improvement Week. You may also find it helpful to alert the media to locations of particularly interesting mailboxes in your delivery area.

Responsibility

Motorized city, rural, and contract delivery service route carriers must cooperate to ensure the success of this endeavor, and later report the results to the Postmaster. In addition, Postmasters must use the most up-to-date list of manufacturers and mailbox suppliers when providing motorized city, rural, and contract delivery service route customers with information about the type of box to install.

Mailbox Improvement Week Arrives in Time for Spring Cleaning

The U.S. Postal Service is asking all **[city name]** homeowners to inspect and repair their mailboxes during Mailbox Improvement Week, May 14–20, says Postmaster **[full name]**.

“Repairing suburban and rural mailboxes improves the appearance of our community and makes delivering and receiving mail safer for our carriers and customers,” **[last name]** says.

The Postal Service makes this annual request because of the wear and tear that occurs to mailboxes every year. “This is especially important after the effects of last winter,” **[he/she]** adds **[if applicable]**.

Some of the typical activities homeowners may need to do include:

- Replacing loose hinges on a mailbox door.
- Repainting a mailbox that may have rusted or started peeling.
- Remounting a mailbox post if loosened.
- Replacing or adding house numbers.

“If a homeowner plans to install a new mailbox or replace a worn one, he or she must use only Postal Service–approved traditional, contemporary or locking full/limited service mailboxes,” said **[last name]**. “Customers should be careful when purchasing curbside mail receptacles because the use of unapproved boxes is prohibited. Customers may use a custom-built mailbox, but they must consult with my office to ensure it conforms to guidelines applying to flag, size, strength and quality of construction.”

For more information on the use of names or numbers on mailboxes, or answers to any other questions, contact Postmaster **[full name]** at **[phone number]** or call your local Postmaster at **[phone number]**.

Invalid USPS Corporate Account Numbers

Please provide this listing to Contract Postal Units and acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. The online validation process is outlined in the USPSCA Validation SOP on the Retail webpage. This list supersedes all previous notices, which

must be recycled. Acceptance clerks must not accept Priority Mail Express™ shipments bearing an invalid USPSCA number in the “Payment by Account” or “Agreement Number” section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

PULL-OUT INFORMATION

Missing, Lost, or Stolen U.S. Money Order Forms

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

Provide this listing to all Postal Service™ employees responsible for accepting and cashing postal money orders. Destroy all interim notices when the numbers listed

appear in the *Postal Bulletin*. The actual serial numbers consist of the first 10 digits on the money orders. Check for altered dollar amounts by holding money orders to the light.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changed.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at usps.com/shop/money-orders.htm.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks must use the table with the RSS terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply. Send inquiries to the Military Postal Service Agency at amps.usps.gov/jy2/frm.htm.

The entries under “Changes” appear in bold in the APO/FPO/DPO table starting below.

A. Securities, currency, or precious metals, including in their raw, unmanufactured state, are prohibited. Official Mail shipments are exempt from this restriction.

A1. Reserved for future use.

A2. Reserved for future use.

B. Regardless of mail class, a customs declaration (PS Form 2976, PS Form 2976-A, or PS Form 2976-B) is required for all items weighing 16 ounces or more or any item (regardless of weight) containing potentially dutiable mail contents (e.g., merchandise or goods) addressed to or from this ZIP Code. All PMEMS mailpieces (regardless of mail contents or weight) addressed to or from this ZIP Code must bear a properly completed PS Form 2976-B. The surface area of the address side of the mailpiece must be large enough to contain the applicable customs declaration. The following exceptions apply:

- Known mailers are exempt from providing customs documentation on non-dutiable letters or printed matter, except for Priority Mail Express, which requires a customs form for all contents and weights. (A known mailer is a business mailer who enters volume mailings through a business mail entry unit (BMEU) or other bulk mail acceptance location, pays postage through an advance deposit account, uses a permit imprint for postage payment, and submits a completed postage statement at the time of entry that certifies that the mailpieces contain no dangerous materials that are prohibited by postal regulations.)
- All federal, state, and local government agencies whose mailings are regarded as "Official Mail" are exempt from providing customs documentation on any item addressed to an MPO except for those MPOs to which restriction "B2" applies and except for Priority Mail Express, which requires a customs form from all mailers.
- If mailpiece is endorsed "Contents for Official Use — Exempt from Customs Requirements."

B2. All federal, state, and local government agencies must complete customs documentation when sending potentially dutiable mail addressed to or from this MPO or DPO.

C. Cigarettes and other tobacco products, including tobacco leaves, chewing and pipe tobacco, snuff, and cigars are prohibited, including those that are authorized in Publication 52 under PACT.

C1. Obscene and horror articles, images, prints, paintings, cards, films, videotapes, comic books, etc., are prohibited.

D. Coffee is prohibited.

E. Medicines (prescription, over-the-counter, vitamins, and supplements) are prohibited when mailed to individuals for human or animal use. This prohibition does not apply when medicines are sent as Official Mail only between specifically designated agencies such as pharmaceutical distributors, hospitals, clinics, and pharmacies.

E1. Mailers are responsible to ensure that all medicines and vaccines conform to host nation laws.

E2. Any matter depicting nude or seminude persons, pornographic, or sexual items are prohibited. Non-authorized political materials are prohibited. Religious materials contrary to the Islamic faith are prohibited in bulk quantities, but individual items for the personal use of the addressee are permissible.

E3. Radio transceivers, cordless/cellular telephones, global positioning systems, scanners, base stations, and handheld transmitters are prohibited.

F. Firearms of any type are prohibited, except firearms mailed to or by official U.S. government agencies. This restriction does not apply to firearms mailed from this MPO ZIP Code, provided ATF and USPS regulations are met. Antique firearms do not require an ATF form.

F1. Weapons of any type are prohibited.

F2. Mailing firearms to or from this MPO ZIP Code is restricted to one shotgun and one single shot .22 caliber rifle per individual.

F3. Replica weapons and inert explosive devices (such as grenades) and weapons parts are prohibited.

G. Parcels of any class are prohibited.

H. Meats, including preserved meats, bones, skin, hair, feathers, horns or hoofs of hoofed animals, and wool samples whether hermetically sealed or not, are prohibited.

H1. Pork or pork by-products are prohibited.

I. Reserved for future use.

The G Fund is managed internally by the Federal Retirement Thrift Investment Board. Assets of the F, C, S, and I Funds are managed externally. The Board currently has contracts with BlackRock Institutional Trust Company, N.A., to manage the F, C, S, and I Fund assets. The F, C, S, and I Funds invest in commingled trust funds, in which the assets of tax-deferred employee benefit plans are combined and invested together. The F, C, S, and I Funds and the BlackRock funds are passively managed index funds. Future performance of the funds will vary and may be significantly different from the returns shown above. See the *Summary of the*

Thrift Savings Plan for detailed information about the funds and their investment risks. The monthly returns of the TSP Funds represent net earnings for the month after deduction of accrued administrative expenses and, except for the G Fund, after deduction of trading costs and accrued investment management fees as well. The returns for the four indexes shown do not include any of these deductions.

* Implemented May 2001.

Freely Associated States Restrictions

Effective March 19, 2015, we will list the mailing restrictions for Freely Associated States (FAS) in the Pull-Out section of the *Postal Bulletin*. All FAS Restrictions will be updated periodically.

Freely Associated States

Mail addressed to freely associated states is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The following FAS Restrictions table outlines these conditions as listed by each affected FAS ZIP Code™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) following the table). For additional information on available extra services for FAS destinations, see *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, part 503.

Acceptance clerks must use the table with the POS ONE terminal to determine which FAS ZIP Codes are active and which conditions of mailing apply. Send inquiries to Randall Sobol at randall.f.sobol@usps.gov.

Information Security

Protect Your Mobile When You Go Global

Did you know that one in five Internet users have used public Wi-Fi for sensitive transactions, such as online banking?¹ Using public Wi-Fi at places like airports, cafés, and restaurants gives hackers easy access to sensitive information.

Hackers take advantage of public Wi-Fi networks to conduct cyber attacks like installing malware on your device or gaining access to your personal login information.² For this reason, users must not log into accounts that contain sensitive information, such as your bank, health-care, or credit card accounts, while using public Wi-Fi.

Take the following precautions when using public Wi-Fi networks³:

- **Check Wi-Fi networks.** Hackers may set up “rogue” networks with names similar to the network you wish to access (e.g., the name of the Internet café in which you are sitting).

- **Disable auto-connect settings.** Don't allow your device to auto-connect to Wi-Fi networks or Bluetooth® devices. When not in use, turn off Wi-Fi and Bluetooth access.
- **Check the websites you visit.** Only visit websites that include “https” in the web address rather than just “http.”
- **Use a Virtual Private Network (VPN).** When possible, connect using a VPN to add a layer of security to your Internet connection.

If you suspect a cyber attack has compromised your Postal Service™ equipment, report it to the Cybersecurity Operations Center at cybersafe@usps.gov.

For more information on cybersecurity best practices, visit the new public-facing CyberSafe at USPS™ website at usps.com/cybersafe or the CyberSafe at USPS pages on *Blue* (blue.usps.gov/cyber/) and *LiteBlue* (liteblue.usps.gov/cyber/).

Product Innovation

Dogs Gone Digital

Effective May 13, 2017, customers scheduling a Package Pickup on usps.com or on USPS Mobile® will be able to update their “dog present” status for the benefit of USPS® carriers. The Postal Service™ requires a status update from customers scheduling package pickups on the carrier's line of travel. This option offers USPS delivery personnel up-to-date dog status information, which helps prevent dog-related injuries. Providing this information will not affect service to the customer.

Customers who have previously indicated the presence of a dog at their address can update their previous dog status as follows:

- Change response from “yes” to “no.”
- Change response from “no” to “yes.”

Note: If the “dog present” status has not changed, the customer doesn't need to do anything.

Once a customer updates the “dog present” status, the system transfers the updated information to the MyPO carrier manifest.

Although dog-related incidents declined by 12 percent last year, we must continue to identify new ways to improve:

- In FY 16, we documented 6,842 dog bites.
- In FY 17 (through March 2017), we documented 2,449 dog bites.

Stamp Announcement 17-26: Have a Ball! Stamps

©2016 USPS

On June 14, 2017, in Hartford, WI, the U.S. Postal Service® will issue the *Have a Ball!* stamps (Forever® priced at 49 cents), in eight designs, in a pressure-sensitive adhesive (PSA) pane of 16 stamps (Item 474900). **The *Have a Ball!* \$7.84 pane of 16 stamps may not be split, and the stamps may not be sold individually.** The stamps will go on sale nationwide June 14, 2017.

The U.S. Postal Service celebrates our nation's passion for athletics with the *Have a Ball!* stamps. The issuance features colorful illustrations of eight different sports balls:

- A baseball,
- A basketball,
- A football,
- A golf ball,
- A kickball,
- A soccer ball,
- A tennis ball, and
- A volleyball.

The round *Have a Ball!* stamps feature a special coating applied to selected areas of the stamps during the printing process to give them a textured feel. Mike Ryan designed the stamps and Greg Breeding served as the art director of the project. Daniel Nyari created the colorful, stylized stamp art.

**Availability to Post Offices: Item 474900, \$7.84
Have a Ball! (Forever priced at 49 cents)
Commemorative PSA Pane of 16 Stamps**

Stamp Fulfillment Services will make an automatic push distribution to Post Offices™ of a quantity to cover approximately 30 days of sales. Distribution quantities for the automatic push distribution are available by logging on to SFS Web at sfsweb.usps.gov. Post Offices may begin ordering stamps on the first-day-of-issue through SFS Web; offices should also check the amount they will receive on their automatic push distribution.

How to Order the First-Day-of-Issue Postmark

Customers have 60 days to obtain the first-day-of-issue postmark by mail. They may purchase new stamps at their local Post Office, at The Postal Store® website at usps.com/shop, or by calling 800-782-6724. They must affix the stamps to envelopes of their choice, address the envelopes (to themselves or others), and place them in a larger envelope addressed to:

FDOI – Have a Ball! Stamps
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service™ will return the envelopes through the mail. There is no charge for the postmark up to a quantity of 50.

There is a 5-cent charge for each additional postmark over 50. All orders must be postmarked by August 14, 2017.

How to Order First-Day Covers

The Postal Service also offers first-day covers for new stamp issues and Postal Service stationery items postmarked with the official first-day-of-issue cancellation. Each item has an individual catalog number and is offered in the quarterly *USA Philatelic*, online at usps.com/shop, or by calling 800-782-6724. Customers may request a free issue of *USA Philatelic* at usps.com/philatelic, by calling 800-782-6724, or by writing to:

Stamp Announcement 17-27: Total Eclipse of the Sun Stamp

©2017 USPS

On June 20, 2017, in Laramie, WY, the U.S. Postal Service® will issue the *Total Eclipse of the Sun* stamp (Forever® priced at 49 cents), in one design, in a pressure-sensitive adhesive (PSA) pane of 16 stamps (Item 475300). **The \$7.84 *Total Eclipse of the Sun* pane of 16 stamps may not be split, and the stamps may not be sold individually.** The stamps will go on sale nationwide June 20, 2017.

On August 21, 2017, a total solar eclipse will be visible to millions of Americans as it sweeps a narrow path across parts of the entire country. The U.S. Postal Service anticipates this rare event with a stamp celebrating the majesty of total solar eclipses. A total eclipse of the Sun occurs when the Moon completely blocks the visible solar disk from view, casting a shadow on the Earth. The image on the *Total Eclipse of the Sun* stamp shows a total solar eclipse that was seen over Jalu, Libya, in 2006.

The *Total Eclipse of the Sun* stamp is the first U.S. stamp to use thermochromic ink, which reacts to the heat of your touch. Placing your finger over the black disc on the stamp causes the ink to change from black to clear to reveal an underlying image of the moon. The image reverts back to the black disc once it cools. The back of the stamp pane shows a map of the eclipse path. Art director Antonio Alcalá designed the stamp with existing photographs taken by astrophysicist Fred Espenak.

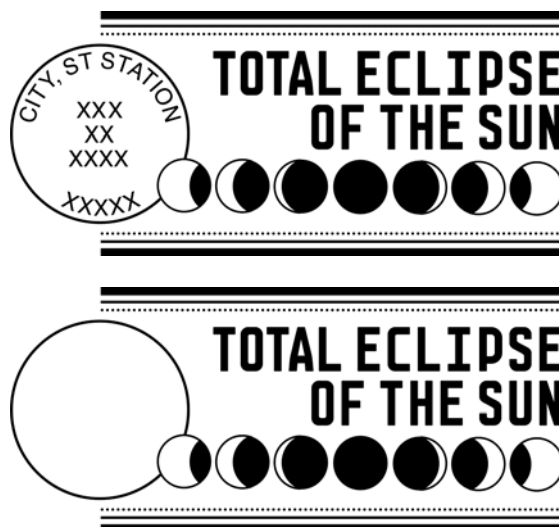

Availability to Post Offices: Item 475300, \$7.84 Total Eclipse of the Sun (Forever priced at 49 cents) Commemorative PSA Pane of 16 Stamps

Stamp Fulfillment Services will make an automatic push distribution to Post Offices™ of a quantity to cover approximately 30 days of sales. Distribution quantities for the automatic push distribution are available by logging on to SFS Web at sfsweb.usps.gov. Post Offices may begin ordering stamps on the first-day-of-issue through SFS Web; offices should also check the amount they will receive on their automatic push distribution.

Special Dedication Postmarks

Only the following pictorial postmark is permitted for the *Total Eclipse of the Sun* stamp. The word “Station” or the abbreviation “STA” is required somewhere in the design, because it will be a temporary station.

Guidelines for Finalizing Total Eclipse of the Sun Stamp Pictorial Postmark Art

To finalize the *Total Eclipse of the Sun* stamp pictorial postmark art, insert the date, city, state and ZIP Code™ of the physical location of your event adjacent to the stamp image. Overall dimensions of the pictorial postmark must not exceed 4 inches horizontally by 2 inches vertically. Collectors prefer the dimensions 3-1/2 inches by 1.

The Postal Service™ must make all special postmarks known to collectors through advance publicity in the *Postal Bulletin*. Therefore, all special dedication cancellations must be reported to Stamp Services four weeks before the event using PS Form 413, *Pictorial Postmark Announcement/Report*. To get a copy of the form, go to blue.usps.gov/formmgmt/forms/ps413.pdf.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following pictorial postmarks have been extended for 30 days:

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail[®] requirements. Customers may purchase new stamps at their local Post Office[™], by telephone at 800-782-6724, or at The Postal Store[®] website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16 inches side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches high by 4 inches long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through

the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Address customer requests for digital color postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

Traditional Postmarks

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Address customer requests for traditional postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service[™] will return the envelopes to the customer by U.S. Mail. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers must submit a check, money order, or credit card for payment.

Postmark America

As a community service, the U. S. Postal Service® offers collectible postmarks. The Postmark America® program is designed to feature graphics related to a theme or image that pertains to a specific tourist location, town, or region. The postmark is applied upon request to both outgoing mail and on hand-back philatelic collectibles. These postmarks will be available any day a participating Post Office™ is open. All requests must bear at least minimum First-Class Mail® postage. Customers must present their items

for postmarking on or before the official postmark date requested at the following address:

Supply Management

Investment Recovery: Cathode Ray Tube Moratorium Lifted

Last year, we halted all dispatch of Cathode Ray Tube (CRT) material to the Topeka Material Distribution Center (TMDC) due to a severe backup. You can now send those items again to the TMDC. A new contract exists to handle the CRT items and get them dispatched weekly. This release also includes microwave ovens.

Since these items ship to a different supplier, you must dispatch them in separate rolling stock from the normal items going to the TMDC.

For more information about Investment Recovery services, please contact your local Asset Accountability Service Center (AASC) at blue.usps.gov/purchase/assetmgnt/am_aasc_home.htm or send an email to InvestmentRecovery@usps.gov.
