Using Safe Ergonomic Practices to Deliver for America

Ergonomic-related injuries or musculoskeletal disorders (MSDs) make up 25 to 30 percent of all recordable industrial accidents reported by Postal Service™ employees. MSDs are illnesses or injuries that affect one or more parts of the musculoskeletal system, which is the soft tissue and bone structure of the body. These injuries primarily involve the muscles, tendons, and ligaments that allow us to move and use our joints.

MSDs are caused by "wear-and-tear" of the body over time. They develop differently than sudden, traumatic injuries, such as cuts, bruises, or broken bones. MSDs can take weeks, months, or even years to develop.

MSD risk factors include:

- Awkward posture. When the body is in a posture that creates significant bending, twisting, or added stress to the joints and connective tissue.
- Forceful exertion. When excessive force is needed to perform a task, such as lifting a heavy object or pushing loaded mail transport equipment. Even something like holding an object between the thumb and fingers in a pinch grip can create excessive force to the hand.
- Repetitive motion. When a joint or body part repeats the same motion many times. This is especially an issue if the repetition involves the other risk factors of awkward posture and forceful exertion, such as in the task of unloading heavy objects from a pallet with bending, reaching, and forceful lifting.

Ergonomic practices help prevent MSD injuries by addressing these risk factors. Simply put, ergonomics is "fitting the task to the person." Each task is evaluated to understand what it takes to perform the job and what risk factors may be present. Using ergonomic practices makes manual work less difficult, safer, and more user-friendly.

The Postal Service™ may initiate an ergonomic evaluation as part of an MSD injury investigation to determine the cause. Once the task is evaluated, an accident reduction plan would identify a viable ergonomics solution for the cause. When an employee is returning to work from an onthe-job injury, an ergonomic evaluation is often required to ensure the job meets any restrictions or limitations the employee might have. It's often best if ergonomic evaluations take place initially in the design phase of equipment or workstations.

Ergonomic principles commonly used in USPS® facilities include:

- Modifying the workspace for reach reduction by moving the person closer to the object or perhaps recommending a reach extender tool.
- Raising the work with equipment, such as a pallet lifter or a container tilter to eliminate bending and overreaching when unloading packages or mail trays.
- Adjusting a computer workstation to ensure monitors are at the right height for optimum viewing, the keyboard and mouse are positioned at about elbow height, and everything is within easy reach.
- Improving methods, such as work practices and techniques, or applying administrative methods, such as job rotation, to help decrease risk factors.

Reduce the wear-and-tear on your body and help prevent MSDs by following the safety policies and procedures established at your facility and using proven ergonomic methods for every activity.

IMM Revision: Change to Country Name for Turkey

The Postal ServiceTM is revising *Mailing Standards of the United States Postal Service,* International Mail Manual (IMM[®]) to conform to requested country nomenclature by changing the official name of Turkey to the Republic of Turkiye (with Turkiye as the short name) in the sections of the IMM noted in this article.

This revision is based on a formal request that Turkish PTT Corporation (the designated postal operator of Turkiye) made through the Universal Postal Union via *International Bureau Circular* 141, dated August 15, 2022, and through subsequent information received by email on January 23, 2023.

The name change for Turkey also appears in Notice 123, *Price List,* and is mentioned in "International Mail: Price Changes and Minor Classification Changes for International Mailing Services" in *Postal Bulletin* 22614 (12-29-22, page 35), and in "International Mail: Competitive Services Product and Price Changes" on pages 50-52 in this issue of the *Postal Bulletin*.

The Postal Service will publish these revisions in the next edition of the online IMM, but in accordance with the notification from the UPU, the standards are effective immediately.

Publication 52 Correction: Required Hazardous Materials Separations

In the article titled "Required Hazardous Materials Separations," in *Postal Bulletin* 22600 (6-16-22, pages 9–12), the Postal Service™ published revisions planned for Publication 52, *Hazardous, Restricted and Perishable Mail* (Pub 52) that were based on the *Federal Register* notice that the Postal Service published in the *Federal Register* on June 6, 2022.

The published revisions included new requirements for mailers to separate, into identifiable containers, all hazardous material (HAZMAT) requiring "Hazardous" marks or labels from other mail when tendering to the Postal Service.

Additionally, the revisions reflected the Postal Service requirement that used, damaged, or defective electronic devices (such as cell phones, laptops, tablets, and cameras) packaged with or containing lithium batteries are to be mailed only via surface transportation (USPS Retail Ground[®], Parcel Select[®], Parcel Return Service or Ground Return Service) and to bear specified markings. This rule prohibits used, damaged, or defective electronic devices containing lithium batteries from being mailed internationally or to, from, or between Army/Air Force Post Office, Fleet Post Office, and Diplomatic Post Office (APO/FPO/DPO) destinations.

Public comments received regarding these new requirements were reviewed, and a final *Federal Register* notice was published on November 30, 2022. The final notice provides clarification that manufacturer-certified new or refurbished devices are excluded from the definition of "used," and specific remote ZIP Code™ locations that are serviced by air transportation only are exempt from text-marking and surface-transportation requirements.

This article, which replaces the previously published article, includes these new revisions based on the final *Federal Register* notice. Although these revisions will not be published in Publication 52 until the next edition, the standards are effective immediately.

2 General Guidelines

* * * * * *

[Revise the title of subchapter 25 to read as follows:]

25 Basic Guidelines for Postal Service Personnel

251 Guidelines for Acceptance Personnel

[Revise the text of 251 to read as follows:]

Postal Service personnel may not open mail sealed against inspection except under the circumstances described in ASM 274. Accordingly, knowledge of the content of such mail may be obtained directly from the mailer (e.g., a mailer may ask questions about mailing requirements or mark the outside of the mailpiece to indicate the contents) or indirectly through leakage or other escape of the contents. Subject to the applicable restrictions, acceptance personnel must:

- a. Determine the mailability of all hazardous materials, perishable matter, or otherwise restricted matter offered for mailing at a retail unit or business mail entry unit (BMEU). This process must include a thorough inspection of all sides of the mailpiece for evidence of hazardous materials (e.g., markings). At retail units, mailers must be asked the question: "Do any of your articles contain anything liquid, fragile, perishable, or potentially hazardous, such as lithium batteries, perfume, mercury, or aerosols?"
- b. If the contents are mailable, determine the specific quantity limitations, labeling, and packaging requirements that apply.
- c. With the exception of destination-entered mail entered at a destination delivery unit (DDU), destination sectional center facility (DSCF), or destination network distribution center (DNDC), verify that all mail-pieces containing mailable hazardous materials are presented separately from mailpieces not containing hazardous materials.
- d. Refuse (as permitted in POM 139) to accept material that does not meet applicable requirements for mailing and refer the circumstances to the local postmaster or PCSC for a mailability ruling under 213 or 215, as appropriate.
- e. If a mailpiece containing a diagnostic (clinical) specimen is in a sack or tub, PS Tag 44 must be attached to ensure that the sack or tub will be emptied at the processing point.
- f. With the exception of destination-entered mail entered at a DDU, DSCF, or DNDC, ensure mailpieces containing hazardous materials remain separated from other mailpieces and are placed into labeled containers further separated by transportation type. See 327.1a and 327.1b.
- g. See 253 for guidance regarding hazardous materials found in lobby drops or retail collection boxes.

See Chapter 7 for guidelines Postal Service acceptance personnel must follow when handling hazardous materials, restricted matter, or perishable matter to be transported by air.

252 Guidelines for Dispatch Personnel

* * * * * *

[Add new item b. to read as follows and renumber current item b. as item c.]

b. Ensure that all mailpieces with a hazardous-materials mark or label are separated from all other mail and are placed into labeled containers further separated by transportation type. See 327.1a and 327.1b.

* * * * *

[In renumbered item c., revise bullet (5) to read as follows:]

(5) If the mailpiece contains a material believed to be nonmailable, remove it from the mailstream and treat it in accordance with POM 139.117-118, as appropriate.

* * * * *

[Add new part 253 to read as follows:]

253 Guidelines for Delivery and Collection Personnel

Delivery and collection personnel must follow these procedures when delivering and collecting mail:

- a. Conduct a thorough examination of all sides of the mailpiece for hazardous-material labels and markings or any nonmailable hazardous characteristics (e.g., prohibited marks or labels). If the mailpiece is nonmailable, leaking, or stained, do not collect it; notify the customer if present, and contact the supervisor.
- b. Ensure that mailable hazardous materials are separated from all other mail.

3 Hazardous Materials

* * * * *

32 General

* * * * *

327 Transportation Requirements

327.1 General

* * * * *

[Revise the text of items a. and b. to read as follows:]

a. Air Transportation. When eligibility for air transportation is sought, mailable hazardous materials eligible for air transportation per subchapter 34 must be sent as Priority Mail Express, Priority Mail, or First-Class Mail. Mailpieces must be prepared to meet all require-

ments that apply to air transportation. Mailpieces must be properly packaged and labeled within DMM requirements and the operator variations of the air carrier. When required, a shipper's declaration for dangerous goods must be affixed to the outside of the mailpiece.

Note: Mailable hazardous materials that are prohibited from air transportation may not be sent as Priority Mail Express, Priority Mail, or First-Class Mail.

b. Surface Transportation. All mailable hazardous materials eligible to be sent as First-Class Package Service, USPS Marketing Mail, USPS Retail Ground, Parcel Select, or Parcel Return Service must be prepared under the requirements that apply to surface transportation. A mailpiece containing mailable hazardous material with postage paid at First-Class Package Service, USPS Marketing Mail, USPS Retail Ground, Parcel Select, or Parcel Return Service prices must not, under any circumstance, be transported on air transportation, except for 5-digit air-only destinations identified in 327.2g.

327.2 Air Transportation Prohibitions

[Revise the introductory paragraph to read as follows:]

All mailable hazardous materials sent as Priority Mail Express, Priority Mail, or First-Class Mail must meet requirements for air transportation. The following types of hazardous materials are always prohibited on air transportation, regardless of class of mail:

* * * * *

[Add new item g. to read as follows and renumber current item g. as item h.]

g. Used, damaged, or defective electronic devices (excluding devices that are new in original packaging, and manufacturer-certified new or refurbished devices) containing or packaged with lithium batteries (see 349.12e). For those ZIP Codes that are air transportation only due to the absence of ground transportation, a multimodal-transportation solution may be used to transport used, damaged, or defective electronic devices containing or packed with lithium batteries. See Appendix F for a list of 5-digit ZIP Codes where this exception applies.

* * * * *

[Add new part 329 to read as follows:]

329 Presentation of Hazardous-Materials Mailings

With the exception of destination-entered mail entered at a DDU, DSCF, or DNDC, each mailer of mailable hazardous materials requiring a label or marking must do the following:

a. Present mailpieces containing hazardous materials separately from any mailpieces not containing

hazardous materials. Where mailpieces are tendered in containers, pallets, or other mail transport equipment (see Handbook PO-502, *Mail Transport Equipment*), hazardous-materials mailpieces must be presented in a separate receptacle from non-hazardous-materials mailpieces.

 b. Clearly mark an exterior side of all receptacles containing hazardous-materials mailpieces as "HAZMAT."

Pull-Out Information

Elimination of Corporate Accounts

The Postal Service™ is discontinuing USPSCA®, a corporate account payment method used for Express Mail Corporate Accounts and Priority Mail Express Manifest Accounts. USPSCAs — also known as United States Postal Service Corporate Accounts — are prefunded by customers to ship documents or packages by Priority Mail Express®.

Effective January 1, 2023, the Postal Service began closing inactive USPSCA accounts and will discontinue the corporate account payment method on July 1 due to rising costs and declining demand.

Customers who use USPSCA are encouraged to switch to an available alternative payment method. Alternative payment methods may include Click-N-Ship[®] (CNS), USPS Ship, Electronic Verification System (eVS[®]), ePostage[®], PC Postage[®], or Meter.

For information on how to migrate, customers should contact their Sales Account/Business Service Network (BSN) Representative or their local Post Office™, or they can send an email to the Mailing and Shipping Solutions Center at *MSSC@usps.gov*.

Any account with a balance can make payments or request a refund by contacting MSSC@usps.gov:

- Refund requests must include a signed authorization on letterhead, the EMCA number, business name, and location.
- Accounts with a negative balance after July 1, 2023, will be sent to Accounts Receivable for collection.

For questions about the elimination of Corporate Accounts, send an email to *ShippingServices@usps.gov.*

Fraud

Invalid USPS Corporate Account Numbers

Provide this listing to Contract Postal Units and acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. This list supersedes all previous notices, which you must recycle.

Acceptance clerks must not accept Priority Mail Express® shipments bearing an invalid USPSCA number in the "Payment by Account" or "Agreement Number" section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

Verifying U.S. Postal Service Money Orders

Pull-Out Information

Follow these steps to cash a Postal Service ${}^{\text{TM}}$ money order:

- Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international Postal Service money orders.
- 2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.
 - When there is discoloration around the dollar amounts, this might indicate the amounts were changed.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at *usps.com/shop/money-orders.htm*.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the <u>Restrictions</u> page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

Tier II Reporting Requirements

United States Postal Service[®] (USPS[®]) policy requires USPS sites that store quantities of hazardous chemicals exceeding reporting thresholds to comply with Emergency Planning and Community Right-to-Know Act (EPCRA) Tier II reporting requirements. The Tier II form contains information on the quantities, hazards, and locations of onsite hazardous materials storage.

The EPCRA Tier II form must be completed annually by March 1 (for reporting year 2022) to ensure state and local emergency response organizations are notified about any potential onsite hazards.

Commonly reported chemicals and thresholds applicable to USPS sites include:

- Lead-acid and gel cell batteries. The 500-pound threshold for sulfuric acid is met by onsite storage of more than six tow motor batteries or more than two forklift batteries, or a combination of these batteries. Estimate the percent weight of sulfuric acid in the battery by multiplying the battery weight by 18 percent.
- Gasoline, diesel, or heating fuel. The 10,000-pound threshold is equivalent to 1,639 gallons of gasoline (6.1 pounds/gallon) or 1,351 gallons of diesel/heating fuel (7.4 pounds/gallon).
- Ice melt and anti-skid products. Rock salt, calcium magnesium acetate, calcium chloride, and sand have a 10,000-pound threshold. The threshold applies whether the materials are stored in one bulk location or dispersed in bags or on pallets throughout the site.

 Propane. The 10,000-pound threshold is equivalent to 2,380 gallons of propane as liquified petroleum gas (LPG) using the weight of 4.2 pounds per gallon.

Note: Due to COVID-19, many USPS facilities stored bulk quantities of hazardous materials associated with cleaning and disinfection during 2022. While it is unlikely these chemicals were stored in quantities that require Tier II reporting, review each product's safety data sheet to confirm ingredients and the associated reporting thresholds. In most cases, the federal reporting threshold is 10,000 pounds. For USPS-approved, alcohol-based hand sanitizers, 10,000 pounds is equivalent to storing more than twenty 55-gallon drums of hand sanitizer onsite at one time.

Reporting requirements apply to any location that stores threshold quantities of EPCRA-regulated hazardous and toxic chemicals. In most cases, the federal reporting threshold is 10,000 pounds. Each state has different Tier II submission procedures. States may require:

- Hard copy submission of the Tier II form;
- Electronic reporting through the EPA Tier2 Submit software program; or
- Reporting through their own state-specific software programs or websites.

For more information, review the Environmental Affairs Tier II Reporting website at *blue.usps.gov/sustainability/environmental/tier-ii-reporting.htm* or consult your designated environmental contact at *blue.usps.gov/sustainability/contact.htm*.

Internet of Things: Exposed Now More Than Ever

What do smart TVs, fitness equipment, and home security systems all have in common? They can all be Internetenabled.

This technology, known as the "Internet of things," refers to everyday devices connected to the Internet, which makes them susceptible to targeting by hackers. These devices can be given an Internet Protocol (IP) address to transfer data over a network for everything from a heart monitor implant to manufactured items like an oven.

These devices are often disregarded for security updates and are not protected with strong passphrases. They can disclose as much personal information as a computer.

Workplace devices are also exposed to risks associated with the Internet of things. Plugging any personal devices — such as smartphones, tablets, wearable technology, and smart home devices — into USPS equipment puts the

organization's data at risk and violates Postal Service policy (see Handbook AS-805, *Information Security* at *blue.usps.gov/cpim/ftp/hand/as805/welcome.htm*).

Follow these tips to protect yourself and your devices:

- Update. Stay current on all software updates and security patches.
- **Disable.** If your device is fully functioning without the Internet, it's safest to disable the online connection.
- Protect. Use a strong, original, and memorable passphrase to serve as your password.

For more information about cybersecurity best practices, visit CyberSafe at USPS[®] on *Blue* at *blue.usps.gov/cyber* and *LiteBlue* at *liteblue.usps.gov/cyber*.

Competitive Services Product and Price Changes

Effective January 22, 2023, the Postal Service™ revised Notice 123, *Price List*, to reflect price changes and classification changes to certain international Competitive Services, as established by the Governors of the Postal Service. The new prices are based on Postal Regulatory Commission (PRC) Order No. 6384 issued on December 22, 2022, in Docket Number CP2023-42. In that order, the PRC found that the price adjustments included in the Postal Service's notice may go into effect on January 22, 2023. The order is available on the PRC website at *prc.gov*. The entire Notice 123 is available for review on Postal Explorer® at *pe.usps.com*.

Also effective January 22, 2023, the Postal Service revised Notice 123 to conform to requested country nomenclature by changing the official name of Turkey to the Republic of Turkiye (with Turkiye as the short name). (For more information, see "IMM Revision: Change to Country Name for Turkey on pages <u>5-7</u> in this issue of the *Postal Bulletin*.)

Regarding price changes, for Priority Mail International[®] items destined to Canada, the Postal Service collapsed price groups 1.1 through 1.8 (which are based on origin ZIP CodeTM) into a single country group. In addition, the Postal Service eliminated the related fee for the International Service Center (ISC) Official Zone Chart for Priority Mail International pieces destined to Canada.

This article further describes the international price and classification changes and the corresponding mailing standards changes for international Competitive Services approved by the PRC on December 22, 2022.

The Postal Service incorporated price changes into the January 22, 2023, edition of Notice 123 for the following Competitive Services:

- Global Express Guaranteed[®].
- Priority Mail Express International[®].
- Priority Mail International[®].
- First-Class Package International Service[®].
- International Priority Airmail[®].
- International Surface Air Lift[®].
- Direct Sacks of Printed Matter to One Addressee (Airmail M-bag[®]).
- The following competitive international extra services and fees:
 - International Insurance.
 - Certificate of Mailing.
 - International Registered Mail.
 - International Return Receipt.
 - Customs Clearance and Delivery Fee.

For pricing, see the Postal Explorer website at pe.usps.com.

Global Express Guaranteed

Global Express Guaranteed (GXG[®]) service provides fast international shipping, with international transportation and delivery provided through an alliance with FedEx Express[®]. The price increase for GXG service averaged 4.9 percent.

The Postal Service provides Commercial Base[®] pricing to online customers who prepare and pay for GXG shipments via payment methods approved by the Postal Service (other than Click-N-Ship[®] service), with a discount below the published retail prices for GXG service. Customers who prepare GXG shipments via Click-N-Ship service will continue to pay retail prices. Commercial Plus[®] prices are set to match the Commercial Base prices.

Priority Mail Express International

Priority Mail Express International (PMEI) service provides fast service to approximately 180 countries in 3-5 business days for many major markets, although the actual number of days may vary based upon origin, destination, and customs delays. PMEI with Money-Back Guarantee service is available for certain destinations. (Due to COVID-19 service impacts, PMEI with Money-Back Guarantee service has been suspended for several destinations until further notice. For more information, see the USPS® Service Updates page on usps.com.) The price increase for PMEI service averaged 6.0 percent. The Commercial Base price provides a discount below the published retail prices for customers who prepare and pay for PMEI shipments via permit imprint, online at usps.com, or as registered endusers using an authorized PC Postage® vendor (with the exception of Click-N-Ship service). Customers who prepare PMEI shipments via Click-N-Ship service pay retail prices. Commercial Plus is equivalent to Commercial Base; however, deeper discounting may be available to customers through negotiated service agreements.

The Postal Service continues to include PMEI service in customized contracts offered to customers who meet certain revenue thresholds and who are willing to commit a larger amount of revenue to the Postal Service for PMEI service and PMI service.

PMEI flat rate pricing continues to be available for Flat Rate Envelopes.

Priority Mail International

Priority Mail International (PMI) is an economical way to send merchandise and documents to approximately 180 countries in 6–10 business days for many major markets, although the actual number of days may vary based upon origin, destination, and customs delays. The price increase for PMI service averaged 6.0 percent. The Commercial Base price provides a discount below the published retail prices for customers who prepare and pay for PMI items via permit imprint, online at usps.com, or as registered end-

users using an authorized PC Postage vendor (with the exception of Click-N-Ship). Customers who prepare PMI shipments via Click-N-Ship pay retail prices. Commercial Plus prices are equivalent to Commercial Base; however, deeper discounting may be available to customers through negotiated service agreements.

The Postal Service continues to include PMI service in customized contracts offered to customers who meet certain revenue thresholds and are willing to commit to a larger amount of revenue to the USPS for PMEI and PMI.

PMI flat rate pricing continues to be available for Flat Rate Envelopes, Small Flat Rate Boxes, and Medium and Large Flat Rate Boxes.

First-Class Package International Service

First-Class Package International Service (FCPIS[®]) is an economical international service for small packages not exceeding 4 pounds in weight and \$400 in value. The price increase for FCPIS averaged 6.5 percent. The Commercial Base price provides a discount below the published retail prices for customers who prepare and pay for FCPIS items via permit imprint or by USPS-approved online payment methods. Customers who prepare FCPIS shipments via Click-N-Ship service pay retail prices. Commercial Plus prices are equivalent to Commercial Base; however, deeper discounting may be available to customers through negotiated service agreements.

Electronic USPS Delivery Confirmation International service (E-USPS DELCON INTL®) is a tracking service available at no charge for FCPIS items to select destination countries.

International Priority Airmail and International Surface Air Lift

International Priority Airmail (IPA®) service, including IPA M-bags, is a commercial service designed for volume mailings of all First-Class Mail International postcards, letters, and large envelopes (flats), and for volume mailings of FCPIS packages (small packets) weighing up to a maximum of 4.4 pounds. IPA shipments are typically flown to foreign destinations (exceptions apply to Canada) and are then entered into that country's air or surface priority mail system for delivery. The price for IPA service increased 3.5 percent. International Surface Airlift (ISAL®) service is like IPA service except that, once flown to the foreign destination, ISAL shipments are entered into that country's air or surface nonpriority mail system for delivery. The price for ISAL service increased 12.0 percent.

Direct Sacks of Printed Matter to One Addressee (Airmail M-bags)

An Airmail M-bag is a direct sack of printed matter sent to a single foreign addressee at a single address. Prices are based on the weight of the sack. The price increase for Airmail M-bag service averaged 6.4 percent.

Stamp Announcement 23-13: Railroad Stations Stamps

On March 9, 2023, in Cincinnati, OH, the United States Postal Service[®] will issue the *Railroad Stations* stamps (Forever[®] priced at the First-Class Mail[®] rate) in five designs, in a pressure-sensitive adhesive (PSA) pane of 20 stamps (Item 483900). These stamps will go on sale nationwide March 9, 2023, and must not be sold or canceled before the first-day-of-issue. The *Railroad Stations* commemorative pane of 20 stamps must not be split and the stamps must not be sold individually.

Noteworthy railroad stations began brightening the American landscape by the 1870s and, although many fell to the wrecking ball once they had outlived their original purpose, hundreds survived. This issuance of five different stamps features five architectural gems that continue to play an important role in their community:

- Point of Rocks Station in Maryland;
- Main Street Station in Richmond, Virginia;

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and requests must be postmarked no later than 30 days following the requested pictorial postmark date.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail[®] postage. Items submitted for postmark may not include postage issued after the date of the requested postmark. Such items will be returned unserviced.

Customers wishing to obtain a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4[®] Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following pictorial postmark has been extended for 30 days:

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 120 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail[®] requirements. Customers may purchase new stamps at their local Post OfficeTM, by phone at 844-737-7826, or on The Postal Store[®] website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service™ recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16-inch side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches (vertically) by 4 inches (horizontally). Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of

their postmarked items. Address customer requests for digital color postmarks to:

FDOI – (Name of Stamp Issue) USPS Stamp Fulfillment Services 8300 NE Underground Drive, Suite 300 Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail[®]

Traditional Postmarks

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Address customer requests for traditional postmarks to:

FDOI – (Name of Stamp Issue) USPS Stamp Fulfillment Services 8300 NE Underground Drive, Suite 300 Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers must submit a check, money order, or credit card for payment.

Bottled Drinking Water Services for FY 2023

The bottled drinking water services (BDWS) supplier name has changed from Nestle to BlueTriton Brands, Inc. All sites currently receiving BDWS from BlueTriton (formerly Nestle) must complete a new eBuy+ requisition between February 1–15, 2023, based on the updated EPA price increase (effective February 1, 2023).

For instructions on how to complete your eBuy+ requisition, see *blue.usps.gov/supplymanagement/_pdf/am_n-mcs_mlb19-001.pdf*.

Follow these guidelines to determine your submission requirements:

■ Sites that currently have a valid eBuy+ Nestle purchase order must complete a new eBuy+ BlueTriton purchase order on or after February 1 for sufficient quantity to cover the next 8 months (February 1– September 30, 2023).

- Sites with existing service from BlueTriton (formerly Nestle) that do not have a valid eBuy+ purchase order must complete an eBuy+ BlueTriton requisition for sufficient quantity to cover the next 12 months.
- Sites requesting new service must follow the instructions provided in MLB-CO-19-001 at blue.usps.gov/supplymanagement/_pdf/am_nmcs_mlb19-001.pdf.
