Cover Story

New Domestic Postal Money Order to be Released

The United States Postal Service® will soon introduce a redesigned domestic postal money order with enhanced security features.

In early calendar year 2025, the new money orders will be phased into public circulation, and eventually will be available for sale to the public at all Post Office® locations, which can be found at tools.usps.com/locations/home.htm. All existing rules and limitations will remain in effect, including the maximum limit of \$1,000.

The Postal Service™ worked with the U.S. Postal Inspection Service® to add enhanced security features in response to changing technological advances. These additional security defenses are designed to deter counterfeiting and other fraudulent activities. This will strengthen customer confidence and trust in safely sending funds.

Knowing how to determine the authenticity of a postal money order by sight will help ensure that this financial instrument remains among the most secure in the world.

Please note some of the new design and security features:

- Red and blue ink with subtle design features of an eagle head and an American flag.
- Two watermarks that are only visible when held up to a light source:
 - A watermark of a Pony Express® rider.
 - A watermark that reads “United States Postal Service” in a rectangular box.

- A security thread that runs from the top to the bottom of the postal money order, just to the right of the Pony Express rider watermark. When held to the light, the thread reveals the letters “USPS” alternating right side up and upside down throughout the thread.
- A Quick Response (QR) code that directs users to the USPS website to verify the status of money orders using three pieces of information.

If you or a customer suspects fraud, follow the guidance from the Inspection Service:

- If you question the validity of a Postal Money Order, use the Money Order Verification System at 1-866-459-7822, or check the money order status at: usps.com/shop/money-orders.htm:
 - Go to “Check the Status of a Money Order”, and
 - Click on *Money Orders Application*.
- If you suspect fraud or criminal activity, call the Inspection Service at 1-877-876-2455 at your earliest convenience.

The current, or “legacy,” postal money order will stay in circulation until all existing stock is depleted. Postal money orders do not expire and will be accepted as valid, if they meet the basic security requirements listed on the USPS.com®, postal money order page at usps.com/shop/money-orders.htm, under “Receiving Money Orders — How to Spot a Fake.”

Employees must adhere to all existing policies related to Postal Money Orders including identification and endorsement requirements.

For more information, go to the Sending Money Orders page at usps.com/shop/money-orders.htm.

DMM Revision: Migration from Electronic Verification System to USPS Ship

Effective February 1, 2025, the Postal Service™ migrated from the Electronic Verification System (eVS®) to USPS® Ship. Although the Postal Service implemented the migration February 1, 2025, the Postal Service will include revisions regarding the migration in the April 7, 2025, edition of *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®), in various sections.

Instead of using eVS, the Postal Service requires customers to use USPS Ship, also known as Package Platform, for the acceptance and payment of all commercial domestic and international parcel mailings. The Postal Service has discontinued eVS because USPS Ship:

- Automatically captures package attributes; and
- Has a new system infrastructure.

USPS Ship combines the attributes captured from scan data and manifested attributes to ensure customers are charged accurate postage. For consolidators with adjustments due to inaccurate original postage, the Postal Service will provide individual package costs to the mail owners.

USPS Ship offers the following:

- Online enrollment.
- Individual package pricing.
- Automated adjustments.
- Online reports.
- Data feeds via Informed Visibility® Mail Tracking and Reporting (IV®-MTR).

The automated capture enables individual package attributes to be compared to manifest data to validate accurate postage. Shortpaid (postage due) or overpaid (refunds) adjustments will be assessed upon package delivery and applied to the Enterprise Payment Account (EPA) on file.

Requirements to participate in USPS Ship are as follows. Customers must:

- Enroll in USPS Ship and be assigned a unique mail identifier (MID) for use on packages.
- Submit valid rate ingredients for payment for each package within their shipment.
- Upload manifests to USPS using the Parcel Data Exchange or Electronic Interchange (Secure File Transfer Protocol or SFTP, or Applicability Statement 2 [AS2] protocol) for payment as noted in Publication 205, *Electronic Verification System (eVS®) Business and Technical Guide*.

- Pay postage through an EPA.
- Use USPS Ship to ship the following products:
 - **Domestic Products:**
 - Priority Mail Express®.
 - Priority Mail®.
 - USPS Ground Advantage™ (formerly First-Class Package® Service).
 - Bound Printed Matter.
 - Media Mail®.
 - Library Mail.
 - USPS Marketing Mail® parcels.
 - USPS Marketing Mail Nonprofit parcels.
 - Parcel Select® Destination Entry.
 - USPS Connect® Local.
 - USPS Connect Local Mail.
 - USPS Returns®.
 - **International Products:**
 - Global Express Guaranteed®.
 - Priority Mail Express International®.
 - Priority Mail International®.
 - First-Class Package International Service®.
- Include on packages a tracking number that is unique for 120 days.

Manifest Mailing Operations in USPS Ship

Mailers and shippers who meet program requirements must ship parcels via the following process:

1. The mailer or parcel shipper transmits an electronic manifest to the Postal Service detailing all USPS Ship parcels to be deposited into the mailstream on or before the date of mailing.
2. USPS Ship will validate the electronic manifest and calculate postage based on rate ingredients.
3. Postage is charged to the EPA on the day that the manifest was submitted and processed. The mailer or parcel shipper may access transactions and manifest summary information in online reports or data feeds.
4. The mailer or parcel shipper transports and enters the mail at the appropriate origin or destination entry Postal Service facility: Network distribution center/regional processing and distribution center (NDC/RP&DC), sectional center facility/regional processing and distribution center (SCF/RP&DC), destination hub (DHub),

destination delivery unit (DDU), or sorting and delivery center (S&DC).

5. As parcels are deposited at the origin entry facilities, packages are run across mail-processing equipment (MPE), and captured attributes (weight, dimensions, entry, packaging) are transmitted to USPS Ship. The captured attributes are compared to manifested attributes to ensure that the correct postage has been paid. If there are discrepancies, shortpaid adjustments will be applied to the EPA.
6. As parcels are deposited at the DDU or destination sorting and delivery center (DS&DC), packages are sampled, and the sampled attributes are compared to the manifested attributes. A Statistical Quality Assessment is performed, and additional postage will be charged to the EPA.
7. The mailer or parcel shipper may access details in online reports or data feeds.

Postage Assessments

USPS Ship will automatically collect postage daily based on the electronic manifest(s) received that day from mailers. Postage will also be calculated and assessed as follows when errors are detected:

- **Census verification** occurs for packages that are automatically captured while packages are processed on MPE. The individual package information captured may include the weight, dimensions, USPS packaging, ZIP Code[®] of scan, and destination ZIP Code. The captured information will be compared to the manifest information after the delivery scan for the package. The correct postage will be assessed, and additional postage will be charged or refunded to reflect the accurate postage for the individual packages.
- **Misshipped parcels** are included in the census verification. The manifest is matched to a scan and the destination ZIP Code and destination rate Indicator of the parcel is compared to the mail direction file (MDF) to determine the correct drop-ship location. The ZIP Code of the first scan event is compared to the expected drop-ship location specified in the MDF. If the ZIP Code of the first scan event does not match the expected drop-ship location, then a misshipped error is logged, and additional postage will be charged.
- **Unmanifested packages** are identified by scanned packages without a manifest for payment in USPS Ship.
- **Duplicate packages** are identified by scanned packages with duplicate barcodes without a payment for each package in USPS Ship.
- **Intelligent Mail[®] package barcode (IMpb[®]) non-compliance** is measured using the same evaluation and established thresholds for the monthly period as previously required by eVS.
- **Presort** is measured by the 24-hour period to meet presort minimums by mail class as previously required by eVS.
- **Statistical Quality Assessment (SQA)** occurs for Parcel Select, Bound Printed Matter, and USPS Marketing Mail packages that are entered and claimed at DDU prices. This verification is similar to the Postage Adjustment Factor (PAF), but is limited to DDU- or DS&DC-entered packages. If the postage for the packages that are sampled at a DDU or DS&DC compared to the manifested data exceeds 1.5 percent underpayment, the percentage in error will be multiplied by the total postage for the mail class for the month, and this calculated additional postage charge will be assessed. Only packages that are prompted for sampling will be part of this verification. Any non-prompted samples will be part of the census verification.
- **Content audit** is measured using the same business rules as previously required by eVS.

Postage Payment

Commercial shippers entering at a business-mail entry unit (BMEU) with small mail quantities may use Click-N-Ship[®] or USPS Ship to enter their parcels. Otherwise, parcel shippers or consolidators and mailers:

- Using permit imprint as the payment method and claiming commercial or negotiated service agreement (NSA) prices and who are not using Click-N-Ship are required to use USPS Ship for postage manifesting and payment.
- Who use USPS application programming interfaces (APIs) to create labels and submit their manifest files are also required to enroll in USPS Ship.

Postage Payment Schedule

Parcel shippers or consolidators and mailers pay for postage as follows:

- **Daily:** Postage for manifest files is charged the day of the manifest receipt or processing. The census verification is charged or refunded the day of delivery.
- **Monthly:** Unmanifested, duplicates, IMpb, presort, content audit, and SQA are assessed monthly and charged for on the 15th of the following month.

Retrieving Data

USPS Ship enables customers to view manifest and assessment data by accessing online reports or subscribing to IV-MTR data feeds as follows:

- **Accessing Online Reports.** The online dashboard provides summary details for manifests that were charged, and package-level details for postage adjustments. Customers must complete the following to access the USPS Ship reports:
 - Log into the Business Customer Gateway (BCG).
 - Under the “Manage Services” menu, go to “USPS Ship Report” service and click on *Go to Service*.

- Click *Summary Dashboard*. The monthly activity report will be displayed.
- Click *Reports*. In its drop-down menu view and select from the list of available reports. Reports may be filtered, sorted, and exported in Excel and CSV (comma-separated-value plain-text) formats.
- **Subscribing to IV-MTR Data Feeds.** IV-MTR allows customers to customize their shipment. They may select and organize information fields to be included and choose the frequency of reports, the file format, and the shipment delivery location. Customers must complete the following to set up IV-MTR subscriptions:
 - Log into BCG.
 - Under the “Manage Services” menu, go to “Informed Visibility” service and click *Go to Service*.
 - Click *Create and Manage Data Feeds*.
 - Select *Data Feed Type*.
 - Select *File Format*.
 - Under “Data Feed Delivery” select the server, and then the frequency.

- Define the data fields of the data feed. Detailed instructions on the following are available on PostalPro™:
 - How to access IV-MTR: Under “Resources,” click on the user guide *Applying for Access to Informed Visibility® Mail Tracking & Reporting (IV®-MTR)*.
 - How to customize data feeds: Go to “Orientation Training for Informed Visibility® – Mail Tracking & Reporting (IV®-MTR).”

The Postal Service believes using USPS Ship will provide customers with a more efficient mailing experience.

Although the Postal Service will not publish these revisions in the DMM until April 7, 2025, the standards became effective February 1, 2025. An article with full details on these revisions to be incorporated into the DMM will be published as soon as possible on Postal Explorer.®

The Postal Service will incorporate the revisions into the next edition of the online DMM, which is available on Postal Explorer at pe.usps.com.

IMM Revision: Direct Sacks of Printed Matter to One Addressee (M-bags)

Effective February 6, 2025, the Postal Service™ is revising *Mailing Standards of the United States Postal Service, International Mail Manual (IMM®)* subchapter 260 regarding changes to M-bag® service and is revising each Individual Country Listing in the IMM to note whether M-bag® service is available to that destination.

These revisions are in accordance with the decision made during the fourth Universal Postal Union (UPU) Extraordinary Congress discussed in *International Bureau Circular (IBC) 114*, dated July 22, 2024. The following were noted during the UPU congress:

- M-bags (special bags for printed matter sent to a single foreign addressee at a single address) would become an optional supplementary service effective January 1, 2025.
- The UPU stipulated in that IBC, that designated postal operators opting to offer this service must specify whether M-bags are for outbound or inbound items and whether the following articles may be admitted in M-bags in accordance with article 17-107.7.1 of the Convention Regulations:
 - Disks,
 - Tapes and cassettes

- Commercial samples shipped by manufacturers and distributors; and
- Other nondutiable commercial articles or informational materials that are not subject to resale).

Subsequent information provided via IBC 181, dated November 18, 2024, contained a list of responses received from foreign postal operators as of November 5, 2024, and indicated that further updates to the list would be provided in future IBCs.

The United States Postal Service® recently provided to the UPU written notification that it will continue to offer M-bag service but opted to restrict the service solely to printed matter.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international Postal Service money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - When there is discoloration around the dollar amounts, this might indicate the amounts were changed.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at usps.com/shop/money-orders.htm.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

The entries under “Changes” appear in bold in the following APO/FPO/DPO table:

Changes

APO/FPO/DPO	Action	Effective Date	See Restrictions

The following FAS Restrictions table outlines these conditions as listed by each affected FAS ZIP Code™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) following the table). For more information on available extra services for FAS destinations, see *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, part 503.

Environmental Management

Reminder for Universal Waste Lamps Management and Disposal

Waste lamps include inoperable or broken electric lamps (or light bulbs). Waste lamps are a potential safety and environmental concern because they may contain mercury or other toxic heavy metals. For this reason, several types of waste lamps are regulated as universal waste and require special management and disposal. The United States Postal Service (USPS®) uses the following lamps that must be managed as universal waste:

- **Fluorescent Lamps (Linear, U-shaped, circular, CFL):** These lamps are 4-foot and 8-foot linear, U-shaped, circular and compact fluorescent lamp (CFL) bulbs. These include “green-tipped” or “low-mercury” lamps, which must be managed the same as other fluorescent lamps.
- **Neon Lamps:** These lamps are often used in brightly colored signs. “Neon” lights that emit colors other than red use gases that may contain mercury.
- **High Intensity Discharge (HID) Lamps:** These lamps are often used in large interior spaces with high ceilings, such as warehouses, and for exterior lighting, such as peripheral security lighting, street-lights, and fuel island lighting. They may also be found in newer motor vehicle headlights, as well as LCD or DLP projection television sets or projection displays.
- **LED Lamps:** These lamps may contain federally regulated metals such as lead, chromium, or selenium. LED lamps are now available in 4-foot and 8-foot linear tube sizes. Multiple individual LED bulbs are typically contained in an LED lamp.

- **Ultraviolet (UV) Lamps:** These lamps emit high intensity UV light. Small UV lamps may be present in USPS mail sorting automation platforms, such as the Advanced Facer Canceler System. UV bulbs may also be used in “disinfection” and “germicidal” lighting systems.

Incandescent and halogen bulbs that typically do not contain mercury or toxic metals and are non-hazardous — can be disposed of in the trash or dumpster.

Waste Lamp Management Requirements

Follow these requirements to manage and dispose of waste lamps:

- USPS sites must store universal waste lamps in clearly labeled, closed containers.
- Employees who manage and handle wastes must be trained.
- Sites must arrange for universal waste lamp pick-up (or mailback) and subsequent off-site recycling within 1 year (365 days) of the original waste generation date and maintain recycling records.
- Facilities that generate universal waste must perform a monthly inspection of their universal waste storage accumulation area.

Important Safety Reminder: Do not send waste bulbs or lamps to the Atlanta Mail Recovery Center, Tampa/Ybor City Logistics and Distribution Center, or the Topeka Material Distribution Center.

Recycling Options

The Postal Service has contracts for universal waste management with Cleanlites Recycling, Inc. (Cleanlites). Recycling services are available in eBuy+ (search under catalog name USA Lamp & Ballast Recycling, Inc.) and include both mailback recycling containers and on-site waste pick-up.

For more information about recycling waste lamps:

- Review the Waste Lamp Management Environmental Compliance Bulletin and Standard Work Instruction at blue.usps.gov/sustainability/environmental/_pdf/waste/ecb-waste-lamps.pdf.
- Consult your designated USPS Environmental Specialist at blue.usps.gov/sustainability/regional-environmental-compliance-all.htm.

Information Security

Keep an Eye Out for Phishing Emails

Phishing is a common cyberattack that targets individuals through email. USPS® employees and contractors need to be suspicious of phishing emails because:

- Phishing is among the largest threats to cybersecurity.
- Phishing attacks increased by 34 percent in 2024 compared to 2023.
- There were 932,923 phishing attacks in the third quarter of 2024.

Phishing attacks are intended to steal personally identifiable information (PII), such as login passwords or financial information, and to trick a victim into sending money.

Here's an example of a phishing email from the proofpoint website at (proofpoint.com/us/threat-reference/phishing):

“We regret to inform you that your account has been restricted. To continue using our services please download the file attached to this email and update your login information.”

You can tell this is a phishing email by the grammar errors, misspellings, and the sense of urgency this email demonstrates.

To help keep your inbox safe and to avoid falling victim to phishing attacks, follow these helpful tips:

- **Slow down:** Pause and evaluate messages before acting. Be wary of “urgent” requests.

- **Verify senders:** If an email is from an “[EXTERNAL]” address, proceed with extra caution.
- **Hover — don’t click:** Ensure all hyperlinked descriptions match their destination by hovering your mouse over the link.
- **Beware of attachments:** Don’t open or click on anything attached to a suspicious email.
- **Spell check:** Look for spelling and grammar mistakes. This can indicate a phishing attempt.

Recognizing a phishing email is only the first step. The next step is to report the message as follows:

- Select the suspicious email and click the Report to CyberSafe button on the Outlook toolbar. If the email is already open, the button will appear in the email toolbar as well.
- If you don’t see the “Report to CyberSafe” button in your Outlook toolbar, you can install the add-on by following these instructions on the USPS Service-Now website at usps.servicenowservices.com/kb_view.do?sysparm_article=KB0046151&sysparm_use_polaris=false.

For more information on phishing, go to:

- CyberSafe page at blue.usps.gov/cyber; or
- CyberSafe page at liteblue.usps.gov/cyber.

Human Resources

February is American Heart Month

Did you know that heart disease is the leading cause of death in the United States?

You have the power to take action to protect yourself against heart disease. Practicing self-care can keep your heart healthy.

Heart disease is largely preventable. To reduce your risk of heart disease:

- **Don't smoke.** The chemicals in tobacco smoke can harm your heart and blood vessels in many ways.
- **Eat for heart health.** Eat vegetables, fruits, and whole grains. Limit foods that are high in saturated fat and sodium, eat lean meats and poultry, and limit sugar and other sweeteners.
- **Exercise.** Aim for 30 minutes of physical activity at least 5 days a week. You can increase "good" HDL

cholesterol levels, lower many heart disease risk factors such as "bad" LDL cholesterol levels, and manage your high blood pressure by simply moving more.

- **Know your numbers.** Learn what a healthy blood pressure, cholesterol, weight, and blood sugar level is for you, and how they can impact your risk for heart disease. Ask your doctor to check your blood pressure, cholesterol, and blood glucose.

Small heart-healthy actions can have a big impact on protecting your heart.

For more information on American Heart Month, go to nhlbi.nih.gov/education/heart-month/about.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may get the postmark in person at the temporary Post Office® station established there. Those who cannot attend the event but who wish to get the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days after the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers who want a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 120 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail® requirements. Customers may purchase new stamps at their local Post Office®, by phone at 844-737-7826, or on The Postal Store® website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as “laser safe.” The Postal Service™ recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16-inch side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches (vertically) by 4 inches (horizontally). Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a 50-cent charge per postmark at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of

their postmarked items. Address customer requests for digital color postmarks to:

FDOI – (Name of Stamp Issue)

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail®.

Traditional Postmarks

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Address customer requests for traditional postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers must submit a check, money order, or credit card for payment.

Locally produced items are not authorized. Only merchandise that has been approved and assigned an item number by Headquarters Retail Marketing may be produced and sold.
