REMINDER

Ordering Handbooks or Publications That Have Transmittal Letters From the MDC

When ordering a handbook or publication from the material distribution center (MDC), be sure to include the transmittal letter (TL) number, if any, to receive a complete and up-to-date document.

You can find the TL number for a handbook or publication in Publication 223, *Directives and Forms Catalog*, which lists the current TLs with the document entry. Publication 223 is available on the Corporate Intranet at <http://blue.usps.gov> (click on "Information," then "Policies and Procedures," then

"Publications," then either "By Document ID Number" or "By Title," and then scroll down to the desired publication).

Include the appropriate TL number with your document order along with the stocking number (PSN), publication number (PSIN), edition date, and title.

INTEREST RATE UPDATE

Interest Rate on Contract Claims

The Postal Service periodically publishes in the *Postal Bulletin* the interest rate payable on a claim decided in a contractor's favor under the Contract Disputes Act of 1978. This rate also applies for late payments to contractors under the Prompt Payment Act, as amended.

The interest rate effective for the 6-month period beginning July 1, 1999, and ending December 31, 1999, is 6.5 percent.

UTILITY POLICY UPDATE

Purchasing Utilities

Postmasters and plant managers are being contacted, with increasing frequency, by utility companies offering significant proposed savings in return for a long-term agreement. Earlier *Postal Bulletin* (PB) notices (PB 21940, 2-27-97; PB 21949, 7-3-97; and PB 21978, 8-13-98) directed that these offers be referred to the servicing Purchasing and Materials Service Center (PMSC) for evaluation.

After nearly 3 years experience with this issue, the guidance remains the same: check the facts with your supporting Area/District Environmental Compliance Coordinator (A/DECC) and refer any signature document to your servicing PMSC.

The specific policy statement is as follows: any proposal for a long-term agreement (1 year or more) should be carefully reviewed to determine the benefits of the proposal to the Postal Service (especially in view of potential deregulation actions during the term of the agreement), and it must be coordinated with your PMSC and A/DECC. Postmasters and plant managers seeking to develop requirements for long-term agreements for the purchase of natural gas and/or

electricity should coordinate such requirements with their PMSC and A/DECC.

Any proposal for a short-term agreement (less than 1 year) will probably be beneficial to the Postal Service and may be processed using local buying authority and procedures in accordance with *Administrative Support Manual* (ASM) 542.2. *However, managers of facilities already receiving such services under contract should not agree to a proposal until the matter has been discussed with the responsible contracting officer.* Any changes to the facilities resulting from an agreement with a utility company/provider (such as relamping, reroofing, and other energy saving measures) must be coordinated with the appropriate Facilities Service Office (FSO).

Primary reasons for coordination include the following:

1. Signing a long-term agreement for services usually exceeds all local signature authority. In the past, you have had the authority to secure utility services on an ongoing tariff basis. Because there was no contract, the whole transaction was subject to regulated tariffs.

However, signing a long-term agreement, even if it is with a regulated utility, bypasses the tariffs and takes you away from the protection of the Utilities Commission, as well as creating a long-term obligation that may include penalties for early termination.

2. Many service agreements include confusing or misleading terms. Some of the companies now marketing electricity may appear to be, but are not, legally part of the regulated utilities with which they were (or still may be) affiliated. The PMSC and A/DECC, in conjunction with the Headquarters support structure, can help determine the real value (and the real offer) behind any proposal.
3. Utility deregulation may offer cost-saving opportunities to the Postal Service, and some regulated utilities are seeking savings agreements prior to formal deregulation. Most of those opportunities are not based on individual facility loads, which are quite small by industrial standards, but on our collective load. Usually, we must aggregate our load across several districts either to get a statewide contract or because the electricity service providers' territories do not match Postal Service boundaries (or state boundaries, in many cases). A contract for service to a group of facilities could be undermined by preexisting agreements executed (with or without proper authority) at the individual facility level.
4. You may believe that your state is not scheduled to deregulate soon and, therefore, that you should take what savings you can now. In fact, all of the states currently engaged in deregulation are doing so in much less than the time originally forecast; most are 3 to 4 years ahead of schedule.

Utility companies also are sliding long-term service clauses into many agreements. Some facilities have had fixtures installed, and the fine print in the agreements include a provision that the fixtures' cost require a multiyear service obligation. Other facilities have tried to execute a normal rate changeover based on their load histories, but the rate change documents have 5-year service agreements.

Whenever an agreement has to be signed, read it carefully, and obtain concurrence and approval from the appropriate PMSC and A/DECC.

Below is a list of telephone numbers for contacting the appropriate PMSCs and Area ECCs. The Area ECCs can refer you to your District ECCs:

PC Postage is coming

Do you know what it is?

PC Postage is a new way for customers to purchase and print postage. Using a personal computer and the Internet, small-business and home-office customers can print digital postage directly onto an envelope or label. Four different commercial developers are currently testing PC Postage.

PC Postage uses an Information Based Indicia (IBI) which contains readable information such as the date and place of mailing and the amount of postage paid. However, it also includes a two-dimensional barcode that incorporates additional machine-readable mail processing and revenue-protection related data.

"PC Postage brings the post office to the people, where they live and work. Now that's convenience and ease of use."

E-MAIL RUMOR COMPLETELY UNTRUE

WASHINGTON – A completely false rumor concerning the U.S. Postal Service is being circulated on Internet e-mail. As a matter of fact, the Postal Service has learned that a similar hoax occurred recently in Canada concerning Canada Post.

The e-mail message claims that a "Congressman Schnell" has introduced "Bill 602P" to allow the federal government to impose a 5-cent surcharge on each e-mail message delivered over the Internet. The money would be collected by Internet Service Providers and then turned over to the Postal Service.

**No such proposed legislation exists.
In fact, no "Congressman Schnell" exists.**

The U.S. Postal Service has no authority to surcharge e-mail messages sent over the Internet, nor would it support such legislation.

UPDATE

Commercial Mail Receiving Agency (CMRA) Regulations

On April 26, 1999, the Postal Service adopted revised standards concerning the operation of Commercial Mail Receiving Agencies (CMRAs). The following guidance is provided concerning application of these standards.

Disclosure of Information

A *Federal Register* notice will be issued to propose a modification that would prohibit the release of address information (except for law enforcement purposes) of individuals who use either private mailboxes (PMBs) or post office boxes for business purposes. In the interim, postal employees will not release to the public any information about holders of private mailboxes from PS Form 1583, *Application for Delivery of Mail Through Agent*. However, until the regulation change becomes effective, there will be no change in the current practice regarding disclosure of information about holders of post office boxes.

PS Form 1583

The deadline for CMRA customers to complete and submit PS Form 1583 has been extended for an additional 2 months, from June 26, 1999, until August 26, 1999. During this period, postal managers must continue to deliver mail to CMRAs for these boxholders.

Suspension of Service

The postmaster or station manager serving the CMRA address is authorized to make decisions regarding non-compliance of the CMRA regulations. Postal Service officials must adhere to the guidelines outlined in *Domestic Mail Manual* D042.2.6h regarding violations of the regulations by the CMRA or its customers. The postmaster or station manager must notify the CMRA in writing when the CMRA is not in compliance with the regulations. This notice must provide the CMRA an appropriate period of time to correct the deficiencies and an opportunity to provide evidence of such compliance. If the CMRA fails to comply, the postal manager must receive approval from the next higher level, generally the district manager, before notifying the CMRA that certain action will be initiated by a certain date. Written notice of suspension and the reason for the action, including an analysis of any evidence or arguments concerning compliance submitted by the CMRA, should be provided to the CMRA.

Accountable Mail

CMRAs must present all accountable mail, except Registered Mail and Certified Mail, to the post office for acceptance. Certified mail may be accepted for mailing at the CMRA. CMRA customers must take Registered Mail to the post office for acceptance.

CMRAs are authorized to accept accountable mail for delivery to their customers. CMRA customers may extend authorization to the CMRA to sign for their Restricted Delivery mail by signing in box 6 on the revised PS Form 1583.

PS Form 1093

PS Form 1093, *Application for Post Office Box or Caller Service*, was revised in July 1998 and is the only form post offices should use to verify identification when customers are applying for rental of a post office box. All PS Forms 1093 issued prior to the July 1998 date should be destroyed.

Acceptable Forms of Identification

CMRAs and their customers must present two forms of identification, one with a photograph. Social Security cards, credit cards, and birth certificates are not acceptable forms of identification. Following are examples of acceptable forms of identification: valid driver's license or non-driver's license state ID; armed forces, government, university, or recognized corporate ID; passport or alien registration card; current lease, mortgage, or deed; voter registration card; utility bill; home or vehicle insurance policy; and vehicle registration card.

The identification presented must confirm that the applicant is who he or she claims to be. By verifying identification, the Postal Service will protect against delivering mail to a CMRA without verifiable consent of the actual addressee.

Addressing Format

The CMRA must represent its delivery address designation for intended addressees as a private mailbox (PMB). The required address format for CMRA customers consists of four lines as indicated in the following example:

Name:	JOHN DOE
Designation and number:	PMB 100
Primary delivery address:	1015 MAIN ST or PO BOX 34 or RR1 BOX 12
City, State, ZIP Code:	WASHINGTON DC 20001-1015

The date for compliance with the new address requirement for CMRA customers has been extended an additional 6 months, from October 26, 1999, until April 26, 2000. Prior to that date, no mail may be returned for failure to include "PMB" in the address.

Guidance To Determine Whether a Business Is a CMRA

A CMRA is a private business that, for a fee, accepts mail delivery from the Postal Service for others and either holds it for pickup — in most cases using a private mailbox ("PMB") — or remails it to another address with payment of new postage. There are also a number of non-traditional businesses that accept delivery of mail from the Postal Service for others. Like the traditional storefront CMRA, these non-traditional businesses may offer many other services to their customers, but they usually do not include "Mail," "Mailboxes," or "Postal" in their name. Nevertheless, if they charge a fee to accept mail for others and either hold it for pickup or re-mail it to another address, they are treated as CMRAs for postal purposes and must comply with the applicable regulations. Examples of such non-traditional businesses may include the following:

1. Corporate Executive Centers (CECs) that generally offer clients a small suite, office space, or other workspace, as well as shared office services such as mail receipt and remailing, message centers, fax systems,

secretarial services, conference rooms, etc. Advertisements for these services are generally directed at small businesses or business persons who need office space and support services on a full-time, occasional, or temporary basis due to finances or the nature of their business. The CEC may provide these services through a suite covering a portion of an office building, or they may operate an entire building.

2. Storage businesses that offer their customers storage space and private mailbox services.
3. Businesses that offer mail forwarding and message services to clients who live and travel in recreational vehicles (RVs).

Before any determination is made that a business be subject to the rules governing CMRAs, the specific services offered must be considered. A business should be treated as a CMRA only if it offers services that meet the guidelines discussed above. Moreover, the only customers who need to fill out PS Form 1583 are those who use CMRA services. Others who utilize only non-CMRA services or whose businesses are physically located at the address should not be considered as CMRA customers and need not complete PS Form 1583.

NEW SERVICE

Airborne Express To Use Postal Service for Residential Delivery

Beginning July 19, 1999, Airborne Express will launch a new service, Airborne@Home, that will involve the Postal Service. Airborne Express will dropship parcels to delivery units, and the Postal Service will complete the delivery to the residence. Airborne Express will utilize postal destination delivery unit rates to offer their customers business-to-residential package delivery, thus leveraging the Postal Service's vast residential delivery infrastructure.

From July 19 through early September, Airborne Express will test the service by dropping a limited number of parcels per day (approximately 10,000–15,000) at select locations. After the test, it will expand to the full service, with drops to more than 21,000 delivery units. These delivery units will receive a field instructions document that describes the responsibilities of the Postal Service, including the acceptance and sampling procedures. This document is to be mailed to all target delivery units by July 16.

Instructions for Ordering and Using PS Form 3849, Delivery Notice/Reminder/Receipt

This article is being published to re-emphasize the ordering and special use instructions for the newly revised, bar-coded PS Form 3849, *Delivery Notice/Reminder/Receipt*.

There are three key issues concerning the new PS Form 3849 that require specific and immediate attention at this time:

1. The revised PS Form 3849 provides space to allow multiple article numbers to be recorded on a single form. **IMPORTANT NOTE:** At this time, delivery employees must record only one accountable mail number on each PS Form 3849 (for filing and retrieval purposes). For a single piece item that has another special service in conjunction with Delivery Confirmation service (such as Insured service), only the number of the other special service (such as the Insured number) is recorded on the delivery receipt. No hardcopy record or signature is required for Delivery Confirmation service items. Offices will be notified when the new PS Form 3849 can be used to record multiple article numbers for a single address.
2. The forwarding/return address and visible damage sections were removed from the form. This information will eventually be captured electronically by the handheld scanner for all accountable mail. **IMPORTANT NOTE:** At this time, (a) forwarding or return address information must be recorded in the delivery address block on the back of the form, and (b) visible damage must be recorded in the article number area on the front of the form.

3. Orders for overprinted PS Forms 3849 are supported by your purchasing specialist, Area Purchasing and Material Service Center. Offices that want blank forms must order them from the Material Distribution Centers. ***These are the only two authorized means of ordering the new barcoded PS Form 3849.*** Forms, including multi-ply forms, must not be ordered from other vendors. All forms that are incompatible with the future electronic storage process will need to be destroyed prior to full program activation.

Use of the barcoded PS Forms 3849 can begin as soon as new supplies are received using the above and previously outlined instructions. Current PS Forms 3849 can be used until the end of the calendar year (unless otherwise notified). Offices that have not ordered the new barcoded PS Form 3849 must ensure that they have the new forms on hand by the end of the calendar year.

Refer to *Postal Bulletin* 21994 (3-25-99) for specific information on ordering instructions for these revised forms. Additionally, your Delivery Confirmation coordinator has instructional service talks on completing and handling the new PS Form 3849.

Reuse of Boxes for Priority Mail

Window clerks must be especially vigilant in reviewing and accepting packaging and marking on Priority Mail. Customers who reuse boxes that previously contained non-mailable items such as liquor, beer, bleach, or other potentially hazardous material can cause service delays.

Customers *must* completely obliterate previous markings on containers that are reused for mailing. It is not acceptable for them to just cross out the previous markings. They must use paper or tape or a heavy marking pen to *completely* cover all previous markings.

If a box previously marked "BLEACH" or "ALCOHOL" is reused for mailing Priority Mail and those words have not been completely eradicated, the package must be treated as if it contains the indicated hazardous or non-mailable material, which may cause it to be rejected or returned to sender. This is necessary because anyone who later sorts, transports, or delivers the package cannot otherwise be certain that it does not contain what its markings indicate.

Domestic Mail Manual C010.92 and Publication 2, *Packaging for Mailing*, section 5-2 provide instructions on marking packages.

Revision to Handbook PO-702, Accident Investigations — Tort Claims

Effective July 15, 1999, Handbook PO-702, *Accident Investigations — Tort Claims*, section 460, is revised to clarify which account numbers are to be used in charging tort claim payments made to private parties when a Standard Form 95, *Claim for Damage, Injury, or Death*, or other document with the proper claim requirements, is filed as a result of an accident.

Additionally in this update, "Law Department" has been replaced by "General Counsel functional organization." References to "Law Department" appearing throughout the handbook are changed to "General Counsel functional organization" and will be reflected in the next revision.

4 Administration of Tort Claims

* * * * *

460 Adjudicate the Claim

[Replace the existing paragraph with the following:]

461 Completing Form 2106, Adjudication — Tort Claims

Once settlement has been made by the Postal Service General Counsel functional organization (formerly the Law Department), they must then draft a remittance letter and complete Form 2106, *Adjudication — Tort Claims*, and send a copy of the Form 2106 to the district office where the accident was recorded. See Exhibit 461 for samples of completed Forms 2106.

Once the General Counsel functional organization has denied a claim, they must then send a copy of the letter of denial to the district office where the accident was recorded. No Form 2106 is required or completed for denied claims.

Form 2106 should not be used by the district office or the San Mateo Accounting Service Center (ASC) Tort Claims Unit. Payment by the district or the San Mateo ASC Tort Claims Unit should be made by completing Form 2198, *Accident Report — Tort Claim*. An accounting or computerized log should be kept in the district Tort Claims Coordinator's computerized "Tort Claims Office" system. The adjudicator of the claim, whether an adjudicator from the San Mateo ASC Tort Claims Unit or the district Tort Claims Coordinator, must send

a remittance letter to the claimant explaining the terms of the settlement. See Exhibit 461 for sample remittance letters.

462 Tort Claim Accounts

[Replace the existing paragraph with the following:]

The general ledger account numbers appearing in 462.1 and 462.2, below, are to be used for recording tort claim payments made to private parties when a Standard Form 95, *Claim for Damage, Injury, or Death*, or other document with the necessary claim information, is filed as the result of an accident. When paying a claim, the appropriate account number is to be entered in blocks 48–52 of Form 2106, or blocks 18–22 of Form 2198.

462.1 Motor Vehicle Accidents

[Replace the existing paragraph with the following:]

55101 Tort Claims — Motor Vehicle Accidents — Commercially Hired

This account is used to record the amount paid or payable arising from motor vehicle accident claims under the provisions of the Federal Tort Claims Act in which the postal employee was operating a commercially hired vehicle.

55103 Tort Claims — Motor Vehicle Accidents — Hired From Postal Employees

This account is used to record the amount paid or payable arising from motor vehicle accident claims under the provisions of the Federal Tort Claims Act in which the postal employee was operating a vehicle hired from another postal employee.

55105 Tort Claims — Motor Vehicle Accidents — Rural Carrier Vehicles

This account is used to record the amount paid or payable arising from motor vehicle accident claims under the provisions of the Federal Tort Claims Act in which the postal employee was operating a rural carrier vehicle.

55107 Tort Claims — Motor Vehicle Accidents — U.S. Government-owned Vehicles

This account is used to record the amount paid or payable arising from motor vehicle accident claims under the provisions of the Federal Tort Claims Act in which the postal employee was operating a U.S. Government-owned vehicle.

462.2 Nonmotor Vehicle Accidents

[Replace the existing paragraph with the following:]

55212 Tort Claims — Nonmotor Vehicle Accidents — Accidents on U.S. Government-owned Property

This account is used to record amounts paid or payable arising from claims filed as a result of nonmotor vehicle accidents under the provisions of the Federal Tort Claims Act that occurred on U.S. Government-owned property.

55213 Tort Claims — Nonmotor Vehicle Accidents — Accidents on Leased Property Other Than U.S. Government

This account is used to record amounts paid or payable arising from claims filed as a result of nonmotor vehicle accidents under the provisions of the Federal Tort Claims Act that occurred on property leased by the U.S. Government.

55215 Tort Claims — Nonmotor Vehicle Accidents — Other Nonmotor Vehicle Accidents

This account is used to record amounts paid or payable arising from claims filed as a result of nonmotor vehicle accidents under the provisions of the Federal Tort Claims Act that occurred on other than leased or U.S. Government-owned property.

55216 Tort Claims — Nonmotor Vehicle Accidents — Paid at District

REMINDER

Annual Review of Imprest Funds

Managers whose facilities have imprest funds are reminded that they must perform an unannounced review of each fund under their purview at least annually (see section 870 of Handbook F-19, *Accountability of Disbursing Officers*). This review should focus on the use of and the need for these funds. Imprest funds should be revised or

eliminated as necessary. Fund balances should never exceed the minimum amount necessary to meet the office's projected usage for any given 60-day period. Fund balances in excess of this amount must be reduced.

Revision of Handbooks F-11, F-12, and F-15

Effective immediately, Handbooks F-11, *PCES Relocation Policy*; F-12, *Relocation Policy*; and F-15, *Travel and Relocation*, are revised. Receipts for reimbursement of miscellaneous expenses incurred while on official travel or during relocation have been required if an expense was over \$15 or \$25, respectively. Both of these limits are raised to \$50.

Receipts for transportation tickets, lodging, and rental cars remain required at all times, regardless of the dollar amount.

This revision will be made to the online version of Handbook F-15 located on the Corporate Intranet at <http://blue.usps.gov> (click on "Information," then "Policies and Procedures," then "Handbooks," then either "By

Document ID Number" or "By Title," and then scroll down to the desired handbook) and to a future printed edition of Handbook F-15, which will supersede Handbooks F-11 and F-12.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

STAMP ANNOUNCEMENT 99-35

Coral Pink Rose Definitive Stamp

Copyright USPS 1998

The Postal Service will issue a 33-cent *Coral Pink Rose* definitive stamp, booklet of 20 stamps (Item No. 661400) and vending booklet of 15 stamps (Item No. 661500), in Indianapolis, IN, on August 13, 1999. The stamp, designed by Derry Noyes of Washington, DC, and illustrated by Ned Seidler of Hampton Bay, NY, goes on sale nationwide on August 14, 1999.

Roses are one of the most favored and beloved flowers throughout the world. They are cherished for their beautiful and fragrant blossoms, numerous varieties, and excellent displays in gardens and as cut flowers. The rose depicted on the U.S. Postal Service stamp is a coral pink color with a rounded form and abundant petals and is similar to the "America" variety of rose that was named to honor the United States bicentennial. No matter what color, shape, or fragrance, the rose remains an outstanding and much-admired flower.

The Postal Service will issue a 33-cent *Honoring Those Who Served* commemorative stamp (Item 448100), self-adhesive pane of 20, in Kansas City, MO, on August 16, 1999. Today, with 189 member countries, the Universal Postal Union is the world's largest physical distribution network and primary vehicle for cooperation between postal services. Its purpose is to provide modern, responsive, and reliable postal services that will continue to be the most accessible and affordable means of communication and message delivery available.

Pictorial Cancellations Announcement

As a community service, the Postal Service offers pictorial cancellations to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial cancellations are authorized appears below. If available, the sponsor of the pictorial cancellation appears in italics under the date. Also provided, as space permits, are illustrations of those cancellations that were reproducible and available at press time.

People attending these local events may obtain the cancellation in person at the temporary post office station established there. Those who cannot attend the event, but who wish to obtain the cancellation, may submit a mail order request. Pictorial cancellations are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial cancellation date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail postage (33 cents per envelope or 20 cents per postcard). Items

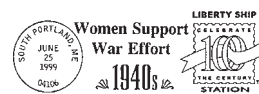

submitted for cancellation may not include postage issued after the date of the requested cancellation. Such items will be returned unserved.

Customers wishing to obtain a cancellation should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL CANCELLATIONS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP + 4 CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP + 4 code).

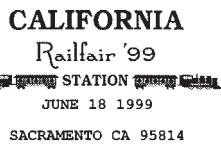

After applying the pictorial cancellation, the Postal Service returns the envelope or postcard through the mail. Customers who want their serviced item returned under protected cover should include a larger, stamped, self-addressed envelope.

Y2K UPDATE

End User Computing

In its continuing effort to meet the Year 2000 (Y2K) challenge, the Postal Service includes End User Computing as one of its activities. End User Computing is the collection of documents, spreadsheets, and other personally created data and software on an individual's desktop computer.

We have taken several steps to facilitate Y2K readiness of desktop workstations, including the workstation certification. Hardware and Postal Service-installed software have been tested so that they will function properly through the Y2K date change. As a result, end users should not concern themselves with fixing or changing any hardware or software on their computers.

However, by using standard software such as Word, Excel, Access, or Focus, end users may have created documents, spreadsheets, data, or queries that use dates in computations and, therefore, may not function properly after the date change. End users and managers should consult the "Year 2000 End User Computing Action" policy memo to help them assess items they feel are critical to their work. End users can obtain a copy of this policy memo from their managers or through the Corporate Intranet at <http://blue.usps.gov> (click on "Information," then "Policies and Procedures," then "Memorandums of Policy," then "Year 2000," and then scroll down to the desired document).

If your computer contains documents or data that use date computations, refer to the questions below to help determine if action is necessary.

How to determine if documents and/or data will function properly in the Year 2000

- Do they have to be used past December 31, 1999?
- Do they contain dates other than in the Postal Service letterhead?
- Are their dates used for calculations (such as computation, sorting, or comparison)?
- Do their dates used for calculations go beyond the year 2029?
- Are they critical in performing daily Postal Service business?

If you answered NO to any one of these questions, your data and documents are okay!

If you answered YES to all of these questions, you should complete PS Form 2000-CX, *Year 2000 End User Computing Exception Request* (available in the "Year 2000 End User Computing Action" policy memo cited above) and discuss it with your manager.
