DMM CORRECTION

Tray Labels for Letter-Size Periodicals

Effective January 7, 2001, *Domestic Mail Manual* (DMM) M210.3.0 is amended to correct tray labels for letter-size Periodicals. In the DMM revision entitled "Preparation Changes for Periodicals Nonletter-Size Mailing Jobs" (published in *Postal Bulletin* 22039 (12-14-00)), the label designator "'PER' or 'NEWS'" was accidentally omitted. In addition, this notice corrects a typographical error for the 3-digit sack label in M210.4.0.

This correction has been made to the printed version of DMM Issue 56 (dated 1-7-01), which will begin arriving in the field in early March. This correction will be made to the February 8, 2001, update to the electronic DMM, available online via Postal Explorer (<http://pe.usps.gov>).

Tray size, preparation sequence, and Line 1 and 2 labeling:

- a. *5-digit*: required at 24 pieces, optional with one six-piece package minimum.
 - (1) Line 1: use 5-digit ZIP Code destination of packages, preceded for military mail by the prefixes under M031.
 - (2) Line 2: "PER" or "NEWS" as applicable; followed by "LTRS 5D NON BC."
- b. *3-digit*: required at 24 pieces (no minimum for required origin/optional entry 3-digit(s)), optional with one six-piece package minimum.
 - (1) Line 1: use L002, Column A.
 - (2) Line 2: "PER" or "NEWS" as applicable; followed by "LTRS 3D NON BC."

- c. *ADC*: required at 24 pieces, optional with one six-piece package minimum.
 - (1) Line 1: use L004.
 - (2) Line 2: "PER" or "NEWS" as applicable; followed by "LTRS ADC NON BC."

4.0 SACK PREPARATION (FLAT-SIZE PIECES AND IRREGULAR PARCELS)

[Amend 4.0b(2) to correct the Line 2 sack label to read as follows:]

For mailing jobs that also contain an automation rate mailing, see 1.2 and M910 or M920. For other mailing jobs, the following are the sack size, preparation sequence, and Line 1 and 2 labeling:

DMM CORRECTION

Documentation for Automation Letters

Effective January 7, 2001, *Domestic Mail Manual* (DMM) M810.1.3 is amended to correct information about when documentation is required for a mailing of automation letters. In the DMM revision entitled “Standardized Acceptance and Verification (SAVE)” (published in *Postal Bulletin* 22028 (7-13-00)), M810.1.3 was revised to require presort documentation for all mailings of 10,000 pieces or more. Mailings of fewer than 10,000 pieces do not require documentation if the exact postage is affixed to each piece, or if the pieces are of identical weight and the pieces are separated by rate at acceptance.

In the July 13 revision, a sentence near the end of M810.1.3 seemed to contradict the 10,000-piece documentation limit and should have been deleted. This sentence is removed effective January 7, 2001.

Documentation is required for all automation letter mailings in the following situations:

- The mailing contains 10,000 pieces or more.
- The mailing contains non-identical weight pieces (regardless of the number of pieces in the mailing).
- Postage is affixed to each piece at a rate other than the exact postage (regardless of the number of pieces in the mailing).

Documentation is not required for automation letter mailings in the following situations:

- The mailing contains fewer than 10,000 pieces and exact postage is affixed to each piece.
- The mailing contains fewer than 10,000 pieces, all of the pieces are identical weight, and the pieces are separated by rate when presented for acceptance.

This correction has been made to hard copy DMM Issue 56 (dated 1-7-01), which will begin arriving in the field in early March. This correction will be made to the February 8, 2001, update to the electronic DMM, available online via Postal Explorer at <http://pe.usps.gov>.

1.3 Documentation

A complete, signed postage statement, using the correct USPS form or an approved facsimile, must accompany each mailing. Each mailing also must be accompanied by presort and rate documentation produced by PAVE-certified (or, except for Periodicals, MAC-certified) software or by standardized documentation under P012. *Exception:* For mailings of fewer than 10,000 pieces, presort and rate documentation is not required if postage at the correct rate is affixed to each piece or if each piece is of identical weight and the pieces are separated by rate when presented for acceptance. Mailers may use a single postage statement and a single documentation report for all rate levels in a single mailing. Standard Mail mailers may use a single postage statement and a single documentation report (with a separate summary for carrier route and a separate summary for all other rate levels) for both an automation carrier route mailing and a mailing containing pieces prepared at 5-digit, 3-digit, and basic automation rates, as applicable, when both mailings are submitted for entry at the same time. Combined mailings of more than one Periodicals publication also must be documented under M210 and M220. First-Class Mail and Standard Mail mailings prepared under the value added refund procedures or as combined mailings must meet additional standardized documentation requirements under P014 and P960.

*DMM REMINDER***Optional Endorsement Lines for Carrier Route Periodicals**

Effective January 7, 2001, all basic carrier route rate Periodicals must be in line-of-travel sequence. To implement this change, *Domestic Mail Manual* (DMM) M013.1.1 was revised to show a new optional endorsement line for packages of basic carrier route Periodicals (see *Postal Bulletin* 22030 (8-10-00)).

Employees should remind mailers that the correct formats for optional endorsement lines are as follows (excerpted from the chart in DMM M013.1.1):

Sortation Level	OEL Example
Carrier Route — Periodicals	
Basic	***** CAR-RT LOT ** C-001
High density	***** CAR-RT WSH ** C-001
Saturation	***** CAR-RT WSS ** C-001

DMM Issue 56, which contains this revision, is available online via the Postal Explorer Web site (<http://pe.usps.gov>). Questions about carrier route Periodicals or optional endorsement lines should be directed to your district manager of business mail entry.

— *Mail Preparation and Standards,
Pricing and Product Design, 1-25-01*

*REMINDER***Clinical Specimens Using Business Reply Mail**

Clinical specimens that are not known, or reasonably believed, to contain an infectious substance (etiologic agent) are mailable when properly packaged as detailed in *Domestic Mail Manual* (DMM) C023.8.4. Clinical specimens include materials such as urine, blood, and saliva samples being tested for medical reasons, drug programs, or insurance purposes.

Many commercial laboratories that test clinical specimens provide preaddressed business reply mail (BRM) packaging to their clients. When a BRM address format is used to send a clinical specimen to a laboratory for testing, a complete return address is not required. This is because the BRM permit holder has designed the return packaging to USPS specifications in DMM C023 and S922. If a problem should occur with the packaging while the mailpiece is in the mailstream, the Postal Service will contact the BRM permit holder to promptly correct the packaging deficiencies. (The customer using the BRM to return a clinical specimen has little, if any, control over the packaging design.)

As a reminder, a complete return address is required only on regulated quantities of hazardous materials. Under the U.S. Department of Transportation regulations in *Title 49 Code of Federal Regulations* (49 CFR) 173.134(b), non-infectious clinical specimens are exempted from the requirements that apply to hazardous materials.

Employees with questions about packaging for clinical specimens should contact their district manager of business mail entry.

*SERVICE TALKS, TALKING POINTS, AND FAQs***Signature Confirmation Launch**

The following materials — Delivery Service Talk, Retail Talking Points, and Frequently Asked Questions — are provided to assist you with the launch of Signature Confirmation™. A postmaster kit containing additional information was sent to offices this week.

Service Talk — Delivery

Signature Confirmation service goes on sale as a new special service on February 4, 2001. With Signature Confirmation service, customers receive the same information as they do with Delivery Confirmation™ service, plus a signature! By using a toll-free number or visiting www.usps.com, customers can access their delivery information. They can also request a faxed or mailed delivery response letter, which will include an image of the recipient's signature, printed name, and address.

Signature Confirmation is a proof of delivery service that provides mailers peace of mind when shipping important documents or valuable items. This new service can be used on both Priority Mail and Package Services (Parcel Post, Library Mail, Bound Printed Matter, and Media Mail). You may see Signature Confirmation paired with COD, insurance, registered, or special handling services. As always, all USPS special service labels on each mailpiece must be scanned.

PS Form 153, *Signature Confirmation* retail label, and electronic postal printed "e" Label 315 are easy-to-spot hot pink. You will also see black-and-white labels similar to the Delivery Confirmation labels that many of our commercial customers use. Just look for the bold bars above and below the barcode and the "United States Postal Service Signature Confirmation™" text above the barcode.

Your scans are the key to success for this new service. Like all signature items, Signature Confirmation mailpieces

must be scanned at the point of delivery with the appropriate event. When a Signature Confirmation item is delivered, the barcode on the corresponding PS Form 3849 must also be scanned. Ensure that PS Form 3849 is completed properly with the recipient's signature, printed name, and address. If the information on the PS Form 3849 is not complete, the information provided to our customers is not complete. This is our chance to generate more revenue by delivering services that our competitors offer. But we have to do it right!

When you see a mailpiece with Signature Confirmation service, all you need to do is follow the same scanning steps you use for Express Mail. In fact, when you deliver a Signature Confirmation mailpiece, your scanner will behave just like it does for Express Mail. You will be prompted to enter the recipient's first initial and last name. Signature Confirmation service also allows a waiver of signature. The Signature Confirmation barcode label will indicate whether the customer has chosen this option. When customers choose this option, it means that you must sign for delivery, if a recipient is not available to receive the item and you can leave it in a secure location. Instead of entering the recipient's name, press Shift, then 1 on the handheld scanner. You will sign and print your name on PS Form 3849 when the waiver of signature option is exercised.

Thank you for giving your customers the highest level of service with Delivery Confirmation. Let's make 2001 a banner year for Signature Confirmation service too.

Talking Points — Retail

Signature Confirmation™, our new proof of delivery service, will go on sale February 4, 2001. We can now provide our package mailers a quick, convenient, and cost-effective service that has the benefits of Delivery Confirmation™ plus a copy of the recipient's signature.

Your responsibility is to know the proper acceptance procedures for Signature Confirmation service and to inform customers of our new service and its features.

Important points to remember:

- Signature Confirmation is available for Priority Mail and Package Services (Parcel Post, Bound Printed Matter, Library Mail, and Media Mail) only, similar to Delivery Confirmation.
- This service can be purchased only at the time of mailing.
- The Signature Confirmation tracking number is required to access information using the toll-free number and when visiting our Web site, the same as for Delivery Confirmation.
- Customers visiting our Web site, *www.usps.com*, receive the recipient's data-entered name, date, time, and ZIP Code of delivery.
- Customers who call the toll-free number 1-800-222-1811 will receive information on delivery date and time.
- The signature *may be requested* when visiting our Web site or calling the toll-free number. Information will be faxed or mailed to customers in a USPS customer response letter. Customers cannot view the recipient's signature on the Web site.
- Information in the customer response letter: an image of the recipient's signature, the printed name and address, and the delivery date and time.

- A waiver of signature is available at the time of mailing. Customers choosing this option want their packages delivered even though no one is home. The delivery employee's signature constitutes valid proof of delivery if the item can be left in a secure spot. When customers choose this option, a signature will not be included if they request that signature and delivery information be faxed or mailed to them. The delivery employee's signature remains on file with the Postal Service.
- Signature Confirmation is available only for domestic mail.
- This service can be combined with registered mail, insurance, COD, and special handling. It's also available with restricted delivery if purchased with insurance for more than \$50, COD or registry service.
- Customers can request the recipient's signature and delivery information for up to 1 year.

Selling Signature Confirmation:

- PS Form 153, *Signature Confirmation* retail label, is a three-section, hot pink form.
- The barcode section must be scanned when the mailing is accepted at the window.
- The customer receipt section must be round-dated and the "CHECK ONE" box completed if the customer wants proof of mailing.
- Customers choosing waiver of signature must check the "WAIVER OF SIGNATURE" box and sign the waiver section. This section is applied to the mailpiece only if the mailer chooses this option.
- The Signature Confirmation fee is \$1.75 per piece for Priority Mail and Package Services.
- Refunds for Signature Confirmation fees are handled in accordance with *Domestic Mail Manual* (DMM) P014.2.4f.

Your sale of Delivery Confirmation service has made it an overwhelming success. We can make Signature Confirmation service another success story!

Frequently Asked Questions

<i>Sales Information</i>	
Customer Questions	Suggested Responses
When will Signature Confirmation™ service be available?	On February 4, 2001.
What is Signature Confirmation service?	Signature Confirmation service provides mailers the proof of delivery upon request — as well as quick-and-easy access to delivery information. Along with the delivery date, time, and location, the recipient's name and signature are captured and stored electronically by the Postal Service. By visiting our Web site or calling a toll-free number, mailers can request a copy of the delivery record. The response letter contains an actual image of the recipient information. Delivery information is available just like it is with Delivery Confirmation.
For what type of mail is Signature Confirmation available?	Signature Confirmation is available with domestic Priority Mail and Package Services (formerly Standard Mail B), which includes Parcel Select, Parcel Post, Bound Printed Matter, Library Mail, and Media Mail (formerly Special Standard Mail).
Can I use Signature Confirmation service on international mail?	Signature Confirmation is not available for international mail, for APO or FPO mail, or for items addressed to U.S. territories, possessions, or freely associated states (with the exception of Puerto Rico and the U.S. Virgin Islands).
Can I purchase Signature Confirmation on First-Class Mail?	Signature Confirmation service is available on only Priority Mail and Package Services (formerly Standard Mail B).
Can I get Signature Confirmation with Express Mail?	Express Mail, our premier offering, includes the same benefits as Signature Confirmation, as of February 4, 2001. Express Mail customers can visit us at www.usps.com or call our toll-free number and request a copy of the delivery record for the Express Mail item — no additional fees are required. This benefit begins with the launch of Signature Confirmation service.
Do I need to purchase Delivery Confirmation in addition to Signature Confirmation?	No. Signature Confirmation service includes all the benefits of Delivery Confirmation service. No additional fees or labeling are required.
There are two options for mailing Signature Confirmation items — the retail option and the electronic option. What is the difference?	<p>These two options are designed for different types of mailers and are priced differently.</p> <p>Pricing Options: Retail option \$1.75 Electronic option \$1.25</p> <p>The retail option is for customers who are mailing a low volume of items at the retail counter. The electronic option is for mailers capable of transmitting electronic files of their shipments and electronically accessing delivery information. There is an application and certification process for the electronic option. The requirements are outlined on our Web site at www.usps.com, keyword <i>Pub 91</i>.</p>
Does Signature Confirmation have a signature waiver option?	Yes, the mailer can choose to waive the recipient signature at the time of delivery. This allows the delivery employee to sign for the item, when no one is available to receive it and there is a secure location to leave the article.
Why would I want a signature waiver option with Signature Confirmation?	Because there are times when mailers want a package delivered even when the recipient is not available to receive it, but want the extra evidence of delivery that the delivery employee's signature provides. The waiver feature enables the delivery employee to sign for the item, if no one is there to receive it and the mailpiece can be left in a secure location. The customer won't receive a copy of a delivery employee's name and signature, but this information is needed for postal records.
Will I be able to purchase Signature Confirmation after mailing?	No. Signature Confirmation service must be purchased at the time of mailing, so that the delivery employee knows to obtain a signature at delivery.
I see customers can purchase a return receipt with Signature Confirmation. Isn't that duplicating a service?	A return receipt <i>cannot</i> be purchased for Signature Confirmation service alone. Customers can purchase a return receipt only when an additional qualifying service is purchased, such as insured, COD, or registered. There may be times when a customer wants both the traditional return receipt and access to an electronically stored signature image. It is our responsibility to explain how the services work so customers can make an educated decision.
What is the difference between Signature Confirmation and return receipt?	Signature Confirmation service is an electronic proof of delivery service. No automatic mailing is provided to the customer. The Postal Service maintains the signed delivery record in electronic form so the customer can request a copy, if needed. Return receipt service is for customers who wish to get the recipient's original signature automatically mailed to them. Return receipt service is available for First-Class Mail sent at letter rates, and thus will be more economical in some cases.

Customer Questions	Suggested Responses
Can I combine Signature Confirmation with other special services?	Customers can combine Signature Confirmation service with insured mail, COD, registered mail, and special handling. Return receipt and restricted delivery services are available when purchased in combination with insured mail (over \$50), COD, and registered mail. Since Signature Confirmation provides the ability to request a delivery record, including a copy of the recipient's signature, customers generally would also choose a return receipt only if they want the recipient's original signature automatically mailed to them. Signature Confirmation service cannot be combined with certified mail.
If I combine Signature Confirmation with another special service, which article number do I use to access information on my mailed item?	If, for example, customers purchase insurance with Signature Confirmation, both numbers are valid for separate purposes. The Signature Confirmation number would be used to access delivery status information or request a delivery record through our Web page and toll-free number. The insurance number would be used if the customers needed to make an indemnity claim. Shippers who print their own barcodes have an opportunity to print just one barcode that is used for both Signature Confirmation and insured combined.
Can I combine Signature Confirmation service with certified?	Signature Confirmation service is not available in combination with certified mail. This would be redundant since Signature Confirmation generally provides the same services as certified. Certified mail provides a mailing receipt, and the USPS obtains the recipient's signature and maintains a record of delivery. Certified mail is used primarily with First-Class Mail letters, and permits the use of return receipt service to obtain the delivery information and the recipient's signature. In some circumstances laws specify the use of certified mail. With Signature Confirmation, customers get a mailing receipt, delivery information from the Internet, or an 800 number, as well as the ability to request a copy of the delivery record, including the recipient's signature, if needed. Using the Internet or an 800 number makes that access convenient.
Can I use restricted delivery with Signature Confirmation?	Restricted delivery can be used only if the customers purchase COD, insured for over \$50, or registered with Signature Confirmation. The package must be rubber-stamped with "Restricted Delivery" near the address label.

Customer Questions	Suggested Responses
How will I receive the delivery status of my Signature Confirmation service mailing?	Customers may obtain the delivery status of their mail item by visiting the Postal Service's Web site at www.usps.com , then selecting <i>Track/Confirm</i> . They can use the Web site or call 1-800-222-1811. Via the 800 number, they will be provided date and time of delivery. Via the Internet, they will also be provided location and recipient first initial and last name. Electronic option customers can receive information through a daily electronic file or the Internet.
How do I get a copy of the delivery record; is it automatic?	It is not automatically sent to the customers. They can request a copy of the Signature Confirmation delivery record by visiting our Web site at www.usps.com or by calling at 1-800-222-1811. A response letter with the delivery information, including a copy of the signature, will be faxed or mailed to the customers.
Do I need to request each delivery record individually?	Yes. Delivery records must be requested one-at-a-time when using the Internet or our toll-free number. Customers may make multiple requests each visit to the Web site or each call.
Can I view the image of the recipient's signature on the Internet?	No. The actual signature cannot be viewed via the Internet. However, customers will see who signed for the item via the Internet in a typed text format (i.e., C. SMITH) for Express Mail and Signature Confirmation items after service launch on February 4, 2001. A response letter with a copy of the signature image will be faxed or mailed upon request.
Can anyone request a delivery record?	A delivery record can be requested by anyone with the article number.
What information will I receive when I call the toll-free number or visit the Internet Web site?	Customers will receive the date and time when their item was delivered, or if it was attempted, forwarded, or returned. The Web site also provides the ZIP Code where the item was delivered and the first initial and last name of the recipient when available. <i>Note:</i> As a reminder, only retail rate customers can call the toll-free number for delivery information.
When will delivery status information be available?	The evening of the date of delivery or attempted delivery. Delivery information will be available for 1 year from the delivery date. A complete delivery record, including signature image, can be obtained 2-3 days after delivery.
What if there is no delivery information available when I call the toll-free number or visit the Web site?	If there is no delivery or other event scan such as attempted or forwarded in the system, customers will be told that there is no record of that mail item. If it was mailed recently, it may not yet have a delivery scan. We recommend that they try the inquiry again later.
What if there is no signature information in my response letter?	If there is no signature, signature alternative, or legal mark of the recipient on the USPS response letter, customers may want to look at the delivery date versus the date of their request. If they did not allow 2-3 days after delivery, they may wish to try the request again as a signature may have been added to the record since their initial inquiry.
Does Signature Confirmation provide the opportunity for tracking and tracing?	While enroute scans may be provided, when available, as an added benefit, they are not a feature of Signature Confirmation service.
Does Signature Confirmation guarantee delivery by a certain date?	Signature Confirmation service confirms delivery date and time — it does not guarantee delivery by a certain date and time.

Operations Information

Customer Questions	Suggested Responses
Can I deposit a Signature Confirmation mailpiece in a collection box?	Yes, as long as the correct postage and fees have been applied; the item weighs less than 16 ounces; PS Form 153, <i>Signature Confirmation</i> label, is affixed to the mailpiece; and a return address is included on the mailing. However, customers will not obtain a date-stamped receipt for proof of mailing. <i>Note:</i> items weighing 16 ounces or over must be presented in person to local post office window/retail personnel.
Can city and rural letter carriers accept Signature Confirmation pieces from customers on their routes if Form 153 is affixed?	Yes, as long as the correct postage and fees have been applied; PS Form 153, <i>Signature Confirmation</i> label, is affixed to the mailing piece; and a return address is included on the mailing. Rural route customers may give the carrier money to cover the postage and fees. Rural route customers may get a date-stamped receipt for the postage paid, but city route letter carriers are not able to provide a date-stamped receipt for proof of mailing.
Is there a new Signature Confirmation label?	Yes. The retail label, PS Form 153, is hot pink with a detachable receipt. Labels will be available in postal lobbies nationwide. Guidelines for privately printed labels are available in Publication 91.
Where do I get the new Signature Confirmation labels?	Retail labels are available at local post offices. Mailers can also print their own labels or order preprinted labels from the Postal Service. Refer to the <i>Domestic Mail Manual</i> or Publication 91 for additional information.

Overseas Military Mail

Mail addressed to or from military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The table below outlines these conditions by APO/FPO ZIP Codes through the use of footnoted mailing restrictions codes, which appear on the page following the table.

Acceptance clerks should use this table with the Integrated Retail Terminal (IRT) or POS ONE terminal to

determine whether an APO/FPO ZIP Code is active and which conditions of mailing apply.

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The complete table appears in the last *Postal Bulletin* of each month. Changes from the previous month's listing are in bold type.

Washington Monument Express Mail Stamp

Copyright USPS 2000

The Postal Service will issue a \$12.25 *Washington Monument* Express Mail stamp (Item Number 112000) in Washington, DC, on January 29, 2001. The stamp, designed by Derry Noyes of Washington, DC, is based on a photograph by Patricia Fisher of Washington, DC, and goes on sale nationwide January 30, 2001.

The stamp art is a color photograph of the Washington Monument at sunrise taken by Patricia Fisher.

The Washington Monument rises 550 feet above the city of the District of Columbia as a great tribute to the first American President, George Washington, in recognition of his leadership in the cause of American independence. Construction of the monument was started in 1848 based on the Egyptian obelisk design of Robert Mills and was finally completed in 1884. Completion was delayed until 1884 due to lack of funding and the advent of the Civil War. One can detect where the construction started again in 1876 when different marble was used.

STAMP ANNOUNCEMENT 01-09

Community Colleges Stamped Envelopes

Copyright USPS 2000

The Postal Service will issue four 34-cent *Community Colleges* stamped envelopes in Joliet, IL 60431, on February 20, 2001: #10 regular envelope (Item Number 217800), #10 window envelope (Item Number 217900), #6-3/4 regular envelope (Item Number 268300), and #6-3/4 window envelope (Item Number 268500). The stamped envelopes, designed by Howard Paine of Delaplane, VA, and illustrated by Steve McCracken of Washington, DC, go on sale nationwide February 21, 2001.

Using as a benchmark the 1901 founding of Joliet Junior College, considered the first publicly funded and continuously operating 2-year college in the United States, the American Association of Community Colleges (AACC) will celebrate 100 years of community colleges in 2001. The U.S. Postal Service will issue a First-Class stamped envelope in commemoration of this important achievement in education.

Popularized after World War II, the term *community college* is meant to convey the strong community connection and the breadth of services these institutions provide, from professional and career programs to community service and adult education opportunities. To sustain their commitment to the public, community colleges emphasize cultural diversity, broad and ongoing community interaction, affordable tuition, and quality education. Of more than 1,100 community, junior, and technical colleges, nearly 1,000 are public institutions. According to the AACC, more than five million students, nearly half of all undergraduates in the United States, attend a community college each fall. An additional five million students are enrolled in noncredit courses.

Badlands Stamped Card

Copyright USPS 2000

The Postal Service will issue a 70-cent *Badlands* stamped card (Item Number 220800) in Wall, SD 57790, on February 22, 2001. The stamped card, designed by Ethel Kessler of Bethesda, MD, and based on a photograph by David Muench of Santa Barbara, CA, goes on sale nationwide February 23, 2001.

The Badlands consist of nearly 244,000 acres of eroded buttes, pinnacles, and spires combined with the largest protected mixed grass prairie in the United States. The Badlands Wilderness Area covers 64,000 acres. The Oglala Sioux Tribe co-manages an area called the Stronghold Unit.

STAMP ANNOUNCEMENT 01-13

Bison Definitive Stamp

Copyright USPS 2000

The Postal Service will issue a 21-cent *Bison* definitive stamp in a self-adhesive coil of 100 (Item Number 774700) and pane of 20 (Item Number 101100) in Wall, SD 57790, on February 22, 2001. The stamp, designed by Carl Herrman of Carlsbad, CA, and illustrated by Tom Nikosey of Bell Canyon, CA, goes on sale nationwide February 23, 2001.

Bison, long a symbol of the Wild West, had roamed the western United States from the Mississippi River to west of the Rocky Mountains. Many Native American tribes relied on the bison for survival and used the entire animal for food, clothing, thread, bowstrings, cups, and spoons.

The herds were large and the numbers were in the millions. Bison were nearly eliminated from the plains and prairies of the United States at the end of the 19th century due to extensive hunting and governmental policy. A small herd of Bison was finally protected in Yellowstone National Park early in the 1900s. More than 40 Native American tribes have recently joined together to restore the herds of bison on tribal lands in South Dakota and Montana. They have been successful in creating a collective herd of almost 10,000 animals from the survivors in Yellowstone.

Hattie Caraway Definitive Stamp

Copyright USPS 2000

The Postal Service will issue a 76-cent *Hattie Caraway* definitive stamp (Item Number 101400) in Little Rock, AR 72202, on February 21, 2001. The stamp, designed by Richard Sheaff of Scottsdale, Arizona, and illustrated by Mark Summers of Waterdown, Ontario, Canada, goes on sale nationwide February 22, 2001.

With this third issuance in the *Distinguished Americans* series, the U.S. Postal Service honors Hattie Wyatt Caraway (1878-1950), the first woman elected to the U.S. Senate. Artist Mark Summers — well-known for his scratchboard technique — created this portrait for the stamp using as reference a black-and-white photograph of Senator Caraway taken on October 21, 1943. Mark Summers also created the stamp art for the first two issues in the *Distinguished Americans* series — Joseph W. Stilwell (2000) and Claude Pepper (2000).

Mrs. Caraway was appointed to the Senate on November 13, 1931, a few days after the death of her husband, Senator Thaddeus Caraway. On January 12, 1932, she won a special election to fill the remaining months of his term. Subsequently elected to two 6-year terms, she served in the Senate until January 1945. In 1933, Senator Caraway — a Democrat from Arkansas — became the first woman to chair a Senate committee. On October 19, 1943 — in the absence that day of the Vice President

and the president pro tempore (the Senate's presiding officer) — Senator Caraway was appointed acting president pro tempore, the first woman to preside formally over the Senate.

Senator Caraway, a strong supporter of New Deal legislation, was known for her dedication and diligence. On December 19, 1944, her last day at work in the Senate chamber, Senator Caraway was honored by her colleagues with a standing ovation. She died on December 21, 1950, in Falls Church, Virginia.

*Through 1990 the F Fund was invested in the Wells Fargo Bond Index Fund.

The C Fund is invested in the Barclays Equity Index Fund, which tracks the S&P 500 stock index. The F Fund is invested in the Barclays U.S. Debt Index Fund, which tracks the Lehman Brothers Aggregate Bond index. Because of expenses and changing balances in the C and F Funds, their returns vary from Barclays' returns. The G Fund is invested in special issues of U.S. Treasury securities.

Future performance of the three funds will vary and may differ significantly from the returns shown above. See the "Summary of the Thrift Savings Plan" for detailed information about the funds and their investment risks.

The monthly C, F, and G Fund returns represent net earnings after deduction of accrued administrative expenses. The C and F Fund returns also reflect the deduction of trading costs and accrued investment management fees.

The C, F, and G Fund monthly returns are dollar-weighted: they reflect net earnings on the changing balances invested during the month. The C, F, and G Fund returns for the last 12 months assume, except for the crediting of earnings, unchanging balances (time-weighting) from month to month and that earnings are compounded on a monthly basis.

FEDSTRIP Address Activity Code Assignment and Maintenance

The Federal Standard Requisitioning and Issue Procedures (FEDSTRIP) address activity code is used for acquisition of many commonly used products from internal postal organizations (i.e., the Material Distribution Center) and external suppliers such as Boise Cascade Office Products, which has a national strategic partnership with the Postal Service. Incomplete and inaccurate addresses delay the delivery of orders and increase costs to the Postal Service.

FEDSTRIP holders are responsible for ensuring that the FEDSTRIP address, finance number, and budget authorization (B/A) code data are accurate, complete, and maintained in a continuously current manner. The address must meet postal addressing standards as outlined in Publication 28, *Postal Addressing Standards*, and must be able to meet the Coding Accuracy Support System (CASS) certification requirements.

Field Installations

Prior to submitting requests to the district material management specialist for a new FEDSTRIP (or to change the address for an existing FEDSTRIP), field installations must verify that the address is valid in the Address Management System (AMS) Automated Data Collection System (ADCS) by contacting the appropriate district address management specialist.

Headquarters/Headquarters-Related Field Offices

Submit new FEDSTRIP assignments and changes to existing FEDSTRIPs via cc:Mail to Larry A. Browne at Headquarters, providing the following information for each request:

- Finance number.
- Budget authorization code (B/A).
- Complete address to include:
 - (1) Organization name.
 - (2) Street address (include room number).
 - (3) City, state, and ZIP+4.
 - (4) Point of contact name, area code, and telephone number.

Prior to submitting requests to Larry A. Browne, Headquarters and Headquarters-related field offices must validate the address and ZIP+4 using the Address List Management System (ALMS) and ZIP+4 database on the corporate intranet at <http://alms.usps.gov>. If the address or ZIP+4 match is not found, offices must contact the National Customer Support Center at 800-331-5746, ext. 4438, and they will make the correction.

Postal Inspection Service Offices

All Postal Inspection Service offices must submit their FEDSTRIP requests as directed by Sylvia G. Parrott, Headquarters, Postal Inspection Service.

Military Post Offices

All military post offices must submit their FEDSTRIP requests as directed by the Military Postal Service Agency.

REMINDER

Migratory Bird Stamp Destruction

The following table contains the deadlines by which unsold migratory bird stamps should be returned for destruction. Additional instructions can be found in Handbook F-1, *Post Office Accounting Procedures*, section 427, "Handling Migratory Bird Hunting and Conservation Stamps," in the online version available via the corporate intranet (<http://blue.usps.gov>; click on *Information*, then *Policies and Procedures*, and then *Handbooks*) or see *Postal Bulletin* 21964 (1-29-98).

District customer service and sales offices must establish a schedule for submitting all unsold migratory bird stamps. Stamp distribution offices (SDOs) must submit items to the stamp destruction committee no later than accounting period (AP) 8. Stamp services center (SSC) offices must submit items to the stamp return committee no later than AP 7.

Notes:

1. Unsold migratory bird stamps more than two years old in philatelic retail units must be submitted to the stamp destruction committee by AP 8 for SDO offices or the stamp services center by AP 7 for SSC offices.
2. Offices designated as philatelic outlets should be the only outlets with an ending bird stamp inventory on the AP 9/PQ 3 statement of account. These offices should list inventory of migratory bird stamps by year of issue and face value in the remarks section of the statement of account.

RATE CASE

Rate Change Update for Servicing Vending Equipment

A concern has surfaced that the recent rate change will necessitate an increase in the number of visits made to vending equipment, especially booklet vending machines. This is not so. By following the "Standard Servicing Frequencies," Exhibit 451.2, in Handbook PO-102, *Self Service Vending Operational and Marketing Program*, sufficient coinage will be available in coin hoppers or tubes when filled per instructions in the related Maintenance Series handbook.

Handbook PO-102 identifies the number of visits required to a vending machine for proper service. The increase of First-Class postage to \$0.34 will not adversely affect vending change.

Retail, Consumers and Small Business, 1-25-01*

VESS Database Input

The Vending Equipment Sales and Service (VESS) system contains information regarding sales, workhours, machines, location, servicing employees, and other data for the vending program. The VESS database is being used to support other programs, such as Internet locations for postal vending machines, shipping locations for mailings of advertising materials, vending stamp product distributions, and retail mapping. It is imperative that the information listed is correct.

A search of VESS records shows more than 7,000 postal and non-postal locations with erroneous or missing addresses.

Effective immediately, to ensure that VESS vending machine *postal* locations are correctly listed with the location name, address, city, state, and ZIP+4, districts *must* use the following format for new addresses or updates:

Post Office Name
Post Office Street Address
City, State ZIP+4

Example:

Anywhere MPO
123 4th Ave N Rm 100
Anytown, ST 10001-9998

Correct post office name, address, and ZIP+4 for all new vending locations must be obtained from your district Address Management office.

Non-postal locations listed in VESS must follow the same format:

Vending Machine Location Name
Location Street Address
City, State ZIP+4

Example:

Smith College
123 4th St, Student Union
Anytown, ST 10001-2222

Address information for non-postal locations also must be obtained from your district Address Management office. Although non-postal vending locations will not receive advertising signage at this time, they will be included as sites for the Internet and must be correct.

Stamps by Mail National Requirements Contract

The Postal Service has awarded a national contract to Cyril-Scott Co. to print PS Form 3227, *Stamps by Mail*. All post offices must now use only this contract to order SBM forms. SBM forms will *no longer* be stocked at the Material Distribution Center (MDC).

SBM provides a convenient, alternative access point for customers to purchase stamps other than the post office. In addition, it provides cost savings over some other stamp distribution methods. All city delivery post offices may offer SBM. However, in the past many offices did not support the program because of the varied number of forms, the ordering procedures, and the need for overprinting of some of the forms. The purpose of this national contract is to simplify and standardize the SBM program to enable the field to more actively support it. In addition, the SBM forms will be less costly for many offices.

All post offices must now order forms directly from the printer using PS Form 3227-O, *Stamps by Mail Supply Order*, shown on page 83. Prior to completing the supply order form, make copies for future use. It is also available on the corporate intranet, under *References, Forms*.

All orders for SBM forms that were previously placed with the MDC must be resubmitted using the new PS Form 3227-O.

Post offices must complete this supply order form and either mail it or fax it to the printer. The address and fax number for the printer are shown on the supply order form. The printer will not accept orders placed by phone. The printer will contact the ordering office to acknowledge receipt of the order.

In the upper-right corner of the supply order form, be sure to include an order number. This number comprises the date and the ordering office's ZIP+4 Code. This will be a unique number that is used by the printer to track your order. If you need to contact the printer for any reason, you would use this number to check on your order.

All SBM forms will be overprinted with the address of the fulfillment office. At this time, only the English SBM form is available. There will be an announcement when the bilingual forms are available. Please be sure to complete the form legibly and accurately. If you provide any incorrect information, you will be responsible for the cost of the forms. Be sure to keep a copy of the order form for your records or in the event you have any questions regarding your order.

The forms must be ordered in units of 500, at a cost of \$10.10 per unit. This is the total cost, including the overprinting. Offices can use their IMPAC credit card, or a check or money order made payable to Cyril-Scott Co., to order the SBM forms. We encourage the use of the credit card, since this is the most efficient transaction for the USPS to handle.

There is no restriction on the number or frequency of orders. It is recommended that offices use a just-in-time ordering process, eliminating the need to warehouse forms.

The printer will print and deliver all SBM forms within 30 days of receipt of the order. Government Bills of Lading (GBLs) will be used when the order is larger than 20,000 forms. There will be a transportation cost charged back to the finance number for any orders using GBLs. If the order is larger than 20,000 forms, your finance number must be included on the supply order form. This charge cannot go on the IMPAC credit card.

The exact cost of the GBL cannot be determined until the time of the actual order. For budgetary purposes, however, you can approximate the cost. The printer is located in Lancaster, Ohio. GBL prices are based on the mileage and weight of each shipment. Below are sample GBL charges based on 400 pounds (approximately 24,000 forms) to these destinations. The prices would increase in relation to order sizes. Using these examples, estimate the cost for delivery to your location.

City	Cost (\$)
Seattle	145.00
Boston	75.00
Miami	95.00
San Diego	140.00

Cyril-Scott Co. has a customer service office set up to answer calls regarding SBM orders. If you have any questions about your particular order, either before or after it has been sent, you may contact the company at 800-466-0455. The number is also shown on the supply order form.

If you have problems regarding an order you have placed, contact Cyril-Scott Co.'s customer service office. If you are unable to resolve the problem, you should then contact the SBM program office at 703-292-4001, or by cc:Mail at *Mail, Stamps By*. You should also contact the program office if you have any questions about the SBM program that are not appropriate for the printer.

THE WHITE HOUSE'S 200TH BIRTHDAY: A UNIQUE STAMP AND CURRENCY ISSUE

Limited issue of the 200th Anniversary of The White House. First joint issue of the United States Postal Service and U.S. Treasury.

A newly constructed White House became home to its first president, John Adams, on November 1, 1800. To honor the occasion, the United States Postal Service and the U.S. Treasury offer collectors a one-time opportunity to own a unique portfolio honoring that historic event.

This portfolio, which celebrates the 200th anniversary of that historic day, contains a pane of 20 White House commemorative postage stamps and a \$20 currency note that includes special anniversary-note series numbering. Each is placed in a handsome gold-blocked package with archive-quality protection encasing the stamp and currency.

A certificate of authenticity with matching currency note serial number will add to the issue's distinctiveness. Worldwide distribution is limited to just 30,000 portfolios.

Don't miss the chance to own this historical tribute to America's home, at only \$198.00 plus \$1.00 shipping.
